01 Welcome

With this effective and personalized learning program and thanks to the expert native teachers in online teaching that make up this training, the student will be able to pass the oral test of English Level A2 of the CEFR. Its main objective is to help you acquire the necessary oral skills to be able to certify your level of English and achieve a higher level of oral expression and comprehension in the language.

Presentation video

“

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks”

Introduction

Teachers and psychologists, experts in teaching languages, believe that the best way to stimulate of learning English is not to subject the student to formalized and linear learning -for example, with rote learning- but to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what surrounds us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level personalized program, you will learn to communicate correctly in everyday situations, in simple contexts. With an effective learning program and with native teachers who are experts in online teaching.

You will improve your communicative competence quickly and efficiently with native teachers with years of teaching experience.

Over these months you will acquire the speaking skills and abilities required by the A2 CEFR: more than 100 different practice exercises.

You will be able to understand frequently used phrases and expressions related to important areas of expertise"

A unique and stimulating experience

Flexible and Tailored

Take the English conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. **Nowadays you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Global University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system official recognized and accepted throughout Europe.

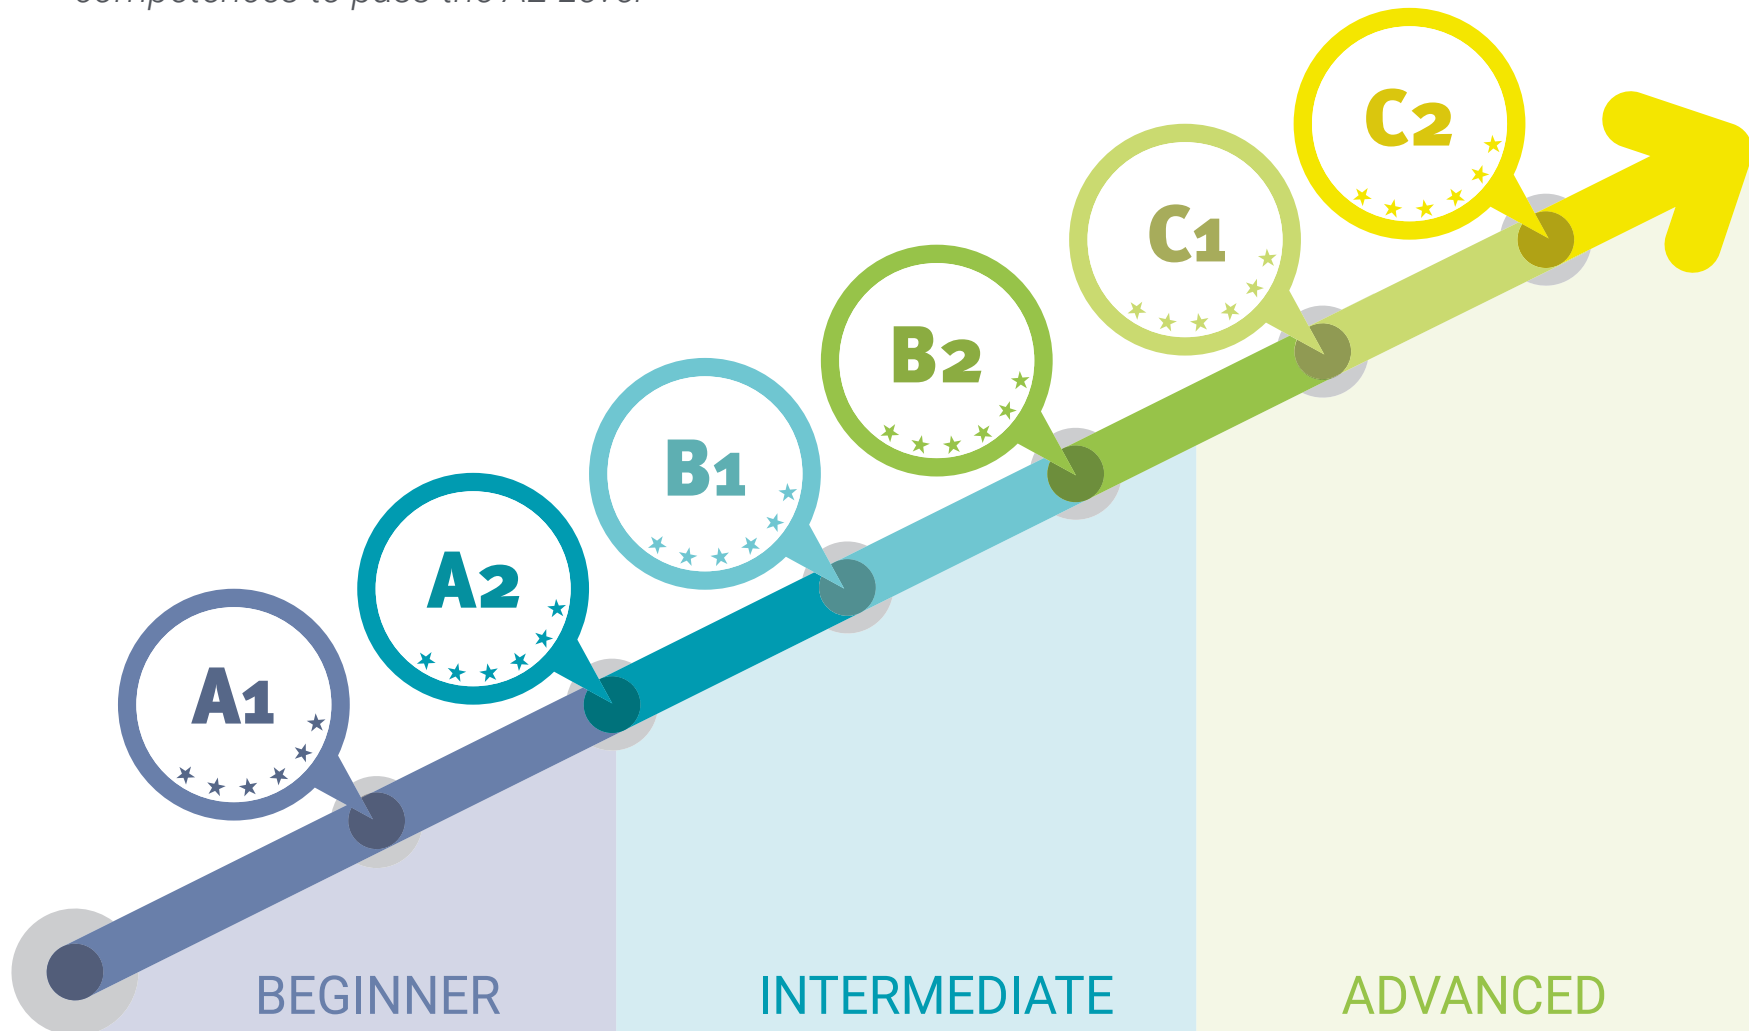

Finally learn to speak fluent English and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private Language Certificate systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this preparation program you will have all the necessary contents and competences to pass the A2 Level"

03

What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2).

This level includes most of the descriptors that expose social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; getting along well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buy tickets; ordering and providing everyday goods and services.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A2' written in large, bold, red letters. The sign is positioned in the lower-left quadrant of the image. In the background, there are several thin, light blue lines that curve across the top of the page, creating a decorative wave effect.

A2

“

In TECH's Individual Online Conversation Classes program, we thoroughly prepare you to obtain A2 English certificate”

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

01

