# Welcome

Based on the criteria of the Common European Framework of Reference for Languages, TECH has developed this Language Course to prepare students as competently as possible in the Chinese language. Being a language generally difficult to study for Western students, native Chinese teachers have put all their effort in providing the most useful skills and competences to successfully pass the A2 Chinese exam and to be able to understand it at an advanced basic level.

*Presentation video*

“

*Register now and don't miss the opportunity to continue enhancing your professional future by improving your level of Chinese"*

## Introduction

Even if one does not wish to move to China, basic knowledge of this language becomes a competitive advantage, as there are many companies that have connections with the Asian giant. TECH has opted for a 100% online teaching for this Language Course of Chinese preparation, with an eminently practical methodology in which the student improves their level of Chinese through hundreds of grammar and spelling exercises. As a result, you will be fluent in the language corresponding to CEFR Level A2.

*Technology giants such as Xiaomi, Lenovo and Tencent have a large presence around the world. With a basic level of Chinese it will be much easier to get a good job with them.*

*Studying Chinese is the linguistic future of a globalized world where all industry is concentrated in Asia. Don't get left behind and sign up now for this Language Course.*

“

*It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks”*

# Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## tech 10 | Is it Important to Obtain a Language Certificate?

### TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized.

*Learn Chinese and make the most of it by accrediting it with an official qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.*

“

*We work with the most comprehensive and complete syllabus, with 45 units per level based 100% on the Common European Framework of Reference for Languages”*

03

# What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2).

**A<sub>2</sub>**

“

*This is the opportunity you have been waiting for to learn and improve one of the most promising languages"*

## What are the A2 Level Skills?

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buys tickets; ordering and providing everyday goods and services.

*TECH helps you to get your qualification with this intensive, 100% CEFR training”*

01

Can understand sentences and frequently used expressions related to areas of experience that are particularly relevant to them (basic information about themselves and their family, shopping, places of interest, occupations, etc.)

02

Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03

Can describe in simple terms aspects of their background and environment, as well as issues related to their immediate needs

## A2 level Self-Assessment Chart

### What will I be able to do after completing the course?

#### Comprehension

##### Listening Comprehension

- ◆ Capture the main idea of short, clear and simple messages and notices

##### Reading Comprehension

- ◆ Read very short and simple texts
- ◆ Finding specific and predictable information in simple, everyday written material, such as advertisements, prospectuses, menus, and schedules, and understanding short, simple personal letters

#### Speaking

##### Oral Interaction

- ◆ Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues
- ◆ Very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own

##### Oral Expression

- ◆ Use a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job

#### Writing

##### Written Expression

- ◆ Write short, simple notes and messages related to their immediate needs
- ◆ Write very simple personal letters, e.g., thanking someone for something.

*Check your level. Assess yourself. More than 1.500 multiple-choice questions for continuous evaluation.*

## Qualitative aspects of spoken language usage for Level A2 (According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

---

- ◆ Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations.

#### Correction

---

- ◆ Use some simple structures correctly, although basic systematic mistakes are still made.

#### Fluency

---

- ◆ Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident.

#### Interaction

---

- ◆ Answer questions and respond to simple statements
- ◆ Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord

#### Coherence

---

- ◆ Link groups of words with simple connectors such as "and", "but" and "because".

*Download and practice vocabulary: More than 160 pages of word cards and glossaries.*

- Final review test: you will work through more than 900 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: in order to consolidate the concepts developed throughout the syllabus by reiterating them

## Skills-based Practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 400 different activities in order to prepare you to obtain your official Chinese A2 certificate.

## Presentation Videos and Objectives

---

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

## Summary Videos of Each Unit

---

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

## Video Task

---

Test what you know in a different way, solve our video-task!

## Simulated Learning Scenarios

---

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 180 everyday situations, stories and video dialogues recorded by experts and native speakers.

