01 Welcome

This B2 Spanish Language Course is an intensive program, which prepares the student to obtain the level certificate according to the criteria established by the Common European Framework of Reference for Languages (CEFR). For this reason, all elements of this program are aimed at achieving this goal. In this way, students will be able to communicate with the millions of people who speak this language, improving their professional and personal opportunities.

Presentation video

“

This Language Course will help you pass the Spanish B2 exam, based on the criteria established by the Common European Framework of Reference for Languages"

Introduction

Spanish is a language that has spread rapidly throughout the world. Therefore, it is not surprising that every day, more and more people are eager to learn it. In addition, countries such as Spain, Chile, Mexico and Panama are in the sights of businessmen who wish to invest in the Hispanic market and require their professionals to be able to communicate fluently in this language. For this reason, this program offers its students a simple and effective way of learning Spanish so that, upon completion, they can obtain a B2 certificate.

In just four months, you will be prepared to pass the B2 Spanish exam

This is your opportunity to become fluent in the third most spoken language in the world: Spanish

“

It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks”

*José Antonio Marina.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages CEFR.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR program"

tech 10 | Is it Important to Obtain a Language Certificate?

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

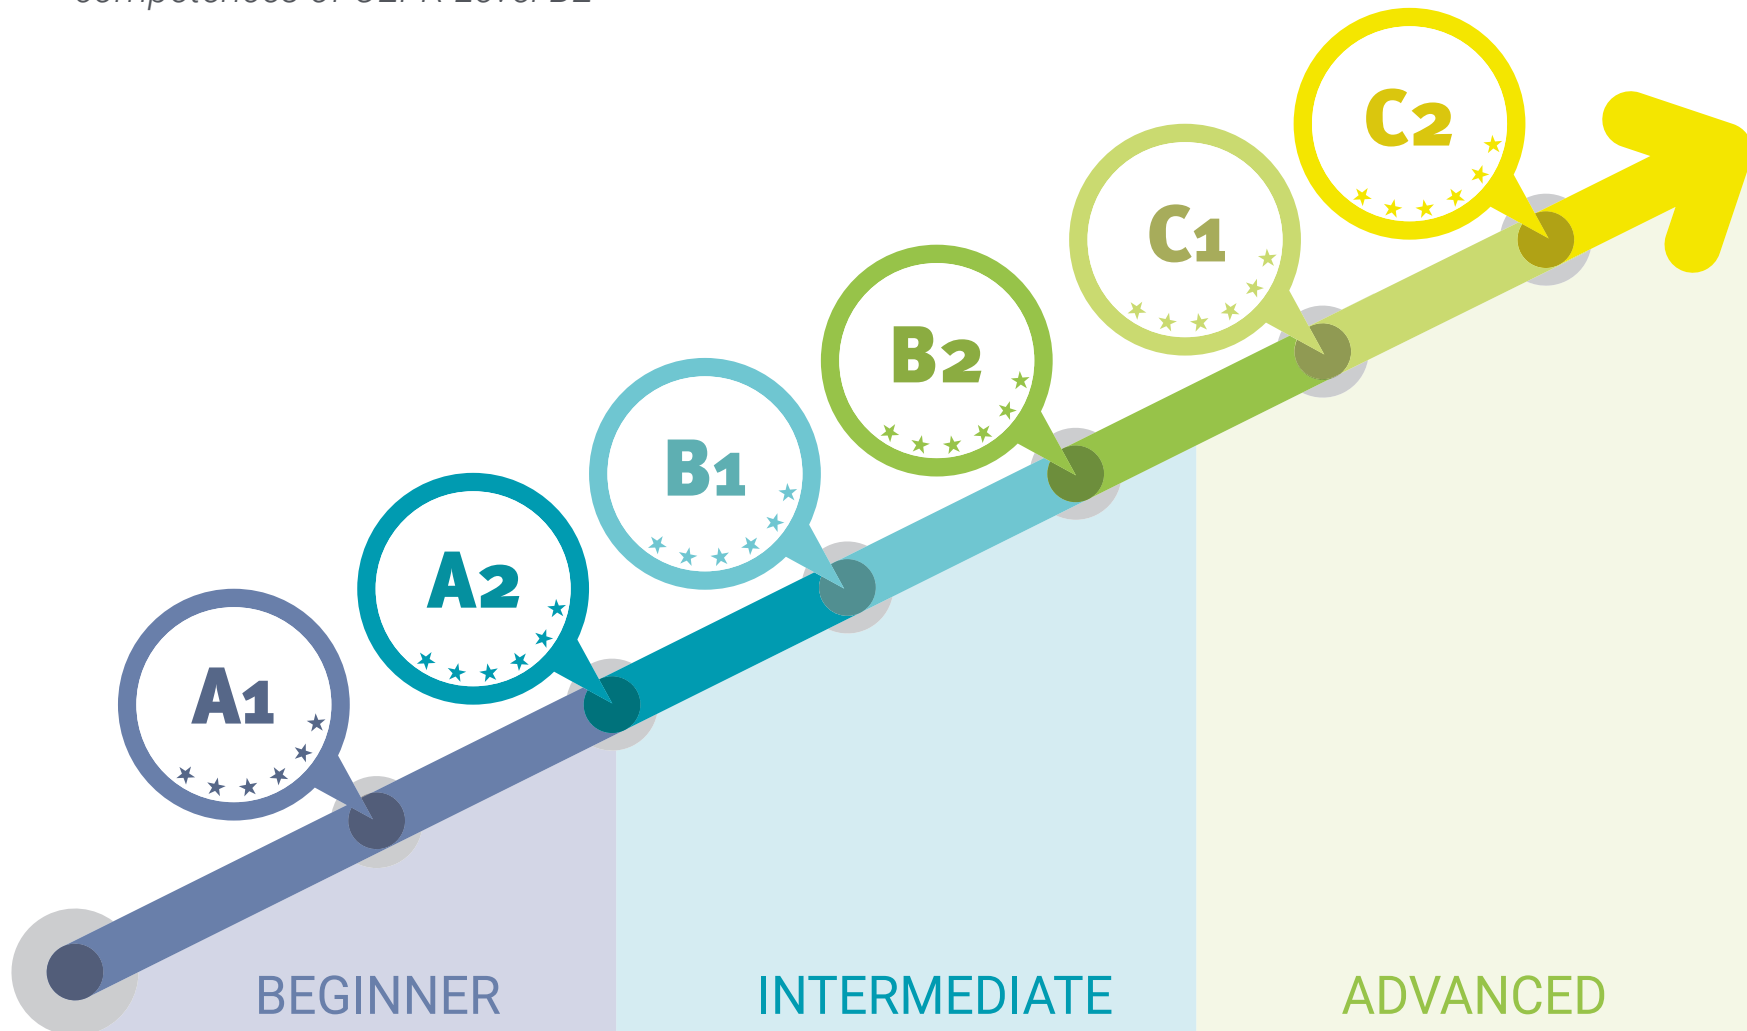

Learn Spanish and make the most of it by accrediting it with an official qualification based on the CEFR

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life

“

You will have access to a comprehensive and complete syllabus that covers all the competences of CEFR Level B2”

03

What Is Level B2?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

“

In TECH's B2 Language Course, we thoroughly prepare you to obtain your Spanish B2 language certificate"

What are the B2 Level Skills?