Can understand sentences and frequently used expressions related to areas of experience that are particularly relevant to them (basic information about themselves and their family, shopping, places of interest, occupations, etc.)

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

02

Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03

Can describe in simple terms aspects of his/her background and environment, as well as issues related to his/her immediate needs

A2 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment)
- ♦ Capture the main idea of short, clear and simple messages and notices

Speaking

Oral Interaction

- ♦ Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues
- ♦ Very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own

Oral Expression

- ♦ Use a series of expressions and phrases to describe, in simple terms, your family and other people, your living conditions, your educational background, and your current or most recent job

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your English A2 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This intensive course of online conversation classes for the preparation of the English A2 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation with the help of university teachers to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on practicing the specific CEFR skills in each session and practicing the specific CEFR skills in each unit”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A2 English Individual Online Conversation Classes Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real, multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...,) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive individual online conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive A2 English individual online conversation classes course are connected to the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect through your mobile device and learn with the best native teachers.

The Professional Benefits of English

Today, English is the universal language, it is almost mandatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life: it is the language used in the economic field, international trade, tourism, diplomacy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world in which we live, it is the tool that enables communication with people from all countries.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large part of job offers, scholarships, university careers, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a better education, without limiting ourselves to universities or training centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

“

Today, English is the universal language. It is almost obligatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life"

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A2 level conversation classes program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
