01 Welcome

This level will allow you to communicate comfortably in the language, through simple, coherent and more effective communication. You will have native teachers, with university teaching experience, and the most personalized and efficient online system in the teaching market.

With this learning program you will be able to pass the CEFR English B1 Level oral test. Its main objective is to help you acquire the necessary oral skills to be able to certify your level of English and achieve a higher level of oral expression and comprehension in the language.

“

You will be able to understand frequently used phrases and expressions related to important areas of expertise”

Presentation

Teachers and psychologists, experts in teaching languages, believe that the best way to stimulate the learning English is not to subject the student to formalized and linear learning -for example, with rote learning- but to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what surrounds us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level program you will learn to communicate correctly in everyday situations, in common contexts. With an effective learning program and with native teachers who are experts in online teaching.

With this program you will be able to deal with most of the situations that may arise during a trip or in the workplace.

You will have more than 500 different activities and we will prepare you thoroughly to obtain your B1 English certificate.

It has been proven that learning languages makes you smarter. The brain's neural networks are strengthened as a result of language learning"

Is it Important to Have a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us learn about the traditions of other countries, establish friendships or do business.

Nowadays, however, it is not enough to know other languages. **Nowadays you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

Being able to communicate well in another language, and also to accredit it by means of an official CEFR qualification is, nowadays, an indispensable requirement for your academic and professional development. TECH helps you achieve it with intensive CEFR training”

tech 12 | Is it Important to Have a Language Certificate?

TECH

The Common European Framework of Reference for Languages is the **only official recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the different levels of difficulty of the courses and grants the diplomas that are homologated throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

