Welcome

TECH has gathered a group of native French teachers to elaborate all the contents of this complete language course. Thanks to their meticulousness in the creation of contents and the pedagogical methodology of TECH, this Language Course becomes a great academic option to perfect the French language in a comfortable online format, without having to go to physical locations or timetabled classes.

Presentation video

“

You will be able to access the most prestigious jobs in companies such as TotalEnergies, AXA, Engie or Christian Dior”

Introduction

In order to succeed in countries such as Luxembourg, Canada, France, Switzerland or Belgium, it is highly advisable to have a high command of the French language, as this offers a competitive advantage over other candidates with a lower language level. For this reason, TECH has adjusted the requirements and criteria of this Language Course to those required by the CEFR, so the student will have no problem in passing the French Level C2 Exam thanks to all the teaching resources and support material that they will find in this qualification.

You will find grammar worksheets, interactive summaries and worksheets to help you take your French to the maximum level.

You will have a complete command of French, being able to hold conversations at all levels with any native speaker.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you to achieve it with a intensive, 100% online program”

tech 10 | Is it Important to Obtain a Language Certificate?

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

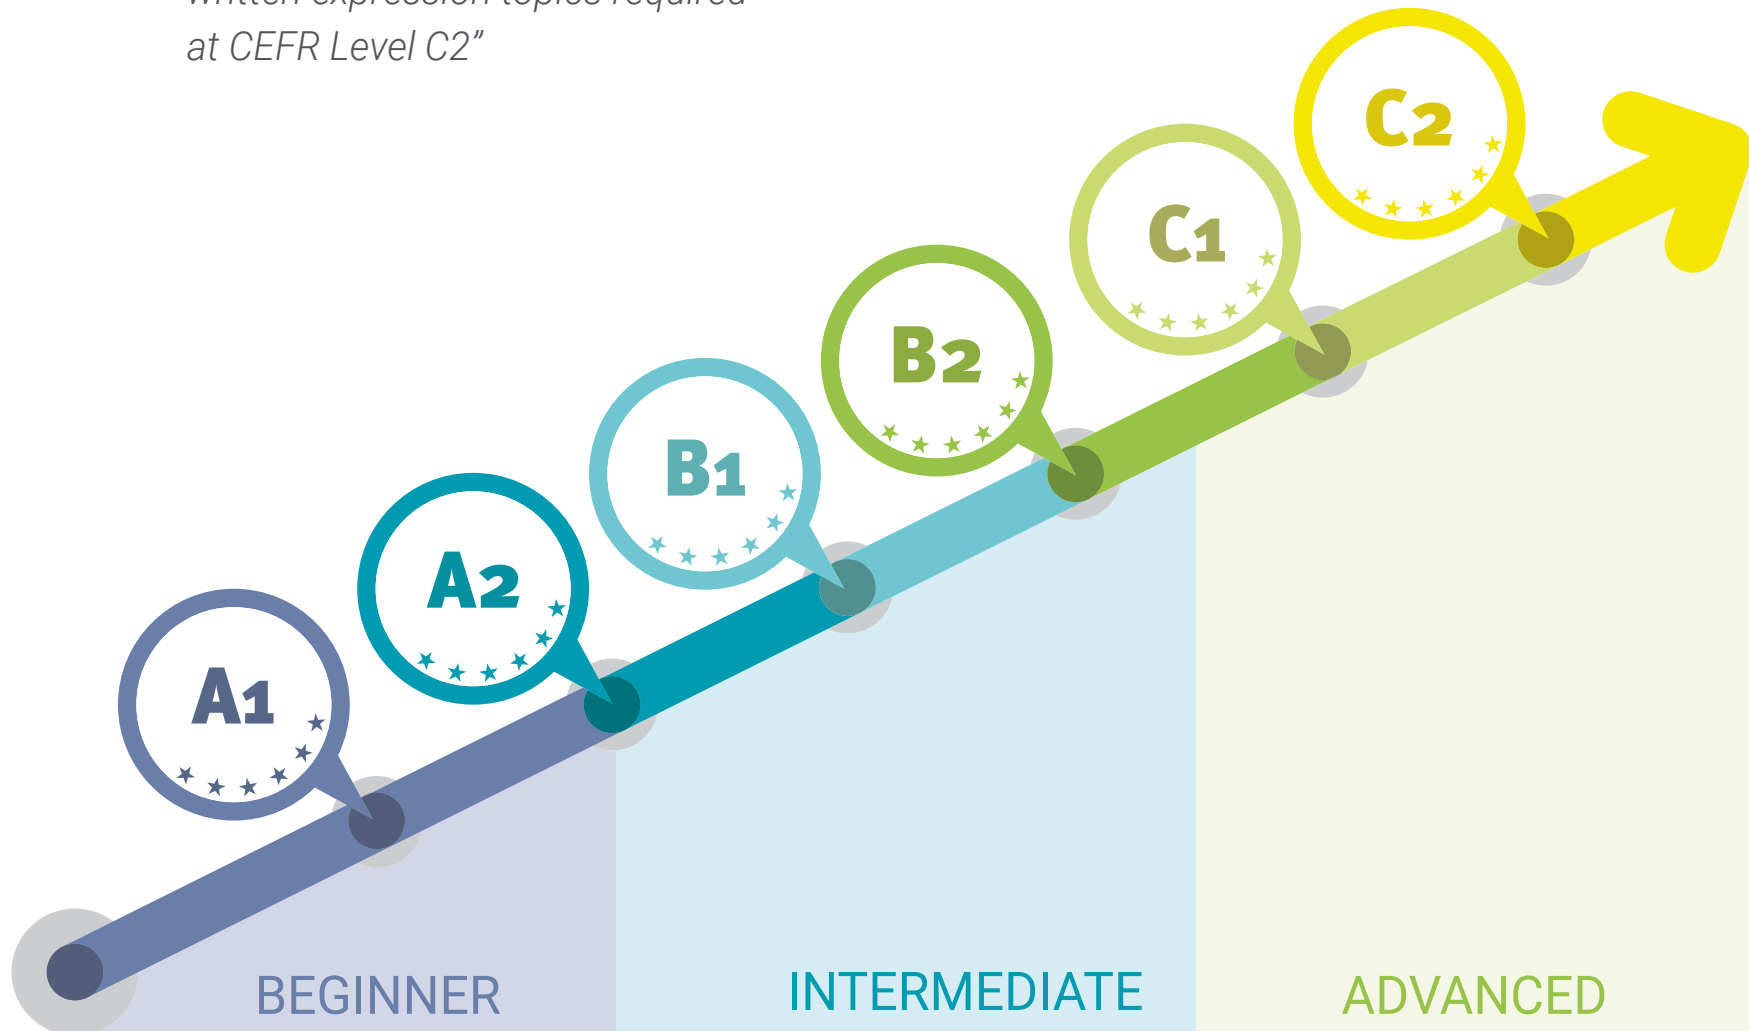

Learn French and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

“

You will find the main grammar, vocabulary, oral expression and written expression topics required at CEFR Level C2”

03

What Is Level C2?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

