01 Welcome

French is one of the most relevant languages in the world. It is spoken in several continents and has a great cultural and economic weight, since it is the official language of one of the industrial and political powers of Europe. It is therefore a great decision to start learning it, TECH has designed this online conversation class program so students can learn to speak French from scratch. All this, with the support of the best native teachers, who will ensure that the learning process is simple and comfortable for students.

Presentation video

“

This language program will allow you to take your first steps with French, in a comfortable and simple way, accompanied at all times by the best native teachers”

Introduction

This language program will allow students to start learning French, which is one of the most important languages in the world. It is not only spoken in Europe, as it is widely spoken in Africa, America and even Asia and Oceania. It is considered one of the universal languages, so being able to speak it opens the door to numerous academic and professional opportunities. These classes will boost student command of French, making their communicative skills advance rapidly.

This language program will not only make you improve your French, but it will also prepare you specifically to certify a CEFR A1 Level.

You will increase your level of French over 40 sessions spread over 4 months, through remote classes in small groups.

It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer, and teacher.

A unique and stimulating experience

Flexible and Tailored

Take the best French conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

Being able to certify the level of a language is essential nowadays, since accreditation is required in many employment processes, scholarships, academic positions, job vacancies or competitive examinations. For this reason, this group conversation program has been designed with the passing of the oral test of the Common European Framework of Reference for Languages (CEFR), a highly prestigious language recognition system. Consequently, students will not only improve their French, they will also have the opportunity to certify it.

“

Language accreditation is indispensable in many academic and professional processes. That is why this program is perfect for you: at the same time as you advance in French, you will be prepared to certify your level”