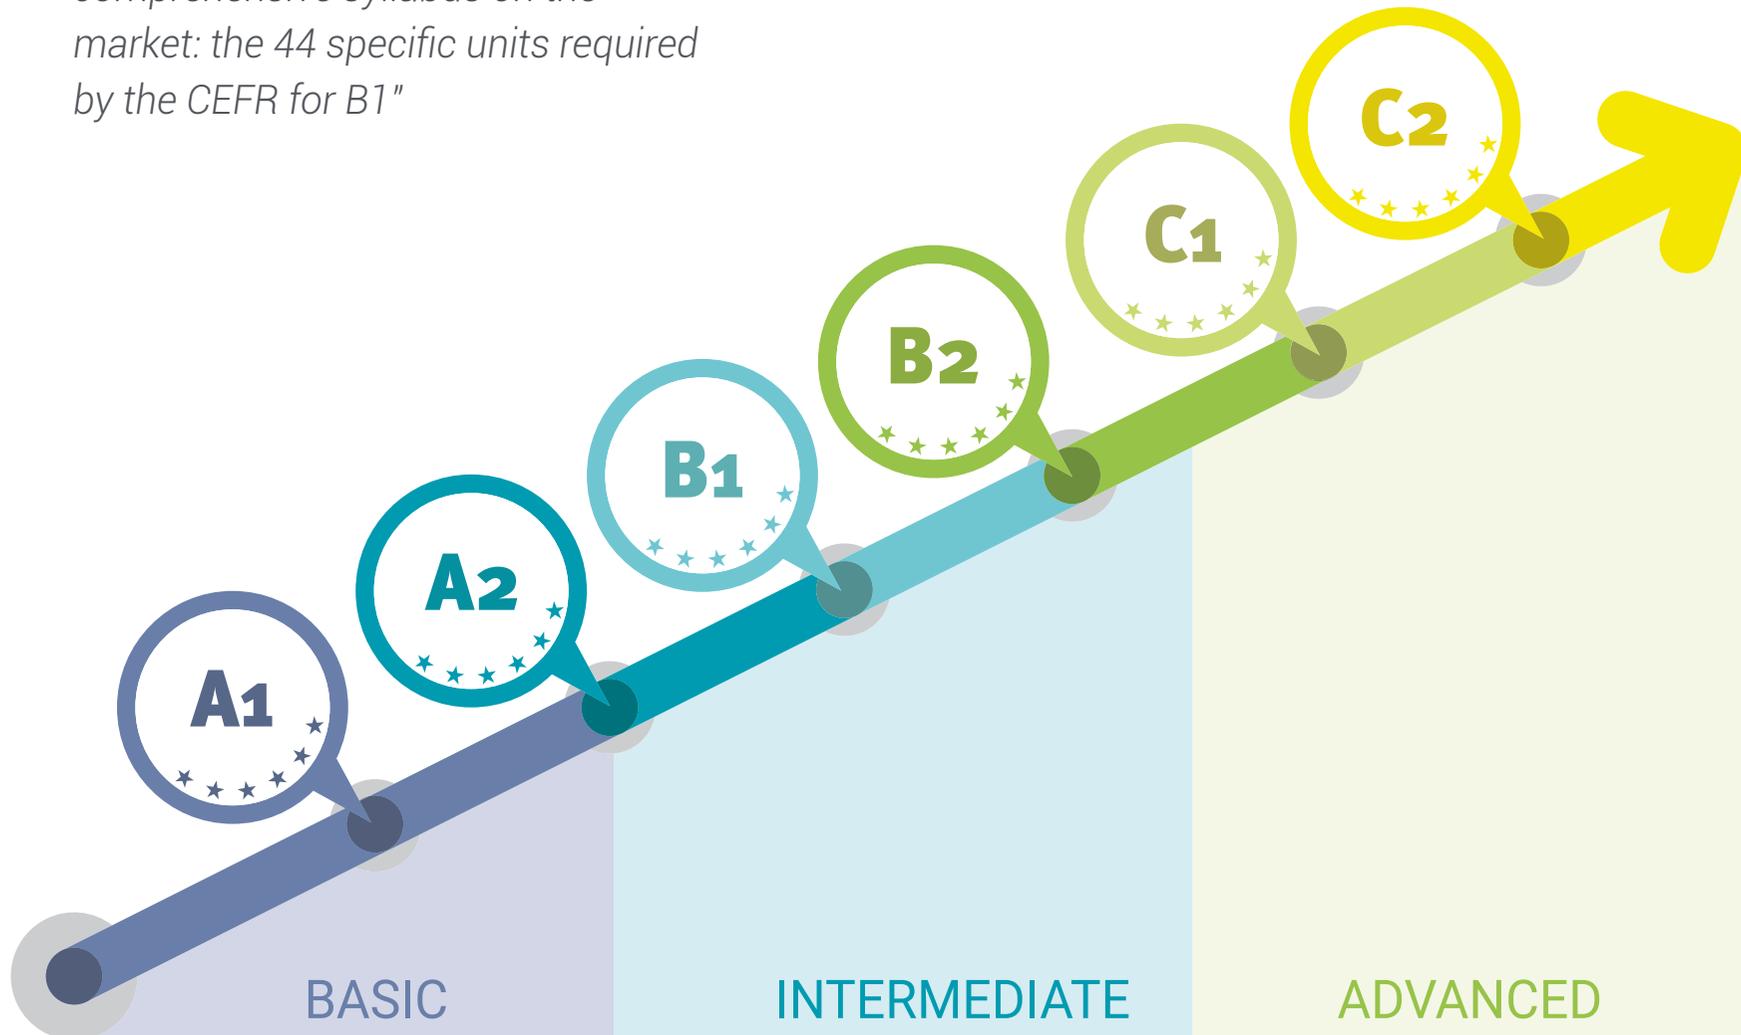

Learn to speak English and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically renew their level accreditation. TECH's CEFT certificate gives you a diploma for life.

This preparation program is drawn from the broadest and most comprehensive syllabus on the market: the 44 specific units required by the CEFR for B1"

