# 01 Welcome

Germany is a country with an enormous worldwide economic and cultural impact. This has attracted many entrepreneurs and students to the opportunities it offers. For this reason, and following the criteria established by the Common European Framework of Reference for Languages, TECH presents this Language Course in A2 Level German, which will help students to prepare for this certification. To achieve this, we have a group of native teachers in the language and various practical exercises, which will favor the training of linguistic and grammatical skills, in a repeated and active way. All this compiled in an online program, which facilitates its completion from anywhere in the world.

*Presentation video*

“

*Enroll now and in only 4 months you will be certified in A2 Level German, under the criteria of the Common European Framework of Reference for Languages.*

## Introduction

German is a language rich in nuances, as it allows the expression of ideas and concepts with a clarity and precision that other languages do not possess. Furthermore, word pronunciation has very clear rules that facilitate their learning and understanding. All this, together with the country's relevance as a world power, makes it an attractive language for professional and personal growth. To competitively enter the labor market, it is necessary to have an adequate command of the language. For this reason, TECH has created this Language Course together with a group of native teachers from Germany, in order to help students improve their linguistic and grammatical skills in preparation for the CEFR certification.

*You will improve your German language skills in only 4 months by preparing yourself to pass the A2 Level exam in the language.*

*The online mode of this Language Course will allow you to take it wherever and whenever you want, without dropping your daily activities.*

“

*It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks”*

**José Antonio Marina.**  
*Philosopher, writer, and teacher.*

A unique and stimulating experience

### Flexible and Tailored

Take the best language course from home, at your own pace and according to your availability and schedule.

### Acquire Skills and Abilities

With our method, you will practice and consolidate the skills required for this level.

### Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

# 02

## Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays students must have an official certificate official that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training.*

## tech 10 | Is it Important to Obtain a Language Certificate?

### TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH Technological University, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

