01 Welcome

Chinese being a primordial language for most Westerners, reaching a mastery level such as C1 is not an easy task. It requires many hours of effort, study and dedication to reach this level, but it is rewarded with great job opportunities. Furthermore, mastering Chinese also leads to a much better understanding of an ancient culture that has been influenced by many other Asian and Western countries.

Presentation video

“

You will have access to a compendium of didactic resources, practical exercises, videos and summaries that make this program the most complete academic offer on the market”

Introduction

If one had to single out a country with continuous growth over the last few decades, it would undoubtedly be China. It is becoming increasingly common for Chinese companies to dominate the technology and industrial markets. Even Tesla, a relatively recent company, already manufactures more cars in China than in the U.S. The unstoppable advance of the Chinese economy has made studying this language a guaranteed value for any career, even at the tourist level, as more and more tourists come from the Asian giant. In order to offer the best possible academic preparation, TECH has developed this Language Course with which to prepare for a C1 Level according to CEFR.

This level of mastery in Chinese will give you access to other regions where it is also spoken officially, such as Hong Kong or Taiwan.

You will have the best options to access relevant companies such as Alibaba, Tencent, Sinopharm or Huawei.

“

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks”

José Antonio Marina.
Philosopher, writer, and teacher.

A unique and stimulating experience

Flexible and Tailored

Take the best language course from home, at your own pace and according to your availability and schedule.

Acquire Skills and Abilities

With our method, you will practice and consolidate the skills required for this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have a certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive training based 100% on the CEFR”

tech 10 | Is it Important to Obtain a Language Certification?

TECH - Technological University

The Common European Framework of Reference for Languages is the **only system that recognizes and accredits the student's level**. Although there are other certification systems, these come from private institutions and are, therefore, **not valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer students the only intensive preparation course to obtain a level **certificate** that is 100% based on the CEFR, **the only system recognized and accepted in all of Europe**.