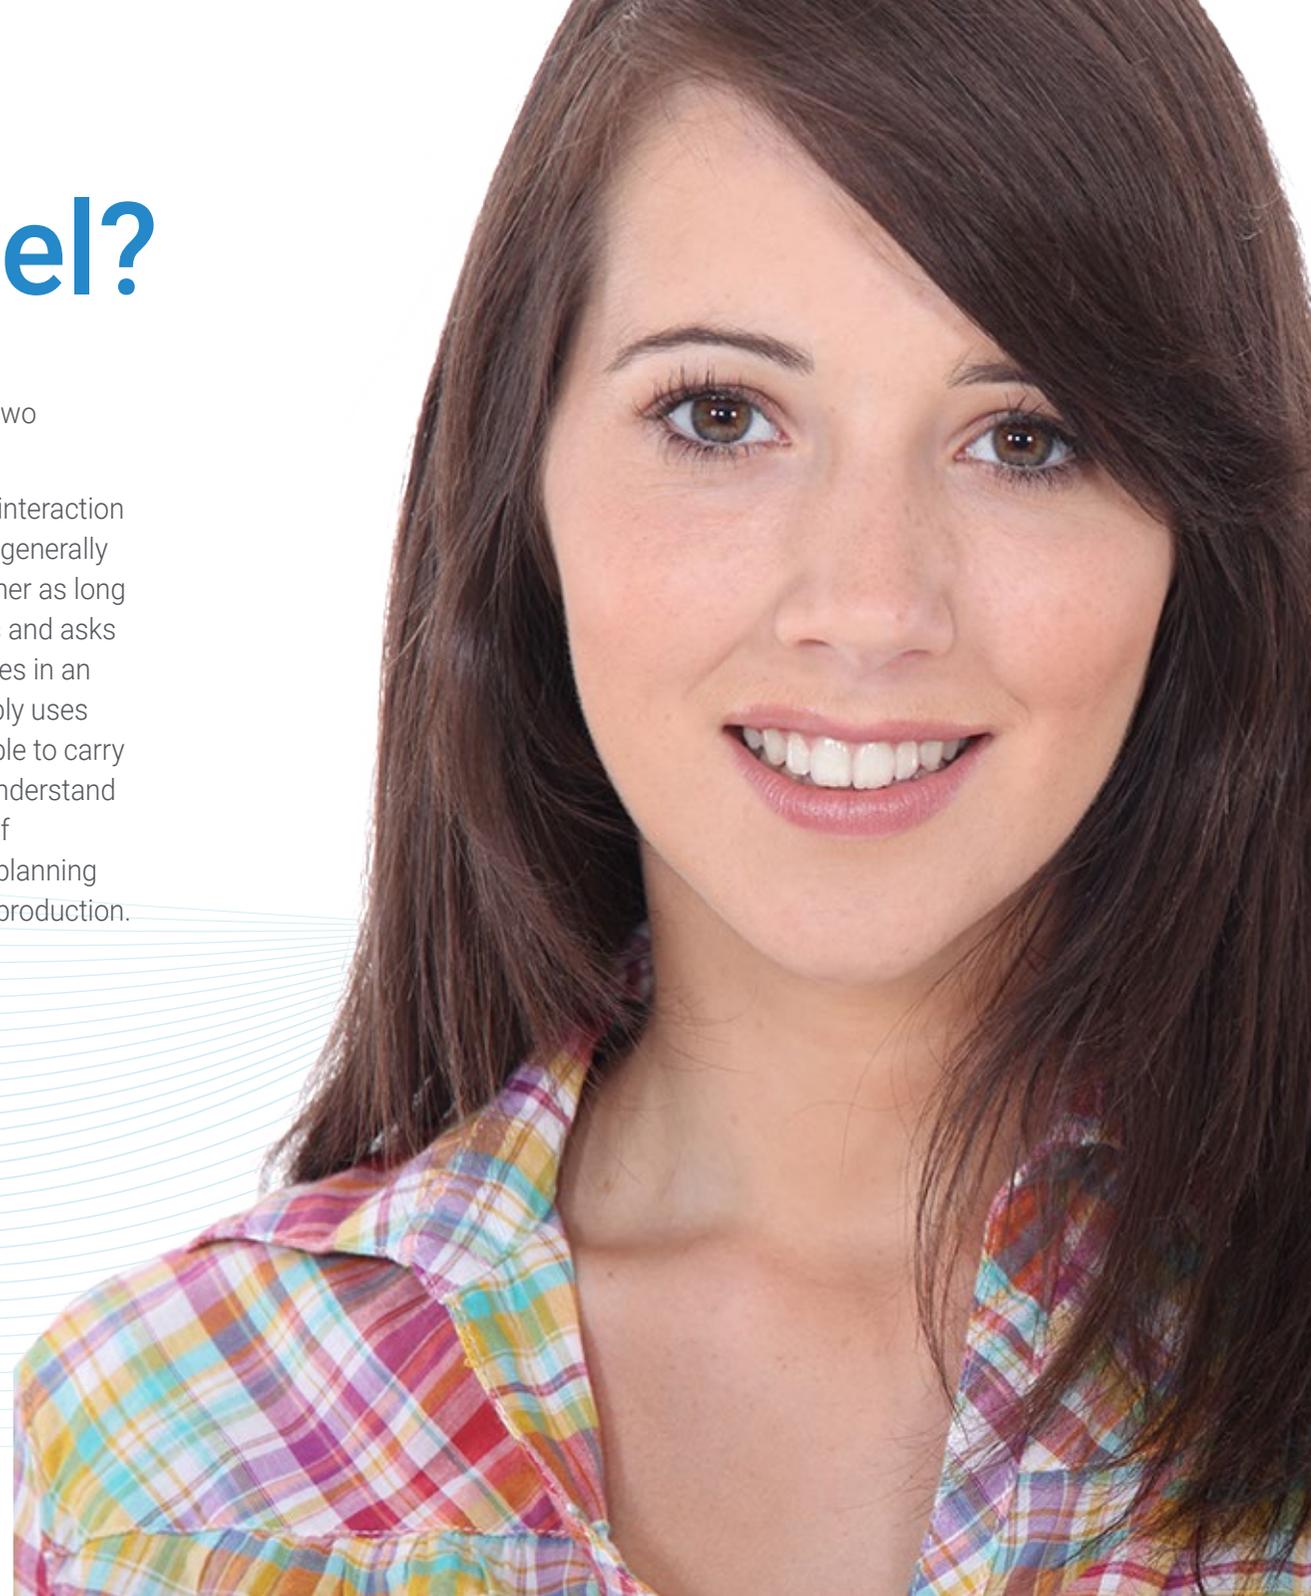

03

What is B1 Level?

Level B1 is part of the Independent User Level, which is divided into two sublevels: First and Second Independent User Level (B1 and B2).

B1 level has two main features: The first is the ability to maintain an interaction and make oneself understood in a variety of situations; for example: generally understanding the main ideas of extended discussions around him/her as long as the speech is clearly articulated at standard language level; offers and asks for personal opinions in an informal discussion with friends; expresses in an understandable way the main idea he/she wants to get across; flexibly uses broad, simple language to express much of what he/she wants; is able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what he/she wants; expresses him/herself understandably, although pauses for some grammatical and lexical planning and some correctness are evident, especially in long periods of free production.

The second feature is the ability to know how to deal flexibly with everyday problems, such as, for example: coping with less common situations in public transport, the typical situations that often arise when making travel reservations through an agency or when traveling; participates in conversations on usual matters without having anticipated it; being able to raise complaints; taking the initiative in an interview or consultation (e.g., knows how to initiate a new topic), although still being noticeably dependent on the interviewer during the interaction; knowing how to ask someone to clarify or develop what he or she has just said.

In TECH's online Conversation Classes program we prepare you thoroughly to obtain your official B1 English certificate"

What is B1 Level?

01

Understands the main points of clear texts in standard language if they address matters known to him/her, whether related to work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level in a simple and fast way thanks to everything you will learn in this excellent program that TECH offers you"

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

Self-assessment chart for level B1

What will I be able to do at the end of the course?

Understand

Listening comprehension

I can understand the main ideas when the speech is clear and normal and deals with everyday matters that take place at work, at school, during leisure time, etcetera.

I understand the main idea of many radio or television programs dealing with current affairs or matters of personal or professional interest, when the articulation is relatively slow and clear.

Speak

Oral interaction

I can handle myself in almost all situations that arise when I travel to places where the language is spoken.

I can spontaneously engage in conversation on everyday topics of personal interest or that are relevant to daily life (e.g., family, hobbies, work, travel, and current events).

Oral expression

I know how to link sentences in a simple way in order to describe experiences and facts, my dreams, hopes and ambitions.

I can briefly explain and justify my opinions and projects.

I can narrate a story, the plot of a book or movie, and I can describe my reactions.

Qualitative aspects of spoken language use for level B1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

Has a linguistic repertoire
Broad enough to get by and an adequate vocabulary to express himself, although hesitantly
and with circumlocutions, on topics such as their family, hobbies and interests, work, travels and current events.