“

This TECH C2 Level Language Course will thoroughly prepare you to obtain your C2 French language certificate”

What are the C2 Level Skills?

01

Can easily understand virtually everything they hear or read

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Can express themselves spontaneously, with great fluency and with a degree of precision that allows them to differentiate fine nuances in meaning even in more complex situations

Qualitative aspects of spoken language usage for Level C2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Shows great flexibility in reformulating ideas by differentiating linguistic forms to accurately convey nuances of meaning, emphasize, differentiate and eliminate ambiguity
- ◆ Also has a good command of idiomatic and colloquial expressions

Correction

- ◆ Maintains a consistent grammatical command at a complex level of language, even though attention may be focused on other aspects (e.g., planning, or monitoring the reactions of others)

Fluency

- ◆ Express oneself spontaneously and in depth with natural, colloquial fluency, avoiding or circumventing difficulties so discreetly that others hardly notice

Interaction

- ◆ Participate in conversation with ease and skill, picking up and using non-verbal and intonation cues with no apparent effort
- ◆ Intervene in conversation waiting their turn giving references, making allusions, etc., in a natural way

Coherence

- ◆ Create coherent and cohesive discourse, making full and appropriate use of varied organizational structures and a wide range of connectors and other cohesive mechanisms

Download and practice vocabulary: more than 160 pages of lexical cards and glossaries.

Specific Interactive Vocabulary Sections

Need to expand your vocabulary? At TECH, you can practice and learn with more than 1,000 interactive lexical items.

