01 Welcome

Yield farming has become an increasingly popular practice in the cryptocurrency and decentralized finance (DeFi) ecosystem. This strategy allows users to profit by locking their digital assets into lending or liquidity platforms. Its objective is to maximize returns by achieving benefits such as interest and tokens. Although this practice brings benefits, it also involves several risks including market volatility, security risk or the possibility of asset loss. It is therefore essential to understand the protocols before engaging in this strategy. All this, through the *Relearning* method and a very complete 100% online platform that offers the greatest flexibility and hourly convenience.

Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income.
TECH Technological University

“

You will master the most effective crypto derivatives strategies at the world's best online university according to Forbes"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level"

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

This academic itinerary, developed by a distinguished teaching staff, will enable students to become experts in the world of cryptocurrencies and decentralized finance. To this end, the syllabus provides detailed knowledge about yield farming. In addition, both the associated risks of this practice and strategies to maximize returns are analyzed. In this way, graduates will evaluate projects and platforms to make the most appropriate investment decisions in just 6 months of online education.

“

You will achieve your objectives thanks to TECH's teaching multimedia resources, including explanatory videos and interactive summaries"

TECH makes the goals of their students their own goals too
Working together to achieve them

The **Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income** will enable students to:

01

Acquire the skills necessary to maximize passive income through the effective implementation of DeFi strategies

04

Apply the latest yield farming trends and participation in DAOs

02

Get an in-depth understanding of advanced DeFi and passive income strategies in the cryptocurrency and blockchain ecosystem

03

Identify DeFi's advantages, including global access and transparency, and analyze challenges, such as security and regulation

05

Master a variety of digital wallets, executing rigorous security practices

06

Be able to research case studies of hacks and losses of funds related to digital wallets to learn from common mistakes

08

Master the most popular lending and staking platforms, using them efficiently

09

Gain control of the essential strategies and tools used in yield farming in order to maximize returns from cryptocurrency investments

07

Understand the fundamental concepts of cryptocurrency lending, including the process, types of loans and interest rates

10

Apply the most commonly used DEX protocols such as Uniswap, SushiSwap and PancakeSwap

11

Understand the legal or regulatory implications of DEX and its relationship with financial and supervisory authorities

12

Acquire specialized knowledge on how to evaluate and select suitable assets for tokenization

13

Gain insight into how DeFi is redefining financial transactions, economic inclusion, and traditional intermediation

14

Assess risks, challenges and opportunities in the crypto space considering legal, ethical and sustainable aspects

05

Structure and Content

The Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income is based on a 100% online methodology in order to adapt to the schedules of the graduates. In this context, students will comfortably adapt the schedules and evaluative chronograms to their personal circumstances. Therefore, the syllabus is complemented by a library that provides multimedia resources to enrich learning (explanatory videos, interactive summaries, infographics, etc.).

“

Forget about memorizing! With the Relearning system you will approach technical concepts in a natural and instantaneous way"

Syllabus

This Postgraduate Diploma is an intensive program that will provide students with a broad understanding of decentralized financial technology. Structured in 3 complete modules, the syllabus will delve into key concepts for students to implement the most effective strategies for investing in cryptocurrencies.

This syllabus analyzes the operation of the most widely used platforms, including Ethereum and binance smart chain. It is also based on the latest trends in DeFi so that students can develop innovative strategies. In this way, the professional will also enhance their knowledge in the regulatory compliances of this technique, emphasizing the international tax and regulatory implications.

Through 6 months of online education, students will be prepared to face real-world challenges in the field of DeFi and passive income. Under the guidance of the best faculty, students will assess the risks related to these activities and make investment decisions from a holistic approach.

For this educational program, traders will be supported by the exclusive *Relearning* methodology. Through this, they will be able to examine complex concepts and assimilate their daily application in an instantaneous manner. At the same time, the program is offered through an innovative 100% online learning platform that is not subject to fixed schedules or continuous evaluation chronograms.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules:

Module 1

Yield Farming applied to DeFi

Module 2

Liquidity and Decentralized Exchanges (DEX)

Module 3

Tokenization of Assets applied to DeFi and Passive Income

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Yield Farming applied to DeFi

1.1. Yield Maximization Strategies

- 1.1.1. Yield Farming with Tokens
- 1.1.2. Advanced Yield Farming Strategies
- 1.1.3. Optimization of Liquidity Provider Reward Harvesting

1.2. Yield Farming Platforms and Protocols

- 1.2.2. Ethereum and Binance Smart Chain (BSC)
- 1.2.3. PancakeSwap, Uniswap and SushiSwap
- 1.2.4. Emerging Yield Farming Platforms

