# 01 Welcome

The Chinese economy is one of the strongest in the world. It is constantly growing and more and more people are studying Chinese in order to develop their professional careers in the great Asian giant. As the pronunciation and diction of a language are among the most important aspects when learning it, TECH has prepared these online classes with native teachers, in which the student will practice in a group the most common and basic social situations of Chinese society.

*Presentation video*

“

*This is the most complete preparation program for developing communication skills in order to pass the official CEFR A1 level test. Study, learn, and GET CERTIFIED"*

## Introduction

As intimidating as the Chinese language can be, with the right teaching and education the task of learning it can be much more comfortable for the student. These TECH Online Conversation Classes focus on the oral part of the language, so that the students learn the basics, such as numbers, colors or a brief presentation of themselves and their environment. As a result, you will gain more confidence to continue improving your Chinese.

*In the Online Conversation Classes program for Chinese Level A1 preparation we work by competencies, with more than 100 different activities of oral expression and interaction and we prepare you to pass the oral part of the official Chinese A1 certificate.*

# Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business. However, simply knowing foreign languages is not enough in modern society. Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## TECH - Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Technological University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

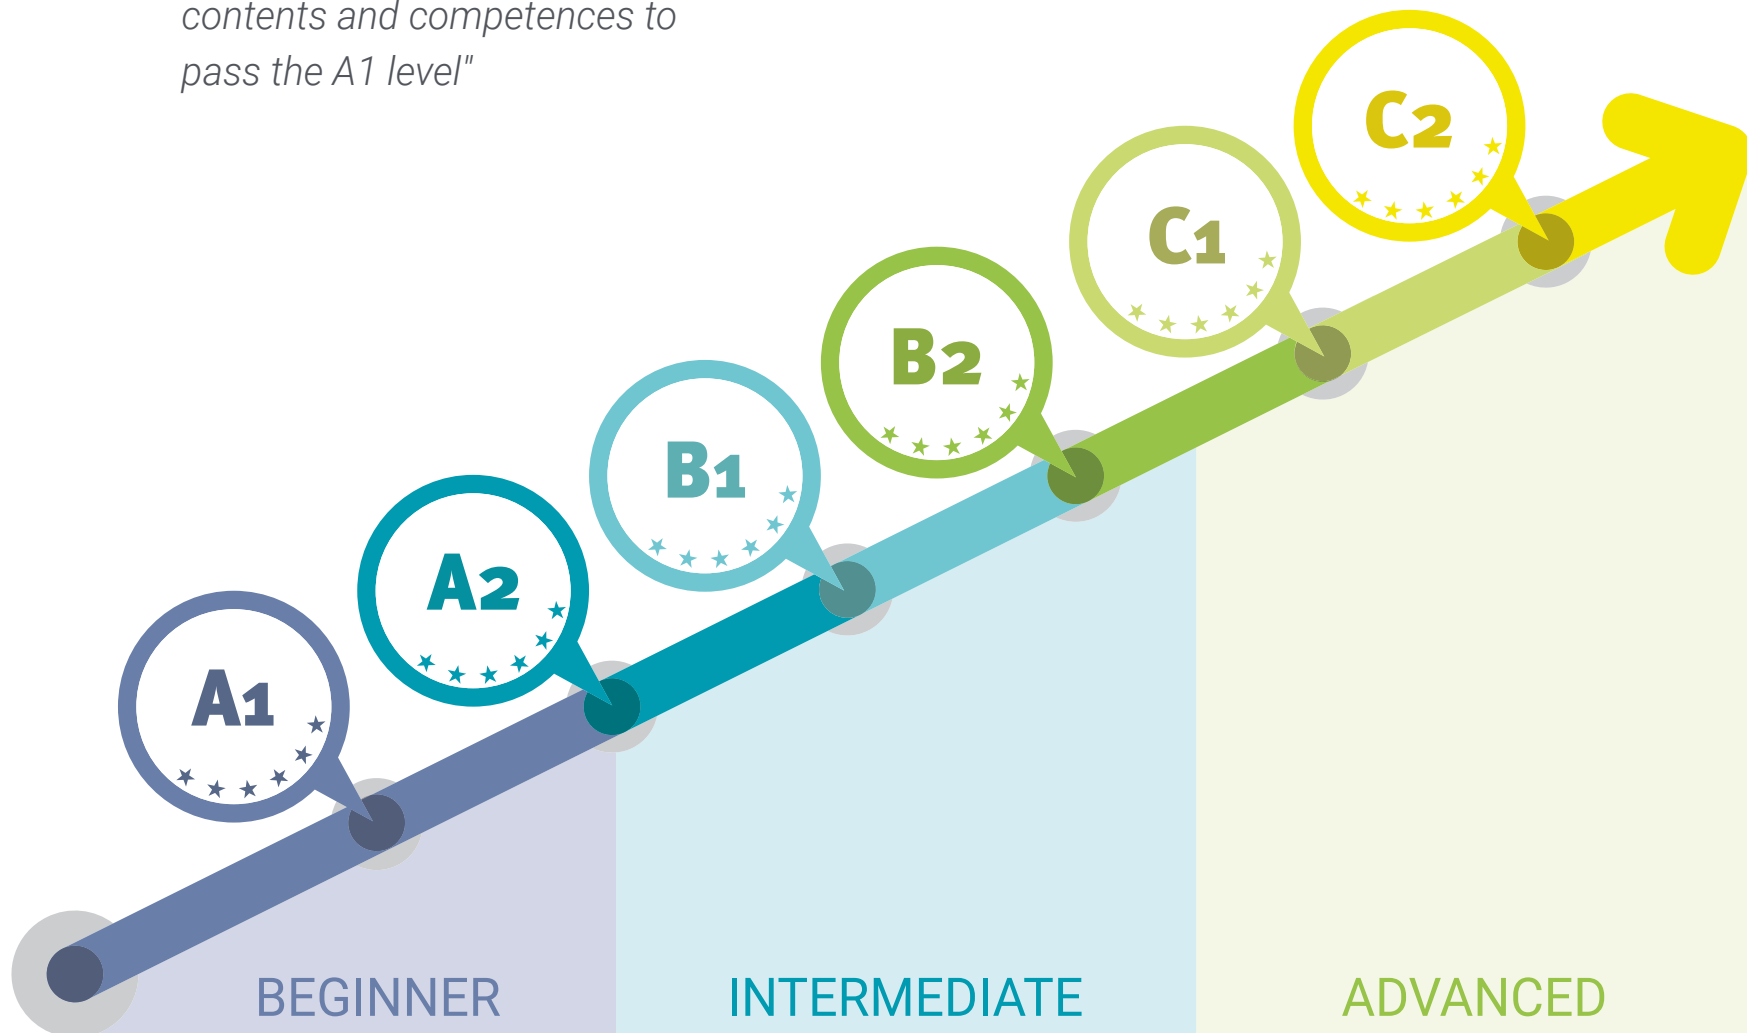

*Learn to speak Chinese and make the most of it by obtaining an official qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.*

“

*With this preparation program you will have all the necessary contents and competences to pass the A1 level”*

03

# What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

**A<sub>1</sub>**

“

*In TECH's Online Conversation Classes for A1 Chinese preparation program we will thoroughly prepare you to obtain your A1 Chinese certificate”*

## What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

*Improve your skills in this language and certify your level quickly and easily, thanks to everything you will learn in this excellent program offered by TECH"*

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as , long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

