01 Welcome

Taught 100% online, this Language Course enables students to communicate in a basic way in Italian. Thanks to the practical contents, after completing the program, students will be prepared to successfully take the A1 level Italian exam according to the requirements of the Common European Framework of Reference for Languages. As a result, students will not only see their language skills improve, but will also be able to access better professional and personal opportunities in one of the main powers in Europe: Italy.

Presentation video

“

Learn Italian thanks to the most comprehensive university program in the academic landscape, designed from different practical exercises that will enrich your learning”

Introduction

Italian is considered the language of romanticism par excellence. Due to its relationship with the arts, such as poetry and painting, it is considered one of the most beautiful languages in the world. But, beyond the purely artistic, it is a widely spoken language in Europe, and is an official language in several countries. This breadth of regions positions Italian as a predominant language, with nearly 125 million speakers worldwide.

All in all, it is undeniable that knowing Italian opens doors to promising professional development. Therefore, this TECH Language Course is the ideal place to learn the basics of this Romance language. By enrolling on this program, students will gain the foundation for writing simple texts, forming basic sentences and understanding everyday conversations. Thanks to this knowledge, they will be able to successfully pass the A1 Level exam in accordance with the requirements of the Common European Framework of Reference for Languages.

It's time to start mastering Italian, thanks to this comprehensive program from TECH: the world's largest online university.

TECH's method of language teaching is unique in the world, and allows students to study with a strong focus on the practical use of the language as a means to consolidate their learning.

“

It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks”

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University!

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, **the only official system recognized and accepted throughout Europe**.

