# Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes.

So, this qualification is essential for anyone who wishes to have all those opportunities thanks to their spoken proficiency in Chinese, since this university program prepares students to pass the oral component of the C1 Chinese exam, according to the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training”*

## TECH - Technological University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Technological University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

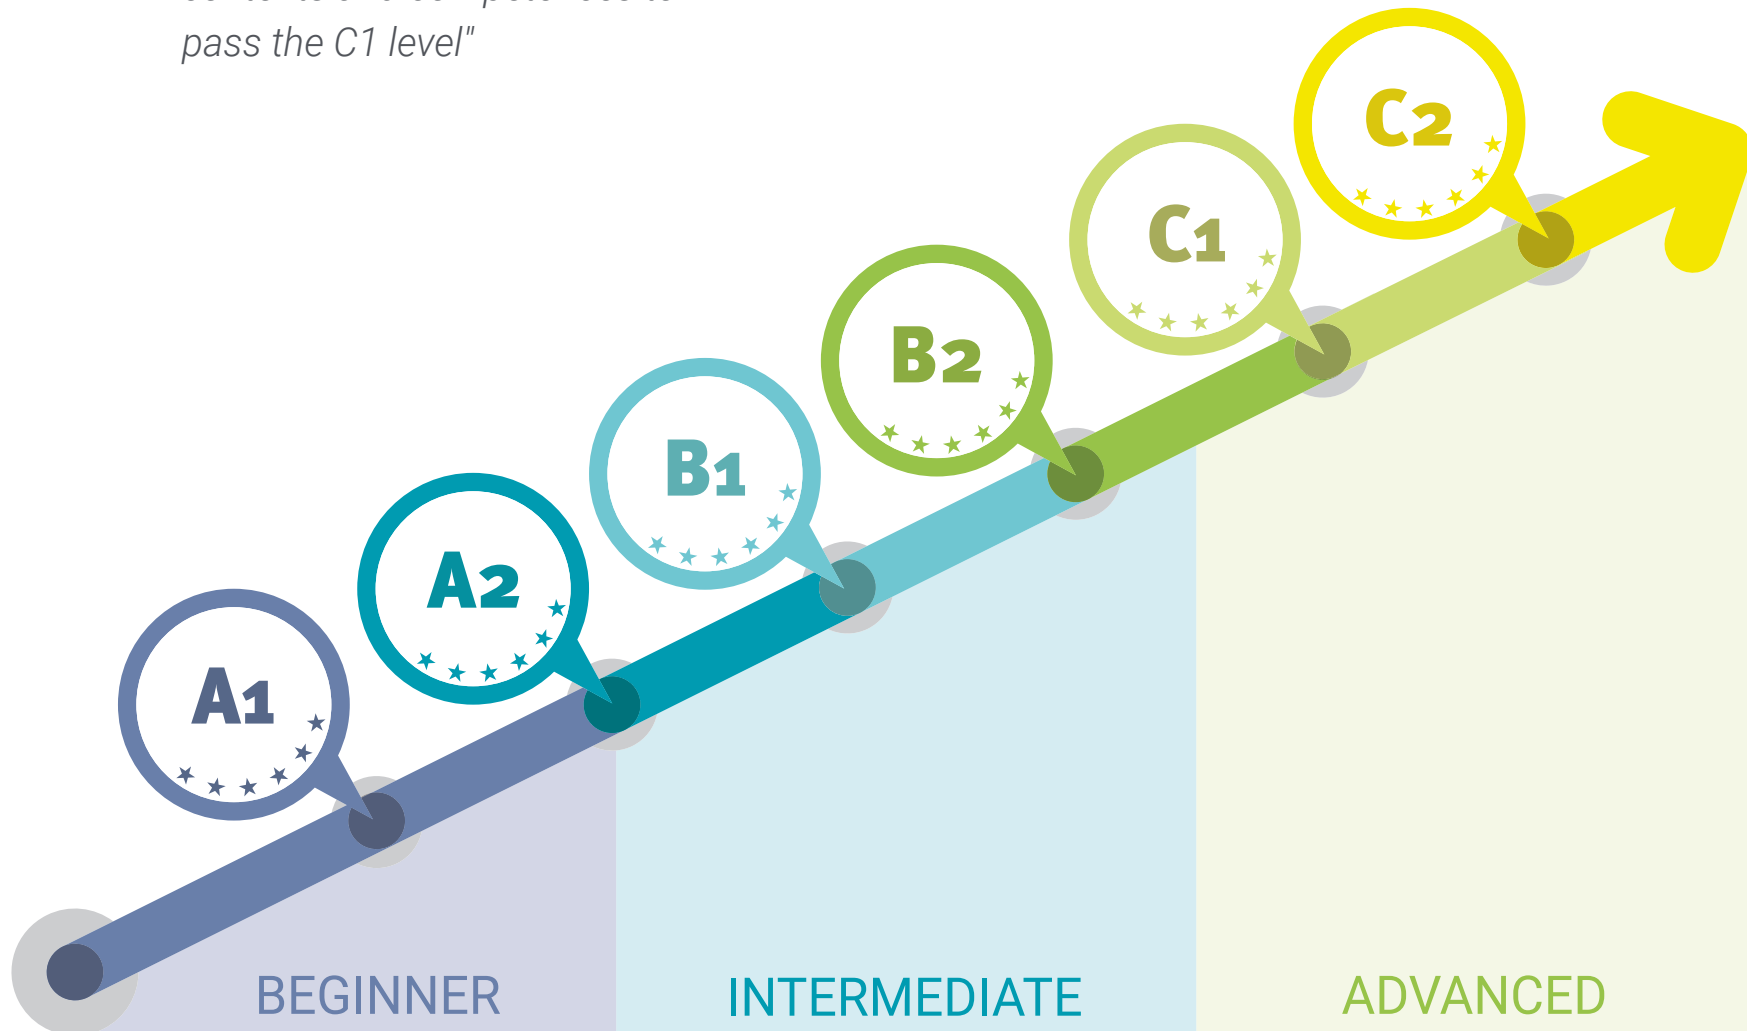

*Become fluent in Chinese and make the most of your level by accrediting it with a qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.*

“

*With this preparation program you will have all the necessary contents and competences to pass the C1 level”*

03

# What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicit. Can also express themselves fluently and spontaneously without having to search very obviously for appropriate expressions, using the language flexibly and effectively for social and professional purposes. Can express themselves in clear, well-structured texts, expressing points of view at some length and writing about complex subjects in letters, essays or reports, highlighting what they consider to be important aspects.

“

*The C1 level of Chinese will allow you to manage in all types of communicative contexts in this language"*

## What are the C1 Level Skills?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

*Improve your skills in this language and certify your level quickly and easily, thanks to everything you will learn in this excellent program offered by TECH"*

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

## C1 level Self-Assessment Chart

### What will I be able to do after completing the course?

#### Comprehension

##### Listening Comprehension

- ♦ Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated
- ♦ Understand TV shows and movies without much effort

#### Speaking

##### Oral Interaction

- ♦ Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- ♦ Use language flexibly and effectively for social and professional purposes
- ♦ Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

##### Oral Expression

## Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

- Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

#### Correction

- Consistently maintain a high degree of grammatical correction
- Errors are scarce, difficult to locate and in general are corrected whenever they occur

#### Fluency

- Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of La expression

#### Interaction

- Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- Skilfully connect your own interventions to those of the other speakers

#### Coherence

- Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

*Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.*

## Testing & Retesting

---

We periodically evaluate and re-evaluate your knowledge throughout the entire Chinese C1 preparation course.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

## Skills-based Practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Chinese C1 certificate.

## Simulated Learning Scenarios

---

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

### Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*Take the sessions with you on your cell phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

*An interactive chat to share queries, expressions, complex words, etc. in writing.*

#### Besides

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

## Our Methodology

The Online Conversation Classes program for Chinese Level C1 is an intensive preparation course for the Chinese Level C1 certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

*In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR skills in each session"*

