01 Welcome

German is one of the most important languages in Europe. Some of the world's largest companies are German. The country has enormous political and certificatic weight. It is also a language that is spoken in other countries such as Austria and Switzerland. Therefore, mastering a C1 level in German can open the door to academic, professional and personal opportunities. This university program will allow the student to reach this level in a totally practical way, through online group conversation classes guided by native teachers.

Presentation video

“

*German is one of the most important certifi-
catetic and economic languages. This university program will allow you to speak it fluently thanks to its dynamic online conversation classes”*

Introduction

Nowadays, having a language certificate that certifies proficiency in a language such as German at C1 level can make the difference between getting a desired professional position or remaining personally stagnant. For this reason, TECH has designed this language program through which students will be able to quickly improve their performance with this language, which will allow them to work and travel to many European countries with all the guarantees. In addition, at the same time you will have the option to certify your level according to the European Framework of Reference for Languages (CEFR), the most important international language recognition system.

In the C1 German Online Conversation Classes program, you will work according to skills with more than 100 different oral expression and interaction activities, preparing you to pass the oral part of the CEFR C1 German certificate.

This is the only intensive program 100% specific to improve your oral communication skills in order to obtain the CEFR Level C1 in German.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

02

Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. So, this qualification is essential for anyone who wishes to have all those opportunities thanks to their spoken proficiency in German, since this university program prepares students to pass the oral component of the C1 German exam, according to the Common European Framework of Reference for Languages (CEFR).

“

Language Certificate is indispensable nowadays, as it is the official indication of a certain language level. Thus, this program allows you to improve your German up to C1, so that you can later accredit it through the CEFR"

