# 01 Welcome

Russia is one of the world's great powers, with one of the most developed oil and energy industries in the world. This is why many of the companies in these sectors stand out as the most prominent worldwide. The high demand for skilled workers in Russia leads many people to undertake the challenge of looking for a job position in the Slavic country, but the truth is that in order to access the best positions it is necessary to have almost total command of the language. Level C2 is a guarantee of this, which is why TECH has prepared these online conversation classes so that the student can practice speaking Russian, helping them to reach the level of a native speaker.

Presentation video

“

*By the end of this university program, you will have mastered Russian to the same level as a native speaker, allowing you to understand even the smallest nuances of the language”*

# Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. So, this qualification is essential for anyone who wishes to have all those opportunities thanks to their spoken proficiency in Russian, since this university program prepares students to pass the oral component of the C1 Russian exam, according to the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## TECH - Technological University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Technological University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

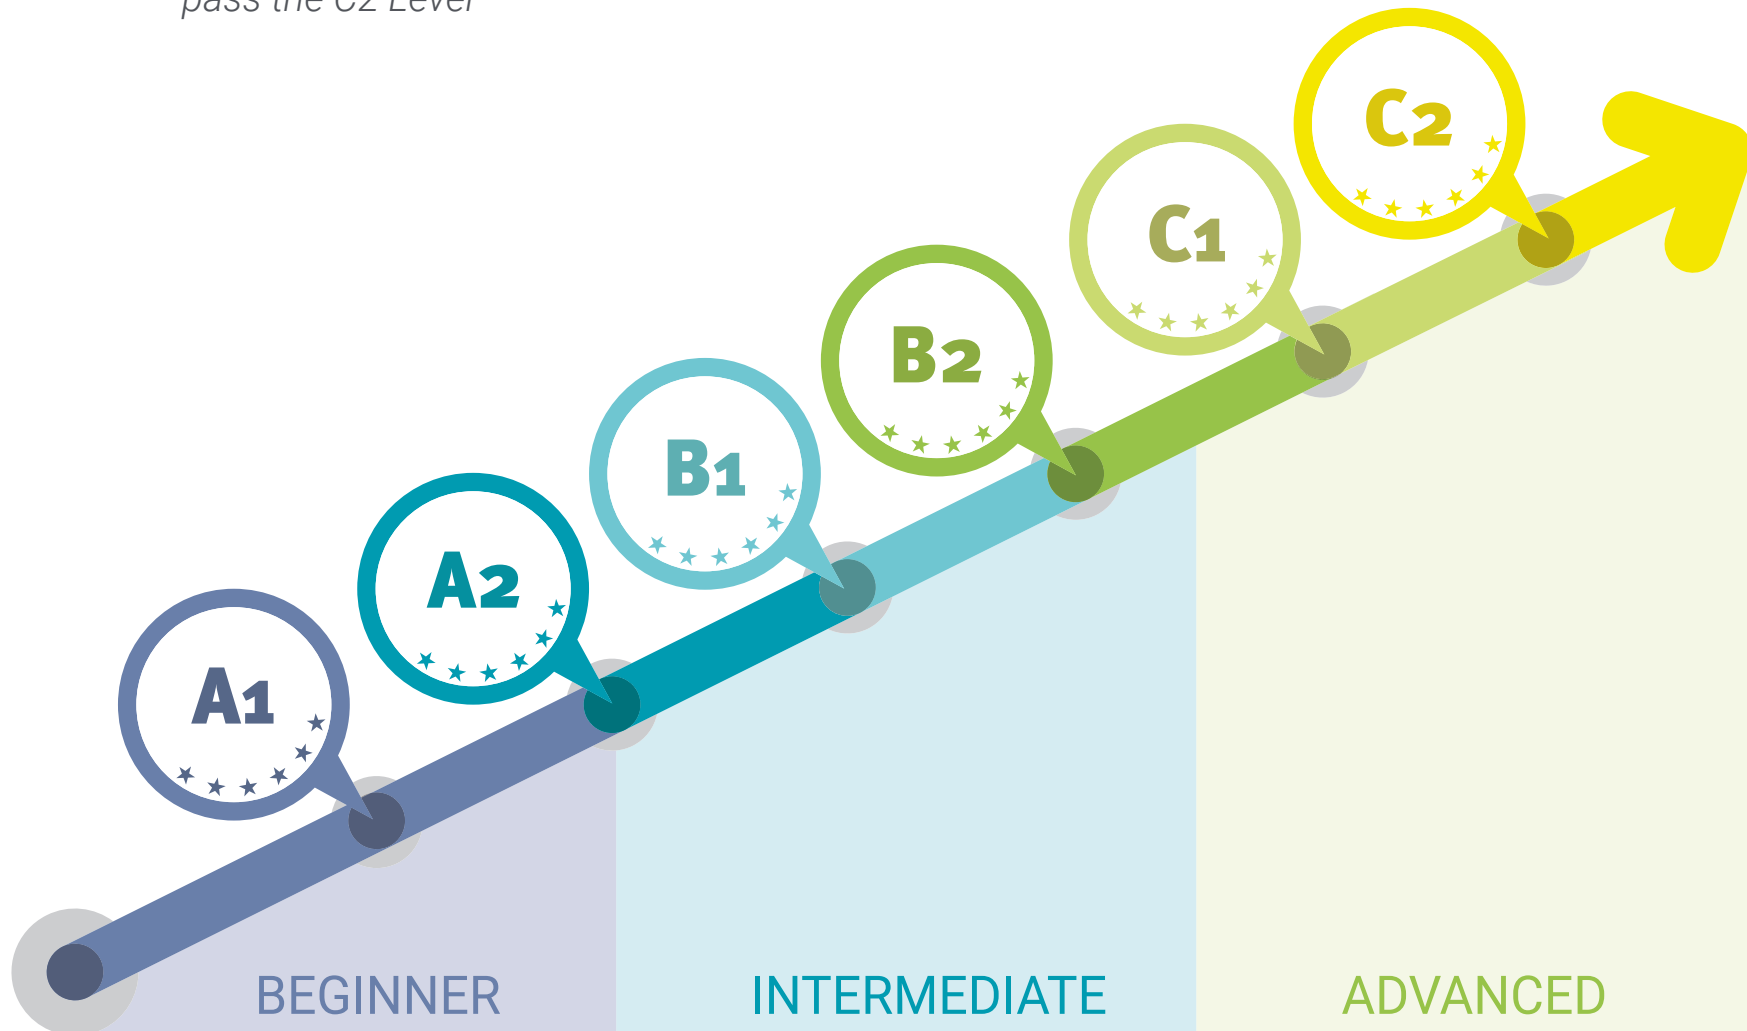

*Master Russian to the highest level,  
accredit it and improve your future  
prospects immediately.*

*Other private language certification  
systems require students to periodically  
recertify their level of proficiency. TECH's  
CEFR certificate is valid for life*

“

*With this program you will have all the content and skills you need to pass the C2 Level”*

03

# What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

C<sub>2</sub>

“

*In TECH Technological University's  
Online Conversation Classes program  
we will thoroughly prepare you to obtain  
your official C2 Russian certificate”*

## What are the C2 Level Skills?

01

Can easily understand virtually everything he/she hears or reads.

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

“

*The C2 level of Russian will allow you to cope in all types of communicative contexts in this language, both professional and academic”*

03

Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations.