## The TECH - Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

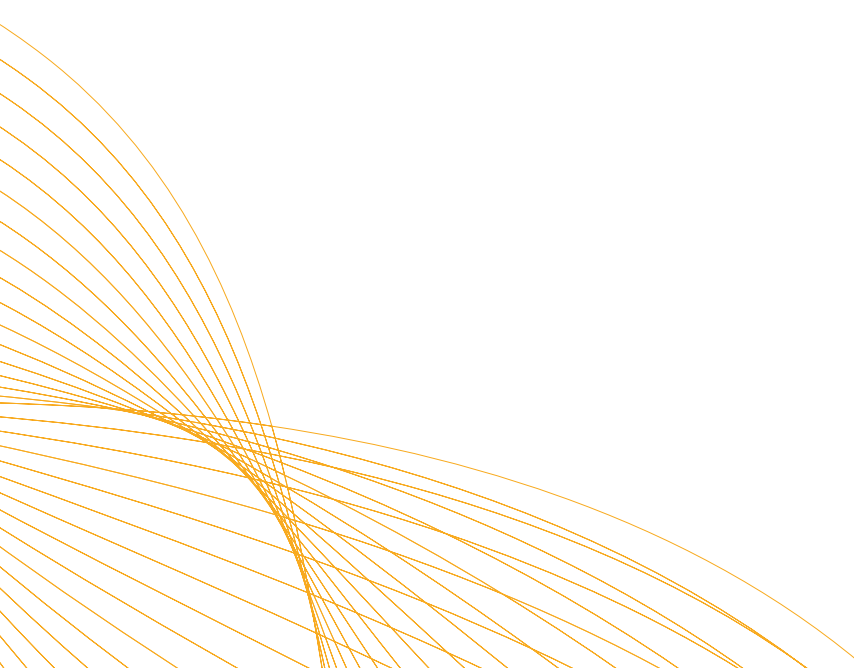

TECH's C1 Chinese Conversation Classes program offers you a method based on interaction and synchronous and direct communication between teacher and student comprehensive preparation for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives..., etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

**Re-learning Methodology**

We prevent your motivation from waning and offer you the best learning environment.

This intensive oral proficiency preparation program is based on real-time communication, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

*...with a personalized and expert-led training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Chinese C1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

*... and all this with teachers at the forefront of technology and education...*

*Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.*

#### **Immersion in real situations**

We present you with real conversational situations with native speakers with different accents in different contexts.

#### **Skills-based Practice**

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

#### **Pronunciation and Phonetics Practice**

At TECH we focus our method on repetition as the best way to consolidate your learning.

# Course Structure and Content

Practicing a language in a group is a great advantage for acquiring oral skills and abilities, putting together techniques, vocabulary and linguistic keys to gain confidence in all kinds of contexts. The teaching team, which creates small groups to encourage participation, will be involved at all times. Students will be corrected for any slight errors in their speech, allowing them to gain the confidence they need to pass the C1 level without any setbacks.

### Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

#### Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

*You will share lessons with a group of people with the same affinities and interests as you, improving as a whole thanks to the maximum involvement of the native teaching team"*