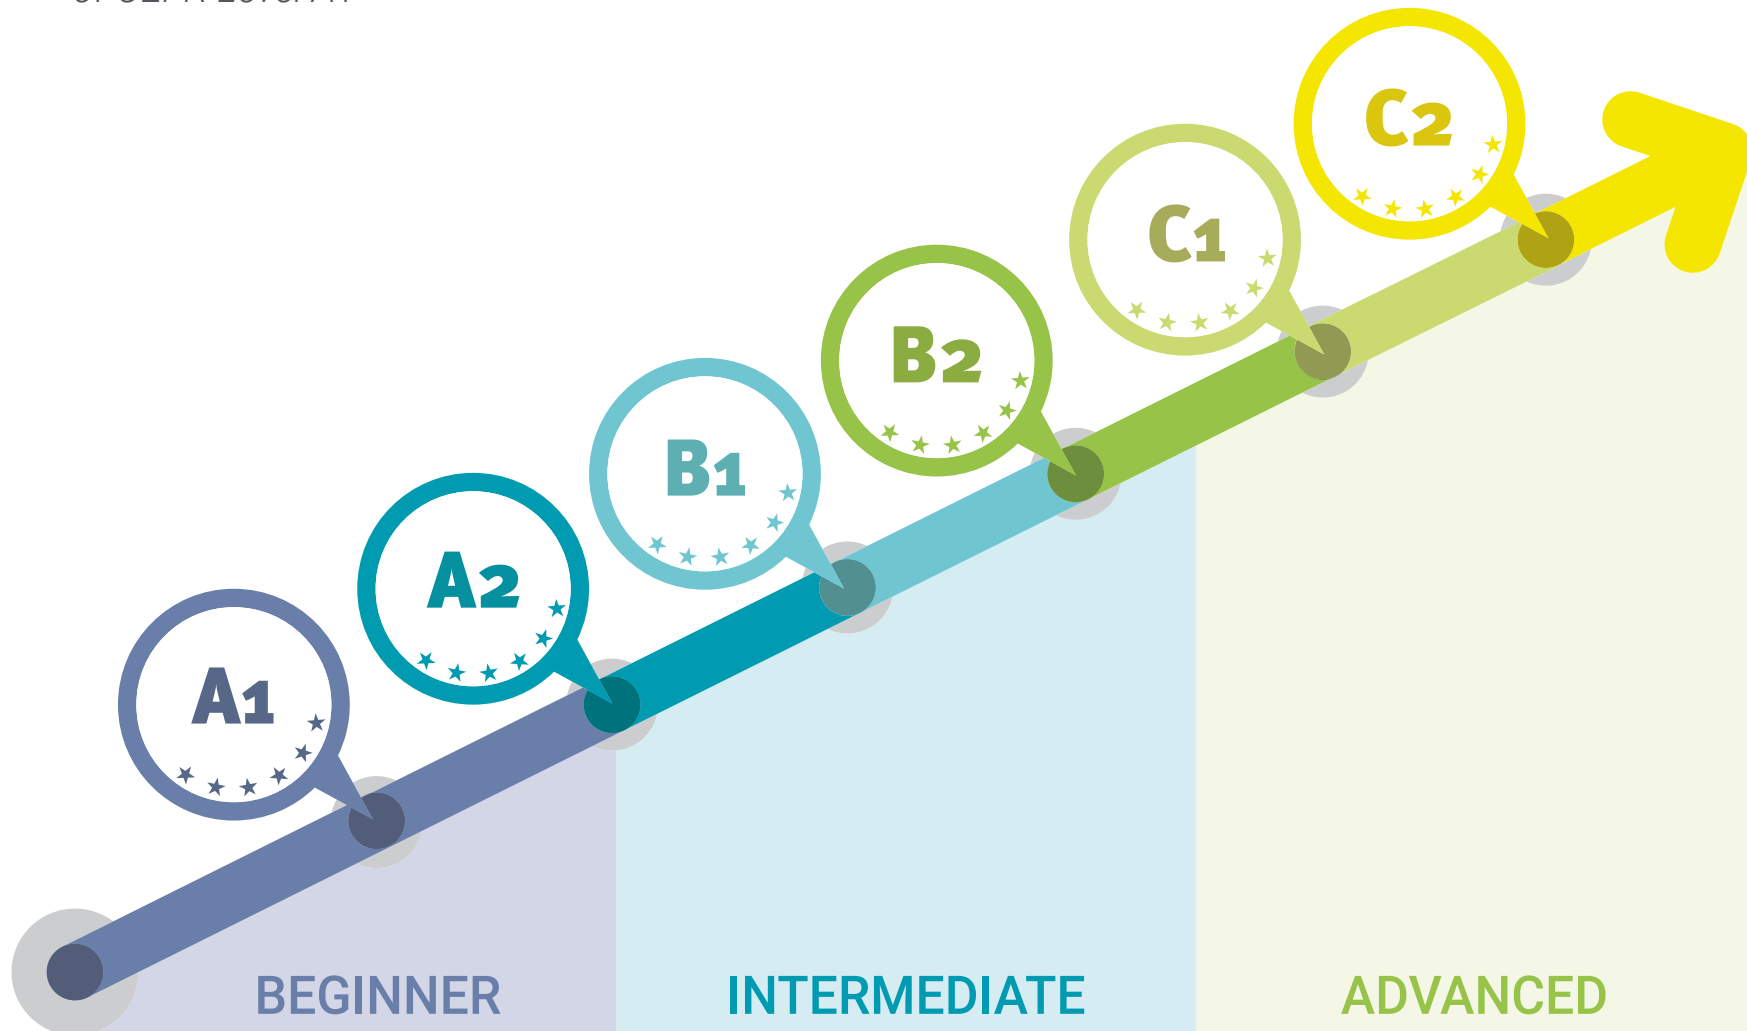

Learn Italian and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

“

You will have a comprehensive and complete syllabus at your disposal in all the competences of CEFR Level A1”

03

What Is Level A1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A1' in red. The sign is positioned in the center-left of the frame. In the background, there are several thin, light blue lines that curve across the top of the page, creating a sense of motion or flow.

A1

“

In TECH's Intensive A1 Language Course, we thoroughly prepare you to obtain your official Italian A1 certificate”

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only system in the European Union for recognizing and accrediting language proficiency and the only diploma that has official validity and is requested by universities, companies, competitive examinations, etc.

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“*With this program you will obtain a certificate valid worldwide. In addition, you will not have to renew it annually*”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as , long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which the learner can interact in a simple way, can ask and answer questions about themselves, about where they live, about people they know and things they have, can make simple statements in areas of immediate need or on everyday topics and can respond to such questions when asked, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in concrete situations.

A1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

Reading Comprehension

Understand familiar words and names and very simple phrases, e.g., those found on signs, posters, and catalogs

Speaking

Oral Interaction

Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say.

Ask and answer simple questions on topics of immediate need or very common issues

Oral Expression

Use simple expressions and phrases to describe the place where they live and the people they know

Writing

Written Expression

Write short, simple postcards, e.g., to send greetings. Know how to fill in forms with personal data, e.g. name, nationality and address on a hotel registration form

TECH helps you to achieve your official qualification with 100% CEFR training”

Check your level. Assess yourself. More than 400 multiple-choice questions for continuous evaluation.