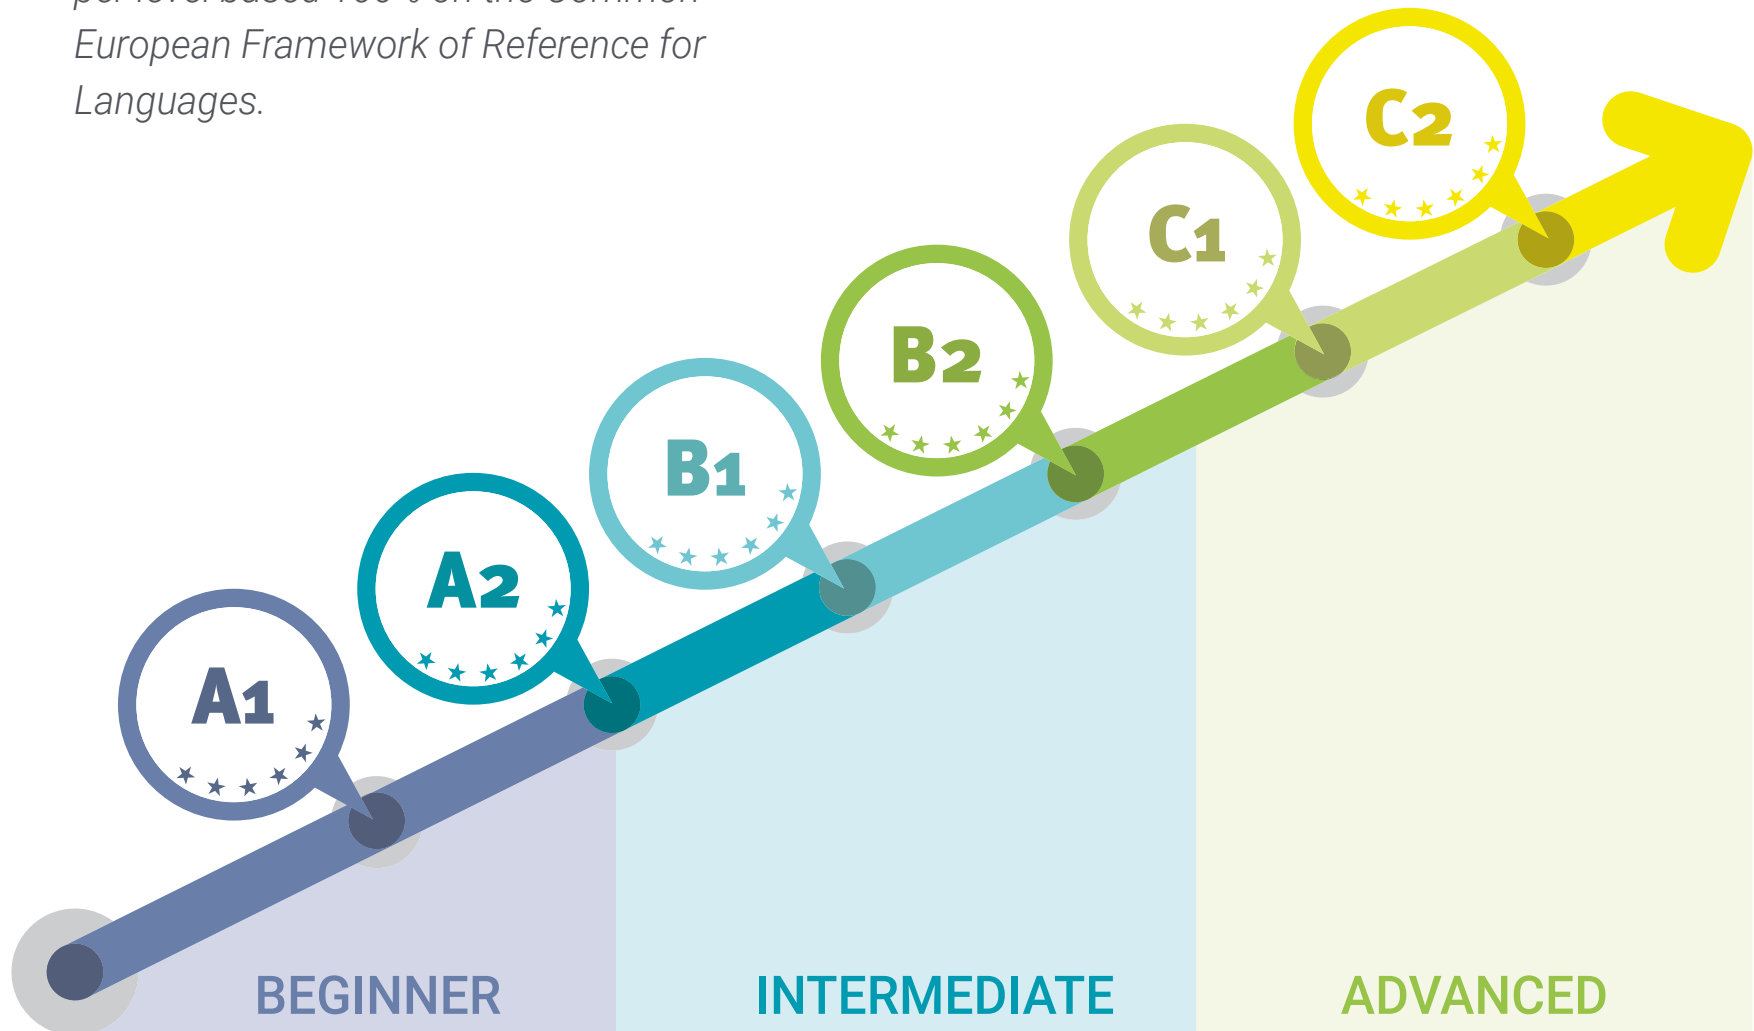

*Learn German and make the most of it by accrediting it official with a qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.*

“

*We work with the most comprehensive and complete syllabus, with 45 units per level based 100% on the Common European Framework of Reference for Languages.*

03

# What Is Level A2?

The A2 Level belongs to the Basic User Level category, where you find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to places and buy tickets; ordering and providing everyday goods and services.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A2' in large red letters. The sign is positioned in the center-left of the frame. In the background, there are several thin, light blue lines that curve across the top of the page, creating a decorative wave effect.

**A2**

“

*This TECH A2 Level Language Course will thoroughly prepare you to obtain your A2 German language certificate.*

## What are the A2 Level Skills?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2). Most of the descriptors that are used in social functions are found at this level, for example:

01

Understanding sentences and frequently used expressions related to areas of experience that are particularly relevant to him/her (basic information about him/herself and his/her family, shopping, places of interest, occupations, etc.).

“

*TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR.*

02

Communicating in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters.

03

Describing in simple terms one's background and environment, as well as issues related to immediate needs.

