02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or do business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University!

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Learn Portuguese and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

“

You will find the main topics of grammar, vocabulary, oral expression and written expression required for CEFR Level C2”

03

What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

“

In Portuguese TECH's C2 Level Language Course, we thoroughly prepare you to obtain your Portuguese C2 language certificate"

What are the C2 Level Skills?

01

Easily understand virtually everything they hear or read.

02

Reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

“

Other language school diplomas are only valid in the country of origin, they are neither valid in Europe nor in the rest of the world”

03

Express themselves spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations.

Our Methodology

The TECH program is an intensive preparation course to obtain the C2 Portuguese certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 Portuguese Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

In TECH's C2 Portuguese Language Course, learning is not a linear process, but rather a spiral (we learn-unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a professional personalized and expert-led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive Context-Dependent Learning*, the different elements of our intensive Spanish C2 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of technology and pedagogy..

Course Objectives

The University Preparation Course for Portuguese Level C2 is entirely designed for the student to acquire the necessary skills to face the level accreditation exam and pass it comfortably, thanks to the pedagogical excellence of the TECH method, which incorporates excellent native teachers from Brazil. Thus, students who complete this course will have achieved their goal of mastering the Portuguese language.

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities.

“

Practice the skills and competencies required by the C2 CEFR with guarantees: more than 1,000 different practice exercises”

General Objectives

- 01** Carry out transactions of all kinds, even if they are delicate and complex.
- 02** Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to.
- 03** Deal with oral or written texts of any kind, regardless of the situation and the subject matter.

In TECH's preparation course for the CEFR C2 level test you will find more than 300 activities focused on pronunciation and phonetics.

Specific Objectives

- Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches
- Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology
- Understand and critically interpret virtually any form of written language, including abstract and complexly structured texts or literary and non-literary texts with a lot of colloquialisms
- Understand a wide range of long and complex texts and appreciate subtle distinctions of style and meaning, both implicit and explicit
- Possess a good command of idiomatic and colloquial expressions being aware of the connotative levels of meaning
- Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
- Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent
- Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations
- Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
- Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker
- Express themselves with clarity and precision and speak with the addressee with flexibility and efficiency
- Express oneself with clarity and precision in personal communication and use the language flexibly and effectively; including emotional, allusive and humorous uses

09

Course Structure and Content

It is a syllabus specially designed to pass the C2 level certificate of the Common European Framework of Reference for Languages (CEFR). Throughout the course of this course, students will learn complex vocabulary, the subtleties of grammar and other subtleties that only native language speakers can detect. For that reason, it is a high-level program that will prepare students to solve linguistic situations in a creative and efficient way.

Where, When and How is it Taught?

This course takes place over 4 months and is divided into 16 content modules. You can do it completely online, even attending our sessions and tutorials.

- ◆ Discuss the application of law and morality

"To get by with all the guarantees in Brazil, you need to know all the ins and outs of the language. This means that you have to reach a C2 level of Portuguese. So I was looking for a high-level program that would give me all the skills I needed and when I found this one I realized it was the best one out there. My hopes were confirmed and now I speak Portuguese like any other Brazilian"

Gabriela Alcaraz

Argentine businesswoman

"Cities like Rio, Sao Paulo or Brasilia offer great personal and professional opportunities. Brazil is one of the most important countries in the Americas today and more and more companies are looking to establish themselves there. Mine has just taken off and my mastery of the region's Portuguese has been fundamental. I achieved a C2 level thanks to this TECH program"

Domingo García

Spanish businessman and entrepreneur

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH, 9 out of 10 students recommend us”

The Professional Benefits of Portuguese

With approximately 220 million speakers, Portuguese is the sixth most spoken native language and the third most spoken language in the world using the Latin alphabet, after Spanish

Portuguese is the official language of Portugal, where it is spoken by about 10 million people, and of Brazil (Brazilian). It is also the language of administration in Angola, Mozambique, Guinea-Bissau, Cape Verde and Sao Tome and Principe. Other Portuguese enclaves include Goa, East Timor and Macau. It is also spoken in areas of China and India that were colonies of Portugal, as well as in border areas of Argentina, Uruguay and Paraguay.