TECH - Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

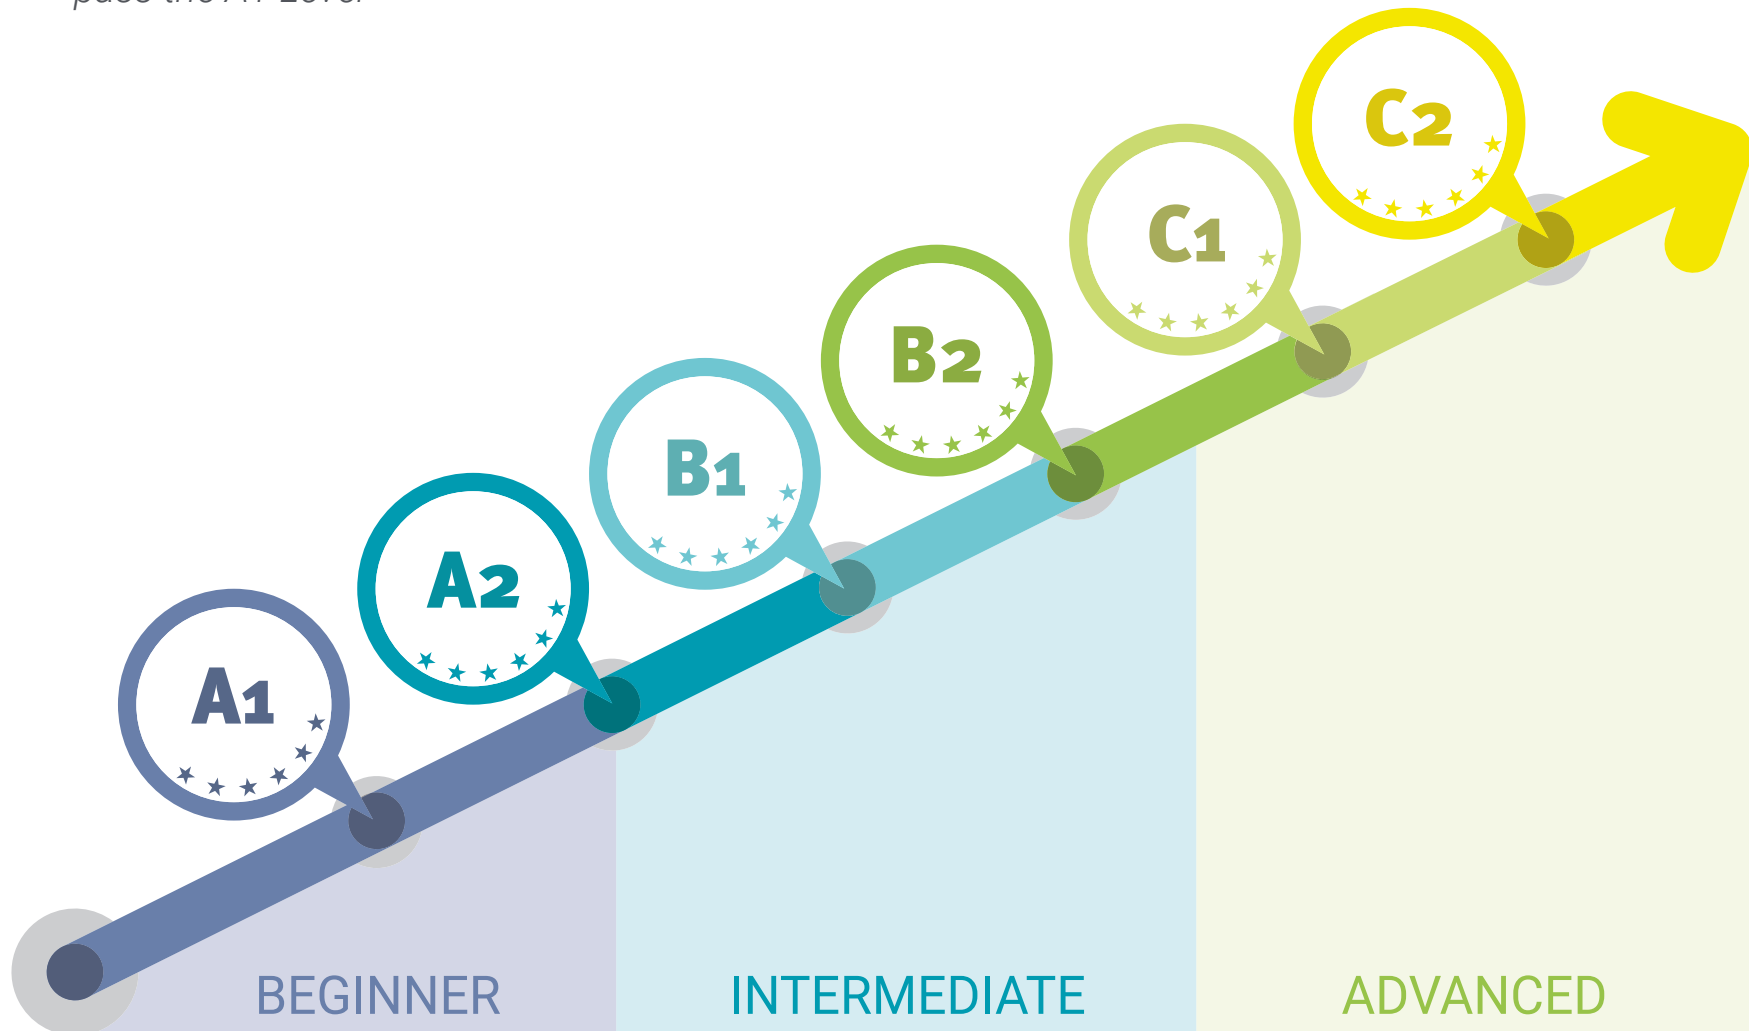

Start speaking fluent French thanks to this language program and take advantage of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the A1 Level”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A₁

“

*This language program adapts to you:
unhurried, at your own pace, making
the most of every minute you invest”*

What Is Level A1?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“

Improve your skills in the language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as , long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

A1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

Speaking

Oral Interaction

- Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- Ask and answer simple questions on topics of immediate need or very common issues

Oral Expression

- Use simple expressions and phrases to describe the place where they live and the people they know.