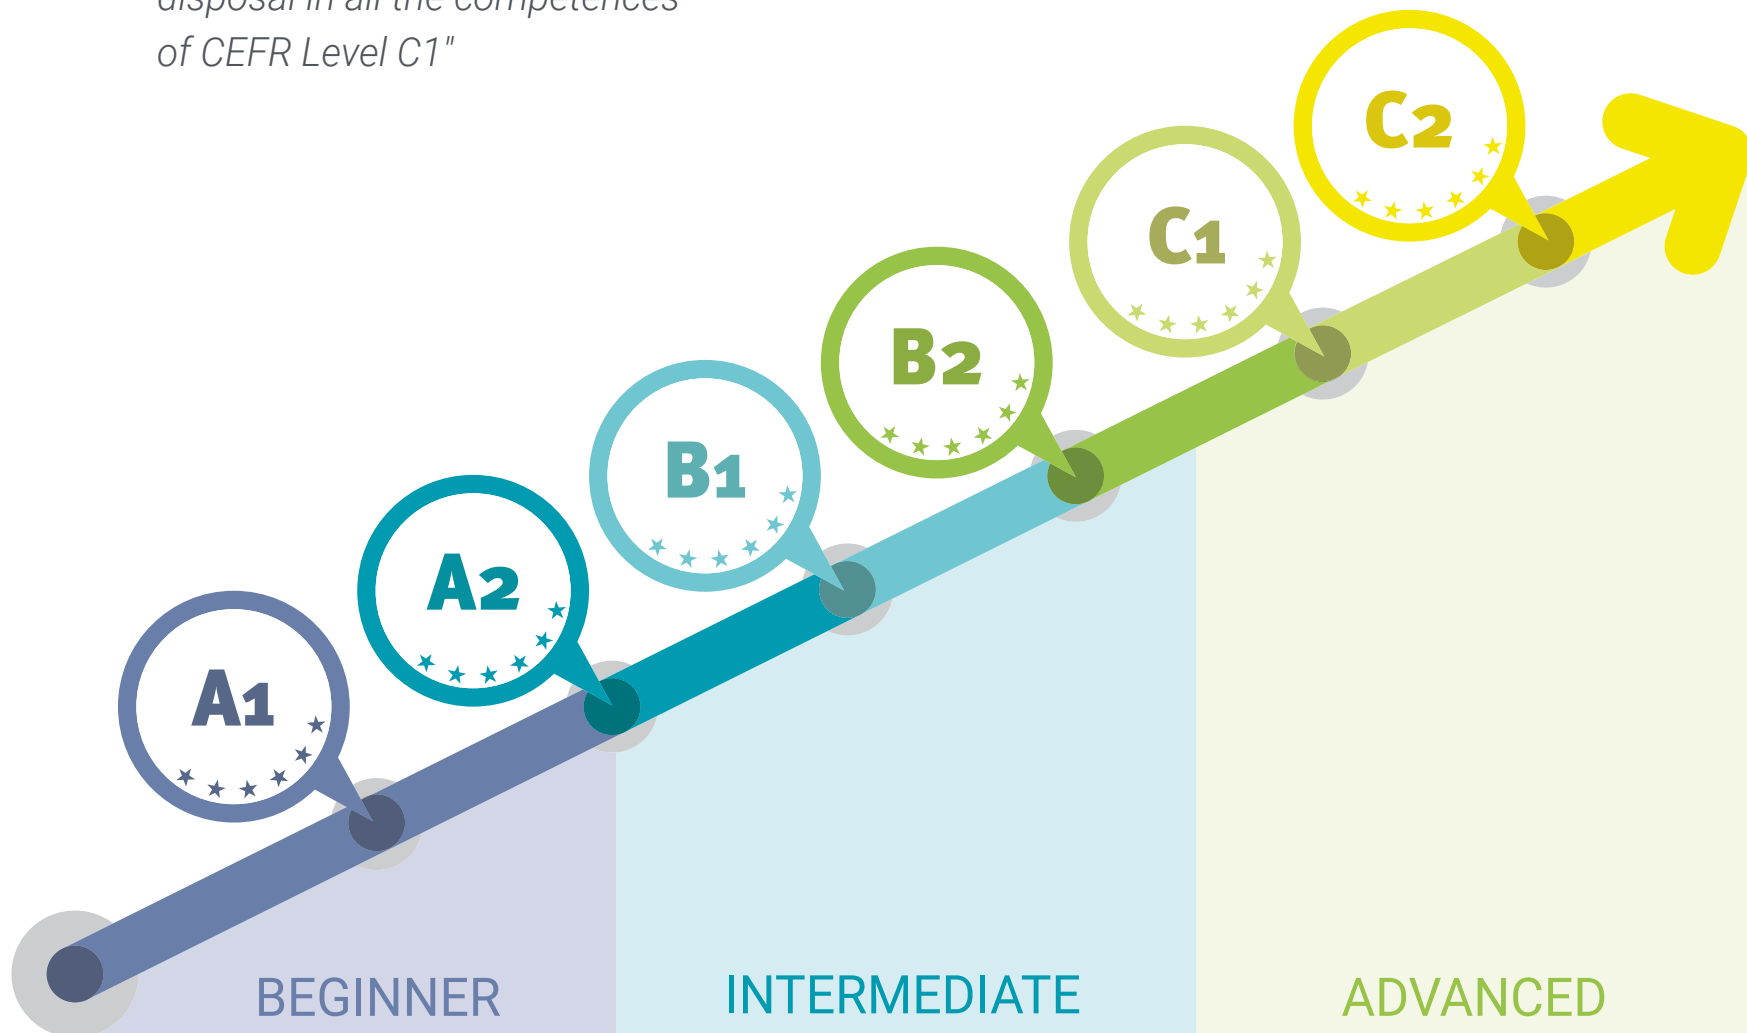

Learn Chinese and make the most of it by accrediting it with a qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

“

You will have a comprehensive and complete syllabus at your disposal in all the competences of CEFR Level C1”

03

What Is Level C1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

C₁

“

You won't have to worry about the difficulty of the C1 Level exam. With this TECH C1 Chinese Language Course you will be more than prepared to pass it without any problems”

What are the C1 Level Skills?