Level B2 is part of the Independent User Level, which is divided into two sublevels: First and Second Independent User Level (B1 and B2). Level B2 is intended to reflect the Advanced level specification.

This level highlights the ability to argue effectively, i.e., the ability to explain and defend opinions in a debate, providing adequate explanations, arguments and comments, etc.

Another important aspect of this level is that it involves becoming fluent in social discourse.

“*With the B2 level of Spanish you will achieve a great command of the language, which will allow you to get by in a great number of situations with total confidence*”

01

Can understand the main ideas in complex texts which deal with both concrete and abstract topics, even if they are of a technical nature, as long as they are within their field of expertise

02

Can interact with native speakers with a sufficient degree of fluency and naturalness, so that communication is effortless for the interlocutors

03

Can produce clear and detailed texts on a range of diverse topics, as well as defend their point of view on general topics, indicating the pros and cons or different options

“

TECH helps students to obtain their qualification with an intensive program that is based 100% on the CEFR”

Qualitative aspects of spoken language usage for Level B2 (According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Has a sufficiently broad level of language to be able to give clear descriptions and express points of view on general topics without evidencing word search, and knows how to use complex sentences to do this

Correction

- Demonstrates relatively high grammatical accuracy
- Does not make mistakes that cause misunderstanding and be able to correct almost all mistakes made

Fluency

- Be capable of producing fragments of a speech with a fairly uniform rhythm; although there could be pauses while thinking of certain structures or expressions
- Make very few long pauses while speaking

Interaction

- Start a conversation, take your turn to speak at the appropriate moment and finish a conversation when necessary, although it may not always be done with elegance
- Participate in debates on day to day topics, demonstrating understanding, inviting others to participate, etc.