TECH helps you to get your official qualification with intensive, 100% CEFR training"

*Check your level.
Assess yourself.
More than 100
different activities
to improve your
fluency, expression,
comprehension
and pronunciation.*

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

- ♦ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

- ♦ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

- ♦ Ask and answer questions related to personal data
- ♦ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences.

Coherence

- ♦ Linking words or groups of words with very basic and linear connectors such as "and" and "then"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

04

Why TECH?

TECH offers the first oral communicative competence preparation program based 100% on the acquisition of competencies, as established by the European Council, for the teaching of foreign languages. The institution works with the latest methodological approaches: the action-oriented approach and the competency-based approach in order to prepare students for the official level certification exams. For this purpose, it has the best native teachers with whom students can interact from their laptop or computer and practice their oral skills.

*You will not be in better hands:
TECH is an institution with extensive
experience in language teaching and
will meet all your expectations.*

“

Other language school certificates are only valid in the country of origin, they are neither valid in Europe nor in the rest of the world. That is why you need a CEFR qualification from TECH: It's valid worldwide!”

What makes us unique

Mission

Our mission is to stimulate the professional and personal development of our students, promoting their skills and abilities so that they are able to adapt to a real and constructive multicultural environment.

Vision

TECH Technological University's vision is to be an innovative, academically thorough learning environment of international reference, capable of transmitting values that inspire the transformation of language learning to creative and socially responsible models.

- Innovation and creativity
- Excellence
- Spirit of self-improvement
- Social commitment
- Exclusivity and leadership
- Passion

TECH - Technological University

- We facilitate social, dynamic and interactive learning
- Learn in real time, ask questions, review your vocabulary and pronunciation every day
- Enjoy a system with the best audio and sound quality.
- Acquire the skills you need to pass your A1 level certificate.
- You will have a specialized itinerary programmed day by day

05

Features of the Online Conversation Classes for A1 French Preparation

An intensive course

Online Conversation Classes for French A1 preparation is an intensive program that prepares you for the Common European Framework of Reference for Languages (CEFR) for French Level A1. You will attend 40 60-minute sessions to improve your oral proficiency and practice under the best guidance and supervision.

The Most Comprehensive Syllabus

The syllabus throughout is based on the Common European Framework of Reference for Languages, so you are guaranteed to be prepared with the best content.

Accessible

Our system allows you to study from your tablet, PC or Smartphone.

Accredited

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate

Dedicated

You will have a native teacher with expertise in teaching speaking skills to guide you in your learning process.

40 intensive speaking practice sessions

100+ activities for different skills

100+ native teachers

Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training on the market that includes the complete course content in downloadable format:

- Grammar PDF: you will have access to more than 100 downloadable and printable grammar worksheets to study wherever and however you want.
- Lexical cards and glossaries: You will find 50 pages of lexical cards and glossaries to download and practice your vocabulary.

Quick and intuitive platform

Forget about cumbersome registrations and problems connecting or following the class. One device and an internet connection is enough. Connect with a single click and work whenever and wherever you want.

Cancellation Policy

In order to cancel a previously scheduled or agreed upon class, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire French A1 preparation course.

- We will work with more than 100 activities for different oral skills
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official French A1 certificate.

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

Carry the sessions on your phone and view them wherever you want!

Do you want to revisit the class afterward and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

The A1 French Online Conversation Classes is an intensive course to obtain a certificate of French, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH uses a method of oral proficiency practice in which students work intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR competencies in each session"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 French Online Conversation Classes offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare you for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH - Technological University's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Krasinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive English A1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect through your mobile device and learn with the best native teachers.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-based Practice

At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and Phonetics Practice

At TECH - Technological University, we focus our method on repetition as the best way to consolidate your learning.

Imagen

Audio

Vocabulary and Socioculture Practice

At TECH - Technological University, we offer you different ways to consolidate your vocabulary through practice, conversation and by consulting downloadable worksheets.

