01 Welcome

Research in Economic Sciences is a discipline that requires professionals with a high level of qualification who are capable of adapting to changes in their environment, using the tools available to carry out exhaustive analyses of markets and economic agents, changes in the tastes of consumers, economic regulations and, essentially, all the agents and national and international mechanisms related to economy. That's why this complete program at TECH will allow students to acquire the skills required to carry out comprehensive research in this field. A 100% online program that will allow them to easily combine their studies with their professional and personal life, with the support of the most efficient system in the educational market.

Executive Master's Degree in Research in Economic Sciences.
TECH Technological University

“

We offer you the unique opportunity to master the most advanced strategies in Research in Economic Sciences in a high-impact program for your professional career”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+

executives trained each year

200+

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

Our objective is to help students to develop in this area, reaching the level of knowledge required to be able to carry out comprehensive research in any area of Economic Sciences, from its ideation and proposal to its dissemination.

“

International experience, ethical commitment, and business acumen are some of the most sought-after characteristics in executives in the digital age"

Your goals are our goals.

We work together to help you achieve them.

The **Executive Master's Degree in Research in Economic Sciences** will enable the student to:

01

Approach the fundamentals of economics and opportunity cost

04

Revise production and costs, market structures and macromagnitudes

02

Review the concepts of offer and demand

05

See what is meant by offer and aggregate demand

03

Update their knowledge in economic terminology

06

Learn about international monetary policy

07

Know the methodological bases of research in economics

09

Learn which different tools are necessary for research in economic sciences and how to use them

08

Learn to manage statistics and data sources

10

Learn to write theses and reports in economic sciences

11

Learn how to conduct research in economics using the data and tools necessary to do so

13

Learn to do research in economics in an international context

12

Learn what behavioral economics is

14

Recognize the international economic institutions and organizations

15

Module 4	Business Economics
Module 5	Behavioral Economics
Module 6	Financial Economics
Module 7	International Trade Economics
Module 8	Industrial Economics
Module 9	Financial Instruments and Markets
Module 10	Entrepreneurial Innovation and Initiative

Where, When and How is it Taught?

TECH offers the possibility of developing this Executive Master's Degree in Research in Economic Sciences completely online. Over the course of 12 months, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Fundamentals of Economics

1.1. Introduction to Economics and Opportunity Cost

- 1.1.1. Economics: Principles and Definitions
- 1.1.2. The Cost of Opportunity
- 1.1.3. The Break-Even Point

1.2. Demand, Supply and Market Preferences

- 1.2.1. Market and Types of Market
- 1.2.2. Market Demand
- 1.2.3. Market Offer
- 1.2.4. Balance and Elasticity

1.3. Current and General Economic Terms

- 1.3.1. Basic Concepts
- 1.3.2. History
- 1.3.3. Economic Terminology

1.4. Production and Costs

- 1.4.1. The Production Process
- 1.4.2. Fixed and Variable Costs
- 1.4.3. Cost Curve
- 1.4.4. Marginal Costs

1.5. Market Structures

- 1.5.1. Market Structures
- 1.5.2. Perfect Skills
- 1.5.3. Monopoly

1.6. Basic Macro Magnitudes

- 1.6.1. Economic Activity
- 1.6.2. GDP
- 1.6.3. Price Indices
- 1.6.4. Circular Income Flow

1.7. Aggregate Demand and Supply Model

- 1.7.1. Aggregate Demand
- 1.7.2. Keynesian Multiplier
- 1.7.3. Aggregate Offer
- 1.7.4. Macroeconomic Policies

1.8. Monetary Policy I

- 1.8.1. Monetary Policy
- 1.8.2. Money and its Functions
- 1.8.3. Money in Circulation

1.9. Monetary Policy II

- 1.9.1. The Demand for Money
- 1.9.2. Equilibrium in the Money Market
- 1.9.3. EU

1.10. Economic Relations Between Countries

- 1.10.1. International Commerce
- 1.10.2. Type of Change
- 1.10.3. Balance of Payments
- 1.10.4. Exchange Rate Theories

Module 2. Research in Social Sciences

2.1. Introduction to Investigative Methodology

2.2. Methodologies in Economics and Management

2.3. Data Sources

2.4. Fundamentals of Statistics

2.5. Research in Economics

2.6. Management Research

2.7. Design of a Market Study

2.8. History of Economics and Business

2.9. Philosophical Currents in Business and Economics

2.10. New Trends

Module 3. Researcher's Tools

3.1. Thesis and Report Writing	3.2. Use of Database Managers	3.3. Scientometrics and Scientific Databases	3.4. Spreadsheet for Economics and Finance
3.5. Bibliographic Sources	3.6. Advanced Internet Searching	3.7. Statistical Packages	3.8. Data Analysis Tools
3.9. Algorithm Fundamentals	3.10. New Trends		