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

01

Express yourself fluently and spontaneously with little effort

02

Good command of an extensive lexical repertoire that allows them to easily overcome their deficiencies with circumlocutions

03

Is able to understand a wide variety of long and demanding texts and recognize implicit meanings in them

05

Can make flexible and effective use of the language for social, academic and professional purposes

04

Can express him/herself fluently and spontaneously without much obvious effort to find the right expression

06

Can produce clear, well-structured and detailed texts on topics of a certain complexity, showing a correct use of the mechanisms of text organization, articulation and cohesion

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension	Speaking	Writing
<p>Listening Comprehension</p> <ul style="list-style-type: none">◆ Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated◆ Understand TV shows and movies without much effort <p>Reading Comprehension</p> <ul style="list-style-type: none">◆ Understand long and complex texts of a literary or factual nature, appreciating distinctions of style◆ Understand specialized articles and long technical instructions, even if they are not related to their specialty	<p>Oral Interaction</p> <ul style="list-style-type: none">◆ Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way◆ Use language flexibly and effectively for social and professional purposes◆ Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers <p>Oral Expression</p> <ul style="list-style-type: none">◆ Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion	<p>Written Expression</p> <ul style="list-style-type: none">◆ Express oneself in clear and well-structured texts, presenting points of view with a certain length◆ Write about complex topics in letters, essays, or reports, highlighting what you consider to be important issues◆ Choose the appropriate style for your target readership

Check your level. Assess yourself. More than 1,500 multiple-choice questions for continuous evaluation.

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ◆ Consistently maintain a high degree of grammatical correction
- ◆ Errors are scarce, difficult to locate and in general are corrected whenever they occur

Fluency

- ◆ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of your expression

Interaction

- ◆ Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- ◆ Skilfully connect your own interventions to those of the other speakers

Coherence

- ◆ Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

Download and practice vocabulary: More than 160 pages of word cards and glossaries.

04

Why TECH?

At TECH we offer you the first online course based 100% on the acquisition of skills, as established by the Council of Europe, for the teaching of foreign languages. We work with the latest methodological approaches: the action-oriented approach and the skill-based approach in order to prepare students for the level certification exams. For this purpose, we have the best native teachers and e-learning specialists, available 24/7.

*We thoroughly prepare you
to obtain your C1 Chinese
certificate.*

“

Language school titles are not valid anywhere other than the country of origin.

Not in Europe or anywhere else in the world.

That is why you need a CEFR title with TECH:

It's valid worldwide!”

What makes us unique

Mission

Our mission is to stimulate the professional and personal development of our students, promoting their skills and abilities so that they are able to adapt to a real and constructive multicultural environment.

Vision

TECH's vision is to be an innovative, academically thorough learning environment of international reference, capable of transmitting values that inspire the transformation of language learning to creative and socially responsible models.

- Innovation and creativity
- Excellence
- Spirit of self-improvement
- Social commitment
- Exclusivity and leadership
- Passion

TECH - Technological University

We help you with your oral expression.

400+ pronunciation and phonetic activities.

We prepare you to obtain your certificate

1,000+ continuous assessment questions, to thoroughly prepare for your Chinese Level C1 certificate.

Additionally:

- You will find more than twice as many multimedia elements as in the second most comprehensive course on the market: up to 6,000 elements
- You will be able to replay specific virtual classes in order to prepare for the CEFR C1
- At the end of each topic you will find a video in which a native teacher will summarize the most important points for the C1 CEFR exam
- You will have a specialized itinerary, programed day by day

TECH offers you a C1 Chinese Language Course with the possibility of downloading it to study offline"

05

Features of the Intensive C1 Preparation Course

An intensive course

The C1 Chinese Language Course is an intensive program that prepares you to obtain Level C1 in Chinese according to the CEFR.

The Most Comprehensive Syllabus

You will have access to numerous multimedia and interactive resources to reach Level C1 without setbacks.

Accessible

Our system allows you to study without internet from your tablet, PC or Smartphone.

Accredited

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate. If you pass, you will obtain a certificate of Chinese Level C1, accredited for 300 hours.

Dedicated

TECH's C1 Chinese Language Course is the only one on the market that commits to answering questions within 24 hours and the only one that includes tutoring and monitoring at no additional cost.

100+ videos made by native speakers

4,000+ multimedia elements

Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training on the market that includes the complete course content in downloadable format:

- Complete PDF of the course: More than 400 pages that make up your manual that you can continue studying after the end of the course
- Grammar PDF: You will have access to more than 100 downloadable and printable grammar worksheets to study wherever and however you want.
- Lexical cards and glossaries: You will find 50 pages of lexical cards and glossaries to download and practice your vocabulary.

Multimedia Elements

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge. This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Specific Interactive Vocabulary Sections

Need to expand your vocabulary? At TECH, you can practice and learn with more than 1,000 interactive lexical items.

Training activities (includes three subsections)

At TECH, our method focuses on repetition as the most effective way to consolidate your learning, the same way you learned your mother tongue. To do so, we offer you hundreds of different activities for you to practice and exercise, but at the same time, have fun and stay 100% active.

