# 01 Welcome

There is no doubt that the world of DeFi is here to stay. The good health that IT protocols have shown so far in a declining market bodes well for the future of this field, which is closely related to the web3. More and more companies are joining the long list of entities that are deciding to focus part or all of their activity on investments in digital assets. That is why opting for an educational experience like the one TECH offers with this 100% online program is an opportunity that anyone interested in this sector cannot miss. And it is that in just 6 months of theoretical-practical qualification you will manage to master the ins and outs of Decentralized Finance through the knowledge of the most innovative and effective strategies and techniques in the current digital market.

Postgraduate Diploma in Decentralized Finance.   
TECH Technological University

“

*A 100% online program that will help you perfect decision making and risk management in DeFi through the most innovative and effective crypto strategies"*

02

# Why Study at TECH?

TECH is the world's largest 100% online school of business. It is an elite school of business, with a model based on the highest academic standards. A world-class centre for intensive managerial skills education.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Technological University

### Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100000**

executives prepared each year

**+200**

different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500**

collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

### Economy of Scale

---

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"*

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

**01**

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

**02**

### Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

*Our global vision of companies will improve your strategic vision.*

**03**

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

**04**

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

*20% of our students develop their own business idea.*

07

### Improve *soft skills* and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

*We give you the opportunity to study with a team of world-renowned teachers.*

# 04 Objectives

The boom of DeFi and the very high level of knowledge that anyone who does not want to invest in vain in this field must have is the reason why the TECH team of experts has motivated this university to launch this program focused on Decentralized Finance. Therefore, the aim of it is to be able to provide the graduate interested in this sector with all the information they need to master it and carry out successful projects through Blockchain technology and the establishment and management of smart contracts with guarantee.

“

*A program designed with the goal of enabling graduates to achieve their own through the best academic experience of their lives"*

TECH makes the goals of their students their own goals too.  
Working together to achieve them.

The Postgraduate Diploma in Decentralized Finance will qualify student to:

01

Examine the potential uses of DeFi

04

Mastering decentralized marketplaces

02

Generate specialized knowledge on Loan  
Borrowing and Lending

03

Analyze banking services

05

Developing the operation of DeFi smart contracts

06

Address the present and future challenges of decentralized finance

08

Establish DeFi architecture

09

Analyze financial, technical, operational and emerging risks

07

Examine DeFi protocol characteristics

10

Analyze decision-making policies

11

Analyze each potential investment candidate in a technical (graphs) and fundamental (projects) manner

12

Examine trading strategies based on market trends

13

Generate data reports of operations that with mathematical indicators allow entering and exiting at the right time

14

Support the strategies through analytical explanations

15

Establish trend movements that verify whether you are in a bull or bear market

16

Demonstrate, through resistances and supports, the trend lines of the markets

# 05

# Structure and Content

This Postgraduate Diploma includes 450 hours of the best theoretical, practical and additional content, the latter presented in different formats: detailed videos, research articles, news, self-knowledge exercises, dynamic summaries and much more! All designed exclusively for this program by the teaching team. In this way, TECH guarantees an educational experience of the highest quality and which has been shaped based on the immediate current events in the field of cryptoeconomics and Decentralized Finance.

“

*The use of the Relearning methodology in the development of the content of this program will allow you to save study time without giving up even the slightest hint of academic quality"*

## Syllabus

The syllabus of this Postgraduate Diploma in Decentralized Finance has been proposed by TECH, but supervised and adapted by the teaching team to form an educational experience of the highest level according to the current situation of cryptoeconomics. Based on this, 450 hours of the best theoretical-practical and additional content have been designed, with which the graduate will acquire the most comprehensive and specialized possible knowledge.

This 100% online program delves into the DeFi ecosystems and their main networks, with special emphasis on the principle of collateralization as a guarantee and current financial systems. It then focuses its development on the analysis of the different protocols and applications of decentralized exchanges, highlighting the importance of NFTs in digital assets. Finally, it delves into the study of the main investment strategies in the current market, providing the keys to develop the configuration of a profitable and highly profitable investment portfolio.