Portuguese is an emerging language, thanks, among other reasons, to the great economic development of Brazil, where the first language is Portuguese. Brazil is an emerging and very powerful economic power in Latin America, whose position in the world is likely to prosper even more in the coming years.

Starting an international expansion into Brazil may be a possible task for someone who does not know the language, but it is not going to be as fast or as effective compared to someone who is fluent in the language. Brazil represents a market of 190 million inhabitants. Its GDP is almost twice that of Mexico, five times that of Venezuela or Argentina, ten times that of Chile and twelve times that of Peru. The country is also part of the BRIC group (Brazil, Russia, India, China) and is considered the seventh largest economy in the world.

“

Learning the language is one of the keys to developing trust and long-term relationships, which can then materialize in the development of economic or other projects. Any company that aspires to do business in the South American giant will need to have a top executive fluent in Portuguese.”

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C2 Language Course is the only one that also awards you with a university certificate”

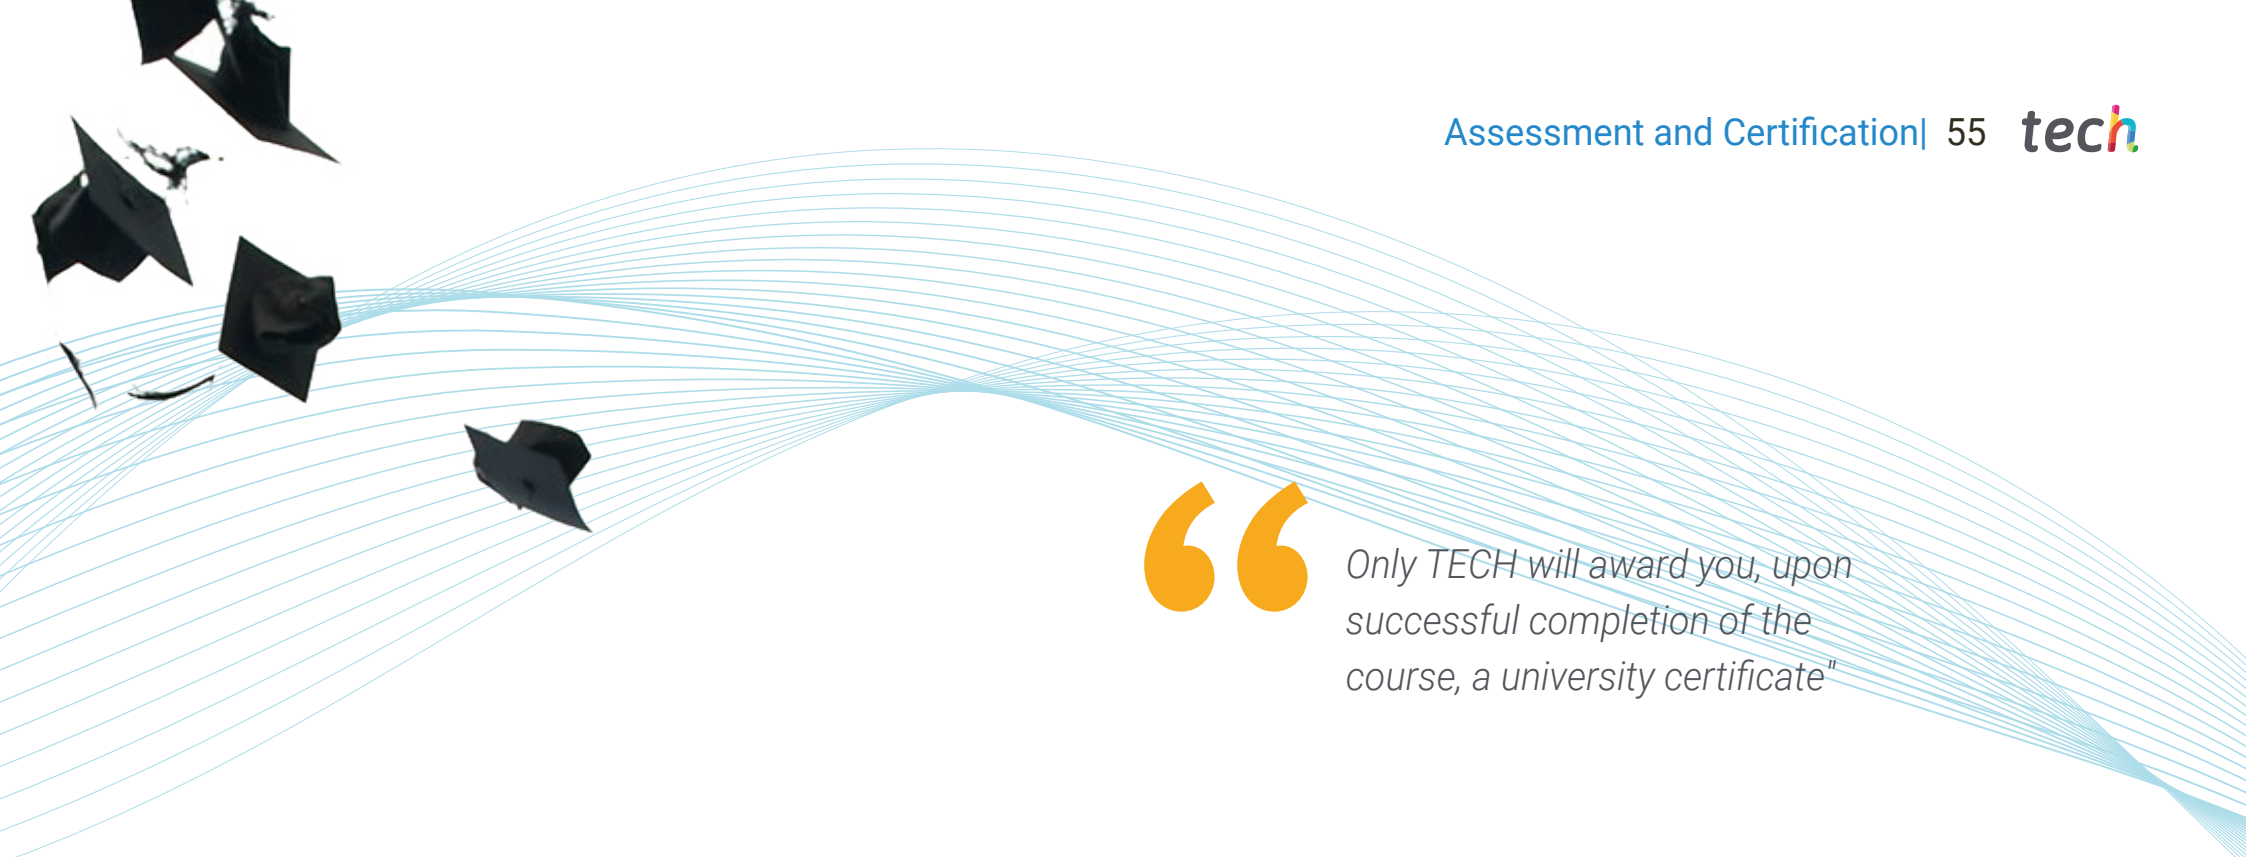

Only TECH will award you, upon successful completion of the course, a university certificate"

Portuguese C2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.

If you pass our course, you will obtain an C2 Portuguese language certificate from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference from Languages (CEFR).

The certificate issued by **TECH Technological University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C2 Portuguese Language Course is an intensive course lasting a maximum of 4 months.

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