*1,200+ pages of downloadable study material*

*400+ lexical and sociocultural activities*

*1,200+ assessment questions*

# Our Methodology

The TECH program is an intensive preparation course designed to prepare students to obtain the A2 Chinese certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

*In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit”*

## The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A2 Chinese Language Course offers you a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

*Our A2 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.*

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

### Relearning Methodology

In TECH's Intensive A2 Chinese Language Course, learning is not a linear process, but rather a spiral (we learn unlearn (forget) and relearn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

*...with a personalized and expert-led training itinerary..*

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called Neurocognitive Context-Dependent Learning, the different elements of our intensive Chinese A2 language preparation course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

*and all this with the best learning materials at the forefront of technology and pedagogy.*

*Study wherever and however you want: more than 150 downloadable and printable grammar and lexical worksheets and glossaries.*

## Course Objectives

The A2 Chinese Language Course is a program that has been developed to help students improve their Chinese language skills. To this end, students will have access to a variety of practical exercises, educational classes and the best teaching staff, all of whom are native speakers. Furthermore, the requirements established by the Common European Framework of Reference for Languages, an international system that endorses the language skills of those who have obtained certification, will be taken into account.

“

*Native teachers will give you the keys to pass the A2 exam in a convenient video format"*

### General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02

Understand, interact and express themselves simply, but appropriately and effectively in these situations, both orally and in writing

03

Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04

Use the linguistic resources necessary to get by in these situations

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06

Acquire tools that enable the student to assess and improve their own learning and use of the language

### Specific Objectives

#### Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identifies the topic being discussed, provided it is conducted slowly and clearly.
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation
- Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly

#### Written Expression

- Write a series of simple phrases and sentences linked with simple connectors such as "and", "but" and "because"
- Write a series of simple phrases and sentences about their family, their living conditions, their studies, their present job or the last one they had. Write short, simple imaginary biographies and simple poems about people

## Reading Comprehension

- Understand short, simple texts on everyday matters if they contain very frequent, everyday or work-related vocabulary
- Understand short and simple texts containing very frequent vocabulary, including a good part of internationally shared vocabulary terms
- Understand basic types of commonly used letters and faxes (forms, orders, confirmation letters, etc.) on everyday topics
- Understand short and simple personal letters
- Find specific and predictable information in everyday written material, such as advertisements, prospectuses, restaurant menus, listings, and schedules
- Locate specific information in listings and isolate the required information (e.g., knows how to use the "Yellow Pages" to search for a service or a business)
- Understand signs and signals found in public places, such as streets, restaurants, train stations, and workplaces, e.g., directions to a location, instructions and hazard warnings
- Identify specific information in simple written material, such as letters, catalogs and short newspaper articles describing specific events
- Understand rules that are expressed at a simple level of language
- Understand simple instructions for frequently used appliances, such as a public telephone.
- Identify the main idea of television news reporting events, accidents, etc., when there is visual support to complement the discourse
- Know when TV news has changed topics and get an idea of the main content

## Oral Expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences
- Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of their environment; for example, people, places, a work or study experience
- Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences
- Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons. Explain what they like and dislike about something
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- Answer a limited number of questions with immediate and simple answers

## Specific Objectives

### Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment. Use, in general, a standard language register of basic but careful formality and informality. Identify some very frequent colloquial expressions, as well as elementary cultural references related to everyday life
- Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

### Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned
- In language construction, achieving limited control, with the possible systematic errors of the level
- Pronounce clearly and understandably even if the foreign accent is evident
- Write with correct spelling the common language worked on

“

*To consolidate all these skills, you will have access to more than 400 lexical, vocabulary and sociocultural activities”*

#### **Did you know?**

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, storytelling, videos and real situations.

*Only TECH offers videos with the 180 specific situations required to master the CEFR A2.*

09

# Course Structure and Content

The structure and contents of this Language Course have been exhaustively created by TECH's native teachers and staff, in order to instruct the student in the essential topics to achieve the A2 certificate in Chinese according to the CEFR. To this end, more than 1,200 continuous assessment questions, more than 300 grammar sheets and more than 500 different practice exercises have been developed, all in a day-by-day itinerary to help students organize their study time.

### Where, When and How is it Taught?

This course takes place over 4 months and is divided into 12 content modules. It can be done completely online, including attending the different sessions and tutorials.

