01 Welcome

Italian is a language of enormous cultural, historical and political strength. Italy is the country of artistic monuments, of Raphael, Michelangelo, Dante, Petrarch and Fellini. For that reason, it is one of the most exciting and influential languages in Europe, and today it continues to extend its power through the country's large industry and the nation's political influence in institutions such as the European Union. It is, therefore, a great decision to improve the level to B1. TECH offers students the possibility to do so through group conversation classes, guided by native teachers. All of this, according to the Common European Framework of Reference for Languages (CEFR).

Presentation video

“

Improve your expression and comprehension of Italian thanks to this university program and pass the CEFR Level B1 oral test"

Introduction

This online group conversation classes university program is specifically aimed at improving the student's level of Italian in a quick and simple way. It adapts to your circumstances and allows you to develop new linguistic skills in this language, based on a complete syllabus, a native teacher and a very agile and totally practice-focused class dynamic. Thus, you will not only reach a B1 level of Italian quickly, but you will also prepare yourself to certify your level according to the CEFR.

TECH's group classes will allow you to interact with other students and native teachers, ensuring that your learning process is the most effective.

This university program will prepare you to pass the CEFR Italian B1 oral test through more than 100 activities.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

Thus, this university program is a great opportunity for all those who are interested in improving their level of Italian while preparing to certify their level.

“

Proof of a B1 level in Italian is essential for access to master's and doctoral programs and scholarships. Get it thanks to this university course"

TECH Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Technological University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