Module 4. Business Economics

4.1. Introduction to Research in Business Economics	4.2. The Company and Organization	4.3. Finances	4.4. Operations
4.5. Human resources.	4.6. Communication	4.7. Information Systems	4.8. Strategy
4.9. Marketing	4.10. Future Tendencies		

Module 5. Behavioral Economics

5.1. Introduction to Behavioral Economics Research	5.2. Fundamentals of Behavioral Economics	5.3. Psychology of Economics	5.4. Choice in Economics
5.5. Decision-Making Process	5.6. Frames	5.7. Behavioral Finance	5.8. General Applications
5.9. Criticism of Behavioral Economics	5.10. Future Tendencies		

Module 6. Financial Economics

6.1. Introduction to Financial Economics Research	6.2. Economic and Financial Fundamentals	6.3. Accounting Fundamentals	6.4. Corporate Finance
6.5. Economic Financial Control	6.6. Global Risks	6.7. Capital Markets	6.8. Financing
6.9. Audit	6.10. Future Tendencies		

Module 7. International Trade Economics

7.1. Introduction to Research in International Economics	7.2. Fundamentals of International Economics	7.3. History of the International Economy	7.4. International Economic Institutions and Organizations
7.5. Economic Diplomacy	7.6. Country Analysis	7.7. Economic Globalism	7.8. International Taxation
7.9. Economic Blocks and International Relations	7.10. Future Tendencies		

Module 8. Industrial Economics

8.1. Introduction to Research in Industrial Economics	8.2. Fundamentals of Industrial Economy	8.3. Economics, Markets and Efficiency	8.4. Economics and Innovation
8.5. Economics of Services	8.6. Internet Economy	8.7. Sharing Economy and Platform Economy	8.8. Industrial Crisis and Creative Destruction
8.9. Public Companies and Market	8.10. Future Tendencies		

Module 9. Financial Instruments and Markets**9.1. The Financial Markets**

- 9.1.1. Characteristics of Financial Markets
- 9.1.2. Functions of Financial Markets
- 9.1.3. Components of Financial Markets

9.2. Types of Financial Markets

- 9.2.1. Financial Markets According to Traded Rights
- 9.2.2. Financial Markets According to the Term of the Assets Traded
- 9.2.3. Financial Markets According to the Time of Issuance of Assets
- 9.2.4. Financial Markets According to Their Organizational Structure
- 9.2.5. Financial Markets According to the Time of Delivery of the Asset

9.3. Financial Market Supervisory Bodies

- 9.3.1. European Central Bank and Bank of Spain
- 9.3.2. General Directorate of Insurance and Pension Funds
- 9.3.3. National Securities Market Commission

9.4. Stock Markets

- 9.4.1. The Stock Market
- 9.4.2. Futures Market
- 9.4.3. Options Markets

9.5. Fixed Income Market

- 9.5.1. Spot Interest Rates and Forward Interest Rates
- 9.5.2. Public Debt Market
- 9.5.3. AIAF Market

9.6. Equity Market

- 9.6.1. Trading Systems
- 9.6.2. CNMV and Market Regulation
- 9.6.3. Securities and Stock Exchange Operations
- 9.6.4. IPOs.

9.7. Futures Market

- 9.7.1. Forward Contracts
- 9.7.2. Futures on Interest
- 9.7.3. Exchange Rate Futures
- 9.7.4. Stock Index Futures

9.8. Options Markets

- 9.8.1. Speculative Operations
- 9.8.2. Continuous Arbitrage Operations
- 9.8.3. The Price of an Option Contract
- 9.8.4. Use of Options in Hedging
- 9.8.5. Characteristics of an Options Portfolio

9.9. OTC Derivative Products

- 9.9.1. FRA Markets
- 9.9.2. Swap
- 9.9.3. Cap, Floor and Collar

9.10. Foreign Exchange Market

- 9.10.1. Operation and Regulatory Agencies
- 9.10.2. *Spot* Foreign Exchange Transactions
- 9.10.3. Parity Conditions
- 9.10.4. Exchange to Local Currency

9.11. Investment Funds

- 9.11.1. Fixed Income Funds
- 9.11.2. Mixed Fixed Income Funds
- 9.11.3. Mixed Equity Funds
- 9.11.4. Equity Funds

9.12. Liberalization of Financial Markets

- 9.12.1. Eurodollars and Eurobonds
- 9.12.2. New International Titles
- 9.12.3. Globalization

Module 10. Entrepreneurial Innovation and Initiative

10.1. Introduction to Entrepreneurship Research

- 10.1.1. Entrepreneurship
- 10.1.2. Strengths and Weaknesses of a Business Plan

10.2. Introduction to Innovation Research

- 10.2.1. Historical Overview of Entrepreneurial Innovation
- 10.2.2. Technology Transfer Processes

