*A C1 level German oral proficiency will open professional doors previously unimaginable"*

## Introduction

Today, almost all academies and language schools that teach German offer a traditional teaching method, based on the repetition of simple linguistic structures with , no connection to adequately structured content or concrete skills. TECH  wants to break down barriers and avoid this ineffective system. For this reason, we have implemented in these language conversation classes a personalized method that allows us to stimulate learning by , encouraging imagination and learning through sensory exploration in order to be able to understand and interpret what surrounds us.

This system allows the brain to work and learn a second language in the most natural way possible, the same way that we learned our mother tongue. A unique learning methodology, based , on the knowledge of native university professors.

*Certify orally the CEFR Level C1 of German, thanks to these individual conversation classes that TECH puts in your hands.*

*Study German through a highly effective methodology and exponentially improve your language skills.*

> *You will learn German from native university professionals who will teach you the Bavarian language in a new and effective way"*

# Is it Important to Obtain a Language Certificate?

In todays competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. Nowadays, students must have a certificate  that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have official qualification based on the Common European Framework of Reference for Languages (CEFR).

*The ability to communicate effectively in another language and , accredit it with a CEFR qualification is, an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## TECH Global University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program of preparation of oral communicative competence to guarantee you to obtain your level certificate , based 100% on the CEFR, the only system recognized and accepted throughout Europe.
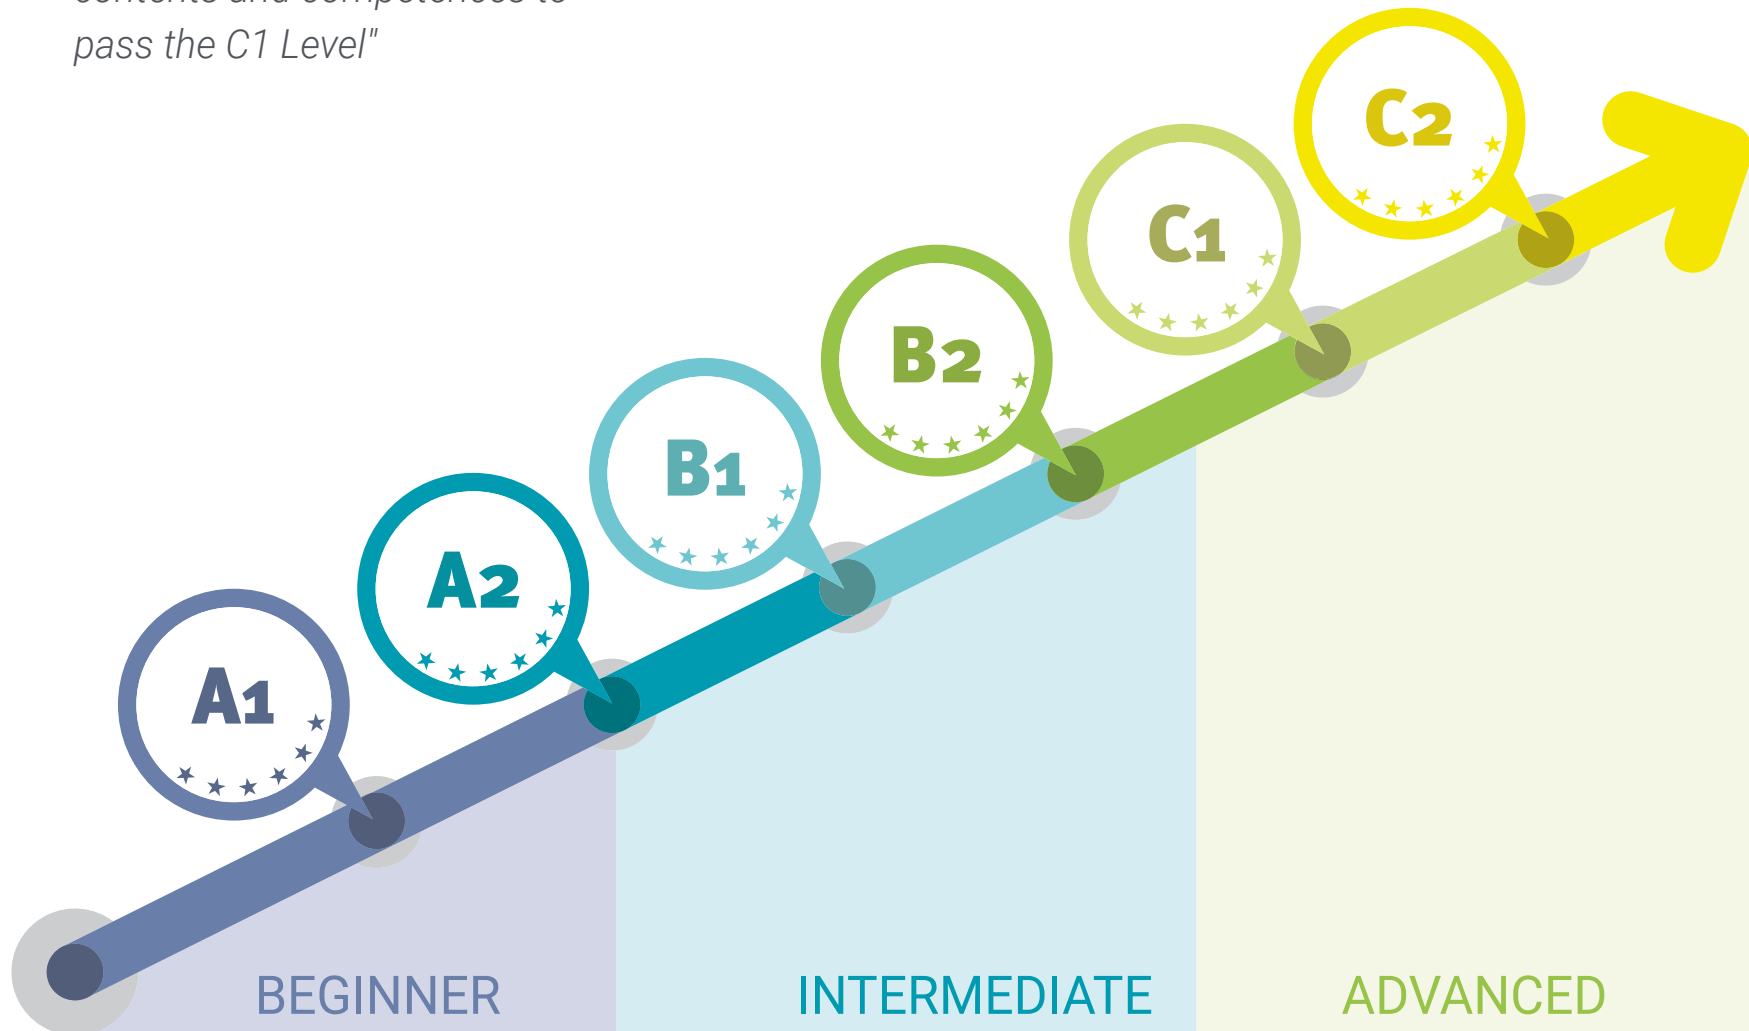

*Learn to speak fluent German and make the most of it by accrediting it with an official qualification based on CEFR.*

*Other private Language Certificate systems require students to periodically recertify their level of proficiency. TECH's CEFR is valid for life.*

*With this preparation program you will have all the necessary contents and competences to pass the C1 Level"*

## 03
# What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

The C1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them provided the speech is clearly articulated at a standard language level; they can offer and ask for personal opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; they are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although pauses for some grammatical and lexical planning and mistake-correcting is evident, especially during long periods of language flow.