Therefore, in just 6 months of training, the entrepreneur will have acquired the managerial and specialized skills to lead any type of project related to DeFi, as well as the mastery of the main tools for investing in digital assets in a safe and reliable way. It is, then, the leap your professional development needs to reach the highest level and succeed in a booming sector such as the cryptoeconomy.

This program takes place over 6 months and is divided into 3 modules:

### Module 1

DeFi Ecosystem

### Module 2

DeFi Protocol Analysis

### Module 3

Investment Strategy Analysis

### Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Decentralized Finance completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

*A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.*

**Module 1. DeFi Ecosystem**

<p><b>1.1. Decentralized Finance or DeFi Concept</b></p> <ul style="list-style-type: none"> <li>1.1.1. Financial Ecosystems</li> <li>1.1.2. DeFi solutions: Transparency and Open Source</li> <li>1.1.3. DAPP and Peer to Peer Concept</li> </ul>	<p><b>1.2. Main DeFi Networks</b></p> <ul style="list-style-type: none"> <li>1.2.1. DeFi Stack on Ethereum</li> <li>1.2.2. Polkadot</li> <li>1.2.3. Other DeFi Networks</li> </ul>	<p><b>1.3. Centralized and Decentralized Market Makers</b></p> <ul style="list-style-type: none"> <li>1.3.1. Centralized vs. Decentralized</li> <li>1.3.2. Maker Dao</li> <li>1.3.3. Work Environments or Frameworks</li> </ul>	<p><b>1.4. Centralized vs. Decentralized Economy</b></p> <ul style="list-style-type: none"> <li>1.4.1. Centralized Theories</li> <li>1.4.2. Decentralized Theories</li> <li>1.4.3. Case Studies and Scenarios</li> </ul>
<p><b>1.5. Yield Farming</b></p> <ul style="list-style-type: none"> <li>1.5.1. Decentralized Profitability</li> <li>1.5.2. Yield Farming Case Studies</li> <li>1.5.3. Project Analysis</li> </ul>	<p><b>1.6. Liquidity Mining</b></p> <ul style="list-style-type: none"> <li>1.6.1. Liquidity Mining Benefits</li> <li>1.6.2. Yield Farming Differences</li> <li>1.6.3. Project Analysis</li> </ul>	<p><b>1.7. Collateralization as a Guaranty Principle</b></p> <ul style="list-style-type: none"> <li>1.7.1. Collateralization</li> <li>1.7.2. Best Collateralization Projects</li> <li>1.7.3. Guarantees as Assets to Be Made Profitable</li> </ul>	<p><b>1.8. Leverage</b></p> <ul style="list-style-type: none"> <li>1.8.1. When to perform Leverage?</li> <li>1.8.2. Differences between Leverage and Collateralization</li> <li>1.8.3. Leverage and Volatility</li> </ul>
<p><b>1.9. Current Financial System and CBDC</b></p> <ul style="list-style-type: none"> <li>1.9.1. Central Banks and Cryptos</li> <li>1.9.2. State Cryptocurrencies or CBDCs</li> <li>1.9.3. Future Scenario Theories</li> </ul>	<p><b>1.10. Asset Tokenization</b></p> <ul style="list-style-type: none"> <li>1.10.1. Real Estate Assets</li> <li>1.10.2. Works of Art</li> <li>1.10.3. Creative Capacity as a Source of Wealth</li> <li>1.10.4. Management of New Financial Instruments</li> </ul>		

