01 Welcome

Through TECH's individual online conversation classes, students will boost their learning towards the mastery of the Italian language, opening the doors to understanding a *molto bello* language. Thanks to this program, developed by native university professors who are experts in teaching Italian, students will learn all areas of language use in a personalized way: grammar, vocabulary, formal and colloquial expression, writing and reading at a basic level of comprehension. As a result, they will have the skills required to pass the A1 Italian oral test of the Common European Framework of Reference for Languages (CEFR).

It is a fact that mastering a new language requires a solid foundation. This is why TECH offers quality classes adapted to student needs. In an online format, it is the student who chooses when to take on the course load, being able to do so from any device with an internet connection. The main objective of this program is, therefore, to help students acquire the skills they need to express themselves in Italian, through a certification that they will achieve thanks to an intense and comprehensive program.

Presentation video

“

This is the most complete program for developing communicative proficiency in order to pass the official CEFR A1 Italian exam. Study. Learn. BECOME CERTIFIED"

Introduction

Most academies and schools that teach languages such as Italian, offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills. However, it has been proven that the best way to stimulate language learning is by encouraging imagination and learning through sensory exploration. This way, students are able to understand and interpret the environment and the context.

By not subjecting the student to formalized and linear learning, such as through memory, the brain works harder and learns a foreign language in the most natural way, just as we learned to speak our mother tongue. For this reason, TECH offers A1 Italian Conversation Classes in a totally personalized way, with experienced university teachers and native speakers, who will deal with both common and specific communicative situations, in an individual and 100% online way. In this way, students will understand the structure of the Italian language and will be able to hold conversations at a basic level, with the quality guarantee of a prestigious university.

With TECH, you acquire the communicative skills you need to obtain the CEFR A1 Italian in just 4 months through a 100% online program

Buongiorno! Learn a language with character and personality. Thanks to our native teachers, you will be able to hold basic conversations effectively!

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, helping us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with this intensive 100% CEFR program"

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Learn to speak Italian and make the most of it by obtaining an official qualification based on the CEFR

Other private language certification systems require students to periodically recertify their level of proficiency. The CEFR certificate is valid for life

“

With this program you will have all the content and skills you need to pass the A1”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A₁

“

In TECH's Online Conversation Classes program, we will thoroughly prepare you to obtain your official A1 Italian certificate”

What Is Level A1?

At this level, as defined by the Common European Framework of Reference for Languages, students work on their language skills to develop what are considered "Basic User" skills, with the ability to:

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

02

Interact in an elementary way as , long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce themselves and others, ask for and give basic personal information about their address, their belongings, and people they know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

TECH helps you to get your official qualification with an intensive, 100% CEFR program"

Our objective is to strengthen your skills in a changing, real and multicultural context, guarantee your success in passing the test. Through activities, stories and real contexts, the student will learn how to solve everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *"Neurocognitive context-dependent learning"*, the different elements of our Italian A1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore speaking Italian will open the doors to working with many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors; tourism, the automotive industry and fashion.

“

Italian is found amongst the ten most useful languages in the world and it is considered a necessary language to learn in order to succeed in the 21st Century”

11

Assessment and Certification

The main evaluation objective at TECH is for students to consolidate what they have learned and to be aware of their progress. For this reason, after completing each block, students are shown a report of their results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