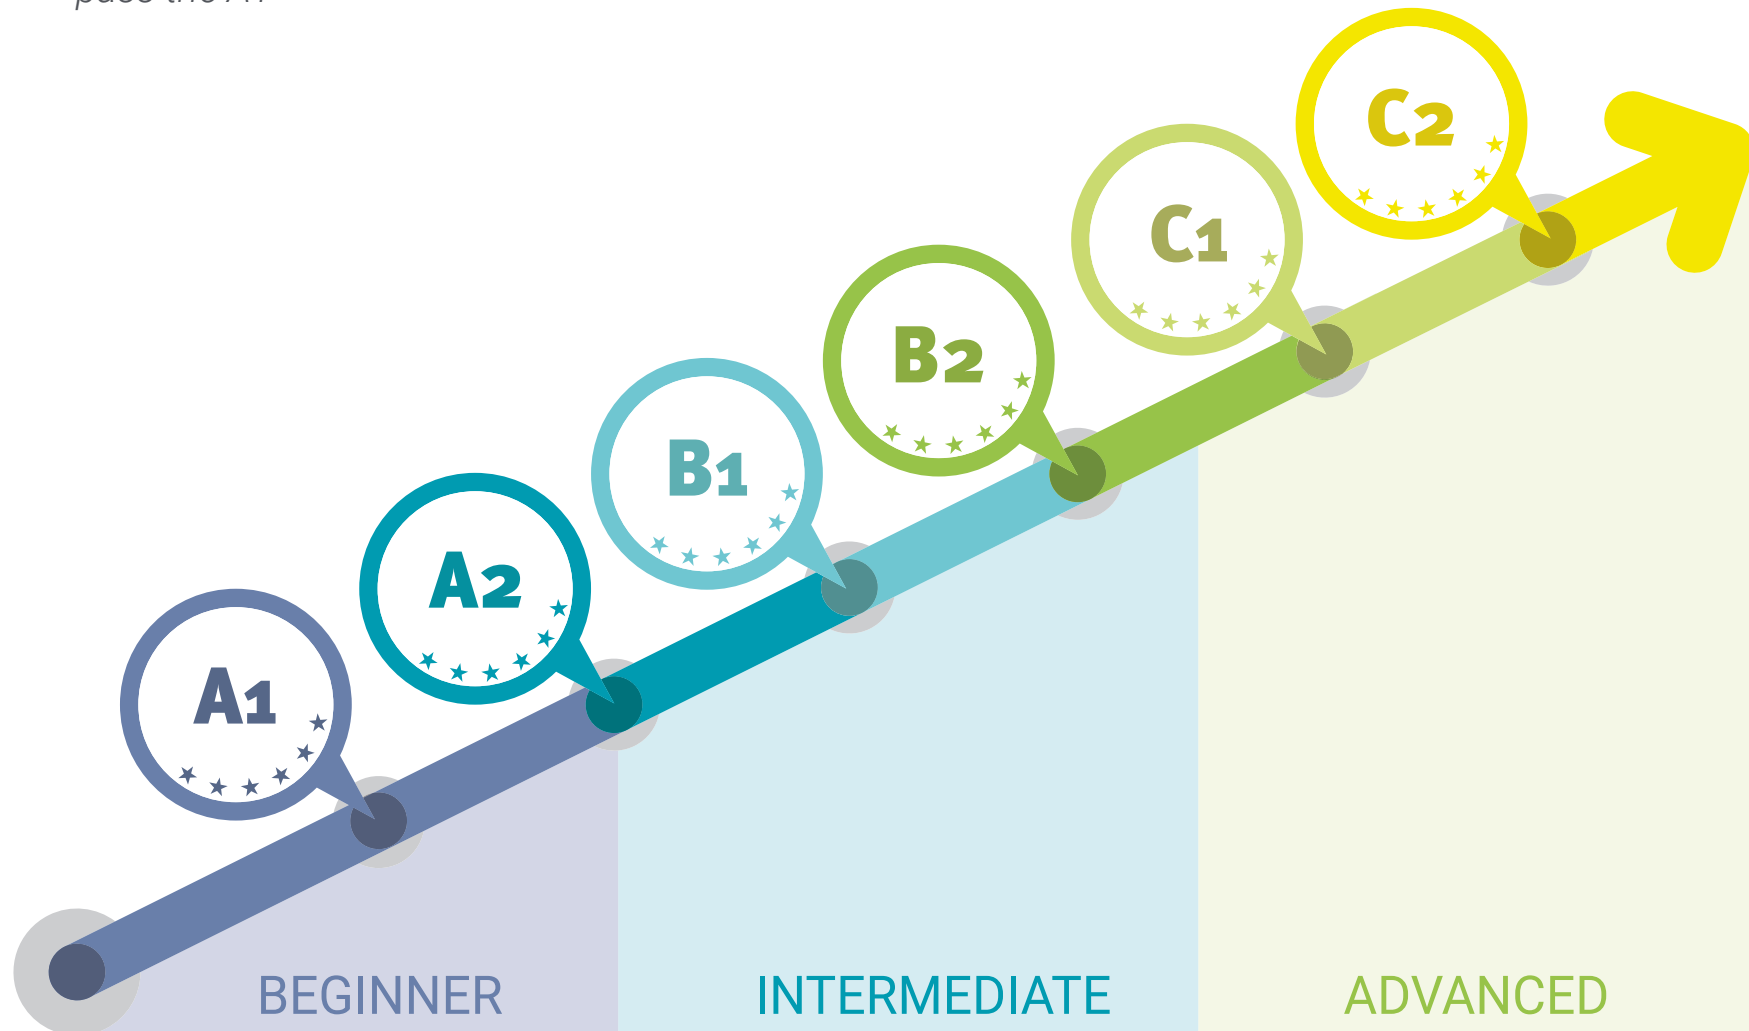

TECH has the best teaching staff, composed of native teachers who will introduce you to Italian in a simple and gradual way.

You will be able to communicate in all types of conversations and gain access to important academic and professional opportunities. Enroll now.

“

With this program you will have all the content and skills you need to pass the A1”

