01 Welcome

Through TECH's individual online conversation classes, students will boost their mastery of the French language, opening the doors to understanding a language that is spoken in many countries around the world. Thanks to this program compiled by native university professors, experts in teaching French, you will learn all areas of language use: grammar, vocabulary, formal and colloquial expression, writing and reading at a basic level of comprehension. This allows the student to pass the Common European Framework of Reference for Languages (CEFR) Level A1 French oral test.

To master a new language, a solid foundation is essential, and TECH offers quality classes designed to adapt to the student, being telepresence classes, in line with the current global and digitized world, and designed with your needs in mind. The main aim of this training course is, therefore, to help students acquire the necessary skills to express themselves in French, through a qualification that they will achieve thanks to an intensive program designed especially for students.

Presentation video

“

Get a solid foundation and certify your level of French with TECH's conversation classes"

Introduction

TECH offers an attainable challenge, using the best methodology: personalized French classes. Most academies and schools that teach languages such as French offer traditional instruction based on repeating simple linguistic structures with no connection to properly structured content or concrete skills. However, both teachers and psychologists believe that the best way to stimulate language learning is by encouraging the imagination and learning through sensory exploration in order to be able to understand and interpret what is around us, not by subjecting the learner to formalized, linear learning, such as learning by rote.

In this way, the brain works on and learns a second language in the most natural way possible, in the same way that we learned our mother tongue. For this reason, TECH offers French Conversation Classes at Level A1 with university professors and native speakers, who will provide personalized and 100% online French Conversation Classes in both common and specific communicative situations. You will understand the structure of the French language and be able to hold conversations at a comprehensive basic level, in the knowledge that you have the quality guarantee of a prestigious university.

Learning French is not easy, but with our native university professors you will very quickly be able to hold basic conversations.

Acquire the communicative skills you need to obtain the CEFRL Level A1 French quickly and easily, thanks to TECH.

Mastering several languages is essential these days and now is the best time to learn French, go for it with TECH!"

A unique and stimulating experience

Flexible and Tailored

Take the best French conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. **Nowadays you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive CEFR training"

tech 10 | Is it Important to Obtain a Language Certificate?

TECH - Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and , are therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

