01 Welcome

Through these one-to-one conversation classes you will boost your command of the Spanish language, opening the doors to understanding one of the most widely spoken languages in the world. Thanks to this program developed by native teachers who are experts in teaching Spanish, you will learn all areas of language use: grammar, vocabulary, formal and colloquial expression, writing and reading at an excellent level of comprehension. Thus, the student is able to pass the oral test of Spanish Level A1 of the Common European Framework of Reference for Languages (CEFR).

A solid and quality base designed exclusively for you, as these are personalized telepresence classes, in line with the current global and digitalized world, adapted to your needs. The main objective of this training is to help you acquire the necessary skills to express yourself in Spanish, through a certification that you will achieve thanks to an intensive program designed especially for you.

“

Test yourself from square one and make a positive change on a professional and personal level. Certify your Spanish level with TECH!”

Introduction

TECH offers you an achievable challenge, using the best methodology: personalized Spanish classes. As you know, most language teaching academies and schools offer traditional teaching, based on the repetition of simple linguistic structures with no connection to properly structured content or specific skills. However, teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue. For this reason, TECH offers you Spanish Conversation Classes at Level A1 with university professors and native speakers who will provide you with regular and specific communicative situations, in a totally personalized and 100% online format. In this way you will understand the structure of the Spanish language and will be able to hold conversations at a complete basic level, knowing that you have the quality guarantee of a prestigious university.

Acquire the communicative skills you need to obtain the CEFR Spanish Level A1 quickly and easily thanks to TECH.

Never before has learning Spanish been so easy. Our native teachers prepare you to hold conversations in a language other than your own in an effective and intensive way.

Language skills are essential in the globalized world of the 21st century. It's time for you to learn one of the most widely spoken languages on all continents: Spanish!"

A unique and stimulating experience

Flexible and Tailored

Complete the best Spanish conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and reinforce the oral communication skills required for this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certification?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. **Nowadays you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive CEFR training”

tech 12 | Is it Important to Obtain a Language Certification?

TECH!