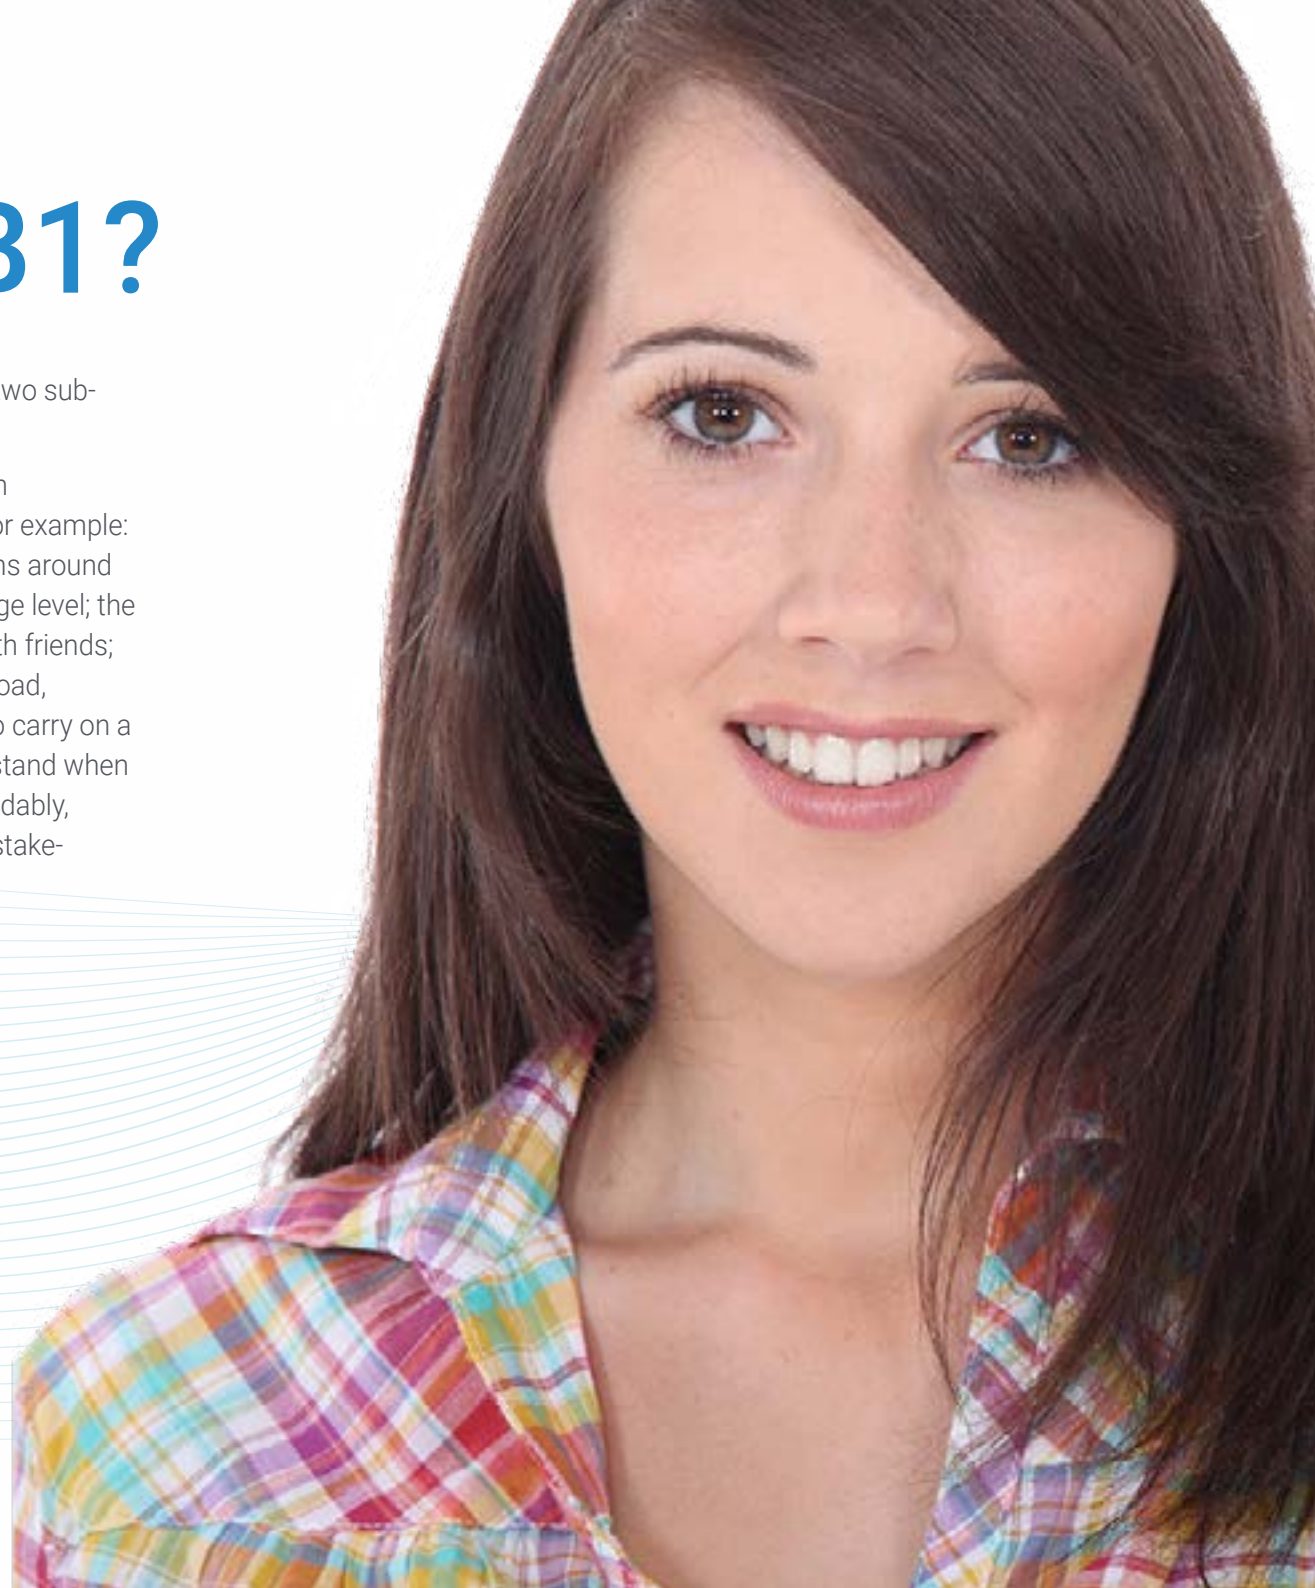

03

What Is Level B1?