- Vocabulary activities: You will have more than 600 lexical, vocabulary and sociocultural activities to practice and prepare this section thoroughly.
- Pronunciation activities: You will find more than 400 pronunciation and phonetics activities in this course.
- Grammar and spelling activities: Work on more than 600 grammar activities from a different and innovative approach

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire C1 Chinese Language Course.

- Lesson test: After each unit, you will be able to test and consolidate what you have learned through more than 600 test questions.
- Grammar test: Problems with grammar? Practice with our 300 specific grammar and spelling questions
- Final review test: You will work through more than 1,500 assessment questions to thoroughly prepare for your level certification.
- Pre-test activities: In order to consolidate the concepts developed throughout the syllabus by reiterating them.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 500 different activities in order to prepare students to obtain their C1 Chinese certificate.

Presentation Videos and Objectives

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 200 everyday situations, stories and video dialogues recorded by experts and native speakers.

1,200+ pages of downloadable study material

+600+ lexical and sociocultural activities

+1,500+ assessment questions

24/7 personalized tutoring and monitoring

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Comparison with Other Courses

Have you been trying to certify your level for years to no avail? Do you not feel ready?
Have you tried countless online courses and found they were not what you were looking
for? We invite you to discover TECH.

“

The most complete preparation course for the CEFR Level C1 test. Study. Learn. BECOME CERTIFIED"

Our Methodology

The TECH program is a C1 Chinese Language Course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 Chinese Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

In TECH's C1 Chinese Language Course, learning is not a linear process, but rather a spiral (we learn, unlearn(forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

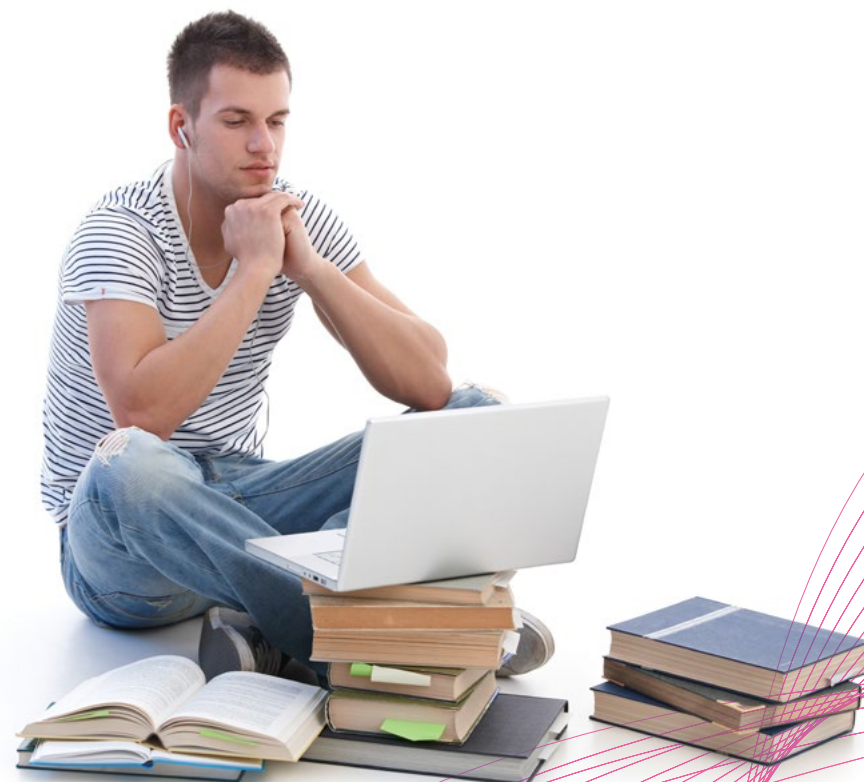

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called *Neurocognitive Context-Dependent Learning*, the different elements of our C1 Chinese Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test. Participants will take their certification exam in order to ensure success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy..

Study wherever and however you want: more than 150 downloadable and printable grammar and lexical worksheets and glossaries.

Study Material

Lessons written and selected by expert native teachers, downloadable worksheets and glossaries.

Skills-based Practice

At TECH you will work on all the skills established by the Common European Framework of Reference for Languages.