**Module 2. DeFi Protocol Analysis**

<p><b>2.1. Stablecoins</b></p> <ul style="list-style-type: none"> <li>2.1.1. Stablecoin Impact on the DeFi Ecosystem</li> <li>2.1.2. Stablecoins PEGGED</li> <li>2.1.3. Algorithmic Stablecoins</li> <li>2.1.4. Terra's Failure</li> </ul>	<p><b>2.2. Decentralized Exchanges</b></p> <ul style="list-style-type: none"> <li>2.2.1. DEX Principles</li> <li>2.2.2. Uniswap</li> <li>2.2.3. SushiSwap</li> <li>2.2.4. Balancer</li> </ul>	<p><b>2.3. DeFi Interchain Applications</b></p> <ul style="list-style-type: none"> <li>2.3.1. AMultichainFuture</li> <li>2.3.2. Layer 2</li> <li>2.3.3. Layer 2 Limitations</li> <li>2.3.4. CrossChain (Bridges)</li> </ul>	<p><b>2.4. ParaChain DeFi and Bridges Applications</b></p> <ul style="list-style-type: none"> <li>2.4.1. Oracles</li> <li>2.4.2. Cosmos and Polkadot (ICC)</li> <li>2.4.3. Limitations of Creating Your Own Blockchain</li> <li>2.4.4. Omnichain</li> </ul>
<p><b>2.5. Loans, Collateralization and Interest</b></p> <ul style="list-style-type: none"> <li>2.5.1. Lending Crypto</li> <li>2.5.2. Collateralization</li> <li>2.5.3. Fixed Interest Rate</li> <li>2.5.4. Aave and Compound</li> <li>2.5.5. DeFi for Good</li> </ul>	<p><b>2.6. DeFi Insurance</b></p> <ul style="list-style-type: none"> <li>2.6.1. How DeFi Insurance Works</li> <li>2.6.2. Relevant DeFi Insurance Protocols</li> <li>2.6.3. KYC Insurance</li> </ul>	<p><b>2.7. NFT and DeFi</b></p> <ul style="list-style-type: none"> <li>2.7.1. NFT Characteristics in DeFi</li> <li>2.7.2. NFT Structure</li> <li>2.7.3. Collateralization</li> <li>2.7.4. Marketplaces</li> </ul>	<p><b>2.8. DeFi Analysis Tools</b></p> <ul style="list-style-type: none"> <li>2.8.1. DeFi Protocol Analysis</li> <li>2.8.2. Main DeFi Analysis Tools</li> <li>2.8.3. Best Practices for Interpreting Information</li> </ul>
<p><b>2.9. Metaverse and Blockchain</b></p> <ul style="list-style-type: none"> <li>2.9.1. The Ultimate DeFi Application</li> <li>2.9.2. NFT as Virtual Properties</li> <li>2.9.3. Tokens as a Course Currency</li> <li>2.9.4. Current Metaverses</li> </ul>	<p><b>2.10. Decentralized Finance Risks</b></p> <ul style="list-style-type: none"> <li>2.10.1. DeFi 2.0 and the Ponzi Scheme</li> <li>2.10.2. Hacking smart contracts</li> <li>2.10.3. Rug Pulls</li> <li>2.10.4. Impermanent Loss</li> </ul>		

**Module 3. Investment Strategy Analysis****3.1. Exchange Analysis**

- 3.1.1. Main Competitors
- 3.1.2. Identification Procedures
- 3.1.3. Order Types

**3.2. DeFi Alternative Markets (Pancake Swap)**

- 3.2.1. Market Players
- 3.2.2. DeFi Typology
- 3.2.3. Cash Flow Pools

**3.3. Crypto Investment Models**

- 3.3.1. Yield Farming
- 3.3.2. Flash Loans
- 3.3.3. CFD Trading

**3.4. Coin Stacking**

- 3.4.1. The Right Choice
- 3.4.2. Temporariness
- 3.4.3. Masternodes

**3.5. Farming**

- 3.5.1. New Economy Model
- 3.5.2. Time as a Partner
- 3.5.3. Advanced Farming Platform Analysis

**3.6. Investment Portfolio Configuration**

- 3.6.1. Market Efficiency
- 3.6.2. Volatility Frontier Portfolio
- 3.6.3. Volatility Positioning

**3.7. Crypto Arbitration**

- 3.7.1. Technology and its "Slots"
- 3.7.2. Market Disagreements
- 3.7.3. Risk Limitation Techniques

**3.8. NFT architecture**

- 3.8.1. Fungible vs. Non-Fungible
- 3.8.2. NFT on the web3
- 3.8.3. Architecture of a NFT System

**3.9. Operations with NFT**

- 3.9.1. Create, Buy and Sell NFT
- 3.9.2. NFT and Sport
- 3.9.3. NFT and the Immediate Future

**3.10. Decision-Making and Risk Management**

- 3.10.1. On-Chain Metrics
- 3.10.2. Project Metrics
- 3.10.3. Financial Metrics

*You will have all the material you need to delve into asset tokenization and the management of new financial instruments for their mastery"*

# 06 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*This program prepares you to face business challenges in uncertain environments and achieve business success.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

### Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

The Postgraduate Diploma is designed for graduates who have previously completed any of the degrees in the fields of social and legal sciences, administration and economics.