1.3. Risk Management in Yield Farming

- 1.3.1. Risks Inherent in Yield Farming
- 1.3.2. Risk Mitigation Strategies
- 1.3.3. Loss Case Studies in Yield Farming

1.4. Yield Maximization Strategies

- 1.4.1. Basic Yield Farm Strategies
- 1.4.2. Advanced Yield Farm Strategies
- 1.4.3. Yield Farming Tools and Services

1.5. International Tax and Regulatory Implications

- 1.5.1. DeFi and Tax Regulations
- 1.5.2. Tax Returns for Yield Farmers
- 1.5.3. Regulatory Compliance in Yield Farming

1.6. Recent Trends and Developments in DeFi

- 1.6.1. Innovations in DeFi
- 1.6.2. Layer Integration
- 1.6.3. Developments in the NFT Space and its Relation to Yield Farming

1.7. Successful Case Studies

- 1.7.1. Case Study 1: Yearn Finance
- 1.7.2. Case Study 2: Compound Finance
- 1.7.3. Case Study 3: Aave

1.8. Future Outlook for Yield Farming

- 1.8.1. Scalability and Sustainability
- 1.8.2. Mergers and Acquisitions in the DeFi Space
- 1.8.3. Interoperability with Other Blockchains

1.9. Technical Challenges and Solutions in Yield Farming

- 1.9.1. Solving Impermanent Loss Problems
- 1.9.2. AMM (Automated Market Maker) and Slippage Strategies
- 1.9.3. Innovations in DeFi Protocols

1.10. Practical Exercises of Yield Farming

- 1.10.1. Creating a DeFi Wallet
- 1.10.2. Participating in a Yield Farming Platform
- 1.10.3. Analysis of Results and Lessons Learned

Module 2. Liquidity and Decentralized Markets (DEX)**2.1. Liquidity Optimization Strategies**

- 2.1.1. Liquidity in DeFi Protocols
- 2.1.2. Liquidity Optimization Strategies
- 2.1.3. Efficient Asset Utilization in Yield Farming

2.2. Decentralized Exchanges (DEX)

- 2.2.1. The Decentralized Exchanges and its Functioning
- 2.2.2. Key Differences between DEX and Centralized Exchanges (CEX)
- 2.2.3. Types of DEX and their Characteristics

2.3. Popular DEX Platforms

- 2.3.1. Uniswap and their Role in the DeFi Revolution
- 2.3.2. SushiSwap and their Governance Model
- 2.3.3. PancakeSwap and the DEX in Binance Smart Chain (BSC)

2.4. DEX Liquidity Providers

- 2.4.1. Role and Motivations of Liquidity Providers (LP)
- 2.4.2. Strategies and Risks associated with Liquidity Provision
- 2.4.3. LP Tools and Calculators

2.5. DEX in Different Blockchains

- 2.5.1. Ethereum-Based DEX (ERC-20)
- 2.5.2. DEX on Binance Smart Chain (BSC)
- 2.5.3. DEX on Other Blockchains (Solana, Polygon, etc.)

2.6. Risks and Security Measures in DEX

- 2.6.1. Common Attacks and Vulnerabilities in DEX
- 2.6.2. Security Strategies for DEX Users
- 2.6.3. Smart Contract Audits

2.7. Regulation and International Legal Framework in DEX

- 2.7.1. Legal Considerations for DEX Operators and Users at an International Level
- 2.7.2. Regulatory Compliance in a DEX Environment
- 2.7.3. Regulatory Challenges in Global Markets

2.8. Interoperability and the Future of DEX

- 2.8.1. The Role of Bridges in Interoperability
- 2.8.2. Technological Developments and Upgrades in DEX
- 2.8.3. DEX Trends and Future Perspectives

2.9. Practical Exercises on DEX Creation

- 2.9.1. Configuration of a DEX in a Test Network
- 2.9.2. Participation as a Liquidity Provider in a DEX
- 2.9.3. Analysis of Results and Lessons Learned

2.10. Successful DEX Case Studies

- 2.10.1. Case Study 1: Uniswap and the Rise of AMM
- 2.10.2. Case Study 2: PancakeSwap and the Experience in Binance Smart Chain
- 2.10.3. Case Study 3: SushiSwap and Community Governance

Module 3. Tokenization of Assets applied to DeFi and Passive Income

3.1. Tokenization of Physical Assets in DeFi

- 3.1.1. Real Estate Tokenization and Passive Income Generation
- 3.1.2. DeFi Platforms for Investment in Physical Tokenized Assets
- 3.1.3. Performance and Risks in the Tokenization of Real Assets