TECH - Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

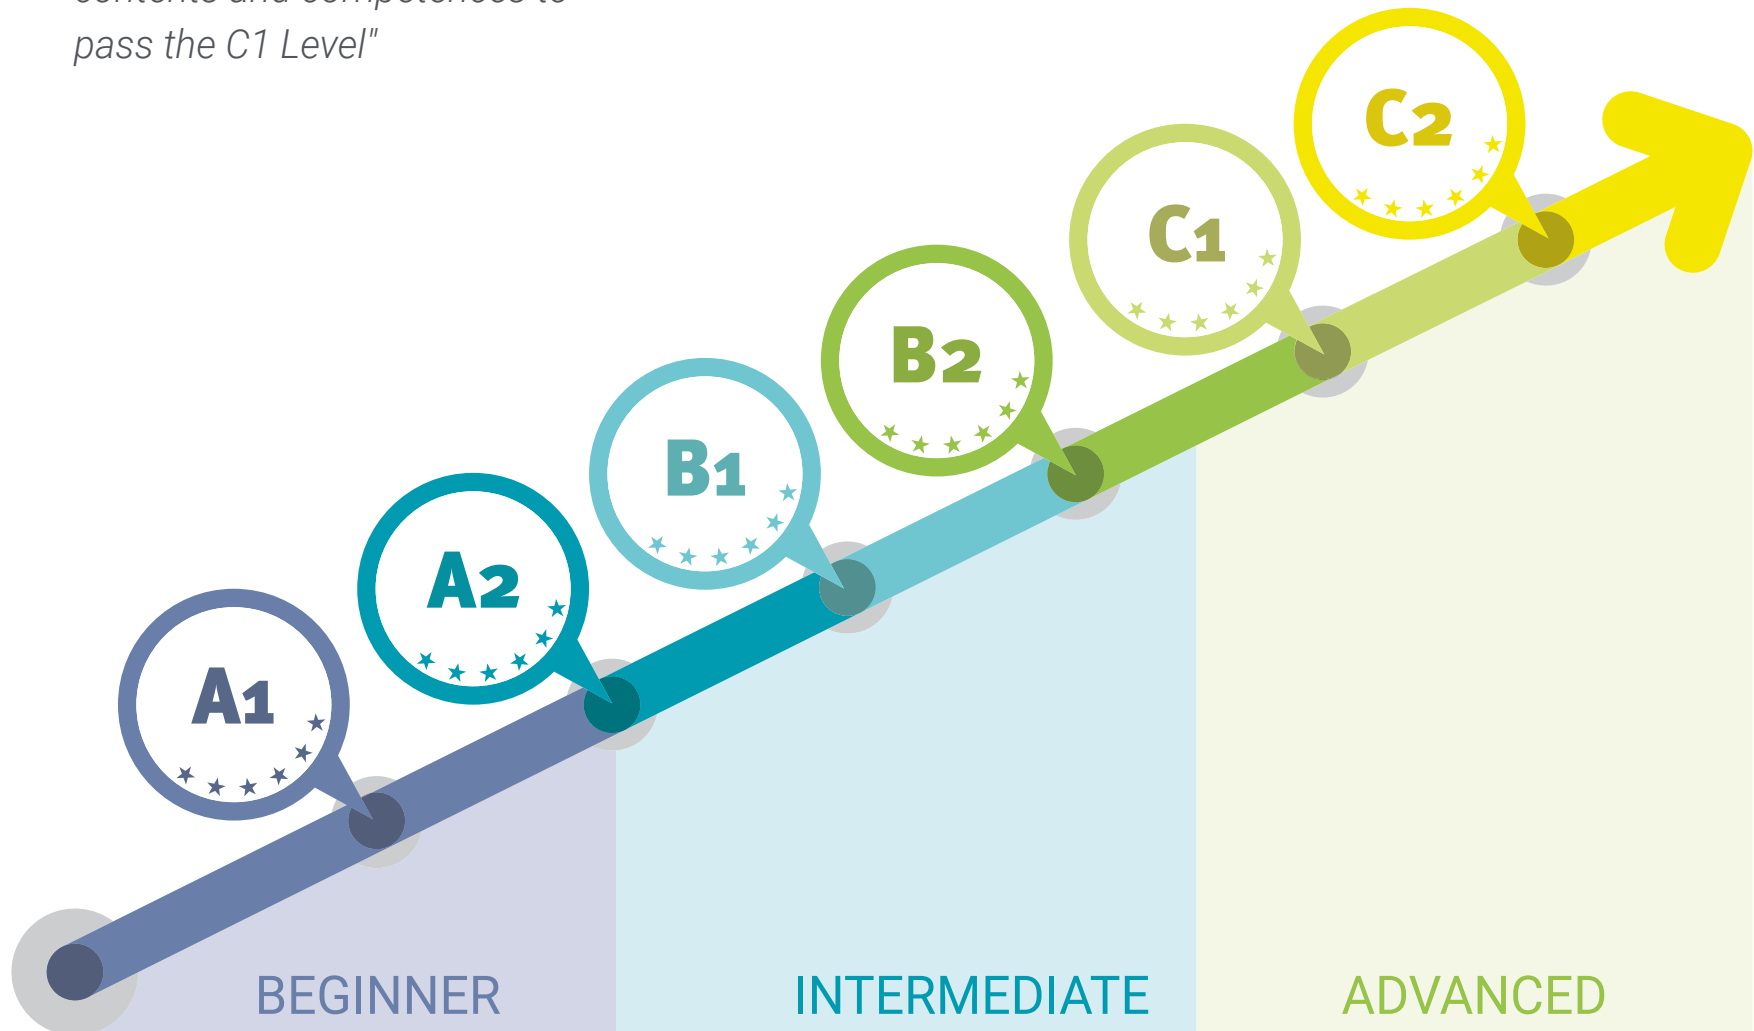

Become fluent in German and make the most of your level by accrediting it with a CEFR certificate.

Other private Language Certificate systems require students to periodically recertify their level of proficiency. TECH's CEFR is valid for life

“

With this preparation program you will have all the necessary contents and competences to pass the C1 Level”

03

What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sublevels: First and Second Independent User Level (C1 and B2).

Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicit. Can also express themselves fluently and spontaneously without having to search very obviously for appropriate expressions, using the language flexibly and effectively for social and professional purposes. Can express themselves in clear, well-structured texts, expressing points of view at some length and writing about complex subjects in letters, essays or reports, highlighting what they consider to be important aspects.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the red text 'C1' on it. The sign is held in front of their face. The background is white with a decorative graphic of many thin, light blue lines that curve and flow across the top of the page.

C₁

“

The C1 level of German will allow you to manage all types of communicative contexts in this language"

What are the C1 Level Skills?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Is able to produce simple and coherent texts on topics that they are familiar with or in which they have a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated
- ♦ Understand TV shows and movies without much effort

Speaking

Oral Interaction

- ♦ Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- ♦ Use language flexibly and effectively for social and professional purposes
- ♦ Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

Oral Expression

- ♦ Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion

When you pass the oral test of the CEFR exam you will be in a great position to progress professionally, academically and personally"

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ♦ Consistently maintain a high degree of grammatical correction
- ♦ Errors are scarce, difficult to locate and in general are corrected whenever they occur

Fluency

- ♦ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of your expression

Interaction

- ♦ Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- ♦ Skilfully connect your own interventions to those of the other speakers

Coherence

- ♦ Produce clear, fluent and well-structured speech that demonstrates controlled use of organizational structures, connectors and cohesive mechanisms.

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official German C1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

The Online Conversation Classes to prepare for a C1 Level in German is an intensive preparation course based 100% on the Common European Framework of Reference for Languages (CEFR). TECH uses a method of oral proficiency practice in which students work intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR competencies in each session"

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

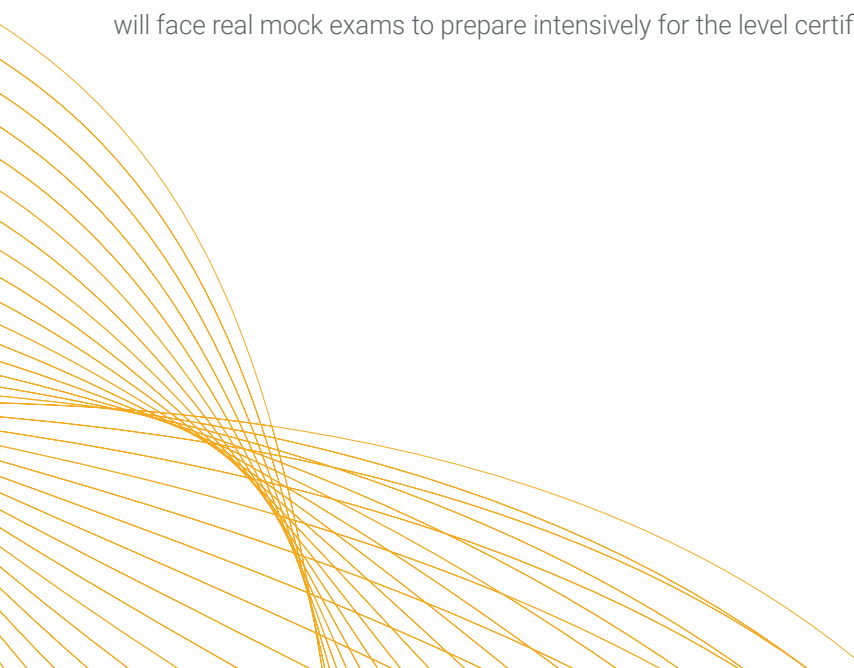

TECH's German Level C1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real, multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first in the world licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectify, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

Re-Learning Methodology

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive C1 German online conversation classes are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.

