01 Welcome

An improved level of English increases employability exponentially, given the increasing demand for this language in a multitude of jobs. Mastering it at a level close to bilingualism therefore allows access to the best job offers in leading companies. For this reason, TECH has created this Language Course where native teachers have contributed their expert knowledge of the English language. Students will have access to a variety of practical exercises and audiovisual material to maximize their language skills.

Presentation video

“

You will have the opportunity to work in the highest positions, increasing your employability with a C2 level of English”

Introduction

Possessing a C2 level of English does not only dramatically improve your employability for any career, but also has a significant influence on a person's personal life. A person with this level will be able to travel and communicate in almost any country in the world, as it is a universal language shared by people of all nationalities. Also, the best research and information is published first in English because of its widespread distribution potential, thereby giving speakers preferential access to the most important scientific studies or technological developments.

You will take your English to the highest level accompanied by a group of native professionals committed to helping you obtain your Level C2 certificate

You will be able to function in a professional or social environment, including specific situations related to culture, economics or politics

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have a certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with a CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR program"

tech 10 | Is it Important to Obtain a Language Certificate?

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency.

Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificate that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

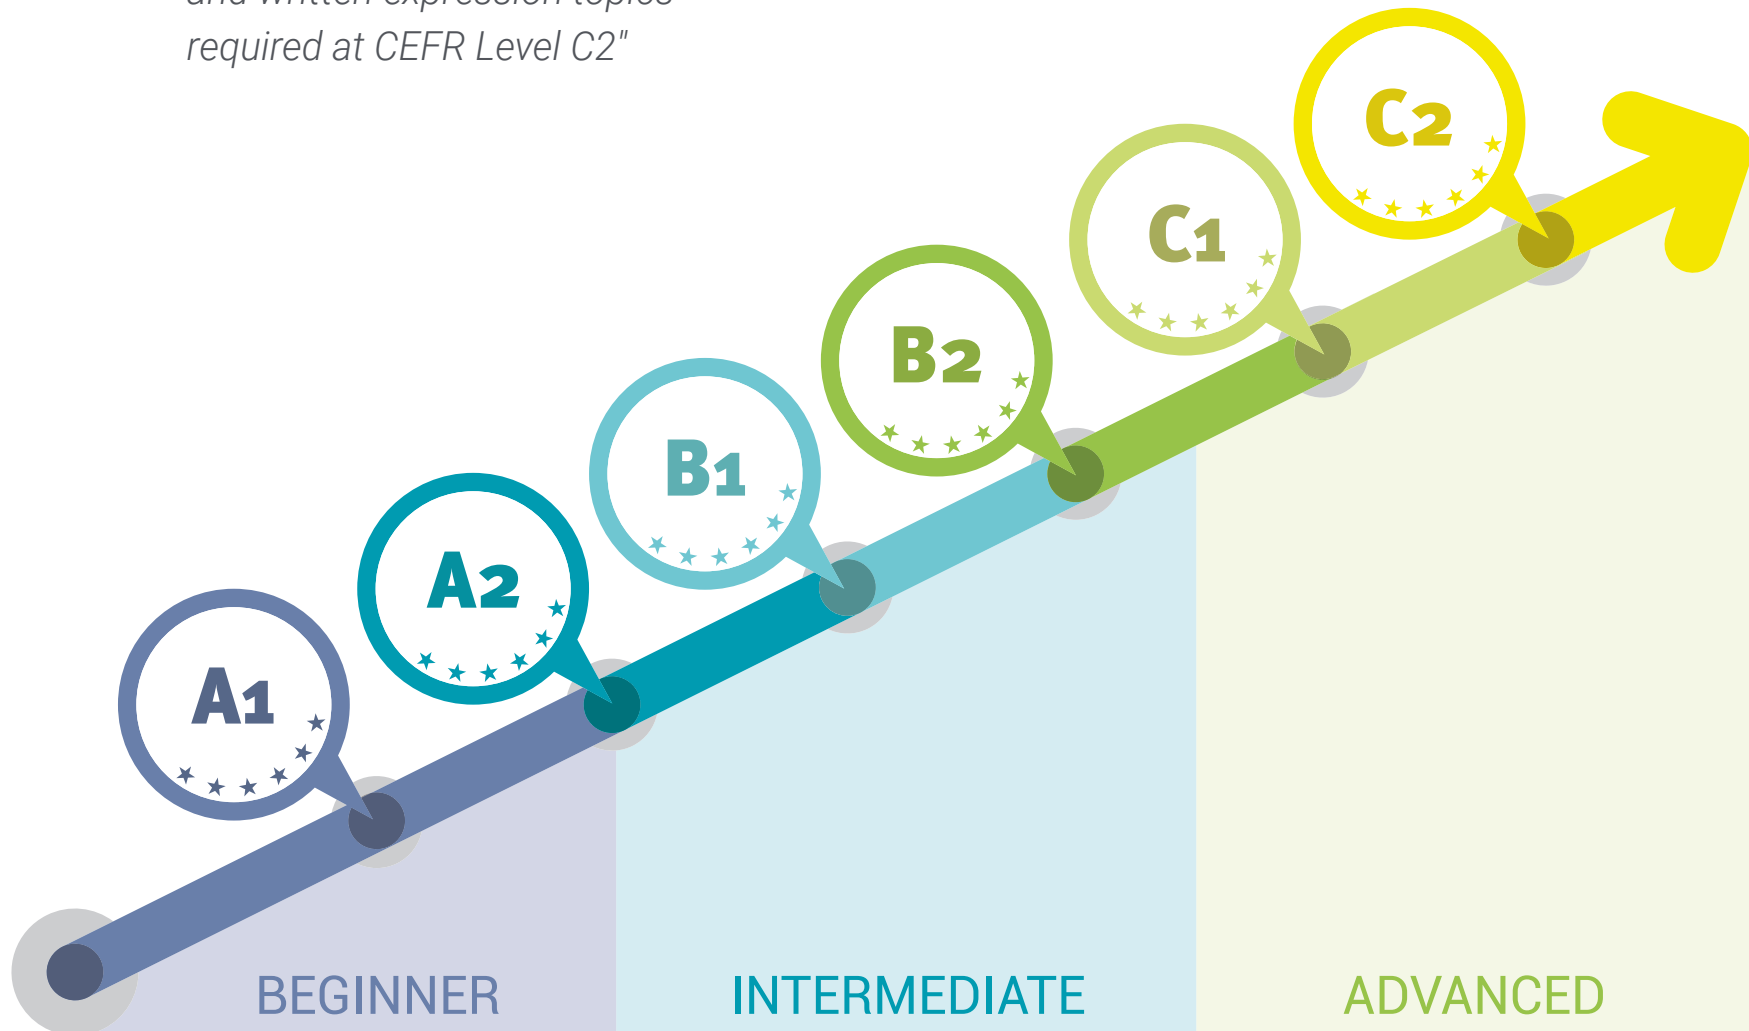

Learn English and make the most of it by accrediting it with a qualification based on the CEFR

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life

“