Coherence

- Use a limited number of cohesion mechanisms to turn sentences into a clear and coherent speech, although there may be some "nervousness" if the speech is long

Download and practice vocabulary: More than 800 pages of word cards and glossaries

Our Methodology

The TECH program is a B2 Spanish Language Course based 100% on the Common European Framework of Reference for Languages CEFR. For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

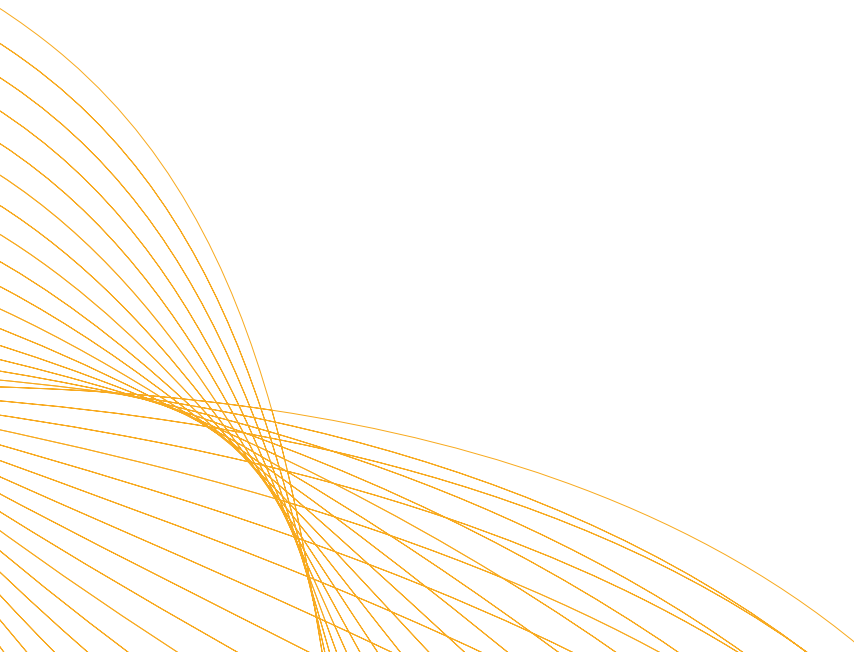

TECH's B2 Spanish Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

Through activities, stories and real contexts, students will learn how to solve everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards

Relearning Methodology

In TECH's Spanish Language Course, learning is not a linear process, but rather a spiral (we learn, unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led syllabus...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called Neurocognitive Context-Dependent Learning, the different elements of our Spanish B2 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy...

Course Objectives

The main objective of this B2 Spanish Language Course is for the student to achieve certification at this level. To this end, TECH offers a program that meets all the linguistic competencies required by the Common European Framework of Reference for Languages. In this way, they will be able to pass the exam easily and quickly.

In TECH's CEFR B2 Spanish Language Course, you will find more than 350 activities focused on pronunciation and phonetics.

“

Practice the speaking skills and abilities required by the B2 CEFR: more than 400 different practice exercises”

General Objectives

01

Understand, interact and express yourself in a extensive range of situations, both orally and written, with good control of linguistic resources and with a degree of precision and ease that allows for natural communication with native speakers

02

Acquire deeper knowledge of sociocultural aspects related to this situations and alter your register, attitudes and gestures appropriately in each situation

03

Internalize new linguistic resources through functional and formal practice and to reinforce the use of those already known; to reflect on mistakes in order to be able to correct yourself

04

Become aware of the communication and learning strategies that help you the most, so that you can use them intentionally

05

Develop autonomy in the planning, carrying out, evaluation and improvement of your own learning

