# Welcome

More than half of the content on the Internet is in English. In addition, the vast majority of series, movies, books and entertainment are originally produced in English, which gives an advantage to those who know the language to enjoy it earlier. Whether for personal, academic or professional reasons, studying English is one of the best decisions you can make today, as it greatly improves your access to jobs and general culture. TECH has assembled a team of native teachers to prepare all the contents of this Language Course, adapting them to the requirements of the Common European Framework of Reference for Languages.

*Presentation video*

“

*You will significantly increase the amount of information and entertainment you can consume thanks to this Language Course”*

## Introduction

The world's most powerful companies speak English. Brands as diverse and prolific as Coca-Cola, McDonald's or Apple originated in the United States, with English being the common language in all of them. Therefore, acquiring a B1 Level certificate improves employability and adds quality to any CV. Even on a personal level, you can build more relationships and improve your own networks by speaking English with people from all walks of life and regions of the world.

*This is the best decision you can make to vastly improve your circle of contacts and possibilities for job improvement.*

*Websites, series and movies in English will no longer be a problem for you with an intermediate level of comprehension.*

“

*It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks”*

*José Antonio Marina.  
Philosopher, writer, and teacher.*

# Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

**Nowadays, students must have an official qualification** that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## tech 10 | Is it Important to Obtain a Language Certification?

### TECH Global University

The Common European Framework of Reference for Languages is **the only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, **these come from private institutions and are, therefore, not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your **official certificate** based 100% on the CEFR, **the only official system recognized and accepted throughout Europe**.

*Learn English and make the most of it by accrediting it with an official qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.*

“

*We work with the most comprehensive and complete syllabus, with 51 units per level based 100% on the Common European Framework of Reference for Languages”*

03

# What Is Level B1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

“

*In TECHs B1 Level Language Course, we thoroughly prepare you to obtain your English B1 language certificate"*

## What are the B1 Level Skills?

Level B1 is part of the Independent User Level, which is divided into two sublevels: First and Second Independent User Level (B1 and B2). Level B1 has two main features: the first is the ability to maintain interaction and to make oneself understood in a variety of situations.

The second characteristic is the ability to know how to deal flexibly with everyday problems. Most of the descriptors that are used in social functions are found at this level, such as, for example:

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

*Certifying English Level B1 brings with it numerous opportunities. Enroll now and progress personally and professionally thanks to TECH"*

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buys tickets; ordering and providing everyday goods and services.

“

*TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR”*

## Qualitative aspects of spoken language usage for Level B1 (According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

- ♦ Possess a large enough linguistic repertoire to get by and an adequate vocabulary to express themselves, albeit hesitantly and with circumlocutions, on topics such as their family, hobbies and interests, work, travel and current

#### Interaction

- ♦ Is able to initiate, maintain and end simple face-to-face conversations on everyday topics of personal interest
- ♦ Can repeat part of what someone has said to confirm mutual understanding

#### Correction

- ♦ Uses with reasonable accuracy a repertoire of commonly used formulas and structures associated with predictable situations

#### Coherence

- ♦ Is able to link a series of short, distinct and simple elements to enable a linear sequence of related ideas

#### Fluency

- ♦ Can continue to speak in a comprehensible manner, although pauses for grammatical and lexical planning and correction are evident, especially during long periods of free speech

*Download and practice vocabulary: more than 500 pages of lexical cards and glossaries.*

## Testing & Retesting

---

We periodically evaluate and re-evaluate your knowledge throughout the entire B1 English Language Course.

- Lesson test: After each unit, you will be able to test and consolidate what you have learned through more than 500 test questions.
- Grammar test: Problems with grammar? Practice with our 500 specific grammar and spelling questions.
- Final review test: You will work through more than 1,400 assessment questions to thoroughly prepare for your level certification.
- Pre-test activities: In order to consolidate the concepts developed throughout the syllabus by reiterating them.

## Skills-based Practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 500 different activities in order to prepare you to obtain your official English B1 certificate.

## Presentation Videos and Objectives

---

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

## Summary Videos of Each Unit

---

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

## Video Task

---

Test what you know in a different way, solve our video-task!

## Simulated Learning Scenarios

---

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program students will find more than 250 everyday situations, stories and video dialogues, recorded by experts and native speakers.