You will find the main grammar, vocabulary, oral expression and written expression topics required at CEFR Level C2”

03

What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

“

In TECH's C2 Language Course we thoroughly prepare you to obtain your English C2 certificate"

What are the C2 Level Skills?

01

Can easily understand virtually everything they hear or read

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Can express themselves spontaneously, with great fluency and with a degree of precision that allows them to differentiate fine nuances in meaning, even in more complex situations

C2 Level Self-Assessment Chart

What will students be able to do after completing the course?

Comprehension	Speaking	Writing
<p>Listening Comprehension</p> <ul style="list-style-type: none">♦ Have no difficulty understanding any type of spoken language, whether in live conversation or in broadcast speech, even if it is produced at native speaker speed, as long as he has time to become familiar with the accent.	<p>Oral Interaction</p> <ul style="list-style-type: none">♦ Effortlessly take part in any conversation or debate♦ Be familiar with idioms, set phrases and colloquial expressions♦ Express oneself fluently and accurately convey subtle nuances of meaning♦ Get around difficulties so discreetly that others hardly notice	<p>Written Expression</p> <ul style="list-style-type: none">♦ Write clear and fluent texts in a suitable style♦ Write complex letters, reports or articles that present arguments in a logical and effective structure that helps the reader focus on and remember important ideas♦ Write summaries and reviews of professional or literary works
<p>Reading Comprehension</p> <ul style="list-style-type: none">♦ Read with ease virtually all forms of written language, including abstract, structurally or linguistically complex texts, e.g., manuals, specialized articles, and literary works	<p>Oral Expression</p> <ul style="list-style-type: none">♦ Present descriptions or arguments clearly and fluently, and in a style that is appropriate to the context, with a logical and effective structure that helps the listener to focus on the important ideas and remember them

