01 Welcome

Russia, Belarus and Kazakhstan are only some of the countries in which Russian is spoken, offering a great opportunity for international growth and projection. In general, the Russian population does not know much English, so to travel to these countries either for business or pleasure it is essential to have at least a basic knowledge of the language. These TECH Conversation Classes serve as a springboard for acquiring the oral fluency needed to function in the most common areas of any Russian-speaking country.

02

Is it Important to Obtain a Language Certificate?

The certification of languages is essential these days. It is required in labor and administrative processes, for obtaining scholarships, for access to academic exchange programs and adds many points when applying for jobs and in competitive public service examinations. For that reason, the best path to success is to accredit your language level, and this university program prepares the student to pass the oral test of the CEFR Level A2 Russian exam, a system of language recognition valid throughout the world.

“

This university program will allow you to master all the skills of A2 level Russian according to the linguistic bases of CEFR, and you will be able to pass the oral exam easily after finishing this course”

TECH - Technological University

The Common European Framework of Reference for Languages is the **only system that recognizes and accredits the student's level**. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Technological University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

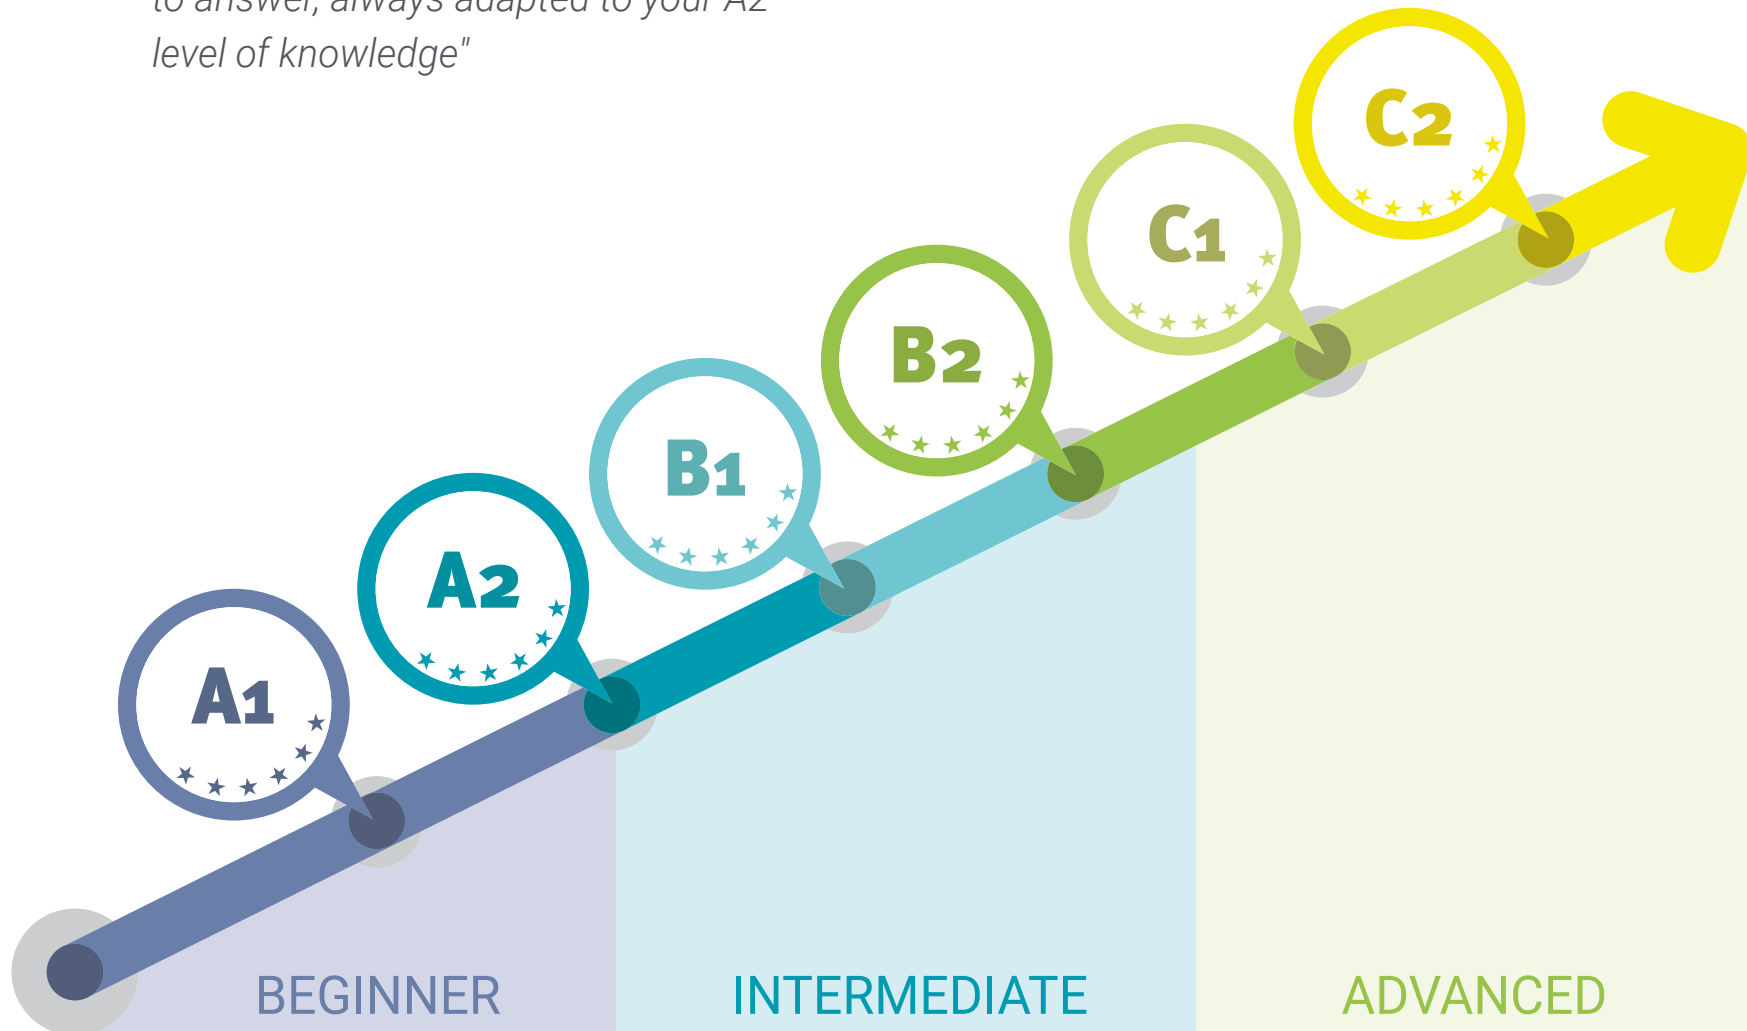

The basis for the success of this program is its practical impact: enroll and speak Russian fluently right away.

Learn with native teachers who know all the nuances of Russian.

“

You will deepen your understanding of those areas you find most difficult to answer, always adapted to your A2 level of knowledge”

03

What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2). At this level you will find most of the descriptors that have social functions, such as: knowing how to use common ways to greet and behave towards others in a friendly way; greet people, ask how they are and be capable of reacting to their response; deal well with brief social exchanges; know how to ask and respond to questions about work and free time; know how to invite others and how to respond to an invitation; discuss what to do, where to go and set a date; be able to make an offer and accept one.