Level B1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2).

The B1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them provided the speech is clearly articulated at a standard language level; they can offer and ask for personal opinions in an informal discussion with friends; they can clearly express the main idea they want to get across; they can flexibly use broad, simple language to express much of what they want; they are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; they can express themselves understandably, although they may have pauses for some grammatical and lexical planning and mistake-correcting is evident, especially in long periods of language flow.

The second feature is the ability to know how to deal flexibly with everyday problems, such as, for example: coping with less common situations in public transport, the typical situations that often arise when making travel reservations through an agency or when traveling; participates in conversations on usual matters without having anticipated it; being able to raise complaints; taking the initiative in an interview or consultation (e.g., knows how to initiate a new topic), although still being noticeably dependent on the interviewer during the interaction; knowing how to ask someone to clarify or develop what they have just said.

Obtain the CEFR German Level B1 certificate thanks to the conversational improvement that this university program will provide you"

What are the B1 Level Skills?

01

Can understand the main points of clear, standard language texts on familiar matters, whether in work, study or leisure situations

02

Know how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Certify your B1 level of Italian in a fast and simple way thanks to this program which is focused on the spoken aspects of the language”

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

B1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Can understand the main ideas when the speech is clear and normal and deals with everyday matters that take place at work, at school, during leisure time, etcetera
- ♦ Understand the main idea of many radio or television programs dealing with current affairs or matters of personal or professional interest, when the articulation is relatively slow and clear

Speaking

Oral Interaction

- ♦ Get by in almost all situations that arise when traveling to places where the language is spoken
- ♦ Can spontaneously engage in conversation on everyday topics of personal interest or that are relevant to daily life (e.g., family, hobbies, work, travel, and current events)

Oral Expression

- ♦ Know how to link sentences in a simple way in order to describe experiences and facts, dreams, hopes and ambitions
- ♦ Explain and briefly justify opinions and projects
- ♦ Narrate a story or tale, the plot of a book or movie, and describe their reactions

This program prepares you intensively, using the Relearning methodology, to comfortably pass the CEFR Level B1 oral test"

More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.

Qualitative aspects of spoken language usage for Level B1 (According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Possess a large enough linguistic repertoire to get by and an adequate vocabulary to express themselves, albeit hesitantly and with circumlocutions, on topics such as their family, hobbies and interests, work, travel and current

Correction

- ◆ Use with reasonable accuracy a repertoire of commonly used formulas and structures associated with predictable situations

Fluency

- ◆ Continue to speak in a comprehensible manner, although pauses for grammatical, lexical planning and correction are evident, especially during long periods of free speech

Interaction

- ◆ Initiate, maintain and end simple face-to-face conversations on everyday topics of personal interest
- ◆ Repeat part of what someone has said to confirm mutual understanding

Coherence

- ◆ Link a series of short, distinct and simple elements to enable a linear sequence of related ideas

Download and practice vocabulary: more than 500 pages of lexical cards and glossaries.

Skills-based practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare you to obtain your official Italian B1 certificate.

Simulated Learning Scenarios

At TECH Technological University, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

Take the sessions with you on your cell phone and view them wherever you want!

