01 Welcome

Germany has one of the largest economies in Europe, with the fourth highest nominal GDP in the world. In addition, its labor force has a high employment rate, which attracts more and more young people and entrepreneurs every day to continue their plans and projects in the country. Therefore, it is essential to have an expert command of the language, an objective that this TECH Language Course makes possible. Through a set of exercises and activities, carried out by native teachers, students will polish their linguistic and grammatical skills in the language. In addition, you will expand your vocabulary and will be able to express yourself fluently in any professional, academic or everyday situation.

Presentation video

“

C2 Level German is the final step towards certifying your proficiency in the language. Thanks to this course, you will be able to obtain your certification endorsed by the CEFR”

Introduction

Germany is a world power, but it is not only notable for its stable economy, it is also the center of great historical discoveries such as Gutenberg's printing press or Hertz's electromagnetic waves. In addition, Munich (Germany) is second only to New York as the largest producer of new books per year. Similarly, it is important to mention that Germany is the birthplace of some of the world's greatest composers, such as Ludwig van Beethoven and Richard Strauss. For all these reasons, many students and businessmen choose this country as a destination to further their studies or professional careers.

With this in mind, TECH has designed this Language Course to help students improve and perfect their language skills. Its focus is to provide students with sufficient language skills to pass the CEFR certification exam, which will allow them to access better opportunities in any German-speaking country.

Thanks to numerous practical exercises, designed by native teachers, you will be able to perfect your accent, increase your vocabulary and become fluent in any conversation using the German language.

With this Language Course you will achieve the highest level of certification in a language: C2 German.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

tech 10 | Is it Important to Obtain a Language Certificate?