Training activities (includes three subsections)

At TECH, our method focuses on repetition as the most effective way to consolidate your learning, the same way you learned your mother tongue. To do so, we offer you hundreds of different activities for you to practice and exercise, but at the same time, have fun and stay 100% active.

- Vocabulary activities: You will have more than 500 lexical, vocabulary and sociocultural activities to practice and prepare this section thoroughly
- Pronunciation activities: You will find more than 300 pronunciation and phonetics activities in this course
- Grammar and spelling activities: Work on more than 500 grammar activities from a different and innovative approach

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire C2 French Language Course.

- Lesson test: After each topic, you can test and consolidate what you have learned with more than 500 test questions
- Grammar test: Problems with grammar? Practice with our 300 specific grammar and spelling questions
- Final review test: You will work through more than 400 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: Consolidate the concepts developed throughout the syllabus by reiterating them.

Skills-Based Practice

If the Common Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills, and bases its official tests on these skills, why don't most of the online preparation courses for level certificates according to skills? At TECH, you will work on all the skills established by the Common Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 500 different activities in order to prepare you to obtain your official French C2 certificate.

Presentation Videos and Objectives

The only program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 200 everyday situations, stories and video dialogues recorded by experts and native speakers.

900+ pages of downloadable study material

24/7 personalized tutoring and monitoring

500+ lexical and sociocultural activities

1,200+ assessment questions

Specific Virtual Classes for CEFR C2

Our Methodology

The TECH program is a C2 French Language Course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit”

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 French Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

Through activities, stories and real contexts, students will learn how to solve everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C2 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

Relearning Methodology

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses, with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

In this TECH C2 French Language Course, learning is not a linear process, but rather, it is a spiral (we learn, unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led syllabus...

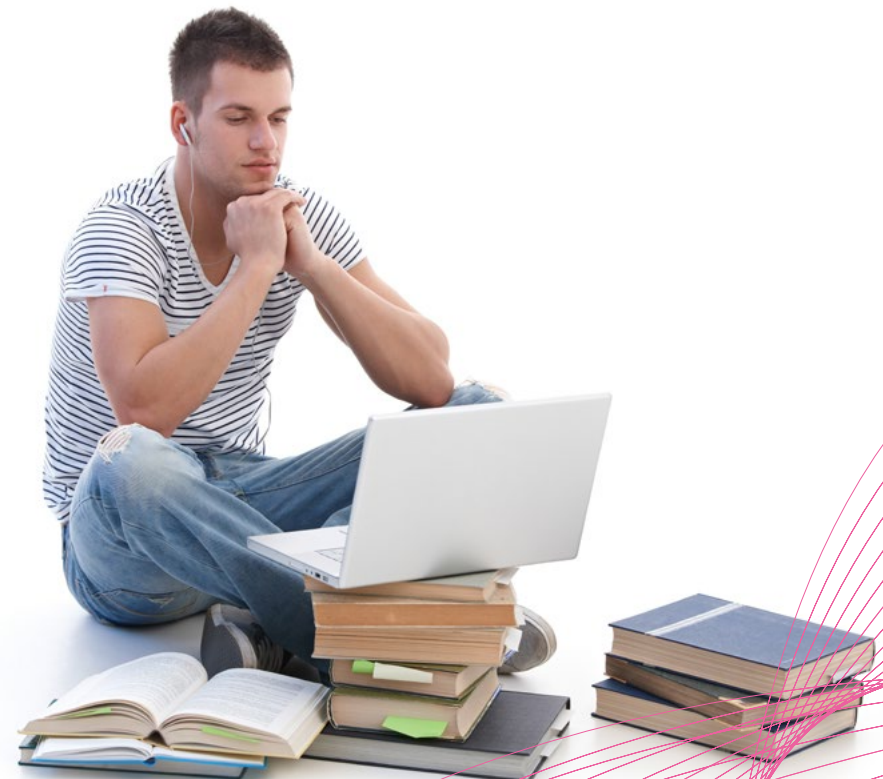

In order to facilitate tutor-student contact as much as possible, students will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called Neurocognitive context-dependent learning, the different elements of our intensive French C2 level preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy..

Course Objectives

The C2 French Language Course is entirely designed for the student to acquire the skills required to face the level accreditation exam and pass it comfortably, thanks to the educational excellence of the TECH method, the guidance of excellent native French teachers. As a result, students who complete this program will have achieved their goal of mastering the French language.