Course Structure and Content

Practicing a language in a group is a great advantage for acquiring oral skills and abilities, putting together techniques, vocabulary and linguistic keys to gain confidence in all kinds of contexts. The teaching team, which creates small groups to encourage participation, will be involved at all times. Students will be corrected for any slight errors in their speech, allowing them to gain the confidence they need to pass the C1 level without any setbacks.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40-60 minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

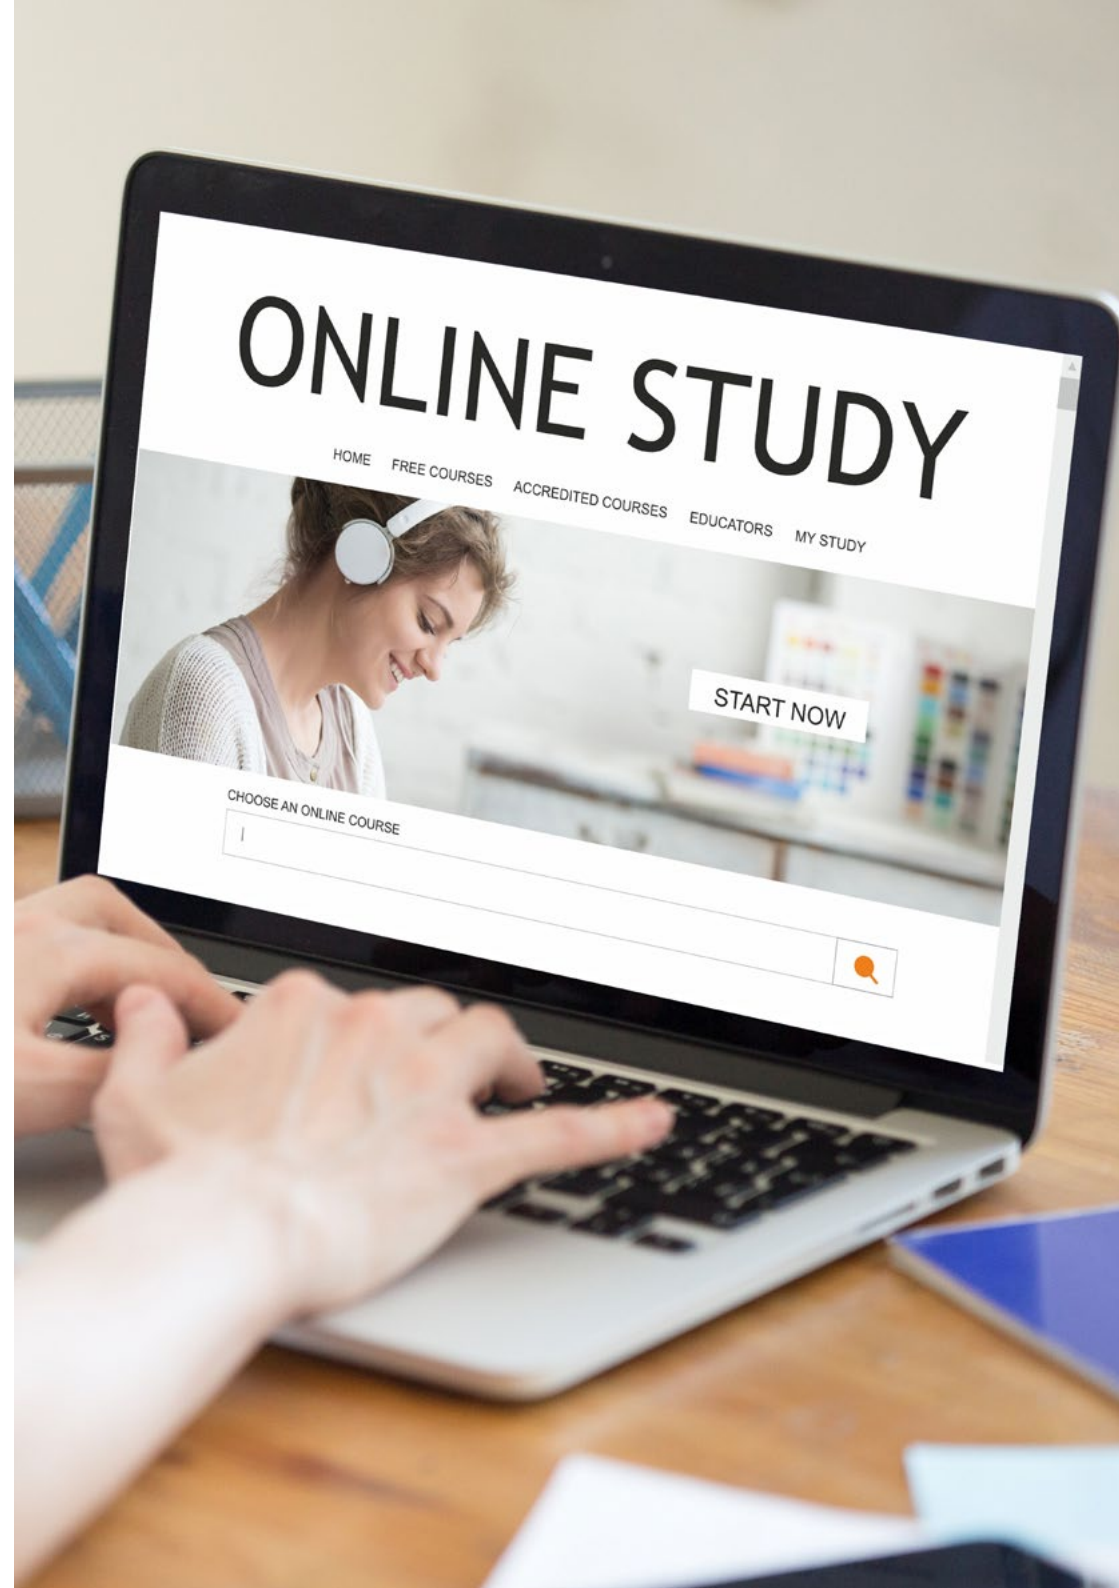

You will share lessons with a group of people with the same affinities and interests as you, improving as a whole thanks to the maximum involvement of the native teaching team"

C1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to the personalized tutoring, it is possible to achieve all the objectives in the shortest amount of time possible, resulting in an effective and efficient teaching.

- ♦ Access to a high level of comprehension and oral expression
- ♦ Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers
- ♦ Argue and counter-argue in different situations, focusing on the keys to speak fluently in public
- ♦ Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era

“ You will practice a multitude of advanced contexts, both professional and personal or everyday, acquiring the necessary fluency to demonstrate a good command of the language ”

"I wanted to do my PhD in Germany and the host university required a C1 in German. I had studied the language before so I was not starting from scratch and needed advanced knowledge. These conversation classes were recommended to me and I quickly realized that I had made the best decision in enrolling. Shortly thereafter I was able to accredit Level C1 and study in Germany"

Daniela Canetti

A student from Argentina

"The world is becoming more and more connected. 15 years ago my company was barely communicating with suppliers in Portugal and France and now we have found that we need to get in touch with other companies in countries such as Germany. I like to have everything under control, so the best way to do that is to learn German. TECH gave me a lot of confidence from the beginning and the classes were adapted to my schedule and pace. It's everything I was looking for"