## A2 level Self-Assessment Chart

### What will I be able to do after completing the course?

Comprehension	Speaking	Writing
<p><b>Listening Comprehension</b></p> <ul style="list-style-type: none"><li>◆ Understanding sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment)</li><li>◆ Capture the main idea of short, clear and simple messages and notices</li></ul> <p><b>Reading Comprehension</b></p> <ul style="list-style-type: none"><li>◆ Reading very short and simple texts</li><li>◆ Finding specific and predictable information in simple, everyday written material, such as advertisements, prospectuses, menus, and schedules, and understanding short, simple personal letters</li></ul>	<p><b>Oral Interaction</b></p> <ul style="list-style-type: none"><li>◆ Communicating in simple and routine tasks that require a simple and direct exchange of information about daily activities and issues</li><li>◆ Very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own</li></ul> <p><b>Oral Expression</b></p> <ul style="list-style-type: none"><li>◆ Using a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job</li></ul>	<p><b>Written Expression</b></p> <ul style="list-style-type: none"><li>◆ Writing short, simple notes and messages related to their immediate needs</li><li>◆ Writing very simple personal letters, e.g., thanking someone for something.</li></ul> <p><i>Check your level. Assess yourself. More than 400 multiple-choice questions for continuous evaluation.</i></p>

## Qualitative aspects of spoken language usage for Level A2

(According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

- ◆ Using structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations.

#### Correction

- ◆ Using some simple structures correctly, although basic systematic mistakes are still made.

#### Fluency

- ◆ Making oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident.

#### Interaction

- ◆ Answering questions and respond to simple statements
- ◆ Indicating comprehension in conversation, but barely understand enough to carry on a conversation on their own accord

#### Coherence

- ◆ Linking groups of words with simple connectors such as "and", "but" and "because".

*Download and practice vocabulary: more than 120 pages of lexical cards and glossaries.*

# 04

## Why TECH?

At TECH Technological University we offer you the first online course based 100% on the acquisition of skills, as established by the European Council for the teaching of foreign languages. We work with the latest methodological approaches: the action-oriented approach and the skill-based approach in order to prepare you for the official level certification exams. For this purpose, we have the best native teachers and e-learning specialists, available 24/7.

*We prepare you thoroughly to  
obtain your official A2 German  
certificate.*

“

*Language school diplomas are only valid in the country where the exam was taken. That is why you need a CEFR title with TECH: It's valid worldwide!”*

What makes us unique

### Mission

Our mission is to stimulate the professional and personal development of our students, promoting their skills and abilities so that they are able to adapt to a real and constructive multicultural environment.

### Vision

Our vision at TECH Technological University is to be an innovative, academically thorough learning environment of international reference, capable of transmitting values that inspire the transformation of language learning to creative and socially responsible models.

- Innovation and creativity
- Excellence
- Spirit of self-improvement
- Social commitment
- Exclusivity and leadership
- Passion

## TECH Technological University

We offer you the most innovative, creative and distinctive proposal in a dynamic, talented and internationally recognized school.

*More than 500 different learning activities, so you can learn in a practical and stimulating way.*

We support you at all times thanks to an involved and committed teaching staff. Our teaching team is native and works on the language approach in a real, lively and dynamic context.

*TECH Technological University is the only institution committed to answering your questions in less than 24 hours.*

We make it easy for you to combine your training with your professional and family activities, in an 100% online school that adapts to your needs.

*You will have a specialized itinerary programmed day by day.*

The most comprehensive syllabus, based 100% on the CEFR.

*We have the broadest and most complete syllabus on the market: the 45 specific topics required by the CEFR for A2.*

*This is the only level exam preparation course on the market that includes tutoring and monitoring at no additional cost.*

## Advantages of the TECH A2 German Language Course

Practice the skills and competencies required by the A2 CEFR, with guarantees.

**500+** different practice exercises

Use of a pedagogical approach based on *Relearning*.

*Our A2 CEFR Language Course is the only one on the market licensed to use the Re-learning methodology, which enhances learning by optimizing the effort/result ratio.*

Study wherever and however you want.

**300+** Downloadable and printable grammar and lexical worksheets and glossaries

Only TECH Technological University includes the complete downloadable content of each unit in PDF format.

**700+** pages of text

Our platform is the only one that allows you to study from your tablet, PC or Smartphone.

Problems with grammar?

Practice with our **400+** specific grammar and spelling activities

Only TECH offers videos with the 250 specific situations required to master the CEFR A2.