This is also where you will find descriptors for social life: be able to perform simple transactions in shops, post offices or banks; know how to gain simple information about travelling; use public transport (buses, trains and taxis); ask for basic information, ask and explain how to get to a certain place and buy tickets; order and provide everyday goods and services.

A₂

“

All the vocabulary and the most essential forms of expression in Russian will be within your reach with this language program”

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“*Certify your A2 level of Russian in a fast and simple way thanks to this program which is focused on the spoken aspects of the language*”

01

Be able to understand commonly used phrases and expressions related to areas of expertise that are especially relevant to you (basic information about yourself and your family, shopping, places of interest, jobs, etc.)

02

Know how to communicate when carrying out simply daily tasks, which only require simple and direct exchanges of information on well-known or routine questions.

03

Can describe in simple terms aspects of his/her background and environment, as well as issues related to his/her immediate needs

A2 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment).
- ♦ Capture the main idea of short, clear and simple messages and notices.

Speaking

Oral Interaction

- ♦ Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues.
- ♦ Very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own.

Oral Expression

- ♦ Use a series of expressions and phrases to describe, in simple terms, your family and other people, your living conditions, your educational background, and your current or most recent job.

Prepare to pass the CEFR A2 Russian accreditation exam in an intensive way and gain access to numerous professional and academic opportunities”

More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.

Qualitative aspects of spoken language usage for Level A2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations.

Interaction

- Answer questions and respond to simple statements.
- Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord.

Correction

- Use some simple structures correctly, although basic systematic mistakes are still made.

Coherence

- Linking groups of words with simple connectors such as "and", "but" and "because".

Fluency

- Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident.

TECH provides you with more than 50 pages of lexical worksheets and glossaries to practice Russian vocabulary at an A2 level.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-based practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Russian A2 certificate.

