Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. So, this qualification is essential for anyone who wishes to have all those opportunities thanks to their spoken proficiency in Italian, since this university program prepares students to pass the oral component of the C2 Italian exam, according to the Common European Framework of Reference for Languages (CEFR).

TECH - Technological University

With this preparation program you will have all the necessary contents and competences to pass the C2 Level"

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

This TECH Italian Level C2 Online Conversation Classes program prepares you thoroughly to obtain the CEFR certificate that certifies your absolute command of the language"

What Is Level C2?

02 Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

" *The C2 level of Italian will allow you to manage in all types of communicative contexts in this language, both professionally and academically"*

03 Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations.

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.
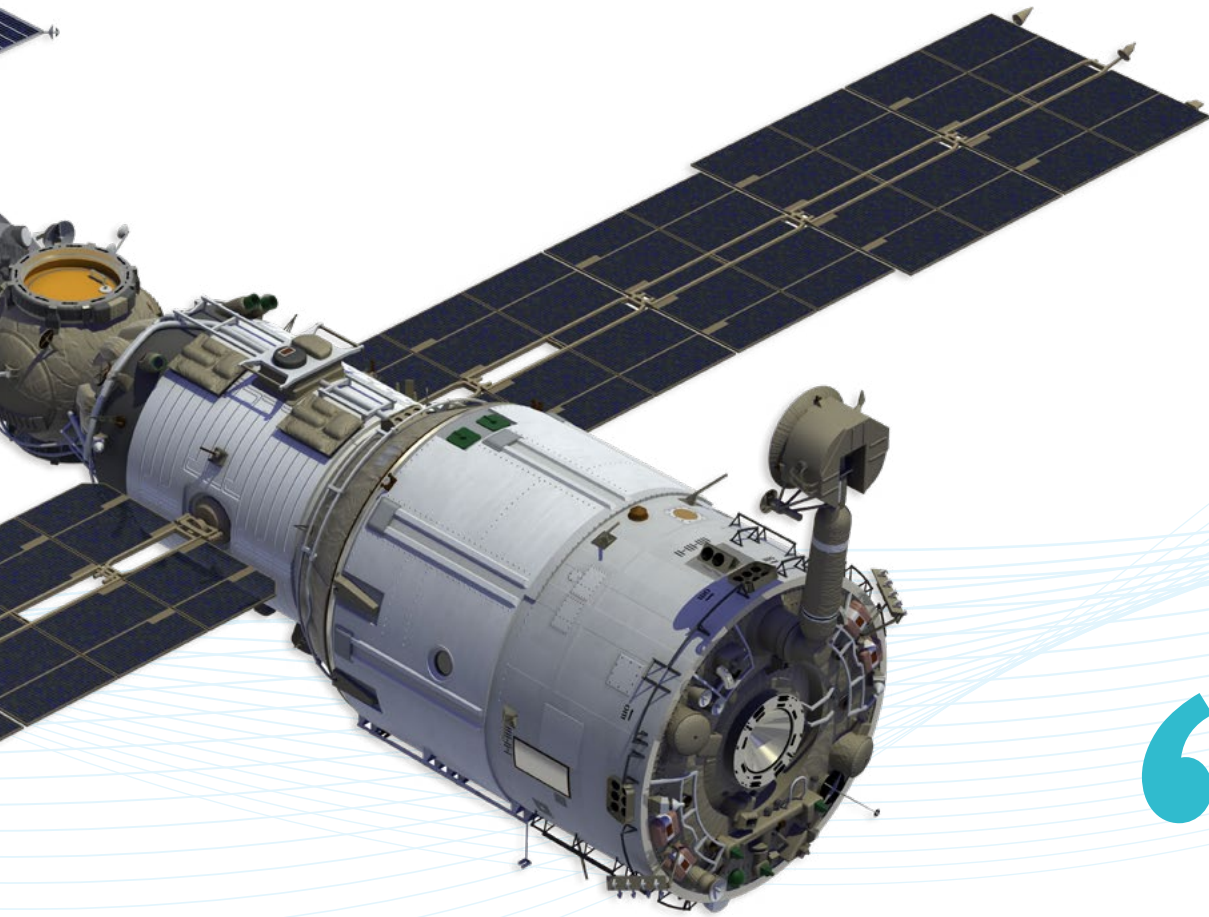

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors, tourism, the automotive industry and fashion.

"For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered necessary to succeed in the 21st Century."