*Moreover, only here can you find the A2 CEFR objectives and skills explained in detail on video for each unit.*

Use of a pedagogical approach based on *Relearning*.

**400+** interactive lexical items.

We help you with your oral expression.

**300+** pronunciation and phonetic activities.

We prepare you to get your official certification

**1200+** continuous assessment questions to thoroughly prepare for your Level A2 certificate in German.

And, in addition:

- You will find more than twice as many multimedia elements as in the second most comprehensive course on the market: up to 4,500 elements.
- You will be able to replay specific virtual classes in order to prepare for the CEFR A2.
- At the end of each topic you will find a video in which a native teacher will summarize the most important points for the A2 CEFR exam.
- You will have a specialized itinerary programmed day by day.

*We prepare you thoroughly to obtain your official A2 German certificate.*

# 05

# Features of the Intensive A2 Preparation Course

## **An intensive course**

The A2 German Preparation Language Course is an intensive program that prepares you for the Common European Framework of Reference for Languages (CEFR) A2 Level in German.

## **The Most Comprehensive Syllabus**

We work with the most comprehensive and complete syllabus with 45 topics per level based 100% on the CEFR.

## **Accessible**

Our system allows you to study without internet from your tablet, PC or Smartphone.

## **Accredited**

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate. If you pass, you will obtain a A2 Level German certificate, accredited for 300 hours.

## **Dedicated**

This TECH A2 German Language Course is the only one on the market that is committed to answering your questions within 24 hours, and the only one that includes tutoring and monitoring at no additional cost.

*200+ videos made by native speakers*

*4,500+ multimedia elements*

## Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training program on the market that includes the complete course content in downloadable format:

- A complete PDF of the course: more than 400 pages that make up your manual which you can continue studying after the end of the course.
- A grammar PDF: you will have access to more than 150 downloadable and printable grammar worksheets to study wherever and however you want.
- Lexical cards and glossaries: You will find 120 pages of lexical cards and glossaries to download and practice your vocabulary.

## Multimedia Elements

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge. This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

## Specific Interactive Vocabulary Sections

---

Need to expand your vocabulary? At TECH, you can practice and learn with more than 400 interactive lexical items.

Training activities (includes three subsections)

At TECH, our method focuses on repetition as the most effective way to consolidate your learning, the same way you learned your mother tongue. To do so, we offer you hundreds of different activities for you to practice and exercise, but at the same time, have fun and stay 100% active.

- Vocabulary activities: you will have more than 400 lexical, vocabulary and sociocultural activities to practice and prepare this section thoroughly.
- Pronunciation activities: you will find more than 300 pronunciation and phonetics activities in this course.
- Grammar and spelling activities: work on more than 450 grammar activities from a different and innovative approach.

## Testing & Retesting

---

We periodically evaluate and re-evaluate your knowledge throughout the entire A2 German Language Course.

- Lesson test: after each topic, test and consolidate what has been learned with more than 500 test questions
- Grammar test: Problems with grammar? Practice with our 240 specific grammar and spelling questions
- Final review test: work through more than 900 assessment questions to thoroughly prepare for the level certification.
- Pre-test activities: consolidate the concepts developed throughout the syllabus by reiterating them

## Skills-based Practice

---

If the Common Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills, and bases its official tests on these skills, why don't most of the online preparation courses for level certificates according to skills? At TECH, you will work on all the skills established by the Common Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 400 different activities, in order to prepare you to obtain your official A2 German certificate.

## Presentation Videos and Objectives

---

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

## Summary Videos for each Unit

---

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

## Video Tasks

---

Test what you know in a different way, solve our video-tasks!

## Simulated Learning Scenarios

---

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program, you will find more than 180 everyday situations, stories and video dialogues recorded by experts and native speakers.

### Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*1,200+ pages of downloadable study material*

*24/7 personalized tutoring and monitoring*

*400+ lexical and sociocultural activities*

*1,200+ assessment questions*

#### **In addition:**

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

# Comparison with Other Courses

Have you been trying to certify your level for years to no avail? Do you not feel ready?  
Have you tried countless online courses and found they were not what you were looking  
for? We invite you to discover TECH.

“

*The most complete preparation course for the official CEFR A2 Level test. Study. Learn. BECOME CERTIFIED.*

## TECH Technological University in Figures

At TECH we are so confident that we offer the most comprehensive A2 Language Course on the market that we have no problem comparing ourselves to our competitors.

