Welcome

Countries with strong economies such as Switzerland, Canada or Luxembourg have adopted French as one of their official languages, which makes them attractive destinations for successful job opportunities. Studies show that more than 70% of job offers for managerial or more prestigious positions are restricted to those with a high command of the language. Therefore, in order to access the best positions it is necessary to have a more developed control of the language, which is why TECH has developed this thorough University Course.

Presentation video

“

You will be able to develop in specific work and professional environments, managing with greater perfection the French language"

Introduction

France is the most visited tourist destination in the world. This makes it especially attractive for native speakers of other languages looking for a good job opportunity, as the tourism sector generates a multitude of jobs for which a good command of several languages is highly valued. At Level C1 of French, the student already has a developed reading and oral comprehension, as well as the ability to engage in conversations in a natural and fluent way, so they will be able to demonstrate a good ability in the use of French and be able to apply for very interesting job offers.

*Mastering French
will open doors to
numerous job offers,
as France is one of the
strongest economies in
Europe and worldwide*

*You will pass the French Level C1 Exam without
any major setback thanks to the completeness
of this University Course*

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

tech 10 | Is it Important to Obtain a Language Certification?

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.**

Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union”.

At TECH, we offer you the only intensive Language Course to obtain your **official certificate** based 100% on the CEFR, **the only official system recognized and accepted throughout Europe.**