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

Show limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

Ask and answer questions related to personal data. Participate in a simple conversation, but communication is based entirely on repetition, rephrasing and correction of sentences

Coherence

Be able to connect words or word groups with very basic and linear connectors such as "and" or "then".

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

04

- Final review test: You will work through more than 900 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: In order to consolidate the concepts developed throughout the syllabus by reiterating them

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 200 different activities in order to prepare you to obtain your official Italian A1 certificate.

Presentation Videos and Objectives

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 130 everyday situations, stories and video dialogues recorded by experts and native speakers.

Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Our Methodology

The TECH program is a A1 Italian Language Course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 Italian Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context, and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our A1 CEFR language course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Relearning Methodology

In TECH's A1 Italian Language Course, learning is not a linear process, but rather a spiral (we learn- unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called Neurocognitive Context-Dependent Learning, the different elements of our Italian A1 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy..

08

Course Objectives

The main objective of this program is to help the student acquire the necessary skills to pass the A1 level Italian exam. To achieve this, it will have several practical activities and an innovative educational methodology based on training, repetition and the experience of an excellent team of native teachers in the language.

“

Practice your Italian language skills and you will be able to make short speeches which are understandable to native speakers”

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks, both in the educational environment and in very everyday situations

02

Interact and express themselves in these situations in an incipient but adequate manner, in a standard oral and written language register

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in basic communication situations

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- ◆ Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning
- ◆ Understand instructions that are explained slowly and carefully, and is able to follow directions if they are simple and brief

Reading Comprehension

- ◆ Understand very short and simple texts, reading sentence by sentence, picking up basic and common names, words and phrases, and rereading when necessary
- ◆ Understand short and simple messages on postcards
- ◆ Recognize names, words and very basic phrases that appear on signs and in the most common situations
- ◆ Understand the meaning of simple informative written material and short and simple descriptions, especially if there is visual support
- ◆ Understand written directions if they are short and simple (e.g., how to get from one place to another)

Written Expression

- ◆ Ask for and provide information about personal details in writing
- ◆ Write short and simple postcards
- ◆ Write numbers and dates, their name, nationality, address, age, date of birth or date of arrival in a country, as is done, for example, in a hotel registration book

Oral Expression

- ◆ Engage in conversations in a straightforward manner, but communication is totally dependent on slower-paced repetitions, rephrasing and rectifications
- ◆ Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- ◆ Understand common expressions aimed at satisfying simple, everyday needs as long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand
- ◆ Understands questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- ◆ Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news
- ◆ Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand.
- ◆ Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place. Can ask someone for something and vice versa
- ◆ Ask someone for something and vice versa. Good command of numbers, quantities, prices and timetables
- ◆ Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- ◆ Responds in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum
- Develop a very limited control of linguistic resources with systematic errors that usually occur at this level

“

To consolidate all these skills, you will have access to more than 400 lexical, vocabulary and sociocultural activities”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, storytelling, videos and real situations.

Only TECH offers videos with the 130 specific situations required to master the CEFR A1.

09

TECH has designed a complete study plan that will help you pass the Italian A1 Level exam according to CEFR requirements"

"When the opportunity to study in Italy presented itself to me, I didn't hesitate for a second. I had tried several courses, but none gave me the security and confidence that this one did. Thanks to the teachers and the different exercises I have been able to prepare myself to obtain the A1 level of Italian. All in less than four months"

Gabriela Romero

A student from Mexico

"I was offered a position as a systems engineer in Italy, but it was a requirement to have Level A1 certification... Thank goodness I found this TECH Language Course, where I was able to prepare for my qualification in less than four months"

Javier Ayala

A Spanish systems engineer

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH, 9 out of 10 students recommend us”

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors, tourism, the automotive industry and fashion.

“

For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered necessary to succeed in the 21st Century”

Assessment and Certification

TECH's main assessment objective is for students to consolidate what they have learned and be aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH's intensive A1 Language Course is the only one that also gives you a university certificate”

Italian A1 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

“ Only TECH will award you, upon successful completion of the course, a university certificate”

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

If you pass our course university, you will obtain an A1 Italian language qualification from TECH.

The diploma, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The diploma issued by **TECH Technological University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR A1 Italian Language Course an intensive program lasting a maximum of 4 months.

Certification

At the end of the course the student will receive a diploma of recognition that confirms that they are prepared to obtain official certification for this level.