The diversity of participants with different educational profiles and from different countries makes up the multidisciplinary approach of this program.

Professionals with two years of work experience in the field of decentralized digital finance and economic consultancy can also take the Postgraduate Diploma.

“

*A program adapted to all academic profiles that share a common interest in leading the Decentralized Finance sector"*

### Average Age

Between **35** and **45** years old

### Years of Experience

### Training

### Educational Profile

## Geographical Distribution

---

## Raúl Giménez

Consultant and *Managing Partner* at a major digital asset firm

*"This Postgraduate Diploma was the push that my career needed to progress in the field of decentralized finance. And thanks to the dynamism and quality of its content, both theoretical and additional, I was able to immerse myself in DeFi protocols and strategies that I could then apply in my work environment. As a result, in just a few months we saw our income increase considerably, which helped me to achieve the promotion I had been looking for for years"*

08

# Course Management

For the formation of the teaching staff of this Postgraduate Diploma, TECH has selected the most qualified professionals in the sector. The team is made up of true DeFi specialists, characterized not only by their human qualities, but also by their long and extensive academic and professional experience. It is, therefore, a unique opportunity to dive into the area of Decentralized Finance from the hands of experts in this field.

A black and white photograph showing three people from a different perspective, looking down at a screen. The image is partially obscured by a dark blue diagonal shape that covers the top right and bottom right portions of the page. The people are in profile, looking towards the left side of the frame.

“

*The teaching team will guide you and provide you with their own experience to help you on your way to the top of the exchanges industry”*

## Management

### Mr. Gil de la Guardia, Alberto

- ♦ Founding member of Le Crypto Club
- ♦ Co-director of several university programs related to Blockchain Technology and the Crypto world
- ♦ Doctorate in International Public Law at the Complutense University of Madrid
- ♦ Master's Degree in Financial Studies from CEU San Pablo University
- ♦ Master's Degree in Blockchain Technology and Bitcoin from the European University of Madrid
- ♦ Degree in Law from the University of Salamanca

09

# Impact on Your Career

Thanks to the thoroughness with which this Postgraduate Diploma has been designed, the graduate who accesses it will be part of an academic experience that will undoubtedly provide him with everything he needs to know to master the DeFi environment. In this way, you will be able to project your professional career towards a more successful and ambitious future, as well as towards top-level jobs within the management elite of the business sector specialized in cryptoeconomics.

“

*If your financial career needs a boost, this Postgraduate Diploma is the perfect opportunity to qualify for it and achieve even your most ambitious goals"*

### Are you ready to take the leap? Excellent professional development awaits you.

TECH's Postgraduate Diploma in Decentralized Finance is an intensive program that prepares the professional to face challenges and business decisions in the field of cryptoeconomics and digital assets. The main objective is to promote personal and professional growth. Helping students achieve success.

If you want to improve yourself, make a positive change at a professional level and network with the best, TECH is the place for you.

*A program that will serve as a key asset to achieve the salary increase that you have been longing for, thanks to the improvement of your professional potential and quality.*

*You will be able to establish market trends through the analysis of the main investment strategies in DeFi.*

#### Time of Change

#### Type of Change

## Salary increase

---

This program represents a salary increase of more than **27.42%** for our students.

10

# Benefits for Your Company

Passing all the criteria of this Postgraduate Diploma in Decentralized Finance presented by TECH will provide the professional with the skills of a confident manager capable of assuming the leadership of any type of project related to the crypto-economy. Thanks to this, they will develop a specialized perception of investment protocols and strategies to carry out activities in the digital environment with guaranteed success.

“

*The benefits that this program will bring to your company will be quantifiable and will translate into a significant increase in your profits in the management of the decentralized financial environment"*

Developing and retaining talent in companies is the best long-term investment.

01

### Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

---

02

### Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

### Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

---

04

### Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

### **Project Development**

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

---

06

### **Increased competitiveness**

This program will equip students with the skills to take on new challenges and drive the organization forward.
