# 01 Welcome

In Europe, French industry is the second in weight and importance, and the ninth worldwide. This is just a sample of how important it can be for any person to acquire an advanced knowledge of French, since the most privileged positions in any company are really reserved for those who master several languages. These TECH Online Conversation Classes focus on the most important linguistic skills for students to acquire a perfect diction and pronunciation in French, raising their language level to the maximum.

Presentation video

“

*At the end of this language program you will perfectly master French at the same level as a native speaker, understanding even the smallest nuances of the language”*

## Introduction

France excels in many sectors, especially when it comes to arms defense, telecommunications, aerospace, chemicals and pharmaceuticals. Being successful in some of these industries is possible, but given the precision and specialization of the language used, it requires an exceptional command of French. Thanks to this language program, students will be able to demonstrate a high degree of fluency in French by successfully passing the relevant exam corresponding to the C2 Level within the CEFR.

*In the C2 French Online Conversation Classes program, you will work according to skills with more than 100 different oral expression and interaction activities, preparing you to pass the oral part of C2 French certificate.*

*The only intensive program 100% specifically designed to develop your speaking skills in order to obtain the CEFR C2 Level in French.*

*It has been proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks"*

# Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. So, this qualification is essential for anyone who wishes to have all those opportunities thanks to their spoken proficiency in French, since this language program prepares students to pass the oral part of the C1 French exam, according to the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## TECH - Technological University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program to prepare for oral communicative competences to guarantee that you will obtain your level certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