Correction

Uses with reasonable accuracy a repertoire of commonly used formulas and structures associated with predictable situations.

Fluidity

Can continue to speak in a comprehensible manner, although pauses for grammatical and lexical planning and for making corrections are clear, especially in long periods of free expression.

Interaction

Is able to initiate, maintain and end simple face-to-face conversations on everyday topics of personal interest.
Can repeat part of what someone has said to confirm mutual understanding.

Coherence

Link a series of short, distinct and simple elements to enable a linear sequence of related ideas.

Download and practice the vocabulary: Over 500 pages of lexical cards and glossaries.

Practice focused on skills

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work by skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official English B1 certificate.

Simulated learning scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we bring to your home, or wherever you want, real and everyday situations with people like you who will face a new language and successfully overcome, thanks to your help, stories and problems of all kinds. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific virtual classes B1 CEFR

Are you prepared for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and consult them wherever you want!

Do you want to review the class after the fact and check where you made mistakes or how a word was pronounced? Download the recorded session and review it again.

An interactive chat to share doubts, expressions, complex words, etc. in writing.

Our Methodology

This intensive course of online conversation classes for the preparation of the English B1 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation with the help of university teachers to pass the test.

“

Native teachers will provide, through online classes, the necessary skills to pass the B1 level of English quickly and efficiently”

The TECH Method

Conventional methods of teaching a second language, such as lectures or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data showing the failure of the traditional system and methodology.

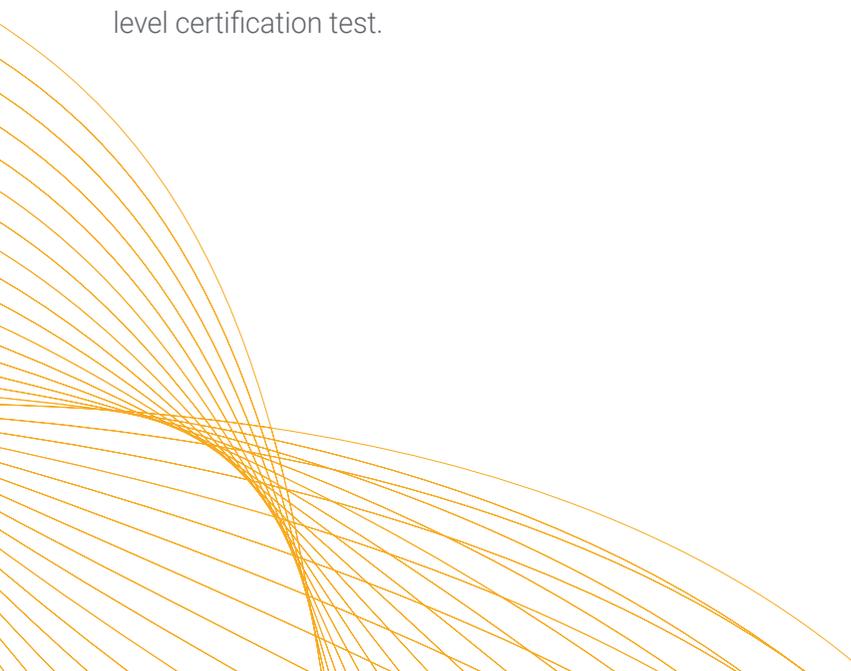

TECH's English LEVEL B1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare you for the official oral level certification test. Our goal is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the placement test. To do so, we emulate the official test through simulations throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams for the intensive preparation of the level certification test.

...All of this is enhanced with the best 100% online teaching method: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our B1 CEFR oral communicative competence preparation program is the only one on the market licensed with the Relearning learning method, which enhances learning by optimizing the effort/result ratio.

This methodology is, at the forefront of international teaching, is called Re-learning. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

*...with a personalized training itinerary
guided by experts...*

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, e-mail contact with the technical secretary and chat).

“

Our system will allow you to organize your time and pace of learning adapting it to your schedule, and access the contents from any device with internet connection (computer, tablet, smartphone)”

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “Neurocognitive context-dependent learning the different elements of our English B1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and pedagogy...

Study where and how you want: connect with your mobile device and learn with the best native teachers.