The Professional Benefits of German

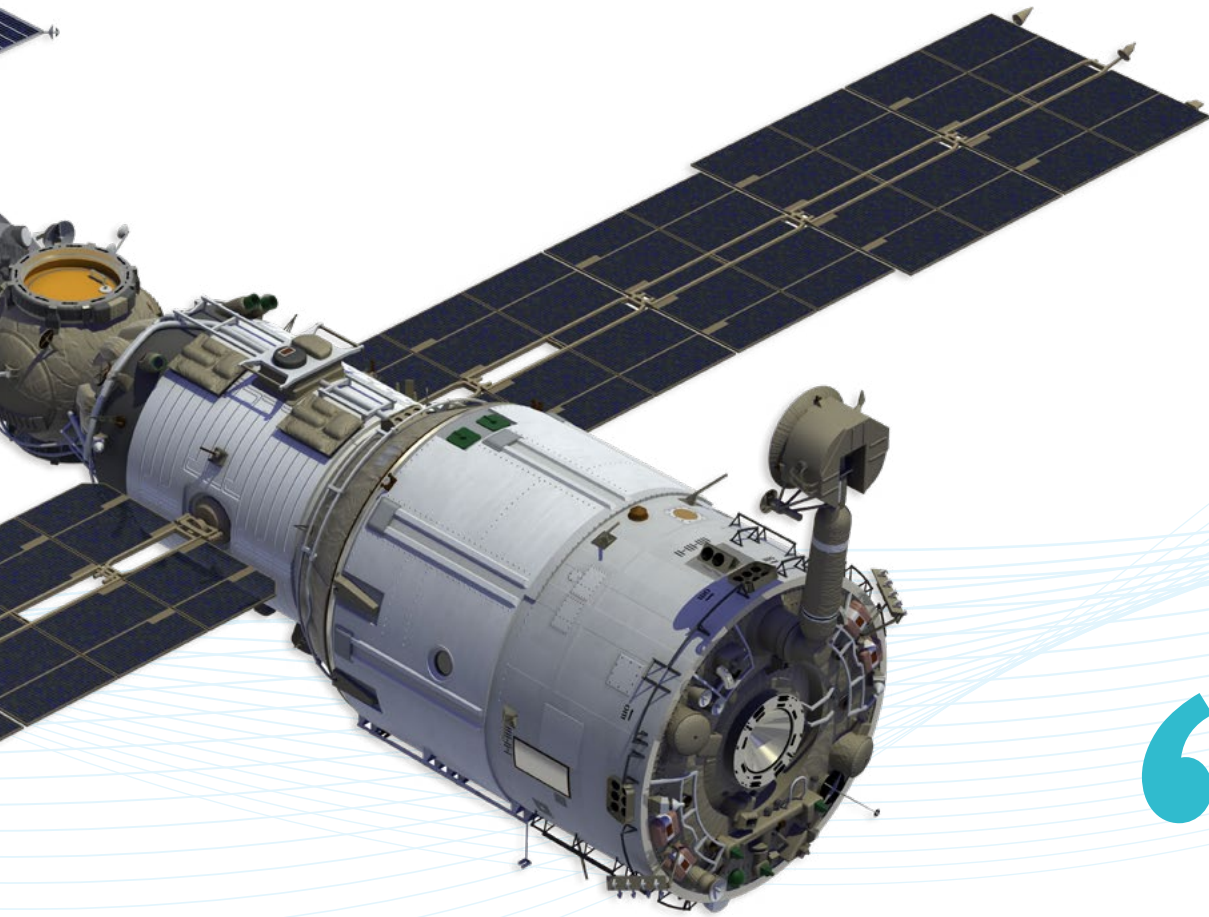

German is the ninth most spoken language in the world. It is spoken in countries such as: Switzerland, Austria, Luxembourg and Belgium. And also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the most affluent countries and offers excellent working conditions; the engine of Europe, Germany, offers great employment opportunities to anyone who is willing to work. However, a good level of German is a prerequisite for working in these countries. Many have tried their luck and emigrated from their home countries in search of work, but doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing German will also make it easier to create or maintain working relationships with German-speaking associates in your country. It will undoubtedly help to strengthen relationships and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

“

German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business”

11

Assessment and Certification

The main evaluation objective in TECH Technological University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH Technological University is C1 level conversation classes program is the only one that also awards you with a university certificate”