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

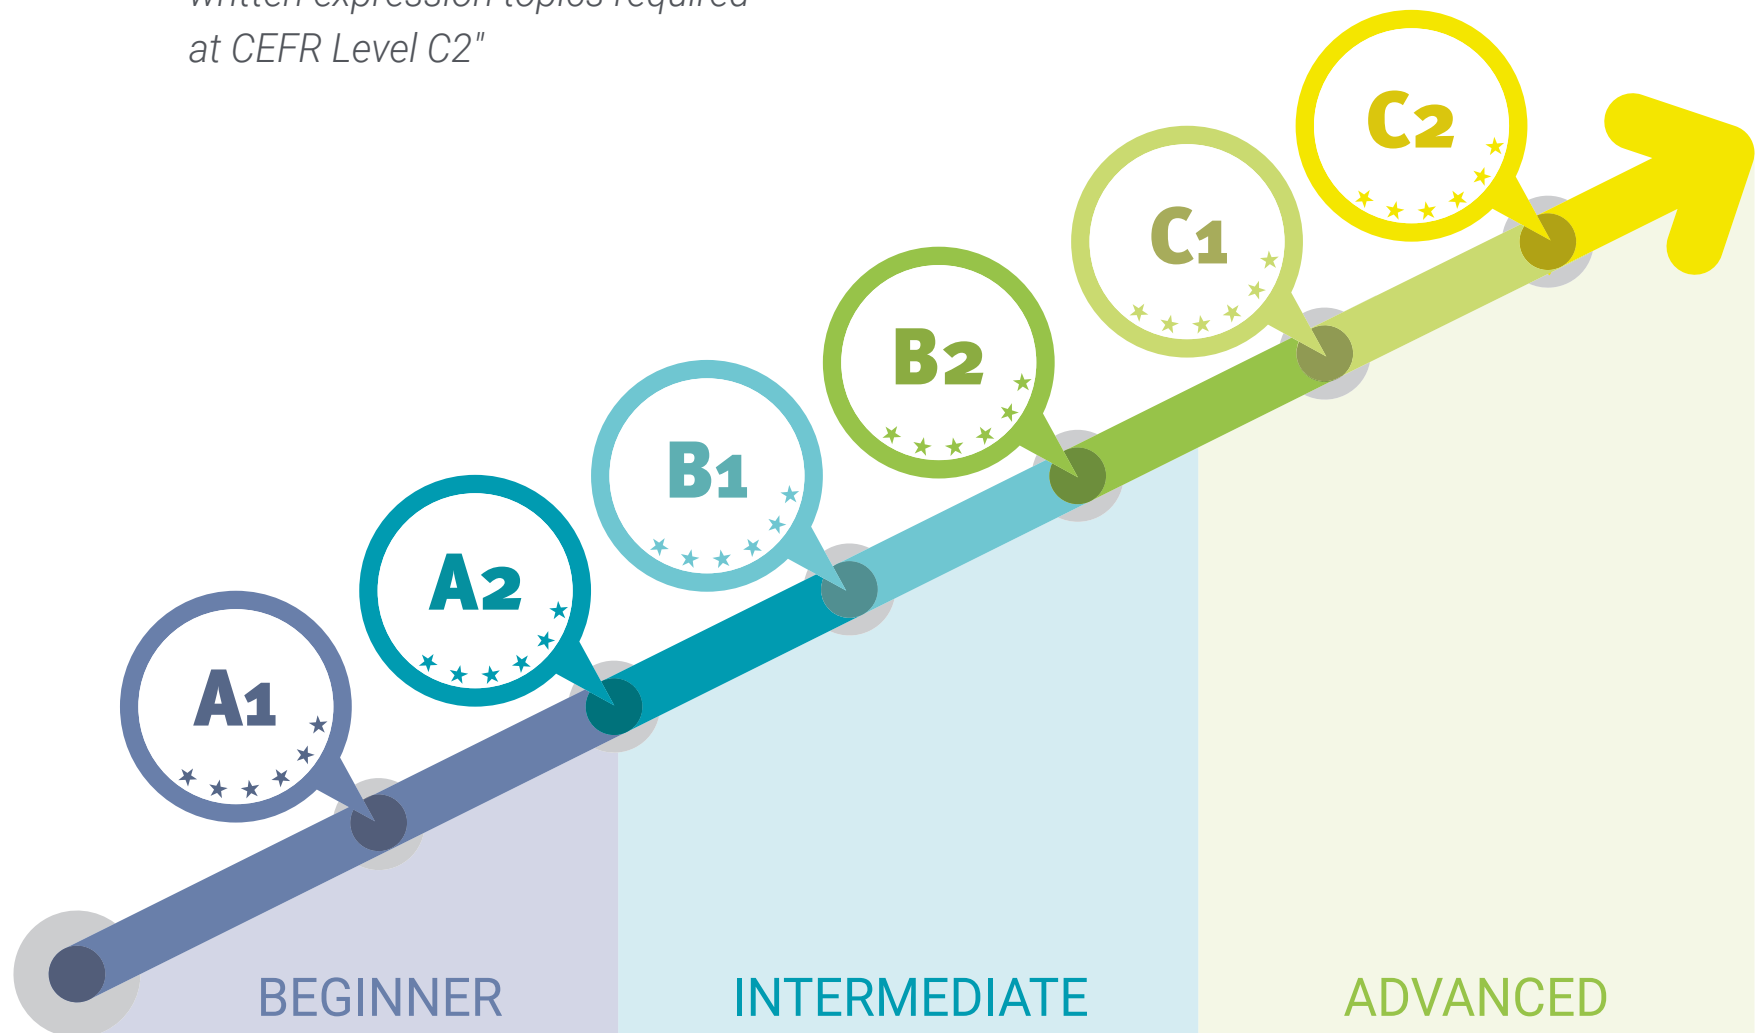

Learn German and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

“

You will find the main grammar, vocabulary, oral expression and written expression topics required at CEFR Level C2”

03

What Is Level C2?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the red text 'C1' in the center. The sign is held in front of their face. The background is white with a decorative graphic of many thin, light blue lines that curve and flow across the top and right side of the page.

- Final review test: You will work through more than 400 assessment questions to thoroughly prepare for your level certification.
- Pre-test activities: In order to consolidate the concepts developed throughout the syllabus by reiterating them.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 500 different activities in order to prepare you to obtain your official German C2 certificate.

Presentation Videos and Objectives

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 200 everyday situations, stories and video dialogues recorded by experts and native speakers.

Specific Virtual Classes for CEFR C2

Our Methodology

This TECH Language Course is an intensive program designed to prepare students to obtain the C2 German certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 German Language Course offers you a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test, To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that

... All of this is enhanced with the best 100% online teaching methodology: Re-learning....

represent an evolution with respect to the simple study and performance of exercises.

Our C2 CEFR preparation course is the only one on the market licensed to use the Re-learning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, Respect to the highest international standards.

Re-learning Methodology

In TECH's C2 German Language Course, learning is not a linear process, but rather a spiral (we learn- unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called *Neurocognitive Context-Dependent Learning* the different elements of our C2 English Language Course are connected with the context in which the participant will take their Intensive exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy...

- ♦ Accurately convey subtle shades of meaning using a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
- ♦ Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent
- ♦ Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations
- ♦ Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
- ♦ Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker
- ♦ Express themselves with clarity and precision, speak with the addressee with flexibility and efficiency
- ♦ Express themselves with clarity and precision in personal communication, use the language flexibly and effectively; including emotional, allusive, and humorous uses

09

Course Structure and Content

The structure of this Language Course has been designed with extreme care, thanks to the support provided by a German-speaking teaching team. This team has tailored the program to meet the requirements of the CEFR, so that students can improve and reinforce their understanding of the language, and take the exam with an excellent level that will ensure that they pass and complete their language studies.

Where, When and How is it Taught?

This course takes place over 4 months and is divided into 16 content modules. You can do it completely online, even attending our sessions and tutorials.

"Learning German was a challenge that started after visiting Munich for the first time. So, when I came back to my country, I looked around for many courses that would allow me to learn at my own pace and TECH was by far the best of them all. Now, a year later, I have managed to obtain a certificate at the highest level and I can start planning new projects in that beautiful country"

Lucia de Fuentes

A student from Colombia

"When my company started doing business with Austrian suppliers, it was clear to me that I needed to improve my German language skills to facilitate communication with them. So I started to look for a course that would allow me to study the language online. Therefore, when I found the TECH program, I didn't hesitate and I haven't looked back since. I have quickly advanced to C2 level certification, so I am fluent in the language and understand any conversation perfectly"

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH, 9 out of 10 students recommend us”

The Professional Benefits of German

German is the ninth most spoken language in the world. It is spoken in countries such as: Switzerland, Austria, Luxembourg and Belgium. And also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the most affluent countries and offers excellent working conditions; the engine of Europe, Germany, offers great employment opportunities to anyone who is willing to work. However, a good level of German is a prerequisite for working in these countries. Many have tried their luck and emigrated from their home countries in search of work, but doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing German will also make it easier to create or maintain working relationships with German-speaking associates in your country. It will undoubtedly help to strengthen relationships and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH's intensive C2 Language Course is the only one that also awards you with a university certificate"

“ Only TECH will award you, upon successful completion of the course, a university certificate”

German C2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.
- Discursive capacity: coherence of ideas, organization and development.
- Use of language: linguistic expressions, formal resources of cohesion and flexibility
- Formal correction: grammar, discourse cohesion, vocabulary and spelling.

If you pass our course, you will obtain an C2 German language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by **TECH Global University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C2 German Language Course is an intensive program lasting a maximum of 6 months.

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