Specific Objectives

Oral Comprehension

- Understand the main ideas of a linguistically complex speech, dealing with both concrete and abstract topics delivered at a standard language level, including technical discussions within their field of expertise
- Understand long speeches and complex lines of reasoning as long as the subject matter is reasonably familiar and the development of the speech is facilitated by explicit markers
- Understand any type of speech, both face-to-face conversations and broadcast speeches, on topics, usual or not, of personal, social, academic or professional life. Only excessive background noise, inadequate structuring of speech or idiomatic use of language affect their ability to understand
- Pick up, with some effort, much of what is being said around them, but may find it difficult to participate effectively in a discussion with several native speakers if they do not modify their speech in some way
- Follow lively conversations between native speakers
- Understand the main ideas of linguistically complex lectures, talks and reports, and other forms of academic and professional presentation
- Understand statements and messages on concrete and abstract topics, in standard language and at a normal pace
- Understand most radio documentaries and other recorded or rebroadcast material spoken in standard language, and identify the speaker's mood and tone
- Understand recordings in standard language that may be encountered in social, professional or academic life, and identify the speaker's points of view and attitudes, as well as the content of the information

Reading Comprehension

- Read with a high level of independence, adapting reading style and speed to different texts and purposes and use appropriate reference sources selectively. Have a large active reading vocabulary, but may have some difficulty with infrequent idioms
- Read information related to their field of expertise and easily grasp the essential meaning
- Quickly search through long and complex texts to locate relevant details. Quickly identify the content and significance of news items, articles and reports on a wide range of professional topics and decide whether further analysis is appropriate
- Understand articles and reports related to current problems in which the authors express specific viewpoints
- Obtain information, ideas and opinions from highly specialized sources within their field of interest. Understand specialized articles that are not in their field of expertise as long as they can use a dictionary from time to time to confirm their interpretation of the terminology
- Understand lengthy and complex instructions that are within their expertise, including details about conditions and warnings as long as they can re-read difficult sections
- Understand most television news and current affairs programs. Understand documentaries, live interviews, debates, plays and most standard-language films

Written Expression

- Express news and points of view effectively when writing and establish a relationship with other people's points of view
- Write letters that convey emotion and highlight the personal significance of events and experiences; comment on the news and views of the person to whom they are writing

Oral Expression

- Participate in conversations with a degree of fluency and spontaneity that enables regular interaction with native speakers without strain for either party. Emphasize the personal importance of certain facts and experiences, express and defend points of view with clarity, providing adequate explanations and arguments
- Speak fluently, accurately and effectively on a wide range of general, academic, professional or leisure topics, clearly marking the relationship between ideas. Communicate spontaneously and have good grammatical control without showing many signs of having to restrict what they say and adopting a level of formality appropriate to the circumstances
- Understand what is said in standard language in detail, even in an environment with background noise
- Approach extensive conversations on most general topics, even in a noisy environment, in a clearly participatory manner
- Have conversations with native speakers without unintentionally amusing or annoying them, and without demanding different behavior from them than they would have with a native speaker
- Convey a certain emotion and highlight the personal importance of facts and experiences

- Follow the rhythm of lively discussions between native speakers. Express ideas and opinions with precision, present complex lines of argument convincingly and respond to them
- Take an active part in informal discussions that occur in everyday situations by making comments, clearly expressing their points of view, evaluating alternative proposals, making hypotheses and responding to them
- With some effort, pick up much of what is said in discussions going on around them, but may find it difficult to participate effectively in discussions with several native speakers if they do not modify their speech in some way
- Express and uphold their opinions in discussions by providing appropriate explanations, arguments, and comments
- Keep up with heated discussions and accurately identify the arguments of different points of view. Express ideas and opinions with precision, present complex lines and respond to them with conviction
- Understand, with complete certainty, detailed instructions. Contribute to the progress of the work by inviting others to participate, speak up, etc.
- Outline an issue or problem clearly, speculating on the causes or consequences and comparing the advantages and disadvantages of different approaches
- Negotiate the resolution of conflicts, such as claiming an unfair traffic fine, claiming financial responsibility for damages caused in an apartment or for culpability in an accident
- Express their opinions in the event of damages, using persuasive language to claim compensation, and clearly establish the limits of any concession they are willing to make