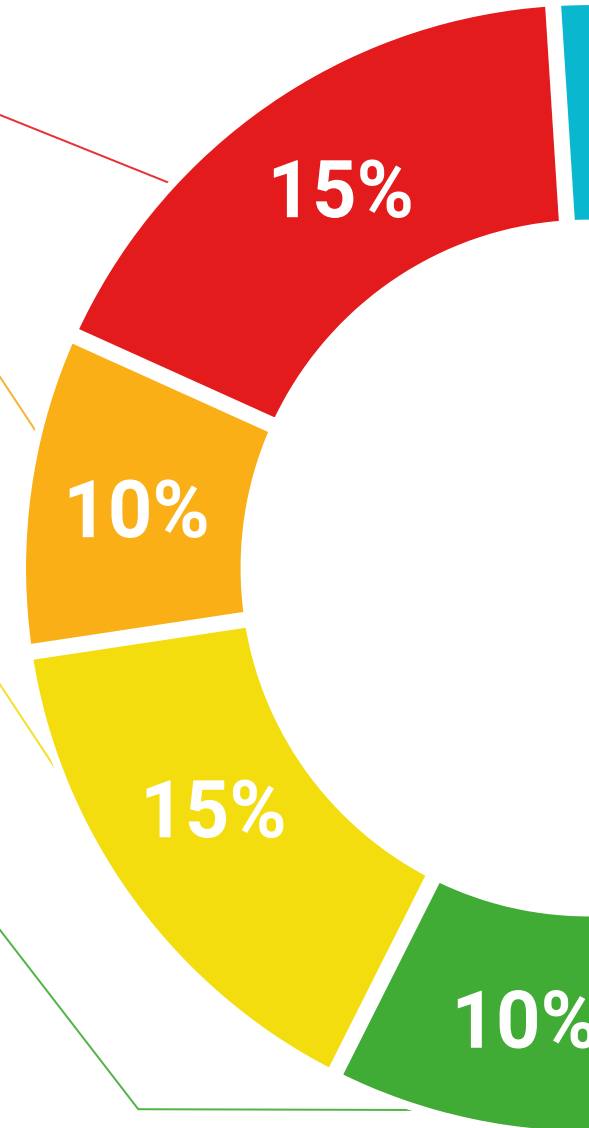

Interactive Summaries

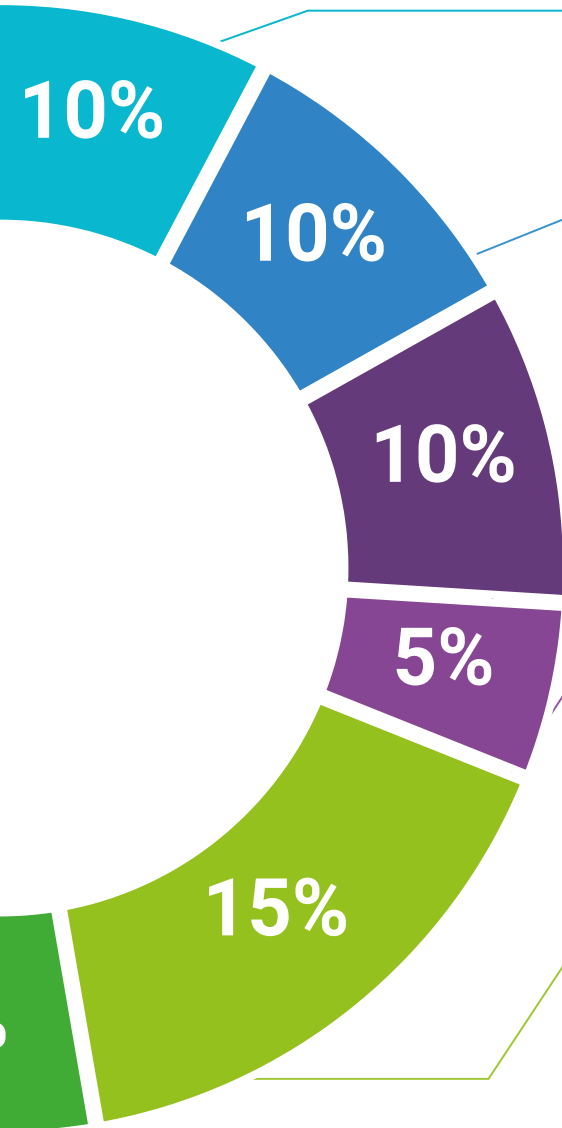

Multimedia content including audios, videos, images, diagrams and concept maps.