Course Objectives

This high-level training of conversation classes for the preparation of English Level B1 is entirely designed for you to acquire the necessary oral skills to tackle the exam that accredits your level and pass it through practice, training, repetition, personalized follow-up, but, above all, thanks to your effort and the pedagogical excellence of the TECH method.

“

Native teachers will prepare you with different activities of expression and interaction to pass the oral part of the English B1 certificate”

General Objectives

01

Use the language being learned as a means of communication and personal expression, both in the classroom and in a wide range of face-to-face and virtual situations and on both concrete and abstract topics, including cultural ones

02

Understand, interact and express themselves in these situations, orally in an adequate, reasonably flexible, accurate and correct way

03

Describe the sociocultural aspects related to usual situations, as well as those related to one's own environment and use the appropriate social formulas, gestures, register and treatment in these situations

04

Internalize the appropriate and necessary linguistic resources for the planned communicative activities, through functional and formal practice

05

Encourage and diversify the use of strategies that streamline communication and facilitate learning

06

Manage tools to evaluate and improve one's own learning and use of the language

Specific Objectives

Oral comprehension

- Identify the communicative intentions, essential information, main points and relevant details of speeches, debates, lectures, instructions and narrations on general topics or those of his/her specialty, delivered in a standard register, clearly and with the possibility of some clarification
- Understand the information content of most conversations and/or directed activities dealing with general topics or topics of personal interest, delivered in a relatively slow, clear and standard manner, as well as TV programs and movies with simple and clear language

In TECH's preparation course for the official CEFR B1 level test you will find more than 100 activities focused on developing your oral skills.

Oral expression

- Express oneself appropriately, effectively and with reasonable fluency, accuracy and correctness in a wide range of situations and topics, narrating and describing experiences, feelings and events, conveying information, presenting a familiar topic and justifying one's own opinions
- Present speech in a coherent and clear way, organized and cohesive with flexibility, but in a simple way. Foreign accents may be evident
- Participate and react appropriately, with some confidence and fluency in a wide range of situations, even when unusual and on abstract matters, requiring exchange of opinions and detailed information, understanding almost everything that is said around him/her, provided it is clearly pronounced, not using highly idiomatic language and with the possibility of some clarification

Specific Objectives

Sociocultural and sociolinguistic competence

- To broaden and diversify the knowledge of sociocultural aspects related to situations, even less common and those of one's own professional environment; to adapt, satisfactorily, the behavior, reactions and linguistic performance to different situations
- Use in a flexible way the language and formulas of the exchanges and texts that are handled, as well as the usual forms of treatment and expressions of courtesy, within a wide standard register of formality and informality, with degrees of distance or closeness
- Use expressions that qualify disagreement or negative evaluations if the situation requires it
- Understand behaviors and values different from one's own that underlie common sociocultural traits and recognize aspects and exponents that are offensive or taboo in the other culture

Linguistic competence

- Broaden and diversify the knowledge of sociocultural aspects related to situations, even

those that are less usual and those of one's own professional field; to successfully adapt their behavior, reactions and linguistic performance to different situations

- Use in a flexible way the language and formulas of the exchanges and texts that are handled, as well as the usual forms of treatment and expressions of courtesy, within a wide standard register of formality and informality, with degrees of distance or closeness
- Use expressions that nuance disagreement or negative evaluations if the situation so requires
- Understand behaviors and values different from one's own that underlie common sociocultural traits and recognize aspects and expressions that are offensive or taboo in the other culture

“

In order to consolidate all these skills you will have more than 40 sessions designed by expert teachers and based 100% on the CEFR”

Did you know that?

Communicative competence is not limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which put it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, storytelling, videos and real situations.

Uniquely TECH.

This method of teaching English B1 is innovative and effective. In just a few months I have managed to get by in the language and I have learned to communicate fluently in different common situations in my environment. I will certainly continue my training and sign up for TECH courses again.

Rocío Rivero

A student from Spain

Having native teachers with extensive teaching experience is what sets this program apart from others. Their teaching techniques are undoubtedly effective and not at all monotonous. I thought it would be hard for me to pick up the language, but in a few months I acquired the level of English I needed to have for my profession.