### Cancellation Policy

In order to cancel a previously scheduled class or one you agreed to, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

### Testing & Re-Testing

---

We periodically evaluate and re-evaluate your knowledge throughout the entire C2 Russian Language Course.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

### Skills-based practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official Russian C2 certificate.

### Simulated learning scenarios

---

At TECH Technological University we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

### Specific Virtual Classes for CEFR C2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

*Carry the sessions on your phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

*An interactive chat to share queries, expressions, complex words, etc. in writing.*

#### In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills.
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

# Our Methodology

The Online Conversation Classes program for C2 Russian preparation is an intensive course for the Russian C2 level certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

*In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR competencies in each session"*

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 Russian Oral Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

**Re-learning Methodology**

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

*...with a personalized and expert-led training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Russian C2 level preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

*...and all this with teachers at the forefront of technology and education...*

*Study wherever and however you want: more than 320 downloadable and printable grammar and lexical worksheets and glossaries.*

#### **Immersion in real situations**

We present you with real conversational situations with native speakers with different accents in different contexts.

#### **Skills-based practice**

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

#### **Pronunciation and phonetic practice**

At TECH we focus our method on repetition as the best way to consolidate your learning.

# Course Objectives

The C2 Russian Online Conversation Classes program is entirely designed for students to acquire the oral skills required to take the exam to accredit their level and to pass it through practice, training, repetition, and personalized supervision. All this, moreover, thanks to their efforts and the educational excellence of the TECH method.

“

*Practice with guarantees of the oral skills and competences required by the C2 CEFR: more than 100 different practice exercises"*

General Objectives

- 01 Carry out transactions of all kinds, even if they are delicate and complex.
- 02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to.
- 03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

## Specific Objectives

- ♦ Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches
  - ♦ Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology
  - ♦ Possess a good command of idiomatic and colloquial expressions, being aware of the connotative levels of meaning
  - ♦ Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
  - ♦ Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent
  - ♦ Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations
  - ♦ Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
- ♦ Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker

*In TECH's preparation course for the official CEFR C2 level test you will find more than 100 activities focused on developing your oral skills.*

08

# Course Structure and Content

This university program combines the advantage of practicing a language in a group, surrounded by people of the same level, with the native and professional experience of the entire teaching staff. Lessons are prepared according to the group's own interests and objectives, also covering the most advanced social and professional areas, simulating job interviews or discussions on complex topics. In this way, the student's speaking and conversation skills are maximized in order to effectively and confidently pass the C2 level.

### Where, When and How is it Taught?

This course takes place over 4 months and consists of forty 60-minute live sessions taught by native-speaking teachers.

#### Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

*You will be surrounded by people with whom you share goals and ambitions, making the academic experience even more enriching and rewarding"*

## C2 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- ♦ Test all basic and advanced language skills in comprehension and expression.
- ♦ Master good vocabulary and grammar, as well as maximize the ability to converse in the language.
- ♦ Address topics such as career growth or historical events, simulating job interviews and advanced discussions
- ♦ Find a common language with native speakers, acquiring the fluidity of a person who has mastered the language.
- ♦ Address advanced economic issues such as budgeting or personal time management to master the language

“

*Class sizes are kept small in order to give students the opportunity to speak several times and to encourage both listening comprehension and self-expression”*

*"In my job, a high level of Russian is always highly valued, as we receive visitors from all over the world and a lot of the time, solving any issues in the native language helps a lot in communication. The courses at TECH allowed me to improve my Russian in less time than I was expecting, with the comfort of doing it from my own home"*

## Myriam Ocaña

# The Professional Benefits of Russian

Russia is one of the most prominent countries in the world and, therefore, a destination in which to build a good career with the right skills. Regardless of the field of work in which you want to develop your career, it is essential to have a good command of the language to ensure maximum opportunities when applying for a job.

And the fastest and most effective way to master a language is through practicing it orally. Pronunciation in Russian is not simple, but if you practice it regularly, it is possible to manipulate it almost like a native.

For this reason, TECH's Online Conversation Classes have a broad and complete syllabus, divided into blocks for your convenience, in which the student will interact in Russian with other people in small groups, guaranteeing the best possible attention from the teachers.

“

*Develop your professional career in one of the G8 countries and give a decisive boost to your progression with these conversation classes at TECH”*

# Assessment and Certification

TECH's main assessment objective is for students to consolidate what they have learned and that they are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*TECH Technological University's C2 level oral communication skills preparation program is the only one that also awards you with a university certificate”*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