"

*In TECH's German Level C1 Online Individual Conversation Classes program we prepare you thoroughly to obtain your official German C1 certificate"*

## What Is Level C1?

**01** Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

**02** Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

"*Improve your skills in this language and certify your level quickly and easily, thanks to everything you will learn in this excellent program offered by TECH*"

**03** Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

**04** Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

C1 level Self-Assessment Chart

## What will I be able to do after completing the course?

| Comprehension | Speaking |
|---|---|

### Listening Comprehension

- Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated
- Understand TV shows and movies without much effort

### Oral Interaction

- Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- Use language flexibly and effectively for social and professional purposes
- Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

### Oral Expression

- Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion

*TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR"*

*Check your level. Assess yourself. More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.*

## Qualitative aspects of spoken language usage for Level C1
*(According to the Common European Framework of Reference for Languages)*

### What is expected to be achieved with this level?

### Scope

- Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

### Correction

- Consistently maintain a high degree of grammatical correction
- Errors are scarce, difficult to locate and in general are corrected whenever they occur

### Fluency

- Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of your expression

### Interaction

- Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- Skilfully connect your own interventions to those of the other speakers

### Coherence

- Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

*Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.*

## Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their German C1 certificate.

## Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as , well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

## Testing & Re-testing

We periodically evaluate and re-evaluate your knowledge throughout the entire German C1 preparation course.

- We will work with 100+ activities for different oral competencies
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

## Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*Take the sessions with you on your cell phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

*An interactive chat to share queries, expressions, complex words, etc. in writing.*

**In addition:**

- The student will be provided with the following interaction and communication tools , that will be combined throughout the course to obtain the competencies at the level in question. These are:
- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

# Our Methodology

During the course of this C1 German Individual Online Conversation Classes program you will enjoy individualized course intensive work sessions that will prepare you to certify you for the C1 German level based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH Uses a method of oral proficiency practice , in which the student works intensively and repeatedly on all the contents required by the framework, providing them with extensive preparation to pass the test.

*TECH's innovative methodology will allow you to accredit the C1 level of German after only four months of intensive classes taught by native university professors"*

## The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.
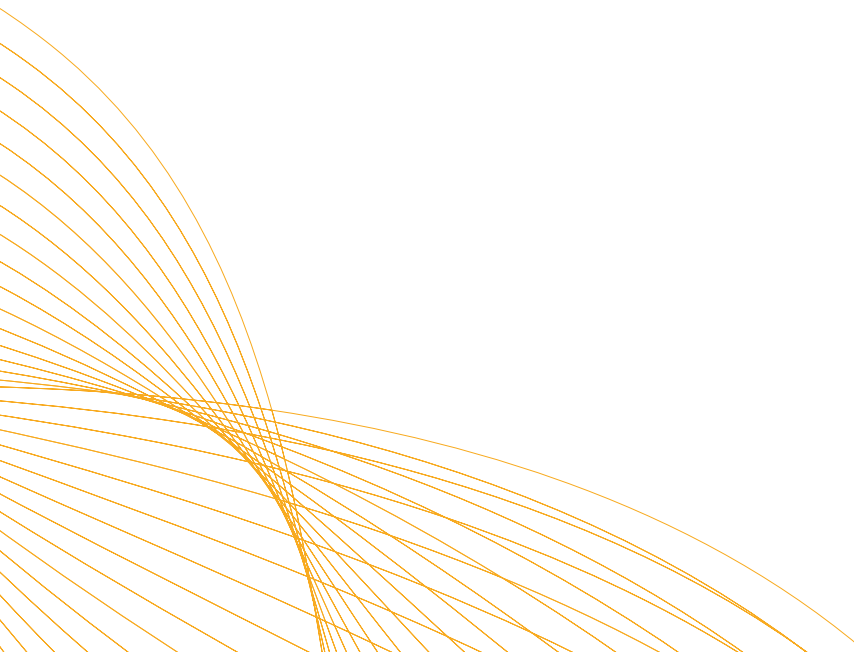

TECH's German Level C1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real, multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively, for the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called Re-learning. Language school is the first licensed to employ this successful method, having managed , in 2015 , to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives,) of the students who complete the courses , with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive individual online conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Krasinski, 2008).

