01 Welcome

These individual conversation classes prepare you to pass the Common European Framework of Reference for Languages (CEFR) Level A1 Russian oral test. You will learn this growing language through an intensive and completely personalized program that has been created to give you the most solid base in all areas of the language: grammar, vocabulary, formal and colloquial expression, writing and reading. All of this from the knowledge and expertise of a native university professor.

Its main objective is to help you acquire the necessary oral skills to be able to certify your Russian level and to help you achieve a fundamental level of oral expression and comprehension in the language.

Presentation video

“

Put yourself in the hands of our university professors. They will prepare you with different activities of expression and interaction to pass the oral part of the Russian A1 certificate”

Introduction

Most Russian language schools and academies offer traditional teaching, based on the repetition of simple linguistic structures with no connection to properly structured content or concrete skills. However, teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

You will improve your communicative skills in order to obtain the CEFR A1 level in Russian in a quick, intensive and fast way.

This is the most complete preparation program for developing communication skills in order to pass the CEFR A1 level test.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Learn to speak Russian and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

“

With this preparation program you will have all the necessary contents and competences to pass the A1 level”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A₁

“

In TECH's A1 Russian Online Conversation Classes Program, we prepare you thoroughly to obtain your official A1 Russian certificate"

What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

01

Understand and use common everyday expressions and simple sentences in order to satisfy immediate needs

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which the learner can interact in a simple way, can ask and answer questions about themselves, about where they live, about people they know and things they have, can make simple statements in areas of immediate need or on everyday topics and can respond to such questions when asked, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in concrete situations.

TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR"

A1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

Speaking

Oral Interaction

- ♦ Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- ♦ whereby answer simple questions on topics of immediate need or very common issues

Oral Expression

- ♦ Use simple expressions and phrases to describe the place where they live and the people they know

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

- ♦ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

- ♦ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

- ♦ Ask and answer questions related to personal data
- ♦ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences.

Coherence

- ♦ Linking words or groups of words with very basic and linear connectors such as "and" and "then"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Russian A1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

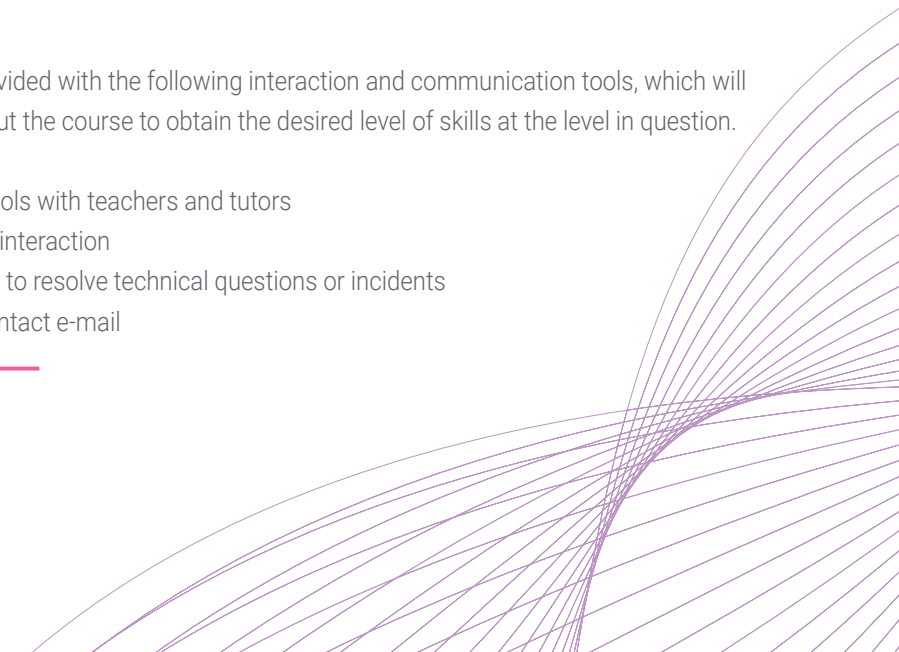

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

This intensive course of online conversation classes for the preparation of the Russian A1 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation with the help of university teachers to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on practicing the specific CEFR skills in each session and practicing the specific CEFR skills in each unit"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 Russian Oral Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

This intensive oral proficiency preparation program is based on real-time communication, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *“Neurocognitive context-dependent learning”*, the different elements of our intensive A1 Russian course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

...and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

- ♦ Respond in an interview to simple and direct questions about personal data, if spoken very slowly and clearly, without idioms or set phrases

In TECH's preparation course for the official CEFR A1 level test you will find more than 100 activities focused on developing your oral skills.

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum
- Develop a very limited control of linguistic resources with systematic errors that usually occur at this level

“

In order to consolidate all these skills you will study more than 40 sessions designed by expert teachers and based 100% on the CEFR”

08

Course Structure and Content

TECH adapts the individual conversation classes to the unique needs of each student. With this option, the student will have a teacher who is completely dedicated to achieving their own goals and starting the language from day one. Therefore, we will cover the most common everyday situations, as well as the individual areas that the student needs to improve on according to their own interests.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 live sessions of 60 minutes each, taught by native teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“ You will analyze errors individually with your assigned teacher, further boosting your spoken language improvement”

A1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Help to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech.
- Master the use of new basic word in order to develop conversations in different contexts.
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Train the student to start and maintain a simple conversation of their own accord, making use of the most common language

“

You will focus your studying to pass the CEFR Level A1 with flying colors”

"Learning to speak Russian was one of my biggest dreams, but I had never managed to get by as well as I have with this program. The teachers are native speakers, they solve all your doubts and their teaching method is innovative and effective. Now that I have my A1 Level of Russian accredited, I plan to continue with them and continue advancing"

Elena Gómez

A student from Spain

"I was offered a job that required a basic level of Russian. I thought it was going to be difficult for me, but with TECH's Online Program I was able to accept the job offer and now I can communicate easily at work. I am currently taking the B1 Level and I am still delighted with the contents and teachers of this online university"

The Professional Benefits of Russian

Russian is becoming increasingly international. More and more people are communicating in the language of Tolstoy and Dostoevsky, and it is not surprising that Russian has a place among the world's most widely spoken languages. In fact, the language of the Czars is taught in about a hundred countries. This boost stems not only from cultural reasons, but also from economic interests that in recent years have led to an increase in the number of people learning the Cyrillic alphabet.

It has official status in Russia, Belarus, Kyrgyzstan and Kazakhstan, while in the other republics of the former USSR it is used as a second language. Between native speakers and those who speak it as a second language, it is spoken daily by 260 million people.

Russian is one of the most widely used languages on the Internet. According to some statistics (and depending on when the data is taken) it is the second most used language on the Internet only behind English. 6% of all web pages in the world are in Russian. For example, only 3.3% of the Internet is in Chinese and its population is 9 times that of Russia. Russia is the sixth largest Internet user in the world. Another interesting fact about Russian is that 25% of the world's scientific literature is published in this language.

Russian has become one of the few official languages used in major world institutions. It is an official language of the UN, the OSCE (Organization for Security and Cooperation in Europe) and the SCO (Shanghai Cooperation Organization).

Russia is one of the world's largest exporters of natural gas, oil and diamonds. It is also a world leader in space, aeronautics and weapons technology. Russia is the world's largest country, which makes it a world leader in various natural resources. It is also a source of intellectual, cultural and economic knowledge. All this makes Russian an important language in different sectors.

“

Did you know that Russian is the seventh most spoken language in the world? And that it is an official language in 8 countries and has a strong presence in 10 others? And also the most widely spoken language in Europe?”

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH'S A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