Qualitative aspects of spoken language usage for Level C2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Show great flexibility in reformulating ideas by differentiating linguistic forms to accurately convey nuances of meaning, emphasize, differentiate and eliminate ambiguity
- Also have a good command of idiomatic and colloquial expressions

Correction

- Maintain a consistent grammatical command at a complex level of language, even though attention may be focused on other aspects (e.g., planning, or monitoring the reactions of others)

Fluency

- Express oneself spontaneously and in depth with natural, colloquial fluency, avoiding or circumventing difficulties so discreetly that others hardly notice

Interaction

- Participate in conversation with ease and skill, picking up and using non-verbal and intonation cues with no apparent effort
- Intervene in conversation waiting their turn giving references, making allusions, etc., in a natural way

Coherence

- Create coherent and cohesive discourse, making full and appropriate use of varied organizational structures and a wide range of connectors and other cohesive mechanisms

Download and practice vocabulary with more than 160 pages of lexical cards and glossaries

- Grammar and spelling activities: Work on more than 500 grammar activities from a different and innovative approach.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the English C2 preparation course.

- Lesson test: After each topic, you can test and consolidate what you have learned with more than 500 test questions
- Grammar test: Problems with grammar? Practice with our 300 specific grammar and spelling questions
- Final review test: You will work through more than 400 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: Consolidate the concepts developed throughout the syllabus by reiterating them

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this program, we work according to skills, with more than 500 different activities in order to prepare students to obtain their English C2 certificate.

Presentation Videos and Objectives

The only program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this program students will find more than 200 everyday situations, stories and video dialogues, recorded by experts and native speakers.

900+ pages of downloadable study material

500+ lexical and sociocultural activities

1,200+ assessment questions

24/7 personalized tutoring and monitoring

Our Methodology

This TECH Language Course is an intensive program designed to prepare students to obtain the C2 English certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

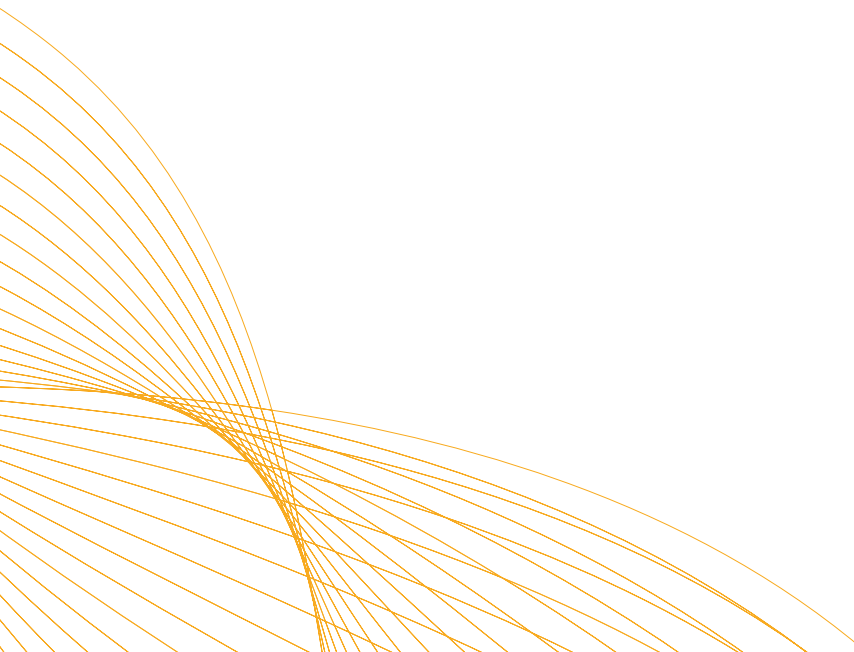

TECH's C2 English Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

Through activities, stories and real contexts, students will learn how to solve everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C2 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first in the world licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards

Relearning Methodology

In TECH's C2 English Language Course, learning is not a linear process, but rather a spiral (we learn, unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led syllabus...