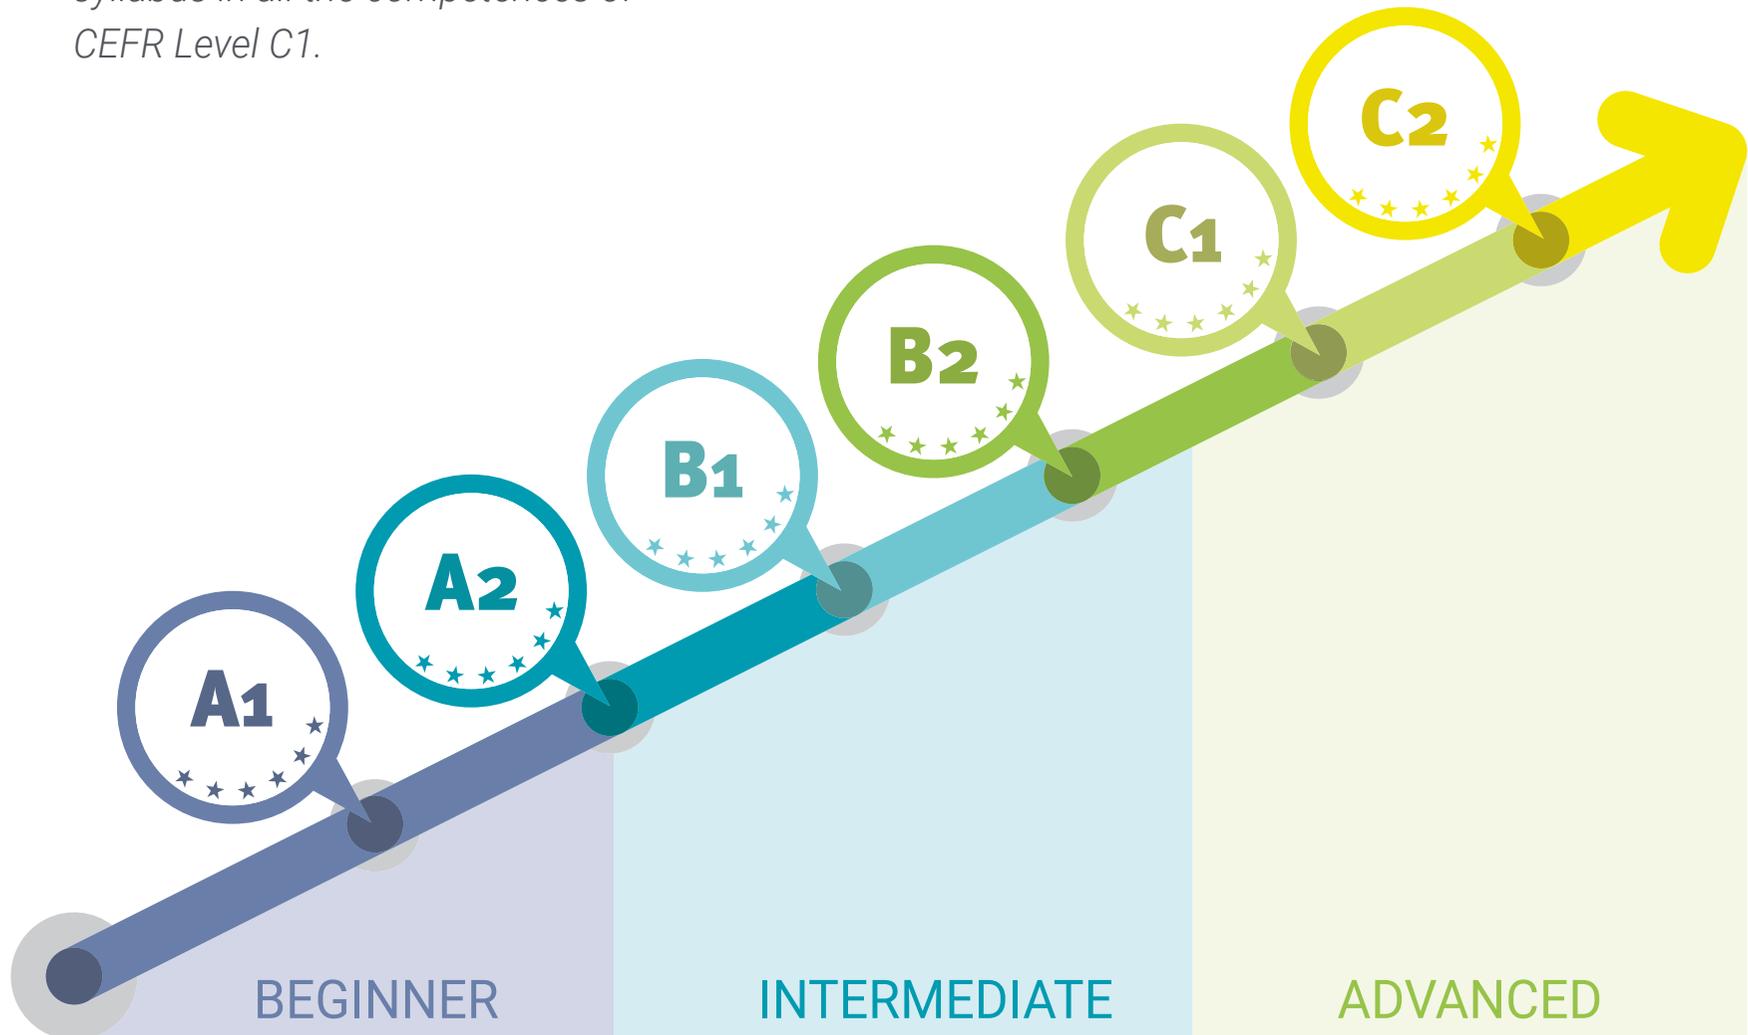

Learn French and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

“

You will have at your disposal a comprehensive and complete syllabus in all the competences of CEFR Level C1.

03

What Is Level C1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the letters 'C1' written in red. The sign is positioned in the center-left of the frame. In the background, there are several thin, light blue lines that curve across the top of the page, creating a sense of motion or a digital wave.

C₁

“

In TECH C1 Level Language Course, we thoroughly prepare you to obtain your French C1 language certificate”

What are the C1 Level Skills?

01

Understand a wide variety of long and demanding texts and recognize implicit meanings in them

02

Express themselves fluently and spontaneously without much obvious effort to find the right expression

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Make flexible and effective use of the language for social, academic and professional purposes

04

Produce clear, well-structured and detailed texts on topics of a certain complexity, showing a correct use of the mechanisms of text organization, articulation and cohesion

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ◆ Consistently maintains a high degree of grammatical correctness
- ◆ errors are rare, difficult to locate and usually corrected when they occur

Fluency

- ◆ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of La expression

Interaction

- ◆ Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- ◆ Skilfully connect your own interventions to those of the other speakers

Coherence

- ◆ Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

- Grammar test: Problems with grammar? Practice with our 300 specific grammar and spelling questions.
- Final review test: you will work through more than 1,500 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: in order to consolidate the concepts developed throughout the syllabus by reiterating them.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 500 different activities in order to prepare students to obtain their French C1 certificate.