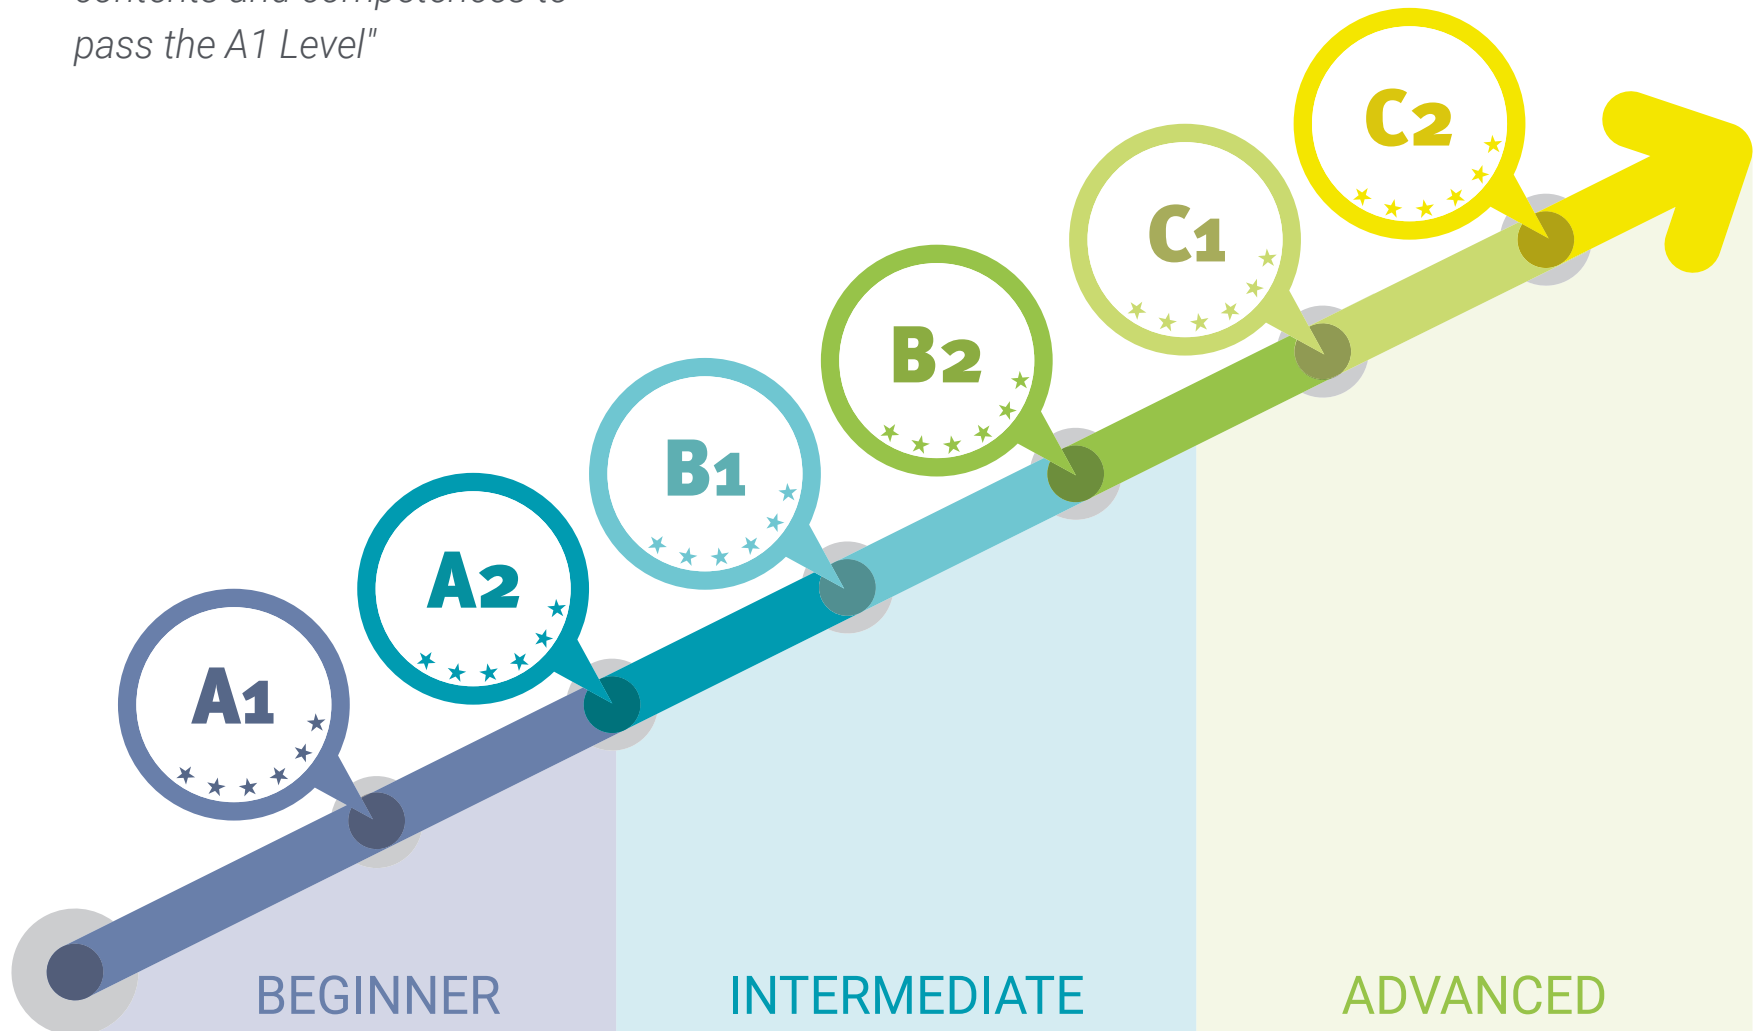

Learn to speak fluent French and make the most of it by obtaining an official qualification based on the CEFR.