Specific Virtual Classes for CEFR B1

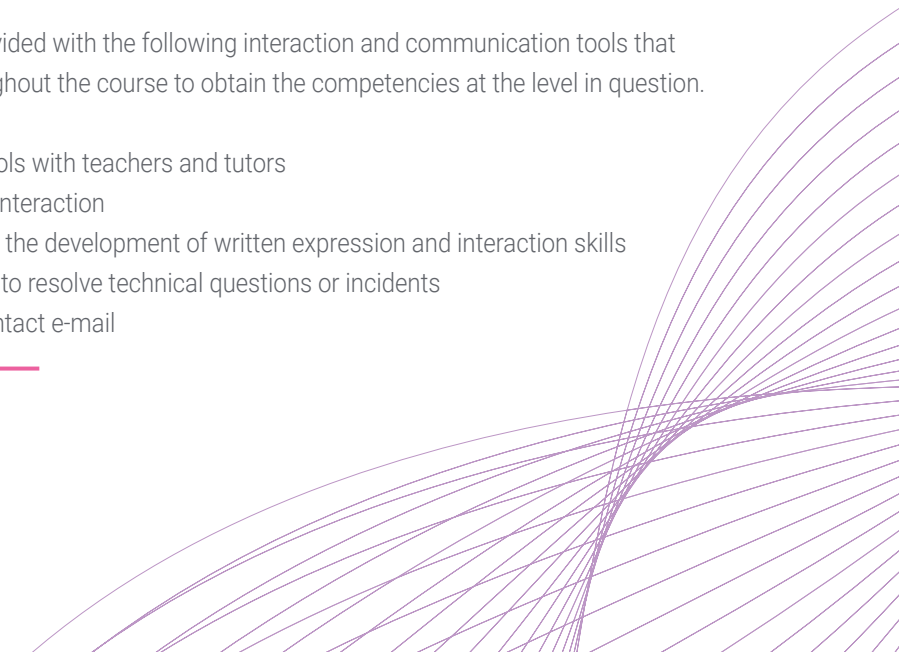

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

In addition:

The student will be provided with the following interaction and communication tools that will be combined throughout the course to obtain the competencies at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

The program for the B1 Italian Online Conversation Classes is an intensive preparation course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH employs a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

You will not find a program like this one, which will allow you to work at your own pace, with native teachers, in small groups based on specific practice of the CEFR competencies in each session"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

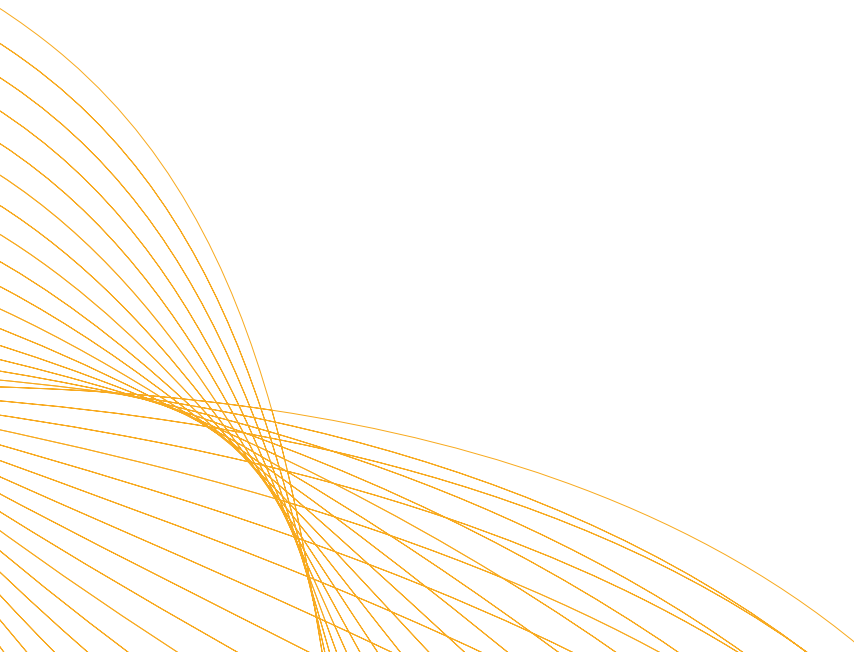

TECH's B1 Italian Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real, multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively, for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses, with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

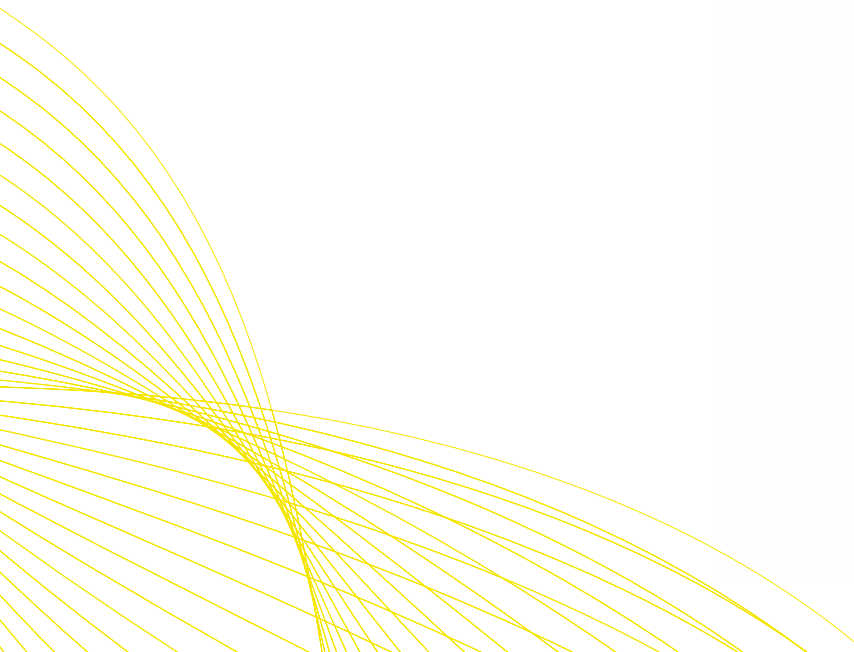

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary..