*In TECH's CEFR C2 Language Course,
students will find more than 400
pronunciation and phonetic activities.*

“Practice the speaking skills and abilities
required by the C2 CEFR: more than
1,000 different practice exercises”

General objectives

- 01** Carry out transactions of all kinds, even if they are delicate and complex
- 02** Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to
- 03** Deal with oral or written texts of any kind, regardless of the situation and the subject matter

Only TECH offers videos with the 200 specific situations required to master the CEFR C2.

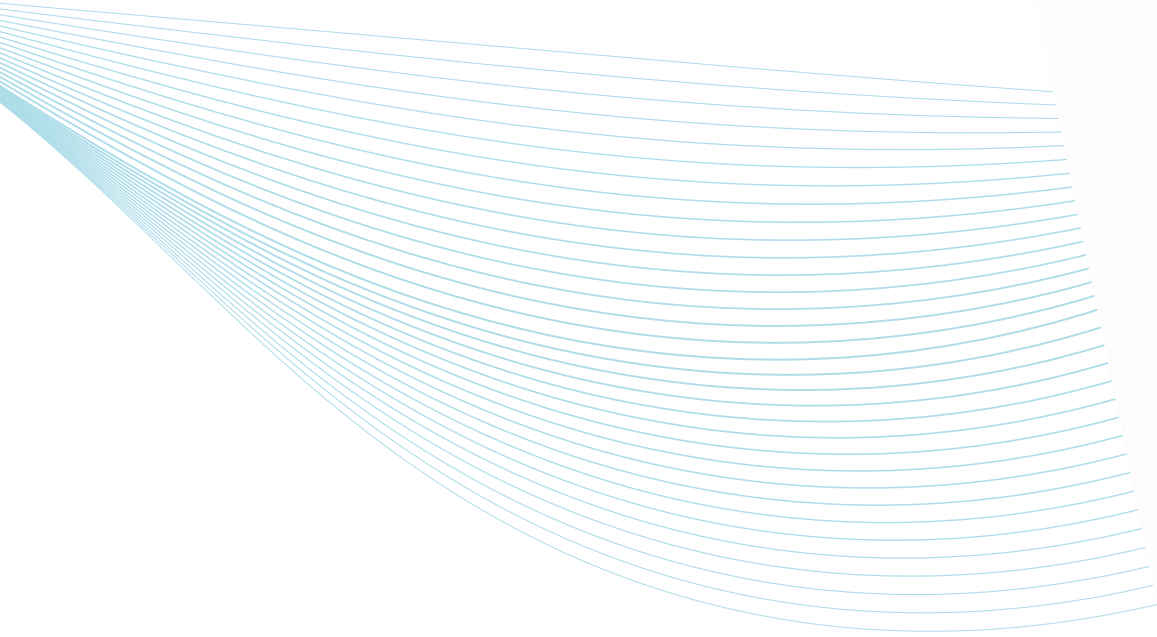

Specific objectives

- Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches
- Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology
- Understand and critically interpret virtually any form of written language, including abstract and complexly structured texts or literary and non-literary texts with a lot of colloquialisms
- Understand a wide range of long and complex texts, and appreciate subtle distinctions of style and meaning, both implicit and explicit
- Possess a good command of idiomatic and colloquial expressions, being aware of the connotative levels of meaning
- Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
- Interpret, in texts, the conventions and features of the genre to which they belong that are idiosyncratic of French culture, by searching for historical and cultural references, etc.
- Understand any speaker, even if they are a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond their own field of expertise, provided they have the possibility to do so with a non-standard accent
- Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations
- Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
- Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker
- Express themselves with clarity and precision and relate to the addressee with flexibility and efficiency
- Express oneself with clarity and precision in personal communication and use the language flexibly and effectively; including emotional, allusive, and humorous uses

09

Course Structure and Content

The structure and contents of this Language Course have been meticulously created by the entire TECH teaching team, in order to guarantee the maximum possible efficiency for the student. More than 500 different practical exercises, 900 pages of text and an educational approach based on Relearning are all factors that make this Language Course the best option in the academic environment for achieving mastery of the French language.

Where, When and How is it Taught?

This course takes place over 4 months and is divided into 16 content modules. You can do it completely online, even attending our sessions and tutorials.