### Specific Virtual Classes for CEFR B1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*24/7 Personalized Tutoring and Monitoring*

# Our Methodology

The TECH program is a B1 English Language Course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

*In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"*

## The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's B1 English Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that

*... All of this is enhanced with the best 100% online teaching methodology: Re-learning....*

represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

**Re-learning Methodology**

In TECH's B1 English Language Course, learning is not a linear process, but rather a spiral (we learn-unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

*...with a personalized and expert-led training itinerary...*

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called “*Neurocognitive Context-Dependent Learning*”, the different elements of our English B1 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

*...and all this with the best learning materials at the forefront of technology and pedagogy..*

*Study wherever and however you want: more than 150 downloadable and printable grammar and lexical worksheets and glossaries.*

## Course Objectives

This B1 English Language Course is created to cover all the needs and skills required by the CEFR, so that students can obtain the certificate that validates their language level without any setbacks. This way, students are offered a practical approach supported by a unique teaching method, with multiple audiovisual support to alleviate the teaching load.

*In TECH's CEFR B1 Language Course,  
students will find more than 350  
pronunciation and phonetic activities.*

“

*Practice the speaking skills and abilities  
required by the B1 CEFR: more than 350  
different practice exercises”*

General Objectives

01

Use the language being learned as a means of communication and personal expression, both in the classroom and in a wide range of face-to-face and virtual situations and on both concrete and abstract topics, including cultural ones

02

Understand, interact and express themselves in these situations, orally and in writing, in an appropriate, reasonably flexible, precise and correct manner.

03

Describe the sociocultural aspects related to usual situations, as well as those related to one's own environment and use the appropriate social formulas, gestures, register and treatment in these situations

04

Internalize the appropriate and necessary linguistic resources for the planned communicative activities, through functional and formal practice

05

Encourage and diversify the use of strategies that streamline communication and facilitate learning

06

Manage tools to evaluate and improve one's own learning and use of the language

## Specific Objectives

## Oral Comprehension

- ◆ Understand concrete everyday or work-related information and identify both the general message and specific details as , long as the speech is clearly articulated and with a normal accent
- ◆ Understand the main ideas of clear, standard speech on everyday topics , related to work, school or leisure time, including short narratives.
- ◆ Generally follow the main ideas of a long discussion going on around them, provided that the discourse is clearly articulated at a standard language level
- ◆ Understand, in general terms, simple and short speeches on everyday topics provided they are delivered with standard and clear pronunciation.
- ◆ Understand a lecture or talk that deals with their area of expertise, provided that the subject matter is familiar and the presentation is simple and clearly structured
- ◆ Understand simple technical information, such as operating instructions for frequently used appliances, as well as follow detailed instructions
- ◆ Understand the main ideas of radio news and other simpler recorded material dealing with everyday topics delivered relatively slowly and clearly.
- ◆ Understand the information content of most recorded or broadcast material related to topics of personal interest with clear standard pronunciation

## Reading Comprehension

- ◆ Read simple factual texts on topics related to their field of expertise with a satisfactory level of comprehension
- ◆ Understand the description of facts, feelings and wishes in personal letters well enough to correspond regularly with a foreign friend.
- ◆ Find and understand relevant information in everyday written material, such as letters, catalogs, and short official documents.
- ◆ Consult long texts in order to find the desired information, and to know how to gather information from different parts of a text or from different texts in order to perform a specific task.
- ◆ Recognize significant ideas from simple newspaper articles that deal with everyday issues
- ◆ Identify the main conclusions in clearly argumentative texts. Recognize the line of argument in the treatment of the issue presented, though not necessarily in full detail
- ◆ Understand simple, clearly written instructions related to an appliance
- ◆ Understand many films where visuals and action drive much of the storyline and are articulated clearly and with a simple level of language
- ◆ Capture the main ideas of television programs dealing with everyday topics when they are articulated relatively slowly and clearly

## Written Expression

- ◆ Write simple, cohesive texts on a range of everyday topics within their field of interest, linking a series of different short items in a linear sequence
- ◆ Write simple and detailed descriptions of a range of everyday topics within their specialty
- ◆ Write accounts of experiences describing feelings and reactions in simple, structured texts
- ◆ Write a description of a specific event, a recent trip, real or imagined, and narrate a story.
- ◆ Write very brief reports in conventional format with information about common events and the reasons for certain actions
- ◆ Write short and simple essays on topics of interest. Can summarize, communicate and offer their opinion with a certain degree of confidence on concrete facts related to everyday matters, whether usual or not, in their field of expertise.