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *“Neurocognitive context-dependent learning*, the different elements of our intensive Italian B1 level preparation course are connected to the context in which the participant will take his or her official certification exam in order to guarantee success on the day of the test.

...and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in Real Situations

We present you with real conversational situations with native speakers with different accents, in different contexts.

Skills-Based Practice

At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and Phonetic Practice

At TECH Technological University, we focus our method on repetition as the best way to consolidate your learning.

Course Objectives

The main objective of this program is to help the student acquire the B1 level certification in Italian, according to the Common European Framework of Reference for Languages. To achieve this goal, TECH offers the student a native teacher, specialized in online language teaching, as well as varied and comprehensive didactic materials and a small conversation group, with whom the student can practice comfortably. In this way, you will be able to accredit your Italian language level quickly and safely, thus improving your professional, academic and personal prospects.

“

Practice with guarantees of the oral skills and competences required by the B1 CEFR: more than 100 different practice exercises"

General Objectives

01

Use the language being learned as a means of communication and personal expression, both in the classroom and in a wide range of face-to-face and virtual situations and on both concrete and abstract topics, including cultural ones

02

Understand, interact and express themselves in these situations, orally in an adequate, reasonably flexible, accurate and correct way

03

Describe the sociocultural aspects related to usual situations, as well as those related to one's own environment and use the appropriate social formulas, gestures, register and treatment in these situations

04

Internalize the appropriate and necessary linguistic resources for the planned communicative activities, through functional and formal practice

05

Encourage and diversify the use of strategies that streamline communication and facilitate learning

06

Manage tools to evaluate and improve one's own learning and use of the language

Specific Objectives

Oral Comprehension

- Understand concrete everyday or work-related information and identify both the general message and specific details as long as the speech is clearly articulated and with a normal accent
- Understand the main ideas of clear, standard speech on everyday topics, related to work, school or leisure time, including short narratives
- Generally follow the main ideas of a long discussion going on around them, provided that the discourse is clearly articulated at a standard language level
- Understand, in general terms, simple and short speeches on everyday topics provided they are delivered with standard and clear pronunciation
- Understand a lecture or talk that deals with their area of expertise, provided that the subject matter is familiar and the presentation is simple and clearly structured
- Understand simple technical information, such as operating instructions for frequently used appliances, as well as follow detailed instructions
- Understand the main ideas of radio news and other simpler recorded material dealing with everyday topics delivered relatively slowly and clearly
- Understand the information content of most recorded or broadcast material related to topics of personal interest with clear standard pronunciation

Oral Expression

- Carry out, with a reasonable degree of fluency, a simple description of a variety of topics that are of interest to them, presenting them as a linear sequence of elements
- Give simple descriptions on a variety of common topics within your specialty
- Give simple narratives or descriptions with a reasonable degree of fluency following a linear sequence of elements
- Make detailed accounts of experiences describing feelings and reactions
- Report the details of unpredictable events, such as, for example, an accident
- Relate book or movie plots and describe your reactions to them
- Describe dreams, hopes and ambitions
- Describe real or imagined events. Tell stories
- Provide brief rationales and explanations for opinions, plans and actions
- Develop arguments well enough so that they can be understood without difficulty most of the time
- Make short rehearsed statements on a relevant topic within their specialty, which are clearly intelligible despite being accompanied by an unmistakably foreign accent and intonation
- Deliver a brief, prepared presentation on a topic within their specialty, with sufficient clarity to be followed without difficulty most of the time and whose main ideas are explained with reasonable accuracy. Can also answer supplemental questions, but may have to ask for repetition if spoken quickly

Specific Objectives

Sociocultural and sociolinguistic competence

- Know how to carry out a wide variety of linguistic functions, using the most common exponents of these functions in a neutral register. Be aware of the most important rules of courtesy and act appropriately. Be aware of the most significant differences that exist between the customs, usages, attitudes, values and beliefs prevailing in the community in question and their own, and know how to identify such differences. Know how to carry out basic language functions such as exchanging and requesting information and expressing opinions and attitudes in a simple way
- Adapt their expression to deal with less common and even difficult situations. Use a wide range of simple linguistic elements with the flexibility to express much of what is wanted
- Intervene in debates on everyday topics using an appropriate phrase to take the floor. Initiate, maintain and end simple face-to-face conversations on everyday topics or of personal interest
- Perform, with reasonable fluency, simple narratives or descriptions, through a linear sequence of elements
- Link a series of short, specific and simple elements to enable a linear sequence of related ideas