# Our Methodology

This TECH Language Course is an intensive program designed to prepare students to obtain the A2 German certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which students work intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

*In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit.*

## The TECH Method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

This TECH A2 German Language Course offers you a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context, and guarantee your success in passing the test. To this end, we emulate the official exam by using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with an 100% online learning system based on repetition, which combines different elements that

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

represent a step forward with respect to the simple study and performance of exercises.

*Our A2 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

**Re-learning Methodology**

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

In this TECH Intensive A2 German Preparation Language Course, learning is not a linear process, but rather a spiral (we learn– unlearn (forget) and relearn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

*...with a professional, personalized and expert-led syllabus...*

In order to promote maximum contact with the School of Languages, we provide you with a tutor who will answer your questions, offer study recommendations and correct your writings.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive context-dependent learning*, the different elements of our intensive German A2 level preparation course are connected to the context in which the participant will take the official certification exam in order to guarantee success on the day of the test.

*...and all this with the best learning materials at the forefront of technology and pedagogy...*

*Study wherever and however you want: more than 300 downloadable and printable grammar and lexical worksheets and glossaries.*

#### Study Material

Lessons written and selected by expert native teachers, downloadable worksheets and glossaries.

#### Skills-based Practice

At TECH you will work on all the skills established by the Common Framework of Reference for Languages.

#### Interactive Summaries

Multimedia content including audios, videos, images, diagrams and concept maps.

#### Pronunciation and Phonetics Practice

At TECH we focus our method on repetition as the best way to consolidate your learning.

#### Vocabulary and Socioculture Practice

At TECH we offer you different ways to work on vocabulary through hundreds of interactive activities.

#### Grammar and Spelling Practice

You will work on grammar from a practical point of view, through activities and lessons explained by native teachers.

#### Simulated Learning Scenarios

Video learning situations based 100% on the CEFR.

#### Specific Virtual Classes for CEFR A2

Tips and tricks to keep in mind to pass your placement test with total guarantee of success.

#### Testing & Retesting

You will find practice tests in each topic as well as grammatical and lexical evaluation tests in each module.

*At TECH you will find over twice as many multimedia elements as in the second most comprehensive course on the market: up to 4,500 elements.*

*TECH is the only institution that is committed to answering your questions in less than 24 hours.*

08

# Course Objectives

The A2 German Preparation Language Course is a program that has been developed to help students improve their language skills in German. For this purpose, native teachers have designed almost 400 practical exercises to train pronunciation, writing and reading comprehension in a didactic and fluent manner. All this will allow you to sit for and pass the certification exam as per the Common European Framework of Reference for Languages.

“

*The A2 Level in German will help you to understand, interact and express yourself in a simple but correct way with native speakers.*

## General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02

Understand, interact and express themselves simply but appropriately and effectively in these situations, both orally and in writing.

03

Approach the most relevant social aspects of everyday life situations, and use the most common forms of social relations and interactions.

04

Use the linguistic resources necessary to get by in these situations

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06

Acquire tools that enable the student to assess and improve their own learning and use of the language

## Specific Objectives

### Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identify the topic being discussed, provided it is conducted slowly and clearly.
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation.
- Understand and extract essential information from short recorded passages dealing with everyday, predictable matters, and spoken slowly and clearly.

### Written Expression

- Write a series of simple phrases and sentences, linked with simple connectors such as "and", "but" and "because".
- Write a series of simple phrases and sentences about their family, their living conditions, their studies, their present job or the last one they had. Write short, simple and imaginary biographies, as well as simple poems about people.

## Reading Comprehension

- Understand short, simple texts on everyday matters if they contain very frequent, everyday or work-related vocabulary.
- Understand short and simple texts containing very frequent vocabulary, including a good part of internationally shared vocabulary terms.
- Understand basic types of commonly used letters and faxes (forms, orders, confirmation letters, etc.) on everyday topics.
- Understand short and simple personal letters.
- Find specific and predictable information in everyday written materials, such as advertisements, package leaflets, restaurant menus, listings, and timetables.
- Locate specific information in listings and isolate the required information (e.g., know how to use the Yellow Pages to search for a service or a business).
- Understand signs and signals found in public places, such as streets, restaurants, train stations, and workplaces, e.g., directions to a location, instructions, and hazard warnings.
- Identify specific information in simple written material, such as letters, catalogs, and short newspaper articles describing specific events.
- Understand rules that are expressed at a simple level of language.
- Understand simple instructions on frequently used appliances, e.g., a pay phone.
- Identify the main idea of television news reporting on events, accidents, etc., when there is visual support to complement the discourse.
- Know when TV news has changed topics and get an idea of the main content.