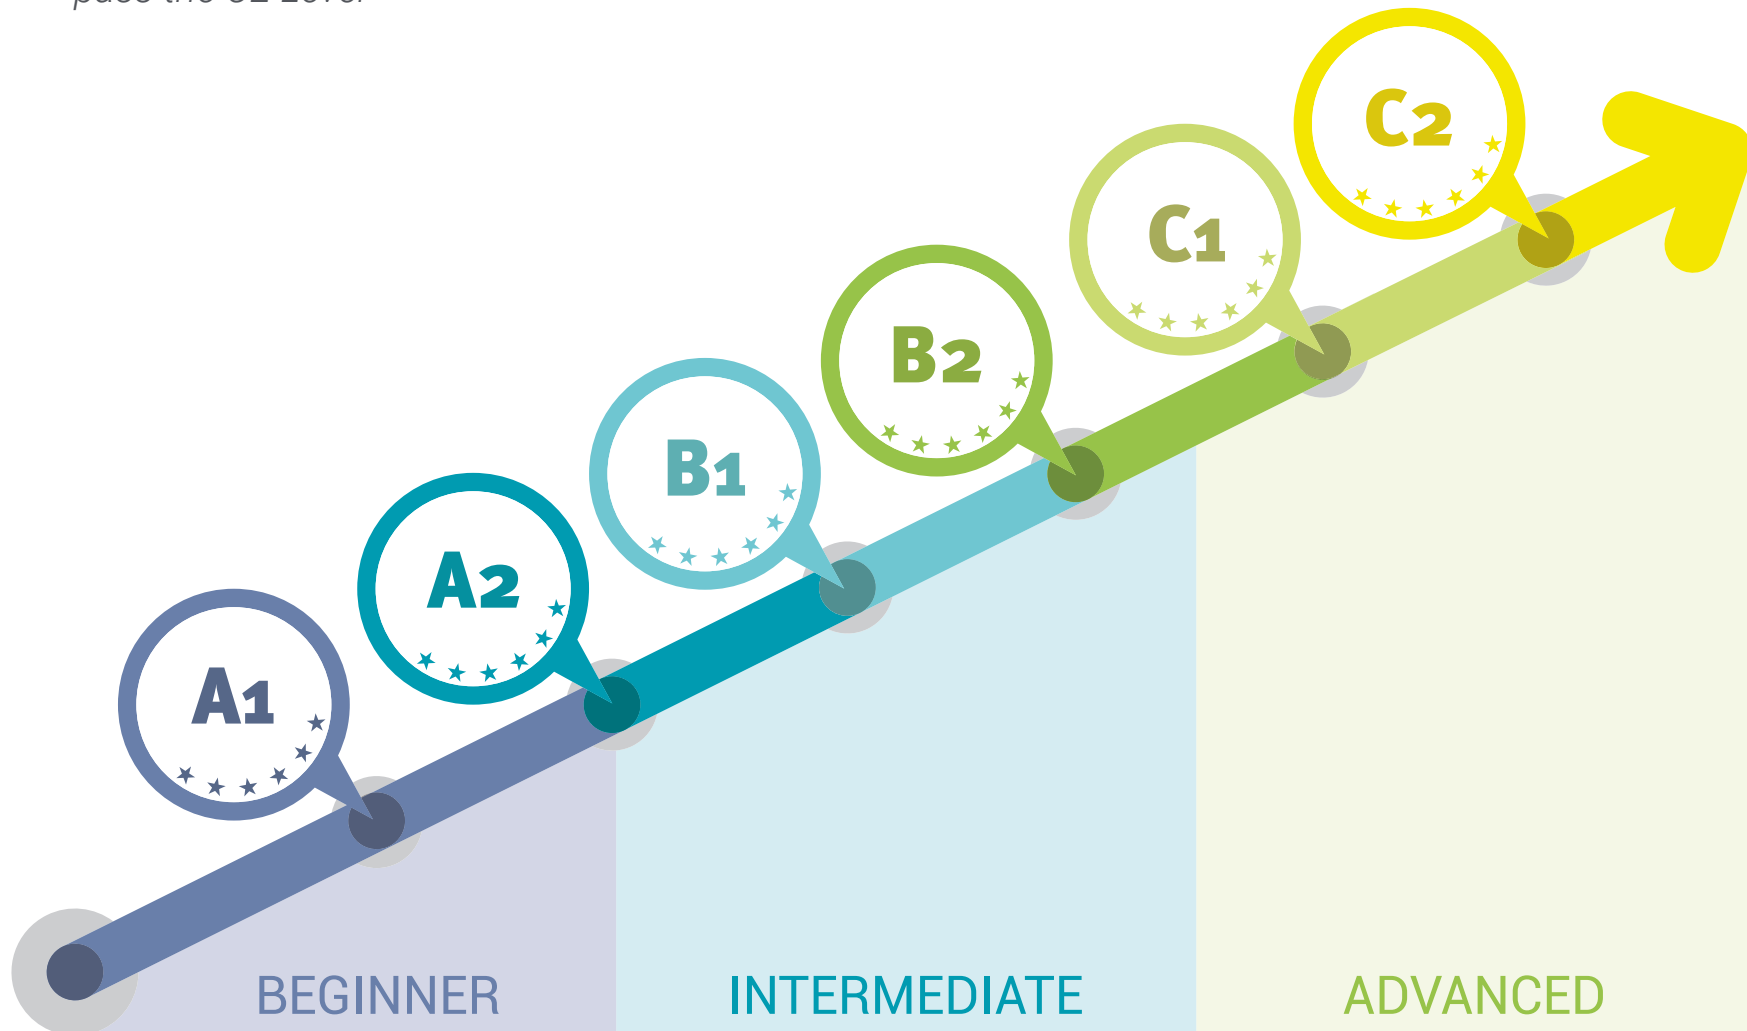

*Master French to the highest level, get accredited and improve your future prospects immediately.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.*

“

*With this program you will have all the content and skills you need to pass the C2 Level”*

03

# What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: being able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; having a good command of idiomatic and colloquial expressions, and being aware of the connotative level of meaning; knowing how to circumvent difficulties so discreetly that the interlocutor hardly notices.

C<sub>2</sub>

“

*In TECH's C2 French Online Conversation Classes program, we will thoroughly prepare you to obtain your C2 French certificate”*

## What Is Level C2?

01

Can easily understand virtually everything he/she hears or reads.

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

“

*The C2 Level of French will allow you to manage in all types of communicative contexts in the language, both professional and academic”*

03

Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations.

### Testing & Retesting

---

We periodically evaluate and re-evaluate your knowledge throughout the entire C2 French Online Conversation Classes

- We will work with more than 100 activities for different oral skills
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

### Skills-based Practice

---

If the Common Framework European of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official C2 French certificate.