Other private Language Certificate systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

“

With this preparation program you will have all the necessary contents and competences to pass the A1 Level”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A₁

“

In TECH's Individual Online Conversation Classes program we will thoroughly prepare you to obtain your official A1 French certificate”

What Is Level A1?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“*Improve your skills in this language and certify your level quickly and easily, thanks to everything you will learn in this excellent program offered by TECH*”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

TECH helps you to get your official qualification with intensive, 100% CEFR training"

A1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

Speaking

Oral Interaction

- Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- whereby answer simple questions on topics of immediate need or very common issues

Oral Expression

- Use simple expressions and phrases to describe the place where they live and the people they know

*Check your level.
Assess yourself.
More than 100
different activities
to improve your
fluency, expression,
comprehension and
pronunciation.*

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

- ♦ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

- ♦ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

- ♦ Ask and answer questions related to personal data
- ♦ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences

Coherence

- ♦ Linking words or groups of words with very basic and linear connectors such as "and" and "then"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

04

Why TECH?

At **TECH** we offer you the leading program for preparing oral communication skills based 100% on acquiring the skills established by the Council of Europe for the teaching of foreign languages. We work with the latest methodological approaches: the action-oriented approach and the skill-based approach in order to prepare you for the official level certification exams. For this purpose, we work with the best native teachers with whom you can interact from your portable device or computer and practice your oral skills.

*We prepare you thoroughly
to obtain your official A1
French certificate.*

“

Other language school certificates are only valid in the country of origin, they are neither valid in Europe, nor in the rest of the world. That is why you need a CEFR qualification from TECH: It's valid worldwide!”

What makes us unique

Mission

Our mission is to stimulate the professional and personal development of our students, promoting their skills and abilities so that they are able to adapt to a real and constructive multicultural environment.

Vision

TECH's vision is to be an innovative, academically thorough learning environment of international reference, capable of transmitting values that inspire the transformation of language learning to creative and socially responsible models.

- Innovation and creativity
- Excellence
- Spirit of self-improvement
- Social commitment
- Exclusivity and leadership
- Passion

We thoroughly prepare students to pass the oral part of the official French A1 exam"

We use an efficient and user-friendly platform that is easy to access.

Practice your speaking skills "face to face" with your native teacher through a modern and easy-to-use system.

05

Features of the A1 French Online Conversation Classes

An Intensive Course

Online Conversation Classes for French A1 preparation is an intensive program that prepares you for the Common European Framework of Reference for Languages (CEFR) for French Level A1. You will attend 40 60-minute sessions to improve your oral proficiency and practice under the best guidance and supervision.

The Most Comprehensive syllabus

The syllabus throughout is based on the Common European Framework of Reference for Languages, so you are guaranteed to be prepared with the best content.

Accessible

Our system allows you to study from your tablet, PC or Smartphone.

Accredited

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate

Dedicated

You will have a native teacher with expertise in teaching speaking skills to guide you in your learning process.

40 intensive speaking practice sessions

100+ activities for different skills

Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training on the market that includes the complete course content in downloadable format:

- Grammar PDF: you will have access to more than 100 downloadable and printable grammar worksheets to study wherever and however you want.
- Lexical cards and glossaries: you will find 50 pages of lexical cards and glossaries to download and practice your vocabulary.

Quick and Intuitive Platform

Forget about cumbersome registrations and problems connecting or following the class. One device and an internet connection is enough. Connect with a single click and work whenever and wherever you want.

Cancellation Policy

In order to cancel a previously scheduled or agreed upon class, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

Testing & Re-testing

We periodically evaluate and re-evaluate your knowledge throughout the entire French A1 preparation course.

- We will work with more than 100 activities for different oral skills
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official French A1 certificate.

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as, well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

- The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:
- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

The A1 French Individual Online Conversation Classes program is an intensive and personalized course for obtaining the French A1 level certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH employs a method of oral proficiency practice in which the student works intensively and repeatedly on all content required by the Framework, providing them with extensive individual preparation to pass the test according to the parameters of quality and rigor that define TECH, the largest online university in the world.