Linguistic competence

- Possess sufficient linguistic ability to describe unpredictable situations, to explain the main points of an idea or problem with reasonable accuracy, and to express thoughts on abstract or cultural topics, such as music and movies
- Possess sufficient linguistic ability to get by, and sufficient vocabulary to express themselves with some hesitation and circumlocution on topics such as family, hobbies and interests, work, travel and current events, but lexical limitations lead to repetition and sometimes even difficulties in formulation
- Possess sufficient vocabulary to express themselves with some circumlocution on most topics relevant to their daily lives, such as family, hobbies and interests, work, travel, and current events
- Demonstrate a good command of elementary vocabulary, even if significant errors are made when expressing more complex thoughts, or when dealing with unusual topics and situations
- Communicate with reasonable accuracy in everyday situations; generally have good grammatical control, although with an obvious influence of the native language
- Use with reasonable accuracy a repertoire of commonly used “formulas ” and structures associated with predictable situations
- Have a clearly intelligible pronunciation, even if their foreign accent is sometimes evident and sporadic mispronunciations are made
- Produce continuous writing that is usually intelligible throughout. Spelling, punctuation and structuring are correct enough to be understood most of the time

“

In order to consolidate all these skills you will have more than 40 sessions designed by expert teachers and based 100% on the CEFR”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, storytelling, videos and real situations.

Enroll and observe how TECH helps you to improve your level of Italian in a quick and fluid way.

08

Course Structure and Content

Making the leap to Level B1 of a language can be difficult at first. Therefore, one of the best ways to smooth the path and make learning more fluid is to practice the intermediate level oral skills regularly. This allows for the development of greater confidence and security in using the most common Italian expressions. This university program focuses precisely on the advantages of practicing the language in a group, offering a program adapted to the needs of the students and developed by a team of native Italian teachers.

Where, When and How is it Taught?

This course takes place over 4 months and consists of forty 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

You will share your educational experience with people who are at the same level as you, having the opportunity to polish common mistakes and improve your fluency in Italian Level B1"