Pronunciation and Phonetics Practice

At TECH we focus our method on repetition as the best way to consolidate your learning.

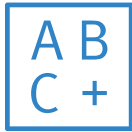

Vocabulary and Socioculture Practice

At TECH we offer you different ways to work on vocabulary through hundreds of interactive activities.

Grammar and Spelling Practice

You will work on grammar from a practical point of view, through activities and lessons explained by native teachers.

Simulated Learning Scenarios

Video learning situations based 100% on the CEFR.

Specific Virtual Classes for CEFR C1

Tips and tricks to keep in mind to pass your placement test with total guarantee of success.

Testing & Retesting

You will find practice tests in each topic, as well as grammatical and lexical evaluation tests in each module.

At TECH you will find over twice as many multimedia elements as in the second most comprehensive course on the market: up to 4,000 elements.

TECH is the only institution with a commitment to answering your questions in less than 24 hours.

08

Course Objectives

The program's primary objective is to enable students to achieve the Common European Framework of Reference for Languages (CEFR) C1 Level certification in Chinese, providing them with the necessary skills to become expert Chinese speakers. All this will be achieved thanks to TECH's online teaching methodology, its teachers and the effort student put in who want to achieve a great command of the language.

Practice the skills and abilities required by the C1 CEFR with guarantees: more than 500 different practice exercises.

“

In TECH's CEFR C1 Language Course you will find more than 300 pronunciation and phonetics activities”

General Objectives

- 01 Carry out transactions of all kinds, even if they are delicate and complex.
- 02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to.
- 03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities.

Specific Objectives

- ◆ Understand enough to follow a long speech on abstract and complex topics beyond their expertise, although they may have to confirm some details, especially if they are not accustomed to the accent
- ◆ Recognize a wide range of idiomatic and colloquial expressions, and notice changes in register
- ◆ Follow an extended speech even when it is not clearly structured when links are only assumed and not explicitly pointed out
- ◆ Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics
- ◆ Understand with relative ease most lectures, discussions and debates
- ◆ Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.
- ◆ Understand complex technical information, such as operating instructions, product specifications, and everyday services
- ◆ Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers
- ◆ Understand in detail long and complex texts, whether or not they relate to his or her specialty, provided he or she can reread difficult sections
- ◆ Understand any communication with sporadic use of the dictionary
- ◆ Understand in detail a wide range of lengthy and complex texts that you are likely to encounter in social, professional or academic life, and identify subtle details including both implicit and explicit attitudes and opinions
- ◆ Understand in detail lengthy and complex instructions on new machines or procedures, whether the instructions relate to your field of specialty or not, provided you can reread the difficult sections
- ◆ Understand films that use a considerable amount of slang or colloquial language and idiomatic expressions
- ◆ Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion
- ◆ Perform clear and detailed descriptions of complex topics
- ◆ Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning
- ◆ Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort
- ◆ Write clear and well-structured texts on complex topics highlighting the main ideas, expanding at some length and defending their points of view with appropriate complementary ideas, reasons and examples, ending with an appropriate conclusion
- ◆ Write descriptions and imaginary texts in a clear, detailed and well-structured way, with a convincing, personal and natural style that is appropriate for the intended readers
- ◆ Write clear and well-structured presentations on complex topics, highlighting the main ideas. Expand at some length and defend points of view with complementary ideas, reasons and suitable examples

09

Course Structure and Content

In order to guarantee the highest possible educational quality, TECH has relied on the best native teachers to develop all the contents of this language course. Thus, students will find more than 600 specific grammar and spelling activities with which to perfect their Chinese, as well as more than 500 different practice exercises to prepare for the C1 Level test. All of this is accessible from any device with an Internet connection.

“

You will find the main grammar, vocabulary, oral expression and written expression topics required at CEFR Level C1”

Where, When and How is it Taught?

This course takes place over 4 months and is divided into 16 content modules. You can do it completely online, even attending our sessions and tutorials.

“

The only intensive program 100% specifically designed to obtain the Chinese C1 Level”

Module 1. Healthy Mind Healthy Body

- 1.1. You Don't Look So Good
- 1.2. A Sprained Ankle
- 1.3. I'm Going to Donate Blood
- 1.4. At the Hairdresser's

- 16.4. Do You Believe in Reincarnation?