Presentation Videos and Objectives

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 200 everyday situations, stories and video dialogues recorded by experts and native speakers.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Our Methodology

The TECH program is an intensive preparation course designed to prepare students to obtain the C1 French certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 French Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our goal is to strengthen your skills in a changing, real and multicultural context, and guarantee your success in passing the level exam. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with a 100% online

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C1 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Relearning Methodology

In TECH's Intensive C1 French Language Course, learning is not a linear process, but rather a spiral (we learn– unlearn (forget) and relearn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive context-dependent learning*, the different elements of our intensive French C1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy

- ◆ Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics
- ◆ Understand with relative ease most lectures, discussions and debates
- ◆ Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.
- ◆ Understand complex technical information, such as operating instructions, product specifications, and everyday services
- ◆ Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers
- ◆ Understand in detail long and complex texts, whether or not they relate to their specialty, provided that they can reread difficult sections
- ◆ Understand any communication with sporadic use of the dictionary
- ◆ Understand in detail a wide range of lengthy and complex texts that you are likely to encounter in social, professional or academic life, and identify subtle details including both implicit and explicit attitudes and opinions
- ◆ Understand in detail lengthy and complex instructions on new machines or procedures, whether the instructions relate to your field of specialty or not, provided you can reread the difficult sections
- ◆ Understand films that use a considerable amount of slang or colloquial language and idiomatic expressions
- ◆ Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion
- ◆ Perform clear and detailed descriptions of complex topics
- ◆ Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning
- ◆ Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort
- ◆ Write clear and well-structured texts on complex topics highlighting the main ideas, expanding at some length and defending their points of view with appropriate complementary ideas, reasons and examples, ending with an appropriate conclusion
- ◆ Write descriptions and imaginary texts in a clear, detailed and well-structured way, with a convincing, personal and natural style that is appropriate for the intended readers
- ◆ Write clear and well-structured presentations on complex topics, highlighting the main ideas. Expand at some length and defend points of view with complementary ideas, reasons and suitable examples

"Paris is one of the world capitals of fashion and haute couture, so I knew I needed to have a high command of French to be able to be on the big catwalks. With TECH's online University Courses I was able to combine my French learning with my ever-changing modeling work, so I am very grateful for the online format"

Ruth Espinosa

Model

"When I studied my degree, it was clear to me that I wanted to emigrate to a foreign country, where I could find better opportunities as a native speaker of another language. Among all of them, I chose France, as it seemed to me an attractive destination that was also in the world's top tourist destination. Thanks to TECH's University Courses, I was able to learn to master French quickly before finishing my degree, so it took me very little time to adapt to the environment"

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

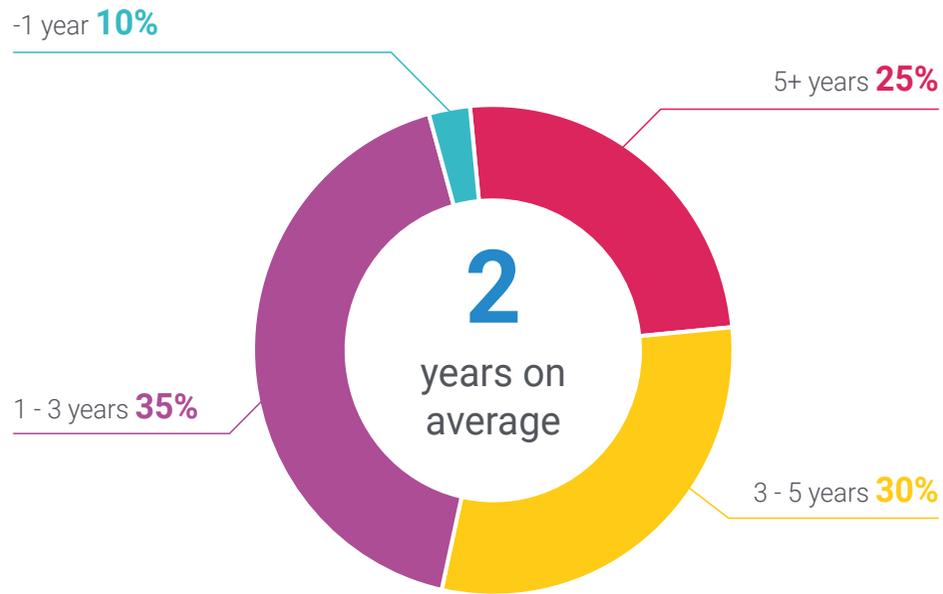

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH 9 out of 10 students recommend us”

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized diploma.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH C1 Language Course is the only one that also awards you with a university certificate”

French C1 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

“ Only *TECH* will award you, upon successful completion of the course, a university certificate”

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency.
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.
- Discursive capacity: coherence of ideas, organization and development.
- Use of language: linguistic expressions, formal resources of cohesion and flexibility
- Formal correction: grammar, discourse cohesion, vocabulary and spelling.

If you pass our course, you will obtain an C1 French language certificate from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by **TECH Global University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C1 English Language Course is an intensive course lasting a maximum of 4 months.

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