3.2. Tokenization of Securities and Stocks in the DeFi Context

- 3.2.1. Tokenization of Company Stocks and Dividend Generation
- 3.2.2. DeFi and Company Ownership Participation
- 3.2.3. Development of DeFi Projects Focused on Securities Tokenization

3.3. Art and Collectibles Tokenization in DeFi

- 3.3.1. Tokenization of Artworks and Passive Income
- 3.3.2. NFT and its Role in Investment and Income Generation
- 3.3.3. DeFi Markets for Cultural and Collectible Assets

3.4. DeFi Platforms and Solutions for Tokenization

- 3.4.1. Leading DeFi Platforms for Asset Tokenization
- 3.4.2. Interoperability of Tokens in the DeFi Ecosystem
- 3.4.3. Technical Infrastructure and Security Measures in DeFi

3.5. Secondary Markets and Passive Income Generation in DeFi

- 3.5.1. Development of Secondary Markets in DeFi
- 3.5.2. Liquidity and Income Generation Opportunities
- 3.5.3. Examples of Passive Investments and Case Studies in DeFi

3.6. Risks and Challenges in Tokenization in the DeFi Context

- 3.6.1. International Regulatory and Legal Challenges Specific to DeFi
- 3.6.2. Security of Tokenized Assets in the DeFi Ecosystem
- 3.6.3. DeFi Loss Cases and Lessons Learned

3.7. Trends and Future of Tokenization in the DeFi Ecosystem

- 3.7.1. Emerging Trends in Asset Tokenization in DeFi
- 3.7.2. DeFi Integration with Tokenized Assets and Income Optimization
- 3.7.3. Future Outlook for Income Generation in the DeFi Ecosystem

3.8. Success Stories in DeFi Passive Income Generation

- 3.8.1. Success Stories in Real Estate Tokenization with DeFi
- 3.8.2. Successful Experiences in Equity Investing with DeFi
- 3.8.3. Outstanding Cases of Passive Income Generation in Tokenized Art

3.9. International Regulation in DeFi

- 3.9.1. Challenges and Regulatory Outlook in the International Context
- 3.9.2. Global Regulators and their approach to DeFi
- 3.9.3. Regulatory Harmonization and International Standards

3.10. Practical Exercises and Applications of Tokenization applied to DeFi

- 3.10.1. Creation of Tokens in a Test Network
- 3.10.2. Participation in a Secondary Token Market
- 3.10.3. Design and Presentation of a Fictitious Tokenization Project

“

Without fixed schedules or evaluation timelines: this is what this TECH program is all about”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

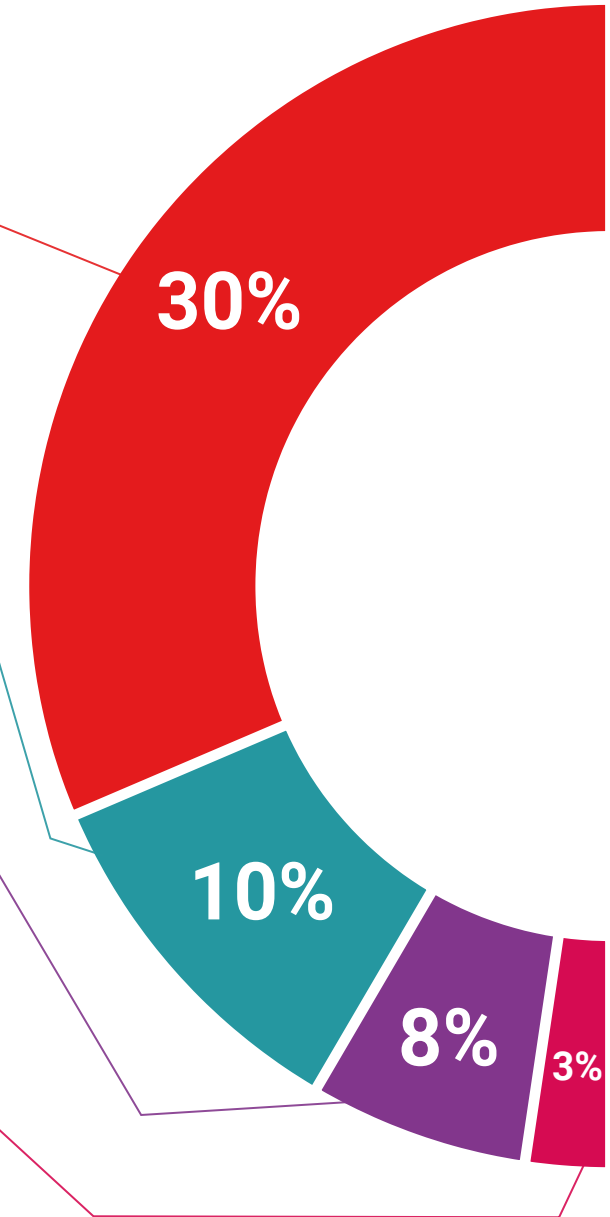

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This Postgraduate Diploma is aimed at university graduates who have previously completed any of the degrees in the field of Computer Science, Economics, Finance, Technology, Innovation or Blockchain research.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