Module Objectives

- Recognize a wide range of idiomatic and colloquial expressions and appreciate changes in register, which enables one to follow third-party conversations and understand films and plays, identifying details, subtleties, attitudes and implicit relationships between speakers

"My company operates in a market where many Chinese agents and clients have become more common in the last decade, so I saw an opportunity for growth. Thanks to the TECH Language Course, I now have a more than competent level in this language and have managed to get ahead of my competitors who do not speak Chinese."

Elena Gutiérrez

A Spanish Businesswoman

"The growth of Chinese tourism has been spectacular in recent years. I had to adapt and achieve a proficient level of Chinese in order to continue to provide good service to my clients. TECH gave me the online tools I needed to perfect my Chinese without neglecting my professional responsibilities."

Julio Casaña

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

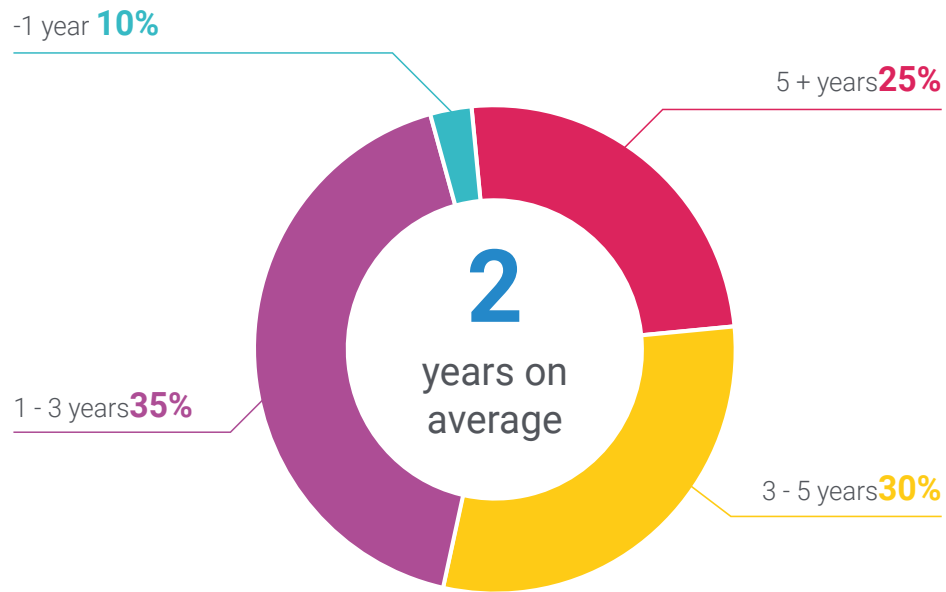

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH 9 out of 10 students recommend us”

Years of unsuccessful attempts to learn the language

The Professional Benefits of Chinese

The Chinese language, the highest expression of Chinese culture, based on symbols, is more than 5,000 years old, and it gives rise to more than 55 languages and 2,000 dialects as a result of its geographical, phonetic and dialectical variants. Mandarin Chinese is the language of the People's Republic of China and is also spoken in countries such as Cambodia, Burma, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Taiwan.

Mandarin Chinese is an original Beijing dialect which, according to statistics, is the most widely spoken language in the world with more than 1.3 billion speakers. It is one of the six languages of the United Nations (UN) along with Arabic, English, French, Russian, Spanish and French.

Nowadays, it seems essential in the multicultural and global society in which we live to broaden our knowledge and teaching of the Chinese language, to know its language, habits and customs, which will lead us to improve our international and commercial relations, to close economic agreements and to establish direct contact with Chinese citizens.

China is in fashion. Its spectacular growth is increasingly attracting Spanish entrepreneurs who are looking for an opportunity in the Asian colossus. But doing business in China can be a nightmare if you are not prepared. The cultural differences are so vast that they extend all aspects of the business world: negotiation, contracts, legislation or a simple working dinner. For this reason, guanxi or social relations should also be studied.

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C1 Language Course is the only one that also awards you with a university certificate”

“ Only TECH will award students, upon successful completion of the course, a university certificate”

C1 Chinese training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.
- Discursive capacity: coherence of ideas, organization and development.
- Use of language: linguistic expressions, formal resources of cohesion and flexibility
- Formal correction: grammar, discourse cohesion, vocabulary and spelling.

If you pass our course, you will obtain a C1 Chinese language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by **TECH - Technological University** only provides a "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C1 Chinese Language Course an intensive course lasting a maximum of 4 months.

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