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.**

Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

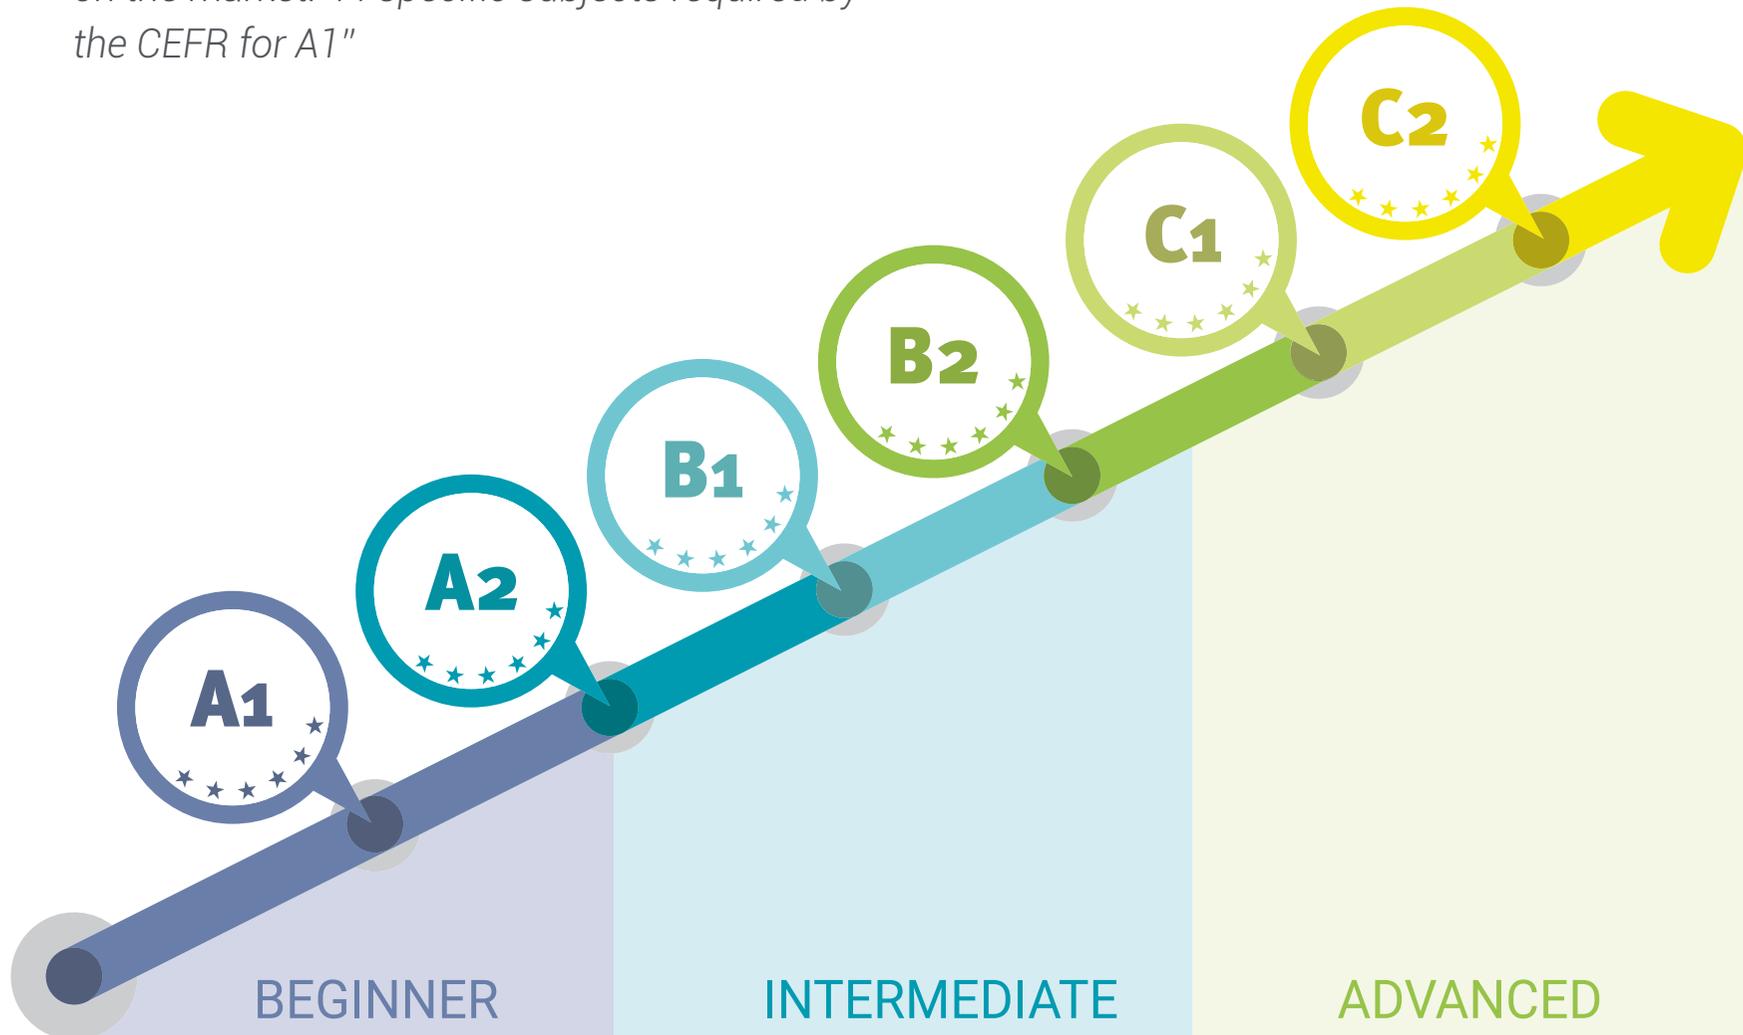

Learn to speak Spanish while obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