Simulated learning scenarios

At TECH Technological University, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills.
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

Practice is key. TECH's teaching methodology is focused on this important aspect and allows the student to develop their Russian skills in an interactive way, participating in small online group classes and enjoying the support of a native teacher. Thus, following this dynamic, the student will be able to learn all the keys to mastering CEFR level A2 Russian in an intensive way and through the Re-learning method.

“

Study whenever and wherever you decide, enjoying the support from native teachers and having access to all types of practical exercises”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Russian A2 level oral proficiency preparation program offers you a method based on interaction and on synchronous and direct communication between teacher and student to provide you with comprehensive preparation for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

All of this is enhanced with the best 100% online teaching methodology: Re-learning.

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH Technological University's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called *“Neurocognitive Context-Dependent Learning*, the different elements of our Russian A2 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

07

Course Objectives

The objective of this university program is to provide the student with all the necessary tools to, on the one hand, communicate in a basic way in Russian and on the other hand to easily pass the oral test in the Level A2 Russian accreditation exam with CEFR, the most important language level recognition system in the world. TECH will provide you with native teachers, numerous teaching materials and a small conversation group to gradually improve your level of Russian.

“

Improve your fluency in Russian and certify your A2 level according to the CEFR, thanks to the more than 100 different practical exercises that TECH offers you”

General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual.

02

Understand, interact and express yourself orally in a simple yet appropriate and efficient way in these situations.

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships.

04

Use the linguistic resources necessary to get by in basic communication situations.

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies.

06

Develop tools that enable them to assess and improve their own learning and use of the language.

Specific Objectives

Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identify the topic being discussed, provided it is conducted slowly and clearly.
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation.
- Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly.

The best way to learn is through practice: TECH offers group conversation classes and a native and high-level teaching staff so that you can achieve the level of Russian that you need.

Oral expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences.
- Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of their environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences.
- Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons. Explain what they like and dislike about something.
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and sociolinguistic competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment. Generally use a standard language register of basic formality and informality, but polished. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life
- Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

Linguistic competence

- Achieve a sufficient repertoire of linguistic components for the use of language at this level and make correct use of the "formulas" and structures learned
- In language construction, achieving limited control, with the possible systematic errors of the level
- Pronounce clearly and understandably even if a foreign accent is evident.
- Write with correct spelling the common language worked on

“

In order to consolidate all these skills you will study more than 40 sessions designed by expert teachers and based 100% on the CEFR”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence. This implies a cultural immersion that is only possible through direct and continuous interaction with native speakers and real conversational situations.

Enroll and observe how TECH helps you to improve your level of Russian in a quick and fluid way.

08

Course Structure and Content

During this university program, the student will share a lesson with other students with similar interests, being a joint experience in which it will be possible to practice both comprehension and oral expression. The lessons are adapted to each individual group, dealing with daily situations such as a visit to the doctor or to a shopping mall. The teaching staff will give you the keys and necessary advice to help you pass the A2 level with skill.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“ You will be in a group with other students who share your objectives and interests, giving you the an advantage in mastering the A2 level”

A2 Level Learning Objectives

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to the personalized tutoring, it is possible to achieve all the objectives in the shortest amount of time possible, resulting in an effective and efficient teaching.

- ♦ Begin to be more fluent in speech, with improved accuracy and better oral comprehension.
- ♦ Familiarize yourself with the grammatical rules of the Beginner and Elementary levels.
- ♦ Gain a better understanding of the different forms of the verbs in order to construct specific sentences.
- ♦ Describe the appearance and character of people, their surroundings and the hobbies that they have.
- ♦ Communicate in common situations such as a medical consultation or a trip to a shopping mall.
- ♦ Learn the typical vocabulary and oral expressions in local cuisine or during your travels.

You will improve rapidly thanks to common practice, error correction and continued learning, lesson by lesson”

"I have always loved languages and I continuously search for new languages to learn and to include on my resume. The Professional Benefits of Russian

Russian is an essential language to develop a career in Russia itself or in other countries where it is the predominant official language, such as Belarus or even some areas of Ukraine and Kyrgyzstan. For this reason, and given the differences it has with respect to Latin languages, it is important to get a proper understanding of the Russian language.

TECH has prepared these online conversation classes following the criteria established by CEFR. Therefore, the student will practice the topics and modules corresponding to level A2 Russian within their groups.

This will allow them to have a remarkable fluency in the language at a basic level, being able to cope in most everyday situations. Thanks to the practical focus of these classes, students will gain confidence in their use of the language which would be impossible to achieve in other ways.

“

Russian is the main language in sectors such as energy as well as petrol and natural gas extraction Don't get left behind and learn it now”

11

Assessment and Certification

The main evaluation objective in TECH Technological University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH Technological University's A2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