### Simulated Learning Scenarios

---

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

### Specific Virtual Classes for CEFR C2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*Carry the sessions on your phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

*An interactive chat to share queries, expressions, complex words, etc. in writing.*

#### **In addition:**

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

# Our Methodology

The C2 French Online Conversation Classes program is an intensive course for the French C2 Level certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

*In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR skills in each session"*

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 Level in French oral proficiency preparation offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare you for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and , to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step..*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

### Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

*With a personalized and expert-led training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive French C2 level preparation course are connected to the context in which the participant will take his or her certification exam in order to guarantee success on the day of the test.

*... and all this with teachers at the forefront of technology and education...*

*Study wherever and however you want: more than 320 downloadable and printable grammar and lexical worksheets and glossaries.*

### Simulated Learning Scenarios

We present you with real conversational situations with native speakers with different accents in different contexts

### Skills-based Practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages

### Pronunciation and Phonetics Practice

At TECH we focus our method on repetition as the best way to consolidate your learning

Imagen

Audio

### Vocabulary and Socioculture Practice

At TECH we offer you different ways to consolidate your vocabulary through practice and conversation, and by consulting downloadable worksheets.

### Grammar and Spelling Practice

You will work on grammar without even realizing it, from a practical point of view through activities with native teachers

### Interactive chat

During the sessions you can practice your written skills by interacting in the chat.

### Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

## Course Objectives

The C2 French Online Conversation Classes program is entirely designed for students to acquire the skills necessary to take the exam and to pass it through practice, training, repetition and personalized supervision. All this, moreover, thanks to their efforts and the educational excellence of the TECH method.

“

*Practice with guarantees the oral skills and competences required by the C2 CEFR: more than 100 different practice exercises"*

General Objectives

- 01 Carry out transactions of all kinds, even if they are delicate and complex.
- 02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to.
- 03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

## Specific Objectives

- ♦ Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches
  - ♦ Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology
  - ♦ Possess a good command of idiomatic and colloquial expressions, being aware of the connotative levels of meaning
  - ♦ Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
  - ♦ Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent
  - ♦ Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations
- ♦ Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
  - ♦ Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker

*In TECH's language course for the CEFR C2 level test, you will find more than 100 activities focused on developing your oral skills.*

08

# Course Structure and Content

This language program combines the advantage of practicing a language in a group - surrounded by people of the same level - with the native and professional experience of the entire teaching staff. Lessons are prepared according to the group's own interests and objectives, also covering the most advanced social and professional areas, simulating job interviews or discussions on complex topics, for example. Consequently, student speaking and conversation skills are maximized to effectively and confidently pass the C2 Level.

### Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

#### Each session is structured as follows:

- ♦ Practice of oral interaction skills
- ♦ Practice of oral expression skills
- ♦ Simulation of real situations
- ♦ Tips and tricks to prepare for the test
- ♦ Summary and closing
- ♦ Download printable sheets

*You will be surrounded by people with whom you share goals and ambitions, making the academic experience even more enriching and rewarding”*

## C2 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching

- Test all the basic and advanced language skills in comprehension and expression
- Master appropriate vocabulary and grammar, as well as maximize conversational skills in the language
- Address topics such as career growth or historical events, simulating job interviews and advanced discussions
- Find a common language with native speakers, acquiring the naturalness of a person who is fluent in the language
- Address advanced economic issues such as budgeting or personal time management

“

*The number of students per group is small, in order to give the opportunity to intervene frequently and to promote both oral comprehension and personal expression”*

*"Many of the most interesting developments in pharmacy are taking place in France, which motivated me to try to find a place in a laboratory in the country. I soon realized that many job offers required a C2 Level of French, so I took the decision: thanks to TECH's courses, I can now say I've passed the Level exam without any setbacks."*

## Alexandra López

Scientific Research

*"Many of our business contacts are in France and written communication was very good with them, but there came a time when I had to get more actively involved. As my spoken French was a bit rusty, I signed up for these TECH online courses and I can say that it has been a total success. I'm now very fluent in French with all my business partners, which has allowed me to further strengthen ties with them."*

# The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg. Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English. Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner. Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

*French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”*

11

# Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*TECH's C2 Level Online Conversation Classes program is the only one that also awards you with an academic certificate”*

## Certification

At the end of the course students will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