Professionals who, being university graduates in any area, have at least two years of work experience in the field of entrepreneurship and project development, may also take this Postgraduate Diploma.

“

Do you want to know the latest trends in investment strategies? Achieve it thanks to this innovative program in just 6 months”

Impact on Your Career

This Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income aims to guarantee a considerable impact on the working career of its students. For this reason, the teaching team that is part of the program has developed a syllabus where the quality of the contents and the acquisition of new skills are of the utmost importance. Therefore, students will be up to date with all the advances that have taken place in this field, which is evolving by leaps and bounds. In addition, the innovative teaching methodology integrated by TECH in its programs will allow students to achieve their professional goals in an optimal way.

“

This university program will allow you to fulfill your professional aspirations in only 6 months of continuous learning. Enroll now!”

Are you ready to take the leap? Excellent professional development awaits you

TECH's Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income is an intensive program that prepares you to face challenges and business decisions in the field of Decentralized Finance. The main objective is to promote your personal and professional growth. Helping you achieve success.

If you want to improve yourself, make a positive change at a professional level, and network with the best, then this is the place for you.

Without fixed schedules or evaluation timelines: this is what this TECH program is all about"

Do you want to experience a leap in quality in your knowledge? With TECH you will optimize the yield of liquidity rewards.

Time of Change

Type of change

Salary increase

This program represents a salary increase of more than **26.24%** for our students

10

Benefits for Your Company

This program contributes to elevating the organization's talent to its maximum potential through the instruction of high-level leaders.

In addition, participating in this university option is a unique opportunity to access a powerful network of contacts in which to find future professional partners, customers or suppliers.

“

In the digital era, managers must integrate new processes and strategies that bring about significant changes and organizational development. This is only possible through education and university updating”

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11

Certificate

The Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Technological University.

“

*Successfully complete this program
and receive your university qualification
without having to travel or fill out
laborious paperwork”*

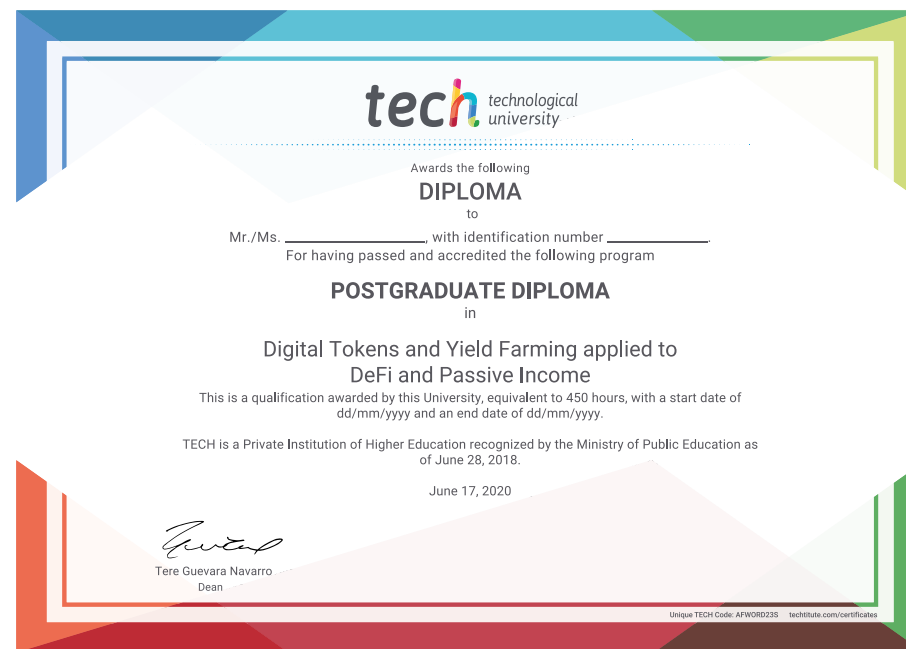

This **Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Digital Tokens and Yield Farming applied to DeFi and Passive Income**

Official N° of hours: **450 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