“

*This is the only intensive program in existence that is totally focused on obtaining the CEFR Level A2. Don't wait any longer, sign up now"*

*"I went on a trip to China and its culture completely captivated me. I knew I wanted to move my life there, so I started studying the language with TECH and I honestly couldn't be happier. At the beginning it was difficult, but little by little I was able to pass the levels. I am now at B2 so I encourage everyone to lose their fear of Chinese and study it without barriers."*

# Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

*Many of our students have come from other preparation methods that have led to loss of motivation. At TECH, 9 out of 10 students recommend us”*

# The Professional Benefits of Chinese

The Chinese language, the highest expression of Chinese culture, based on symbols, is more than 5,000 years old and gives rise to more than 55 languages and 2,000 dialects as a result of its geographical, phonetic and dialectical variants. Mandarin Chinese is the official language of the People's Republic of China and is also spoken in countries such as Cambodia, Burma, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Taiwan.

Mandarin Chinese is an original Beijing dialect which, according to official statistics, is the most widely spoken language in the world with more than 1.3 billion speakers. It is one of the six official languages of the United Nations (UN) along with Arabic, English, French, Russian, Spanish and French.

Nowadays, it seems essential in the multicultural and global society in which we live to broaden our knowledge and teaching of the Chinese language, to know its language, habits and customs, which will lead us to improve our international and commercial relations, to close economic agreements and to establish direct contact with Chinese citizens.

China is in fashion. Its spectacular growth is increasingly attracting Spanish entrepreneurs who are looking for an opportunity in the Asian colossus. But doing business in China can be a nightmare if you are not prepared. The cultural differences are so vast that they extend to all aspects of the business world: negotiation, contracts, legislation or a simple working dinner. For this reason, guanxi or social relations should also be studied.

*Understanding the cultural context  
of communication is fundamental to  
successfully decoding a message”*

# Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*TECH'S A2 Language Course is the only one that also awards you with a university certificate”*