## A1 level Self-Assessment Chart

### What will I be able to do after completing the course?

#### Comprehension

##### Listening Comprehension

- Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

#### Speaking

##### Oral Interaction

- Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- Ask and answer simple questions on topics of immediate need or very common issues

##### Oral Expression

- Use simple expressions and phrases to describe the place where they live and the people they know

*TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR"*

*Check your level.  
Assess yourself.  
More than 100  
different activities  
to improve your  
fluency, expression,  
comprehension and  
pronunciation.*

## Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

- ◆ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

#### Correction

- ◆ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

#### Fluency

- ◆ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

#### Interaction

- ◆ Ask and answer questions related to personal data
- ◆ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences.

#### Coherence

- ◆ Link words or groups of words with very basic and linear connectors such as "and" and "then"

*Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.*

- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

## Skills-based Practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Chinese A1 certificate.

## Simulated Learning Scenarios

---

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

### Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

*Take the sessions with you on your cell phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

# Our Methodology

The Online Conversation Classes program for Chinese Level A1 preparation is an intensive preparation course for the Chinese Level A1 certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

*In no other course will you work at your own pace, with native teachers, in small groups based on practicing the specific CEFR skills in each session, and practicing the specific CEFR skills in each unit"*

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Chinese Level A1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student, to thoroughly prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations, in simulated learning environments, and will face real mock exams, for the intensive preparation of the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Re-learning...*

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses, with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

**Re-learning Methodology**

We prevent your motivation from waning and offer you the best learning environment.