## Oral Expression

- ◆ Carry out, with a reasonable degree of fluency, a simple description of a variety of topics that are of interest to them, presenting them as a linear sequence of elements
- ◆ Give simple descriptions on a variety of common topics within your specialty
- ◆ Give simple narratives or descriptions with a reasonable degree of fluency following a linear sequence of elements

- ◆ Make detailed accounts of experiences describing feelings and reactions.
- ◆ Report the details of unpredictable events, such as, for example, an accident
- ◆ Relate book or movie plots and describe your reactions to them
- ◆ Describe dreams, hopes and ambitions
- ◆ Describe real or imagined events. Tell stories
- ◆ Provide brief rationales and explanations for opinions, plans and actions.
- ◆ Develop arguments well enough so that they can be understood without difficulty most of the time.
- ◆ Make short rehearsed statements on a relevant topic within their specialty, which are clearly intelligible despite being accompanied by an unmistakably foreign accent and intonation
- ◆ Deliver a brief, prepared presentation on a topic within their specialty, with sufficient clarity to be followed without difficulty most of the time and whose main ideas are explained with reasonable accuracy. Can also answer supplemental questions, but may have to ask for repetition if spoken quickly

## Specific Objectives

### Sociocultural and Sociolinguistic Competence

- ◆ Know how to carry out a wide range of linguistic functions, using the most common features of these functions in a neutral register. Be aware of the most important rules of courtesy and act appropriately. Be aware of the most significant differences that exist between the customs, usages, attitudes, values and beliefs prevailing in the community in question and their own, and know how to identify such differences. Know how to carry out basic language functions such as exchanging and requesting information and expressing opinions and attitudes in a simple way.
- ◆ Adapt expression to deal with less common and even difficult situations. Use a wide range of simple linguistic elements with the flexibility to express much of what is wanted
- ◆ Participate in debates on everyday topics using an appropriate phrase to take the floor. Initiate, maintain, and conclude simple face-to-face conversations on everyday topics or topics of personal interest
- ◆ Give simple narratives or descriptions, with a reasonable degree of fluency, through a linear sequence of elements
- ◆ Linking a series of short, specific and simple elements to create a cohesive, linear sequence

### Linguistic Competence

- ◆ Possess sufficient linguistic ability to describe unpredictable situations, to explain the main points of an idea or problem with reasonable accuracy, and to express thoughts on abstract or cultural topics, such as music and movies..
- ◆ Possess sufficient linguistic ability to get by, and sufficient vocabulary to express themselves with some hesitation and circumlocution on topics such as family, hobbies and interests, work, travel and current events, but lexical limitations lead to repetition and sometimes even difficulties in formulation..
- ◆ Possess sufficient vocabulary to express themselves with some circumlocution on most topics relevant to their daily lives, such as family, hobbies and interests, work, travel, and current events.
- ◆ Demonstrate a good command of elementary vocabulary, even if significant errors are made when expressing more complex thoughts, or when dealing with unusual topics and situations.
- ◆ Communicate with reasonable accuracy in everyday situations; generally have good grammatical control, although with obvious mother tongue influence
- ◆ Use, with reasonable accuracy, a repertoire of common "formulas" and structures related to the most predictable situations.
- ◆ Speak clearly and intelligibly, even if the foreign accent is sometimes evident and occasional mispronunciations are made.
- ◆ Produce continuous writing that is usually intelligible throughout. Spelling, punctuation and structuring are correct enough to be understood most of the time.

### Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, *storytelling*, videos and real situations.

*Only TECH offers their students videos with the 250 specific situations required to master the CEFR B1.*

*To consolidate all these skills, you will have access to more than 500 lexical, vocabulary and sociocultural activities”*

# 11 The Professional Benefits of English

Today, English is a universal language, it is almost mandatory at the professional level in all parts of the world, it is fundamental in any area of personal or professional life: it is the language used in the economic field, international trade, tourism, diplomacy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world we live in, it is a tool that allows people from all over the world to communicate with each other.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large part of job offers, scholarships, university careers, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a better education, without limiting ourselves to universities or training centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

“

*Today, English is the universal language. It is almost obligatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life"*

# Assessment and Certification

The main evaluation objective of TECH's assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*TECH'S B1 Language Course is the only one that also awards you with a university certificate”*

“

*Only TECH will award students, upon successful completion of the course, a university certificate"*

### English B1 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

### Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.

*If you pass our course, you will obtain an B1 English language qualification from TECH.*

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by **TECH Global University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

*The CEFR B1 English Language Course an intensive course lasting a maximum of 4 months.*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