*...with a personalized and expert-led training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

" *Our system will allow you to organize your time and learning pace, adapting it to your schedule , and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)"*

*... and all this with teachers at the forefront of technology and education...*

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "Neurocognitive context-dependent learning", the different elements of our intensive C1 German Online Conversation Classes are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

*Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.*

### Immersion in Real Situations

We present you with real conversational situations with native speakers with different accents , in different contexts.

# Course Objectives

This C1 German Individual Online Conversation Classes program is designed with the comprehensive objective of providing the student with the necessary Oral Skills to face the exam that accredits their level before the CEFR and to pass it through practice, training, repetition, personalized follow-up, intensity and the pedagogical excellence of the TECH method. After the program, the student will be able to speak fluently in German and will be able to use the acquired skills in different environments.

**"** *Your goals and TECH's goals come together and materialize in these conversation classes of high curricular value"*

## General Objectives

**01** Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

**02** Understand, interact and express oneself in a simple but appropriate and effective way in these situations orally

**03** Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

**04** Use the linguistic resources necessary to get by in these situations

**05** Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

**06** Acquire tools that enable the student to assess and improve their own learning and use of the language
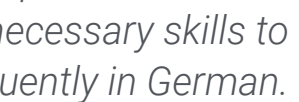

**Specific Objectives**

* Understand enough to follow a long speech on abstract and complex topics beyond their expertise, although they may have to confirm some details, especially if they are not accustomed to the accent

* Recognize a wide range of idiomatic and colloquial expressions, and appreciate changes of register

* Follow an extended speech even when it is not clearly structured, and when links are only assumed and not explicitly pointed out

* Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics

* Understand with relative ease most lectures, discussions and debates

* Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.

* Understand complex technical information, such as operating instructions, product specifications, and everyday services

* Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers

* Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion

* Perform clear and detailed descriptions of complex topics

* Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning

* Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort

*Study with an intensive program led by native university professors. This will give you the necessary skills to communicate fluently in German.*

# Course Structure and Content

To reach Level C1 in a language, it is no longer enough to express oneself correctly, but one must acquire advanced fluency. The fastest and most effective way to achieve this is to practice it, the more times the better, so this university program has been built under that pretext. Students will have a personalized teaching team at their disposal, who will attend to their particular needs and help them reach the level of fluency required for the C1 level.

**Where, When and How is it Taught?**

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

**Each session is structured as follows:**

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

*You will focus on the specific areas where you want, and need, to improve, adequately preparing you for the C1 exam"*

**C1 Level Learning Objectives**

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

• Access to a high level of comprehension and oral expression.
• Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers.
• Argue and counter-argue in different situations, focusing on the keys to speak fluently in public.
• Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era.

*You will reach a higher level of fluency, with a team of native teachers who will give you the keys to proper pronunciation and correction required to pass Level C1"*

*"These conversation classes have been a real gift. In addition to improving my German, I got a promotion in my job that required a mandatory improvement in my German level. I plan to continue learning languages, so I will not hesitate to choose TECH again"*

## Belén de Castro Álvarez

**Production manager**

*"These classes, besides allowing me to orally certify my German C1, have allowed me to learn from a completely new methodology for me. They say that to learn a language you have to practice it, and with this program I have certainly achieved that"*

# The Professional Benefits of German

German is the ninth most spoken language in the world. It is spoken in countries such as Switzerland, Austria, Luxembourg, Belgium and also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the richest countries with the best working conditions; the engine of Europe, Germany, offers great job opportunities to anyone who wants to work, but a good command of German is a prerequisite to work in these countries. Many have tried their luck and emigrated from their home countries in search of work doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing this will also make it easier to create or maintain working relationships with German-speaking partners from your country and will certainly help to strengthen ties and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

*German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business"*

# Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

"

*TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate"*

## Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