“

With TECH you acquire the MCER skills you need to express yourself in French, easily and at your own pace”

The TECH - Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's French Level A1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-Learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive individual online conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (krastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "*Neurocognitive context-dependent learning*", the different elements of our French A1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in Real Situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-Based Practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and Phonetic Practice

At TECH we focus our method on repetition as the best way to consolidate your learning.

Image

Audio

Vocabulary and Socioculture Practice

At TECH we offer you different ways to consolidate your vocabulary through practice and conversation, and by consulting downloadable worksheets.

Grammar and Spelling Practice

You will work on grammar without even realizing it, from a practical point of view through activities with native teachers.

Interactive Chat

During the sessions you can practice your written skills by interacting in the chat.

Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

At TECH you will find expert teaching staff equipped to prepare you with a high-quality syllabus based 100% on acquiring the oral skills required by the CEFR.

TECH is the only institution that is committed to answering your questions in less than 24 hours.

Text

07

Course Objectives

The Intensive A1 French Individual Online Conversation Classes program is designed entirely for you, so that you acquire the necessary oral skills to face the exam that certifies your level, which you will successfully pass thanks to these personalized classes. Through practice, training, repetition, follow-up with a university professor and your own effort, you will achieve the mastery of the French language just as you wanted. After the program you will be able to certify your A1 level, and successfully continue studying the language, progressively advancing to the next levels and taking a step further in your language skills with TECH.

“

Test yourself using our exercises, which will guarantee you the oral skills required by the CEFR A1"

General Objectives

- 01** Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations
- 02** Interact and express yourself in these situations in an elementary, but adequate way, in a standard register of spoken language
- 03** Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships
- 04** Use the linguistic resources necessary to get by in basic communication situations
- 05** Develop resources and tools that enable them to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

Understand speech that is slow, carefully articulated and with enough pauses to assimilate meaning

Understand instructions that are explained slowly and carefully, and able to follow directions if they are simple and brief

You will be able to deliver short, understandable, appropriate and coherent speeches effectively and in a short time, as you practise with a native speaker and the lessons are exclusively adapted to you.

Oral Expression

- Participate in conversations in a simple way, taking into account that communication depends entirely on slower-paced repetitions, rephrasing and rectifications
- Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- Understand common expressions aimed at satisfying simple, everyday needs, as long as the interlocutor collaborates by addressing them in clear and slow speech and repeats what they do not understand
- Understand questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express reactions to the news
- Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand
- Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place Be able to ask someone for something, and vice versa
- Ask someone for something, and vice versa Good command of numbers, quantities, prices and schedules
- Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- Respond in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level

“

In just 40 one-hour sessions, you will confidently immerse yourself in one of the most nuanced languages in the world"

08

Course Structure and Content

The student will have the full attention of a native teacher, who will guide them through the whole process of oral practice in these Conversation Classes. Lessons will be adapted to the personal needs and areas of greatest interest to the student, without forgetting the importance of acquiring sufficient fluency in the most important areas of Level A1. Thanks to the analysis of individual errors, an even faster and more effective improvement of oral skills and competencies is promoted.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

You will analyze errors individually with your assigned teacher, further boosting your spoken language improvement"

A1 Level Learning Objectives

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

You will focus your practice to exceed by far the CEFR Level A1”

"I am passionate about French culture and that is why I decided to learn the language though TECH's individual online conversation classes, as a friend who is preparing for the Italian language certificate recommended them to me. The truth is that you notice how fast you progress and having native teachers is a plus for training your ear!"

Susana Chávez

A student from Peru

"Thanks to TECH's classes I have been able to learn the structure of French really well, a basis I didn't attain in the language school where I had started and then left. What's more, the sessions are very comprehensive and you immediately see an improvement in vocabulary. I loved the experience!"

Joaquín Cruz

A student from Chile

09

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH , 9 out of 10 students recommend us”

Years of unsuccessful attempts to learn the language

10

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level conversation classes program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