TECH Technological University's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Krasinski, 2008).

*...with a personalized and expert-led training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Chinese A1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

*... and all this with teachers at the forefront of technology and education...*

*Study wherever and however you want: connect with your mobile device and learn with the best native teachers.*

### **Immersion in real situations**

We present you with real conversational situations with native speakers with different accents, in different contexts.

### **Skills-based Practice**

At TECH Technological University, you will work on all the oral skills established by the Common European Framework of Reference for Languages.

### **Pronunciation and Phonetics Practice**

At TECH Technological University, we focus our method on repetition, as the best way to consolidate your learning.

# Course Objectives

The Online Conversation Classes program for Level A1 in Chinese is designed for you to acquire the necessary oral skills to face the exam and to pass it through practice, training, repetition, personalized supervision and thanks to your effort and the educational excellence of the TECH method. After the program you will be able to certify your A1 level and continue to advance in the study of the language.

“

*Practice the speaking skills and abilities required by the A1 CEFR: more than 100 different practice exercises”*

### General Objectives

- 01** Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations.
- 02** Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language.
- 03** Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships.
- 04** Use the linguistic resources necessary to get by in basic communication situations.
- 05** Develop resources and tools that enable them to assess and improve their own learning and use of the language.

## Specific Objectives

## Oral Comprehension

- ♦ Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning.
- ♦ Understand instructions that are explained slowly and carefully, and be able to follow directions if they are simple and short.

*In TECH's preparation course for the official CEFR A1 level test you will find more than 100 activities focused on developing your oral skills.*

## Oral Expression

- ♦ Engage in conversations in a straightforward manner, but communication is totally dependent on slower-paced repetitions, rephrasing and rectifications.
- ♦ Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics.
- ♦ Understand common expressions aimed at satisfying simple, everyday needs, as long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand.
- ♦ Understand questions and instructions addressed to them clearly and slowly, understanding simple and brief directions.
- ♦ Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news.
- ♦ Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand.
- ♦ Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place. Be able to ask someone for something, and vice versa.
- ♦ To ask someone for something, and vice versa. Good command of numbers, quantities, prices and schedules
- ♦ Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- ♦ Responds in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

## Specific Objectives

### Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents.
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give apologize, ask permission, take an interest in people and respond to an offer.
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects.

### Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum.
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level.

“

*In order to consolidate all these competencies you will have 40 sessions designed by expert teachers and based 100% on the CEFR”*

#### Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence or cultural and artistic competence.

This implies a cultural immersion that is only possible through direct and continuous interaction with native speakers and real conversational situations.

*Uniquely TECH.*

08

# Course Structure and Content

This program has been designed so that similar groups of students share a common learning experience in oral language skills and competencies at Level A1. The teacher will prepare a series of common situations, focused on everyday situations, so that the group can develop the vocabulary and typical expressions appropriate to each context. Since the groups are small, the possibilities for intervention are multiple, resulting in an effective and enriching academic experience for all.

### Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 live sessions of 60 minutes each, taught by native teachers.

#### Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

“

*You will surround yourself with people who share your goals and affinities, creating a common and collaborative learning environment”*

## A1 Level Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

*You will focus your practice to exceed by far the CEFR Level A1”*

*"I slowly started to become interested in Chinese culture, so I took the plunge to study the language as I love learning new languages. With TECH courses I was able to practice the oral part with a group of people who were willing to help me at all times. Quite an experience!"*

## Cándida Rivas

# The Professional Benefits of Chinese

As Chinese is the most spoken language in the world at a native level, it is evident that studying this language will be a great boost for any person who wants to develop their career in Asia. In addition, the Chinese economy is one of the strongest in the world, which justifies and reinforces the decision to start studying this language.

Companies such as Tencent, TikTok or Xiaomi have already carved out a very important niche in the global technology markets, so a knowledge of the Chinese language is also an advantage to work in one of these economic giants.

In addition, the number of Chinese speakers is growing exponentially over the years. This makes this language a safe and differential option for the future in any curriculum.

“

*Study the language of the future and present to stand out from your competitors”*

11

# Assessment and Certification

The main evaluation objective in TECH Technological University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

*TECH Technological University's A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”*

## Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification, of that level.