In order to maximize tutor-student contact, we provide you with a tutor so that you can write essays, receive answers to your questions or study recommendations, both in real time and on a delayed basis (internal messaging, discussion forums, telephone answering service, e-mail contact with the technical secretary, chat and videoconference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called “Neurocognitive Context-Dependent Learning”, the different elements of our C2 English Language Course are connected with the context in which the participant will take their exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy...

"I had an intermediate level of English for many years, but I gradually realized that I needed to go one step further to improve my relationships with my clients. Studying at an academy is complicated for me because my job requires me to be constantly on the move. Luckily, with TECH Language Courses I could always study from my tablet and finally reached the C2 level I was aiming for"

Borja Galán

A Spanish businessman

"In the world of marketing it is essential not only to know English, but to master it to perfection. Most of the meetings and campaigns we do are aimed at American and English audiences, so there is no room for error in this area. The TECH Language Courses helped me to reach the highest level in the language, much faster than I expected. I am immensely grateful to all the staff and faculty for the professionalism they showed at all times"

Marta Robledo

Head of marketing for a multinational technology company

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared for thoroughly and with good expert guidance.

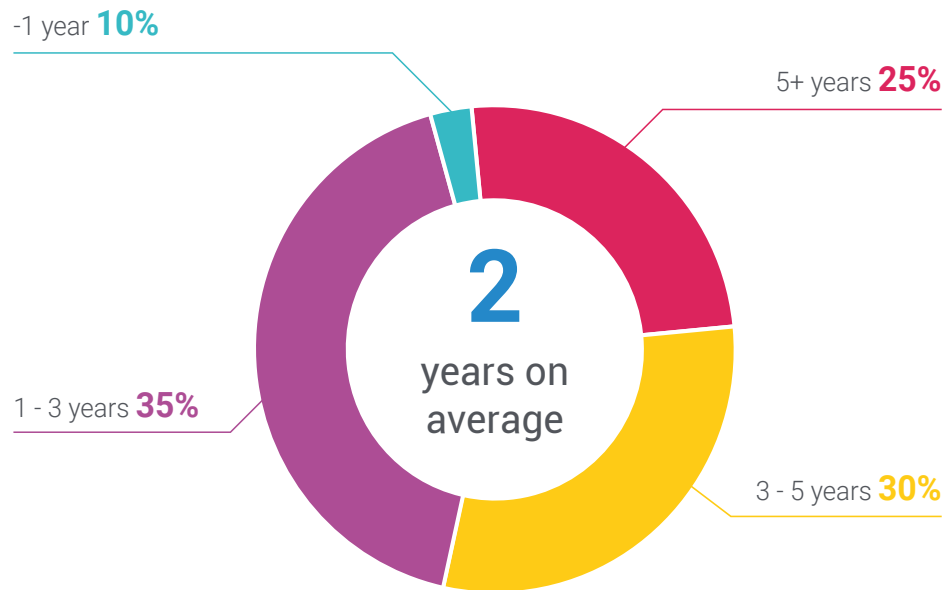

“

Many of our students have previously tried other preparation methods that led them to lose motivation. At TECH , 9 out of 10 students recommend us”

11 The Professional Benefits of English

Today, English is the universal language, it is almost obligatory for work in all parts of the world and it is fundamental in any area of personal or professional life: it is the language used in the economic field, international trade, tourism, diplomacy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world we live in, it is a tool that allows people from all over the world to communicate with each other.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large percentage of job offers, scholarships, university degrees, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a wider education, without limiting ourselves to universities or educational centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH's intensive C2 Language Course is the only one that also awards you with a university certificate"

“

Only TECH will award you a university certificate upon successful completion of the course”

English C2 language course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Language course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

If you pass our course, you will obtain an C2 English language qualification from TECH

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by TECH Technological University only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C2 English Language Course an intensive course lasting a maximum of 4 months

Certification

Upon completion of the course, the student will receive a certificate of recognition that will verify that the student is ready to obtain, if they wish, the certification of that level.