## Oral Expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences.
- Tell stories or describe something through a simple relationship of elements.
- Describe everyday aspects of their environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences.
- Use simple, descriptive language to make brief statements about objects and possessions, and to make comparisons. Explain what they like and dislike about something
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- Answer a limited number of questions with immediate and simple answers

## Specific Objectives

### Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment. Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life.
- Understand gestures, behaviors and values that are different from one's own and that underlie the most obvious, everyday socio-cultural aspects.

### Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level, and correctly use the "formulas" and structures learned.
- Achieve a limited control of language construction, including the possible systematic errors common to the level.
- Pronounce clearly and understandably, even if a foreign accent is evident.
- Write the common language worked on without spelling mistakes.

“

*To consolidate all these skills, you will have access to more than 400 lexical, vocabulary and sociocultural activities.*

#### **Did you know?**

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in an online format through simulated scenarios, *Storytelling*, videos and real situations.

*Only TECH offers videos with the 180 specific situations required to master the CEFR A2 Level.*

09

# Course Structure and Content

The study plan for this Language Course is designed to help students improve and develop their linguistic and grammatical skills in the German language. Therefore, it will have a simple and effective method focused on constant practice and the content specific to the CEFR parameters. Thus, upon graduation, they will be able to defend themselves with ease in everyday situations, making a clear presentation of themselves or identifying the main idea in a television news story.

### Where, When and How is it Taught?

This course takes place over 4 months and is divided into 12 content modules. It can be done completely online, including attending the different sessions and tutorials.

“

*This Language Course is unique, as it will help you prepare to pass the A2 German exam online and with native teachers.*

- Understand alternative energy sources

*TECH has structured this program with more than 40 topics, required by the CEFR, to help you improve your level of German in a comfortable and practical way.*

*"A few months ago they approved my exchange application to study in Germany for the following university semester. That's why I decided to improve my language level, and with this TECH program I have been able to do it in a simple and fast way. I can access the classes whenever I want. So I've practiced and improved in just four months, obtaining my CEFR A2 certification."*

## Marisela Castillo

---

A student from Colombia

*"A few months ago my company posted me in Germany to lead an engineering project. So I started studying the language, as I would be in contact with many contractors and native workers. Luckily I found this TECH Language Course, which has made it easy for me to learn as it is completely online. Today, I already have my A2 certification in the language, and I continue to study to perfect it."*

## Diego Fernández

---

Mechanical engineer from Mexico

# Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

*Many of our students have come from other preparation methods that have led to loss of motivation. At TECH , 9 out of 10 students recommend us”*

### Years of unsuccessful attempts to learn the language

### Courses taken before enrolling in ours

*Don't be discouraged! TECH includes a personalized monitoring and tutoring service.*

## Interest in learning the language

---

Personal **42%**

**58%** Professional

## IT skills

---

*80% of our students pass the official A2 level exam.*

“

*Thanks to our performance measurement tool you will be able to track your progress at all times”*

# The Professional Benefits of German

German is the ninth most spoken language in the world. It is spoken in countries such as: Switzerland, Austria, Luxembourg and Belgium. And also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the most affluent countries and offers excellent working conditions; the engine of Europe, Germany, offers great employment opportunities to anyone who is willing to work. However, a good level of German is a prerequisite for working in these countries. Many have tried their luck and emigrated from their home countries in search of work, but doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing German will also make it easier to create or maintain working relationships with German-speaking associates in your country. It will undoubtedly help to strengthen relationships and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences, and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

“

*German is the native language of one of the world's major exporting countries, and having a good command of it allows you to perform better in business.*

# Assessment and Certification

The main evaluation objective of TECH's assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*This TECH A2 Language Course is the only one that also awards you a university certificate.*

### German A2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

“

*Only TECH will award students, upon successful completion of the course, a university certificate"*

## Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.
- Discursive capacity: coherence of ideas, organization and development.
- Use of language: linguistic expressions, formal resources of cohesion and flexibility
- Formal correction: grammar, discourse cohesion, vocabulary and spelling.

*If you pass our course, you will obtain an A2 German language qualification from TECH.*

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by **TECH Technological University** only provides a "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

*The CEFR A2 German Language Course is an intensive program lasting a maximum of 6 months.*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