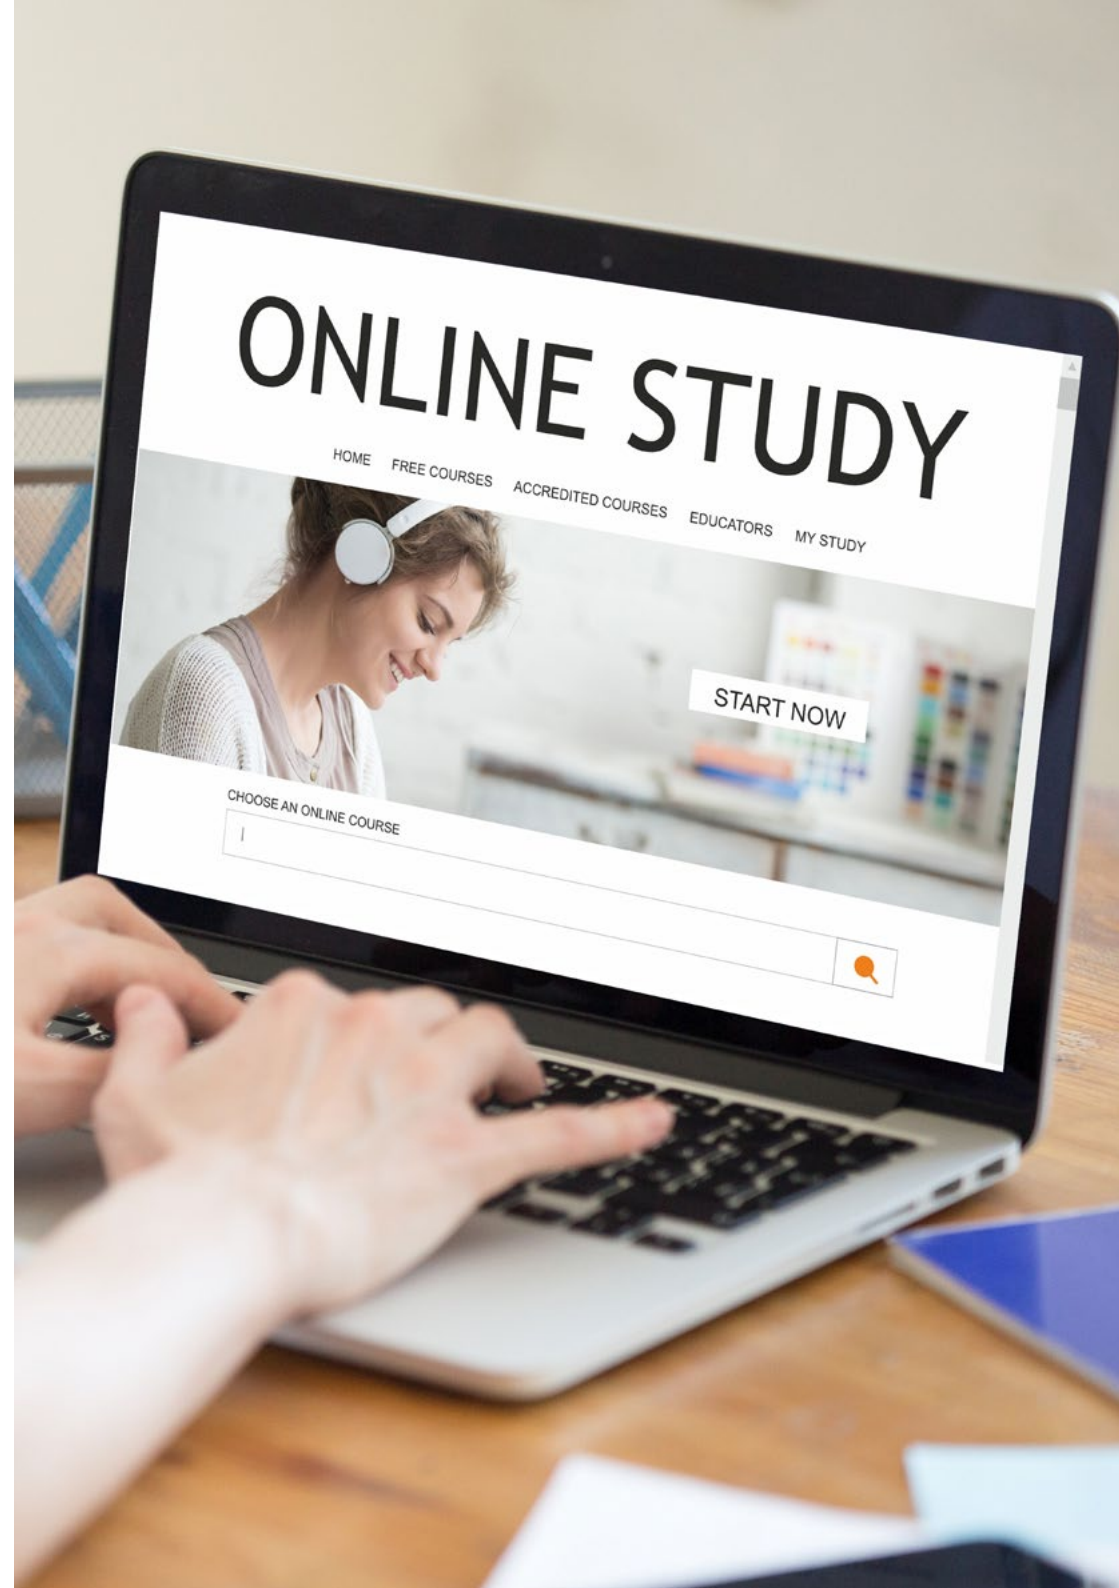

### C1 Level Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Access to a high level of comprehension and oral expression.
- Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers.
- Argue and counter-argue in different situations, focusing on the keys to speak fluently in public.
- Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era.

“ You will practice a multitude of advanced contexts, both professional and personal or everyday, acquiring the necessary fluency to demonstrate a good command of the language”

*"My company supports offices all over the world and I have to be prepared to speak several languages. I had a basic level of Chinese, but I was recently assigned to a project in the Asian country and I knew I had to improve it if I wanted to make a good impression. With TECH's Online Conversation Classes I was able to gradually polish the aspects that bothered me the most and now I have a much more fluent speech"*

## Estela Falcón

---

Technical Support Worker

*"I moved to China thanks to an opportunity I found, because curiously enough, the local population is very interested in learning other languages such as Spanish. My Chinese was not exactly basic, but I noticed that in order to communicate with students of different ages and levels I needed an extra plus. Thanks to the TECH courses I was able to achieve this, especially because of the involvement of all the teachers"*

# The Professional Benefits of Chinese

As Chinese is the most spoken language in the world at a native level, it is evident that studying this language will be a great boost for any person who wants to develop their career in Asia. In addition, the Chinese economy is one of the strongest in the world, which justifies and reinforces the decision to start studying this language.

Companies such as Tencent, TikTok or Xiaomi have already carved out a very important niche in the global technology markets, so a knowledge of the Chinese language is also an advantage to work in one of these economic giants.

In addition, the number of Chinese speakers is growing exponentially over the years. This makes this language a safe and differential option for the future in any curriculum.

“

*Study the language of the future and present to stand out from your competitors”*

11

# Assessment and Certification

The main evaluation objective in TECH Technological University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

*TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate”*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