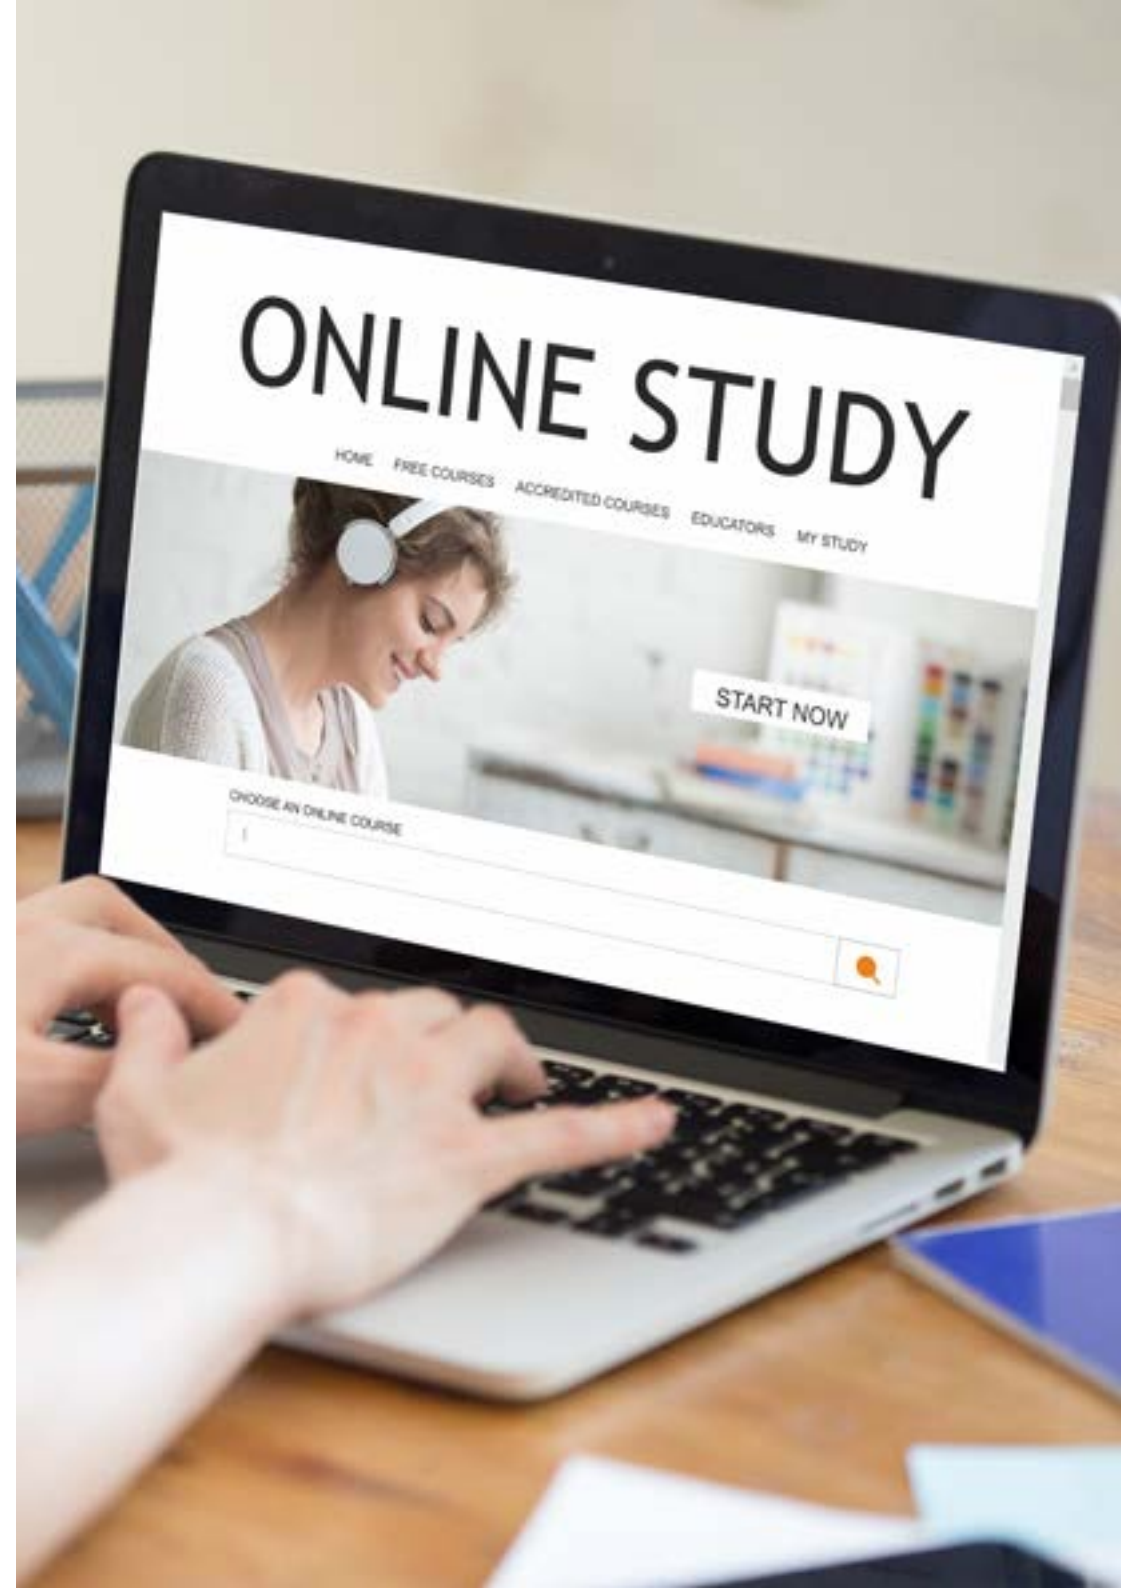

B1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Advance to an intermediate level of language proficiency
- Familiarize with new words and more advanced common grammar
- Develop listening, reading, writing and speaking skills to cope in a multitude of situations
- Speak with some fluency about sports, nature, music and life goals or personal aspirations

“

You will be able to intervene on multiple occasions, in conversations on different topics and in a small group, allowing for greater fluency and mentoring”

"I love Italy and its culture. I have been traveling to the country for years but when the time came I decided I needed something more, so I wanted to immerse myself in their language. This program helped me to do so. I'm now studying for my B2 level with TECH. And I'm sure that I will continue studying with this university"

Ulrike Ottinger

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore, speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors, tourism, the automotive industry and fashion.

“

For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered necessary to succeed in the 21st Century”

11

Assessment and Certification

The main evaluation objective in TECH Technological University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH Technological University's B1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, students will receive a certificate of recognition that will guarantee their preparation to obtain, if the student so wishes, the certification at that level.