Our Students' Profiles

Learning a language is not an easy task, we are aware of that. Many of us have been trying, unsuccessfully, for years to consolidate our knowledge and acquire the necessary skills to certify what we have been learning. Placement tests are complex tests that must be prepared thoroughly and with good expert guidance.

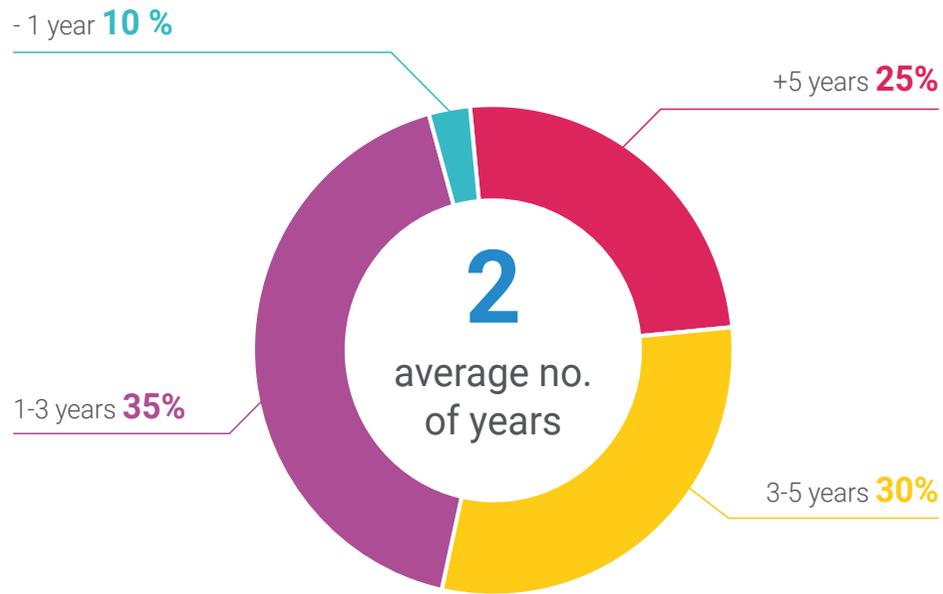

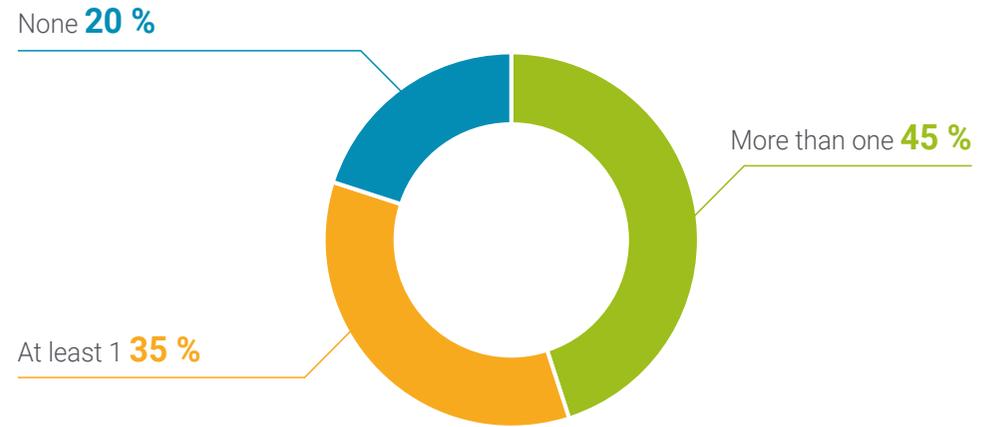

“

Many of our students come from other preparation methods that have ended up demotivating them. At TECH 9 out of 10 students recommend us”

10 The Professional Benefits of English

Today, English is the universal language, it is almost mandatory in terms of work in all parts of the world, it is fundamental in any area of personal or professional life: it is the language used in the economic field, international trade, tourism, diplomacy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world in which we live, it is the tool that enables communication with people from all countries.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by some 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large part of job offers, scholarships, university careers, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a better education, without limiting ourselves to universities or training centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances, and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

“

Today, English is the universal language. It is almost obligatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life”

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH'S B1 level oral communication skills preparation program is the only one that also awards you with a university certificate"

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