"As an art expert, one of my professional goals has always been to work in a French museum. I wanted to perfect my level of French in order to master the language and TECH has given me the perfect opportunity to do so without the typical pressure you usually get from academies"

Rocío Garrido

Art Historian

"In my home country I was having trouble finding a job that lived up to my expectations, so since I already had an advanced level of French I decided to try my luck in other countries. I soon realized that I would need a higher proficiency in the language, so I signed up for TECH Language Courses, which allowed me to continue improving my French while continuing to search for a job"

Marcos Jiménez

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared for thoroughly and with good expert guidance.

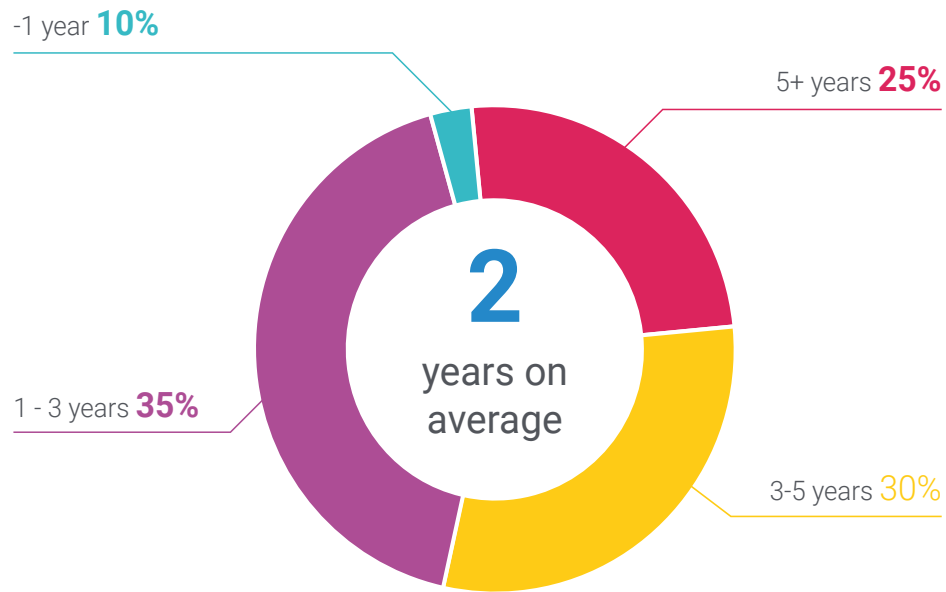

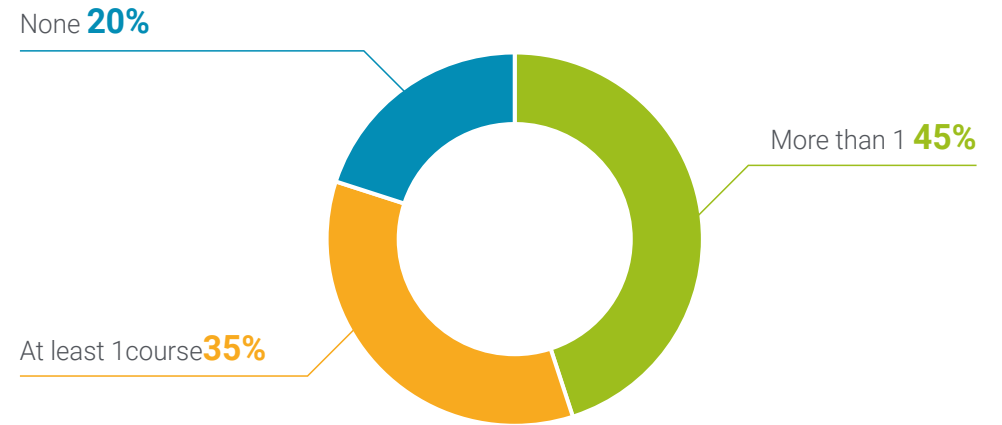

“

Many of our students have previously tried other preparation methods that have led them to lose motivation. At TECH, 9 out of 10 students recommend us”

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French, putting it in 8th place on the list of the most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to working in companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

French is an international language for food, fashion, theater, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C2 Language Course is the only one that also awards you with a university certificate”

“

Only TECH will award you a university certificate upon successful completion of the course”

French C2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do this, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress. For this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

If you pass our course, you will obtain a C2 French language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by TECH Technological University only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C2 French Language Course is an intensive course lasting a maximum of 4 months.

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
