TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000 executives prepared each year

+200 different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500 collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

"We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level"

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04
Objectives

In order to achieve a substantive career advancement, it is important to possess the knowledge that distinguishes and qualifies the candidate for positions of greater relevance. For this reason, the Postgraduate Diploma focuses on providing the teachings, competencies and skills necessary to achieve quality professional improvement. All of this is backed by the experience and know-how of the entire TECH educational team.

"

Reach your most ambitious career goals with an in-depth delve into the design of salary structures, compensation systems and expatriate management"

## TECH makes the goals of their students their own goals too Working together to achieve them

The **Postgraduate Diploma in Salary Structure** will enable the student to:

01 Develop criteria to identify the appropriate salary for the organization's positions

04 Interpret remuneration studies

02 Design a salary structure by organizing the company's salaries

03 Quantify the economic resources that the company should invest to adjust its current remuneration structure to the desired one, both internally and in relation to its reference market

05 Train to identify the concepts that make up the company's wage bill

06 Analyze how to draw up remuneration budgets

08 Deepen knowledge of compensation as a strategic management tool

09 Analyze all the aspects with which compensation interacts within an organization

07 Analyze proposed salary increases

10 Identify the external and internal considerations for the design and implementation of a remuneration system

11 Delve into current trends in compensation management and their practical configuration by groups, countries and hierarchical levels

14 Delve into the knowledge of quantitative and qualitative job assessment systems

12 Develop and apply job analysis and job description questionnaires

13 Job assessment

15 Identify the relationship between job evaluation and remuneration allocation

16 Identify and delve into the concepts to be considered in expatriate remuneration

17 Distinguish between the different expatriate remuneration management systems

18 Determine the importance of different expatriate tax and payroll management alternatives

05
Structure and Content

In order to reduce the students' teaching load and give them more time to delve into the numerous readings and supplementary material provided, TECH employs the most innovative pedagogical methodology in the educational landscape. The virtual classroom has plenty of schematic resources, summaries, interactive videos and more content on the Salary Structure, being an inspiring source of knowledge for students to substantially improve their job performance and growth possibilities.

"

The syllabus provided will be decisive when it comes to applying for positions of greater responsibility, being a sign of your great skills and ability to adapt to any salary structure"

Syllabus

This Postgraduate Diploma in Salary Structure provides students with the practical and theoretical knowledge necessary to stand out with excellence in their department, being able to apply for better management positions or direct their own Human Resources project.

Numerous supplementary readings and practical exercises, based on real cases, help students to focus their study effort much better. The information pills provided throughout each topic are the most efficient way to provide unparalleled insight into business success.

The 600 hours that make up this Postgraduate Diploma are therefore maximized. Students will analyze real cases of compensation strategies in companies, acquiring the necessary skills to stand out in their daily work.

This program takes place over 6 months and is divided into 4 modules:

Module 1	Salary Structure
Module 2	Remuneration as a Strategic Tool
Module 3	Job Evaluation and Remuneration
Module 4	Remuneration of Expatriate Workers

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Salary Structure completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Salary Structure

1.1. Designing the Salary Structure
1.1.1. Salary Structure

2.4.4. Emotional Remuneration

2.5. The compensation and benefits function and Human Resources Management
2.5.1. The Challenges of Human Resources Management: Compensation and Benefits
2.5.2. Human Resources Management and Its Relationship with Other HR Functions HR Issues Related to Employee Compensation
2.5.3. PR Department Relations HR with Other Related Parties within the Company that Influence Employee Compensation

2.6. Remuneration Management Determining Factors
2.6.1. External: Labor Market, Competition, Legal Regulations
2.6.2. Internal: Industry, Culture, Staffing Profile
2.6.3. Rewarding Performance

2.7. The Remuneration Market: Features and Standard Practices
2.7.1. By Concept
2.7.2. By Country
2.7.3. By Organizational Levels

2.8. The Future of Remuneration
2.8.1. Keeping the Company Competitive in the Labor Market: Key Points
2.8.2. How Companies can Motivate Future Employee Performance: Tools to be Used
2.8.3. Increased Company Visibility: Measurements

2.9. Remuneration from a Strategic Perspective
2.9.1. Remuneration Strategies
2.9.2. Strategic Benefits of Remuneration
2.9.3. Formative Benefits of Remuneration

2.10. Benefits of Remuneration Management
2.10.1. Remuneration Management
2.10.2. Advantages and Benefits of Remuneration Management
2.10.3. Inconveniences of Remuneration Management

Module 3. Job Evaluation and Remuneration

3.1. Job Analysis and Description
3.1.1. Job Analysis
3.1.2. Job Description
3.1.3. Planning Job Analysis and Job Descriptions within the Company

3.2. Job Assessment
3.2.1. Fundamental questions for Job Assessment
3.2.2. Information Gathering Process
3.2.3. Data Procurement Process
3.2.4. Data Interpretation Process

3.3. Assessment Methods
3.3.1. Qualitative Methods
3.3.2. Quantitative Methods
3.3.3. Comparison of Qualitative and Quantitative Methods: Advantages and Disadvantages

3.4. Job Catalog
3.4.1. Job Specifications
3.4.2. Substantial and Required Characteristics of the Job
3.4.3. Template Planning

3.5. Qualitative Methods: Grading
3.5.1. Previous Classification Required: Key Points
3.5.2. Ranking Method
3.5.3. Job Evaluation

3.6. Quantitative methods I: Factor Comparison
3.6.1. Factored Points Method: Key Points
3.6.2. Keyword Selection
3.6.3. Selection and Definition of Remuneration Factors

3.7. Quantitative methods II: Scoring Factors
3.7.1. Assessment Factors
3.7.2. Responsibility
3.7.3. Effort Groups

3.8. Application of Job Evaluation in Human Resources Management
3.8.1. Training Plan to be Implemented within the Company
3.8.2. Employee Development
3.8.3. Internal Communication in the Company

3.9. Application of Job Evaluation in the Remuneration Policy
3.9.1. Objectives of Job Evaluation
3.9.2. Requirements Covered by Job Evaluation
3.9.3. Job Evaluation Procedures

3.10. Changes in the PR Environment Manager

4.4.1. Short or Long-Term Expatriation: Main Differences and Practical Application
4.4.2. International Geographic Mobility: Key Points
4.4.3. Practical Aspects of Employee Relocation (Temporary and Permanent)

4.5. Law Applicable to the Employment Contract
4.5.1. Latin America
4.5.2. Europe
4.5.3. Rest of the World

4.6. Jurisdiction
4.6.1. Minimum Rights for Expatriate Workers
4.6.2. Relocation to a European Union Member State/Non-European Union Country
4.6.3. Conditions Agreed Upon between the Employer and the Worker on the Posting

4.7. Transfer Procedure
4.7.1. Obligations of the Employer
4.7.2. Workers' Rights
4.7.3. Salary in Case of Dismissal

4.8. Benefits for Expatriate Workers
4.8.1. Expatriate Benefits: Reflection on their Payment

06
Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

" *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:
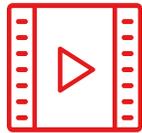

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Our Students' Profiles

Most of the students who decide to take this Postgraduate Diploma have a common interest in the direction and effective management of Human Resources. The syllabus, therefore, is suitable for all profiles that work in these departments or manage the salary structure of certain organizations on a daily basis. The virtual classroom is a common point where to meet people with similar interests, being at the same time a unique networking opportunity.

TECH understands your personal needs and goals, so it will give you the tools you need to achieve them"
