On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. Therefore, this program is essential for anyone who wishes to have all these opportunities thanks to their spoken proficiency in Spanish, since this university program prepares students to pass the oral component of Spanish Level C1 according to the Common European Framework of Reference for Languages (CEFR).

tech 10 | Is it Important to Obtain a Language Certificate?

TECH Technological University

The Common European Framework of Reference for Languages is the **only system that recognizes and accredits the student's level**. Although there are other certification systems, these come from private institutions and are, therefore, **not valid**. At TECH, we offer you the only intensive program for preparing spoken communicative proficiency, to guarantee that you will obtain your level certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

Our Methodology

C1 Spanish Online Conversation Classes based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR skills in each session"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 Spanish oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student, in order to comprehensively prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Re-learning Methodology

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous, real-time communication, as this type of interaction has been proven to enhance personal involvement, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Krasinski, 2008).

The Professional Benefits of Spanish

Spanish is the second most widely spoken language in the world, behind Mandarin Chinese and ahead of English and Hindi/Urdu. Recent forecasts show that English, Spanish and Chinese are inevitably the three languages of international communication for the 21st century.

It is spoken in Spain, in the Caribbean Islands (Cuba and Puerto Rico), in the Dominican Republic, in North America (Mexico), in Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and in South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most widely spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing segments in the world, especially in the United States. The Spanish-speaking segment constitutes a huge community that shares products, services and culture; and offers businesses and institutions a truly unique opportunity for growth.

Furthermore, studying Spanish will open many doors at a professional level. Many countries have Spanish as an official language, so there are many jobs for which this can be a fundamental factor.

“

The Spanish powerhouse is in its infancy as to what will happen in the future. Spanish will make Simón Bolívar's impossible dream of uniting all America a reality"

11