- Explain a problem that has arisen and make it clear that the service provider or customer must make concessions
- Understand and exchange complex information and advice on all matters related to their profession. Convey detailed information with complete certainty
- Make clear and detailed descriptions of how to carry out a procedure. Summarize and communicate information and arguments from a variety of sources
- Conduct effective and fluent interviews, even spontaneously departing from prepared questions, following the thread and giving interesting answers
- Take the initiative in an interview and expand and develop their ideas, either with little help or getting it if needed from the interviewer

“

In TECH's CEFR B2 Language Course, students will find more than 300 pronunciation and phonetic activities”

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Broaden and diversify knowledge of sociocultural aspects of communities where they speak the language, acquiring a natural and confident manner of speaking which doesn't attract attention nor leads to special treatment, different to that given to native speakers. Furthermore, gain knowledge of how to adjust behavior, reactions, attitude, message and wording to any changes in situation, style and emphasis
- Identify the most important aspects of a variety of common formal and informal oral and written registers, and appropriately use the expressions, pronunciation and intonation of the most common registers that they are most in contact with
- Perceive the differentiating characteristics of the Spanish language pattern in relation to other widespread or nearby patterns

Linguistic Competence

- Manage a wide and varied repertoire of linguistic resources, including complex syntax and textual grammar, in order to approach, with naturalness, precision, clarity and cohesion, texts on a wide range of situations and topics, almost without showing that they have to limit what they want to say
- Flexibly adapt to changes in direction, register and emphasis, although hesitations and circumlocutions can still occur
- Efficiently use a variety of connectors and discourse markers to clearly show the link between different ideas and successfully make the speech cohesive in a flexible and efficient way
- Possess good command of linguistic resources with very few mistakes. When using complex structures, especially in discourse development, and even more so in oral communication or in less common situations, there are sometimes cohesion or inappropriate register mistakes, as well as sporadic slips or some "resistant" errors in less commonly controlled situations. In these cases the student will be capable of self-correcting

“

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, storytelling, videos and real situations.

Only TECH offers videos with the 250 specific situations required to master the CEFR B2

You will be able to express yourself, explain, speak and understand Spanish at an advanced intermediate level, with fluency in a multitude of situations"

"When I started studying Spanish, my goal was always to get to B2 level. After trying several academies, I could not find one that offered me the variety that TECH is able to. The dedication shown by the native teachers and the large number of exercises to practice and improve left me speechless. The ease with which I obtained the B2 level has encouraged me to continue improving and I am now in the C1 Language Course"

Sophia Hunner

An American student studying Spanish

"The Hispanic market caught my attention when I started my online business a few years ago. I decided to improve my Spanish and try to attract more Spanish-speaking clients. Now that I have obtained my B2 level certificate thanks to TECH, I feel confident speaking with native speakers. In addition, I can watch an entire movie in this language and understand the plot perfectly. This was only possible thanks to the many exercises provided to me throughout the duration of the program"

The Professional Benefits of Spanish

Spanish is the second most widely spoken language in the world, behind Mandarin Chinese and ahead of English and Hindi/Urdu. Recent forecasts show that English, Spanish and Chinese are inevitably the three languages of international communication for the 21st century.

It is spoken in Spain, in the Caribbean Islands (Cuba and Puerto Rico), in the Dominican Republic, in North America (Mexico), in Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and in South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most widely spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing segments in the world, especially in the United States. The Spanish-speaking segment constitutes a huge community that shares products, services and culture; and offers businesses and institutions a truly unique opportunity for growth.

Furthermore, studying Spanish will open many doors at a professional level. Many countries have Spanish as an official language, so there are lots of jobs in which this can be a fundamental factor.

“

The power of Spanish is in its early days compared to what will happen in the future. Spanish will make Simón Bolívar's impossible dream of uniting all America a reality”

Eduardo Lago, Director of the Instituto Cervantes in New York

Assessment and Certification

The main evaluation objective of TECH's assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH's B2 Spanish Language Course is the only one that also awards you a university certificate"

“

Upon successful completion of the course, TECH will award students a university certificate”

B2 Spanish language course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Language course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

If you pass our course, you will obtain a B2 Spanish language qualification from TECH

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by **TECH Technological University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR B2 Spanish Language Course is an intensive program lasting a maximum of 4 months

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