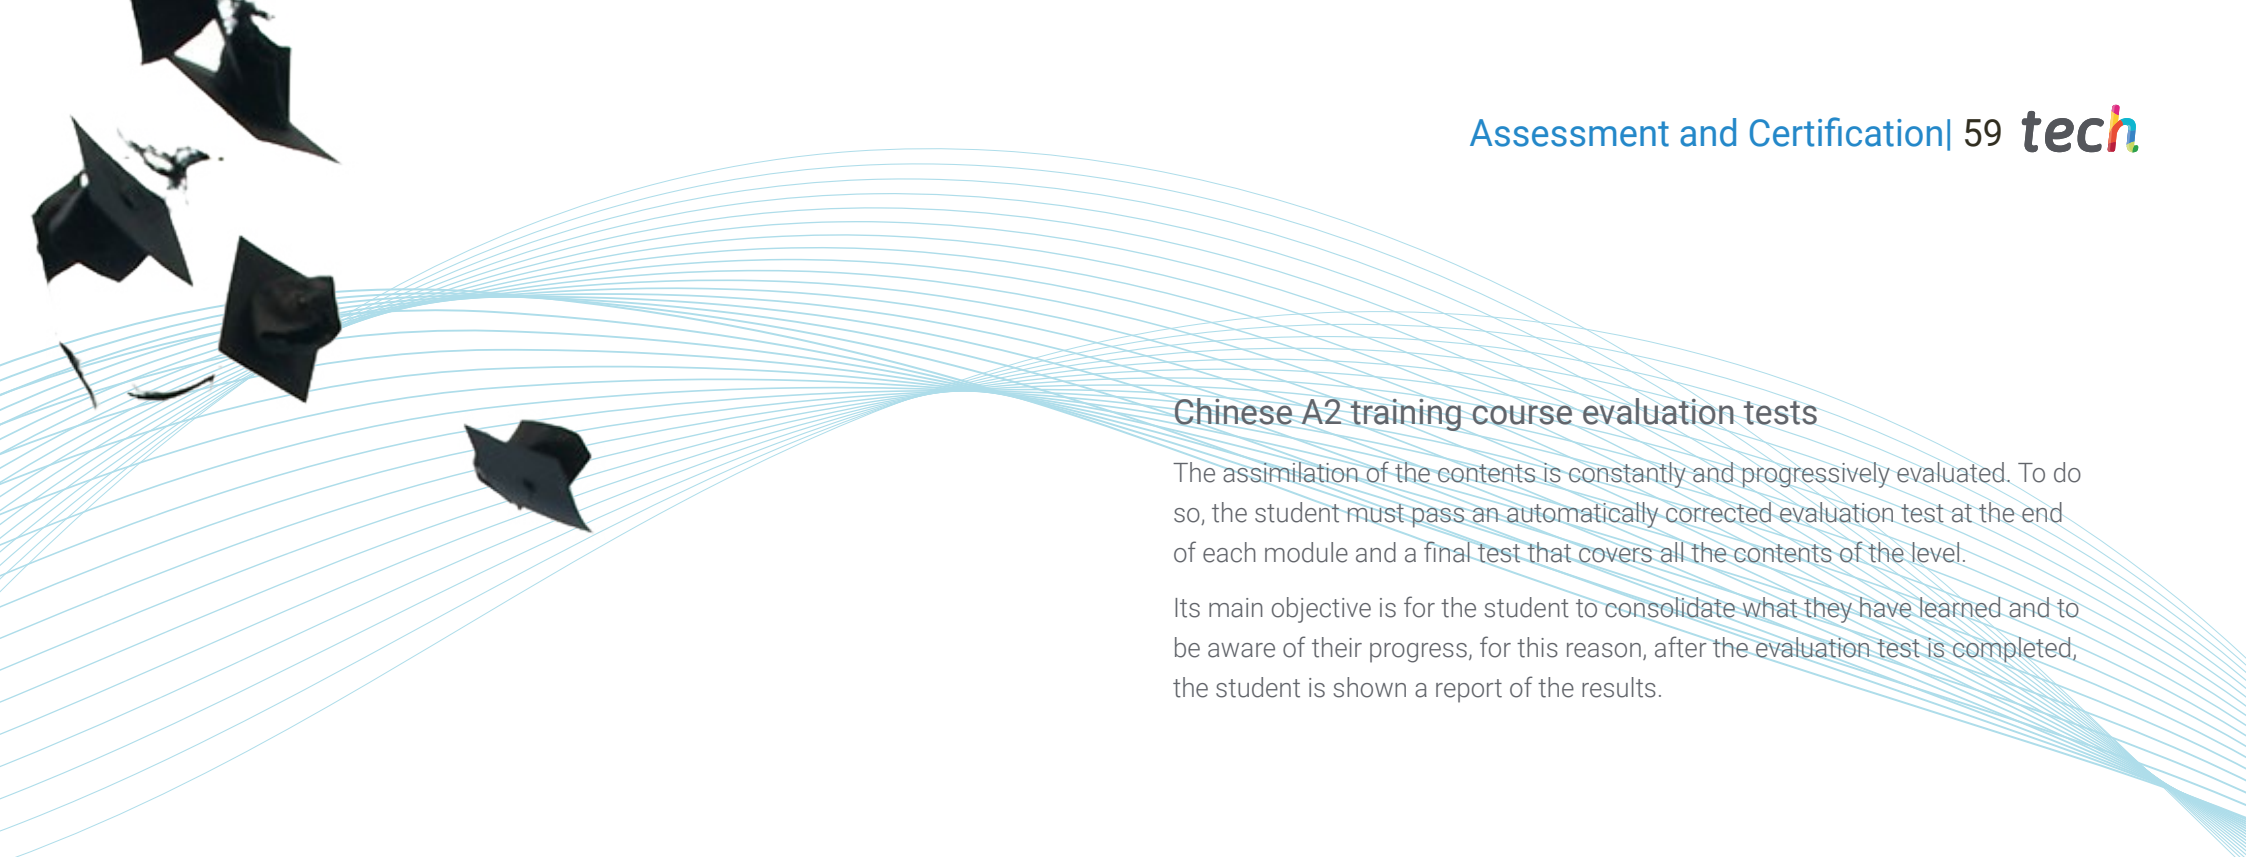

### Chinese A2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

“ Only TECH will award you, upon successful completion of the course, a university certificate ”

### Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

*If you pass our course, you will obtain an A2 Chinese language qualification from TECH.*

The diploma, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by **TECH Technological University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

*The CEFR A2 Chinese Language Course is an intensive program lasting a maximum of 6 months.*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