10.3. Creativity

- 10.3.1. The Theoretical Framework of Ideation and Creation
- 10.3.2. Creativity and Innovation
- 10.3.3. Creative Companies
- 10.3.4. Creative Tools
- 10.3.5. Selection of Ideas

10.4. Agile Start-ups

- 10.4.1. The Lean Start Up Model
- 10.4.2. Development of Products and Services with Agile
- 10.4.3. Dev Ops in ICT Startups

10.5. Innovation Management

- 10.5.1. Analysis of Types of Innovation
- 10.5.2. Innovation Levers
- 10.5.3. Scope of Innovation
- 10.5.4. Comparative Analysis of Innovation Cases
- 10.5.5. R+D Management

10.6. Entrepreneurial Context: Information Society

- 10.6.1. Entrepreneurs and their Time
- 10.6.2. Opportunities and Challenges of Contemporary Entrepreneurship

10.7. Globalization

- 10.7.1. Globalization
- 10.7.2. Lawyer and Detractors
- 10.7.3. Influence on the Entrepreneurial Project
- 10.7.4. Economic Analysis of International Environments

10.8. Project Management

- 10.8.1. The Business Plan.
- 10.8.2. Conventional Project Management
- 10.8.3. Agile Project Management

10.9. Intrapreneurship

- 10.9.1. Intrapreneurship Specificities
- 10.9.2. Comparative Analysis of Intrapreneurship Cases

10.10. Future Tendencies

- 10.10.1. New Entrepreneurship Niches
- 10.10.2. Social Entrepreneurship
- 10.10.3. Senior Entrepreneurship

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap towards a better professional future”

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

The Executive Master's Degree in Research in Economic Sciences is a program aimed at professionals who want to update their knowledge, discover new ways of successfully carrying out their roles, and advance in their professional career.

“

If you are looking to achieve an interesting career boost while continuing to work, then this is the program for you”

Susana García Contreras

Economist

"Studying this program in Research in Economic Sciences has allowed me to acquire a global vision of business and the world of economics, acquiring knowledge that is essential for my work as an economist. Undoubtedly, a unique opportunity to improve myself at a professional level, which has been essential to find a job suited to my abilities"

09

Course Management

The program's teaching staff includes leading experts in the sector, who contribute their years of work experience to this program. Furthermore, other renowned specialists in related disciplines participate in designing and preparing the Executive Master's Degree in a multidisciplinary way, making it a unique and highly enriching academic experience for the student.

“

We have a team of professionals with extensive experience that will help you during your learning process”

International Guest Director

Loretta Napoleoni, a renowned economist and bestselling author (Maonomics, Rogue Economics and Terror Incorporated), has made her mark in the international arena with her innovative and visionary work. With extensive experience in **advising governments and international organizations**, she has excelled in focusing on critical areas such as **money laundering and counter-terrorism**.

Napoleoni's research delves into complex issues such as **terrorism, economics and foreign policy**, addressing fundamental questions for the global future. His presence in print media is not limited to books, but his writings on money laundering and economics have been published in European financial newspapers such as **El Pais, The Guardian and Le Monde**. Also, as a respected voice in the media, he contributes as a regular commentator on renowned channels such as **CNN, Sky and the BBC**, extending his influence beyond print.

Adding to her prolific career as an **author and analyst**, she shares her knowledge in academic settings, teaching Postgraduate Certificate courses at such prestigious institutions as the **Judge Business School in Cambridge**. Indeed, her ability to merge her practical experience with her deep theoretical understanding has made her a leading figure in understanding the intertwined worlds of **terrorism, economics and geopolitics**.

Napoleoni's contributions transcend academia and writing, as in the 1970s she was active in the **feminist movement** and a prominent personality in the political sphere. In addition, her ability to foresee and analyze economic trends is extraordinary, being one of the few professionals who anticipated the **credit crisis and recession**, advising financial institutions on strategies to mitigate it. Likewise, as **Chair of the Club de Madrid's anti-terrorist financing group**, she managed to unite heads of state from around the world to create a new strategy for the fight against the financing of terrorist networks.

Her academic background, with a **Master's Degree in Philosophy in International Relations** from the London School of Economics, has been enriched by work in **banks and international organizations** in Europe and the United States, including the **National Bank of Hungary, the Moscow Narodny Bank in the United Kingdom, the Food and Agriculture Organization of the United Nations (FAO) and the European Bank for Reconstruction and Development (EBRD)**.

Ms. Napoleoni, Loretta

- Founding Partner of G-Risk
- Chair of the anti-terrorist financing group, Club de Madrid.
- Lecturer at the Judge Business School in Cambridge
- Bestselling author (Maonomics, Rogue Economics and Terror Incorporated).
- Master of Philosophy in International Relations from the London School of Economics.
- Member of, Scientific Committee of Fundación Ideas para el Progreso (Fundación IDEAS), linked to the PSOE.

“

Thanks to TECH you will be able to learn with the best professionals in the world”