Grammar and Spelling Practice

You will work on grammar without even realizing it, from a practical point of view, through activities with native teachers.

Interactive chat

During the sessions you can practice your written skills by interacting in the chat.

Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

At TECH Technological University you will find an expert teaching staff equipped to prepare you with a high-quality syllabus based 100% on acquiring the oral skills required by the CEFR.

TECH Technological University is the only institution that is committed to answering your questions in less than 24 hours.

Texto

07

Course Objectives

The A1 French Online Conversation Classes is entirely designed for students to acquire the necessary oral skills to enable them to sit the CEFR test. Furthermore, the program objective is for students to take their first steps in this language with ease, in a personalized way, to lay the foundations of the language and to improve quickly.

“

Practice the speaking skills and abilities required by the A1 CEFR: more than 100 different practice exercises"

General objectives

- 01** Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations.
- 02** Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language.
- 03** Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships.
- 04** Use the linguistic resources necessary to get by in basic communication situations.
- 05** Develop resources and tools that enable them to assess and improve their own learning and use of the language.

Specific Objectives

Oral Comprehension

- ♦ Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning.
- ♦ Understand instructions that are explained slowly and carefully, and able to follow directions if they are simple and brief

In TECH's language course for the official CEFR A1 Level test, you will find more than 100 activities focused on developing your oral skills.

Oral Expression

- ♦ Engage in conversations in a straightforward manner, but communication is totally dependent on slower-paced repetitions, rephrasing and rectifications
- ♦ Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- ♦ Understand common expressions aimed at satisfying simple, everyday needs as , long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand
- ♦ Understands questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- ♦ Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news.
- ♦ Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand.
- ♦ Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place. Is able to ask someone for something, and vice versa
- ♦ To ask someone for something, and vice versa. Good command of numbers, quantities, prices and schedules
- ♦ Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- ♦ Responds in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

Specific objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents.
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer.
- Understand behaviors and values other than one's own that underlie the most obvious, everyday socio-cultural aspects of life

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum.
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level.

“

In order to consolidate all these skills you will study more than 50 sessions designed by expert teachers and based 100% on the CEFR”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion, that is only possible through direct and continuous interaction with native speakers and real conversational situations.

TECH offers you what you were looking for: a practical language program completely adapted to your goals.

08

Course Structure and Content

Improving language skills is always more effective when it is done in a group of people with a similar level and similar objectives. That is why in this language program, the teaching team has devised a methodology for students to practice in a multitude of situations. Acquiring language and oral skills suitable for multiple everyday contexts, small groups offer greater intervention opportunities, resulting in a rewarding experience for all.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

You will surround yourself with people who share your goals and affinities, creating a common and collaborative learning environment"

A1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. The group size is small, allowing the student to intervene on multiple occasions to improve the language. Thanks to TECH's unique methodology, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

You will focus your practice to exceed by far the CEFR Level A1”

"There are many reasons for wanting to learn a language but mine is entirely professional: I've been posted in Paris as a correspondent and wanted to start soaking up the language starting with the basics. TECH's online conversation classes have made it very easy for me and I am very happy. It's helping me with my work and for that I am very grateful."

Sara Pereira

A Spanish Journalist

"Since visiting France I fell in love with the country, its culture and its language. When I came back home I knew I wanted to start learning French, but I didn't know how, because I don't have much time. When I heard about TECH and its online method, I didn't think twice. The experience has been very positive and I want to continue improving taking TECH's courses to keep up with my progress."

Mario León

A Mexican Student

09

Our Students' Profiles

TECH students rely on innovative teaching methodologies based on the digital world. This program is based on a 100% online learning system, focused on practice. That is why it is the best solution for those who do not have the time to travel to a language academy or who prefer the comfort of their own home to study.

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH 9 out of 10 students recommend us”

The Professional Benefits of English

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

The A1 French Online Conversation Classes is the only one that also awards you with an academic certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