“

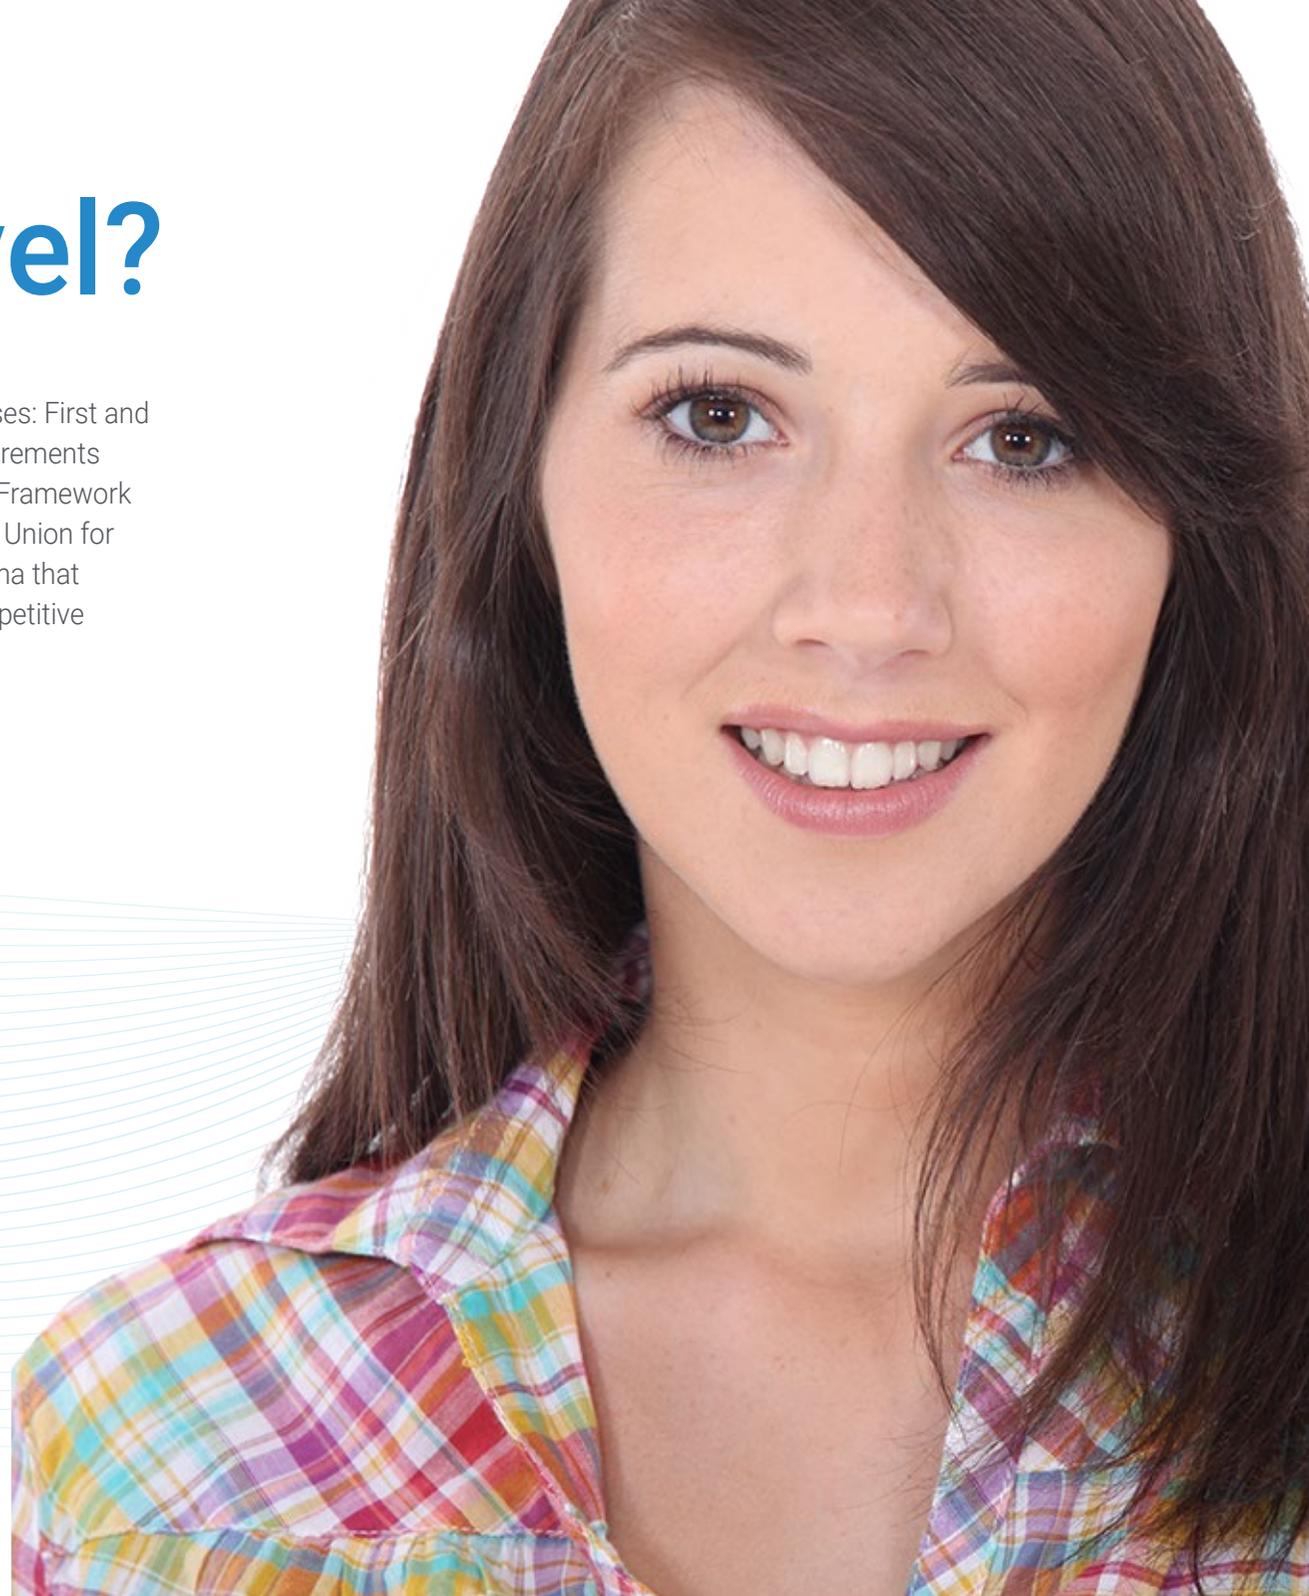

This preparation program is based on the most comprehensive and complete syllabus on the market: 44 specific subjects required by the CEFR for A1”

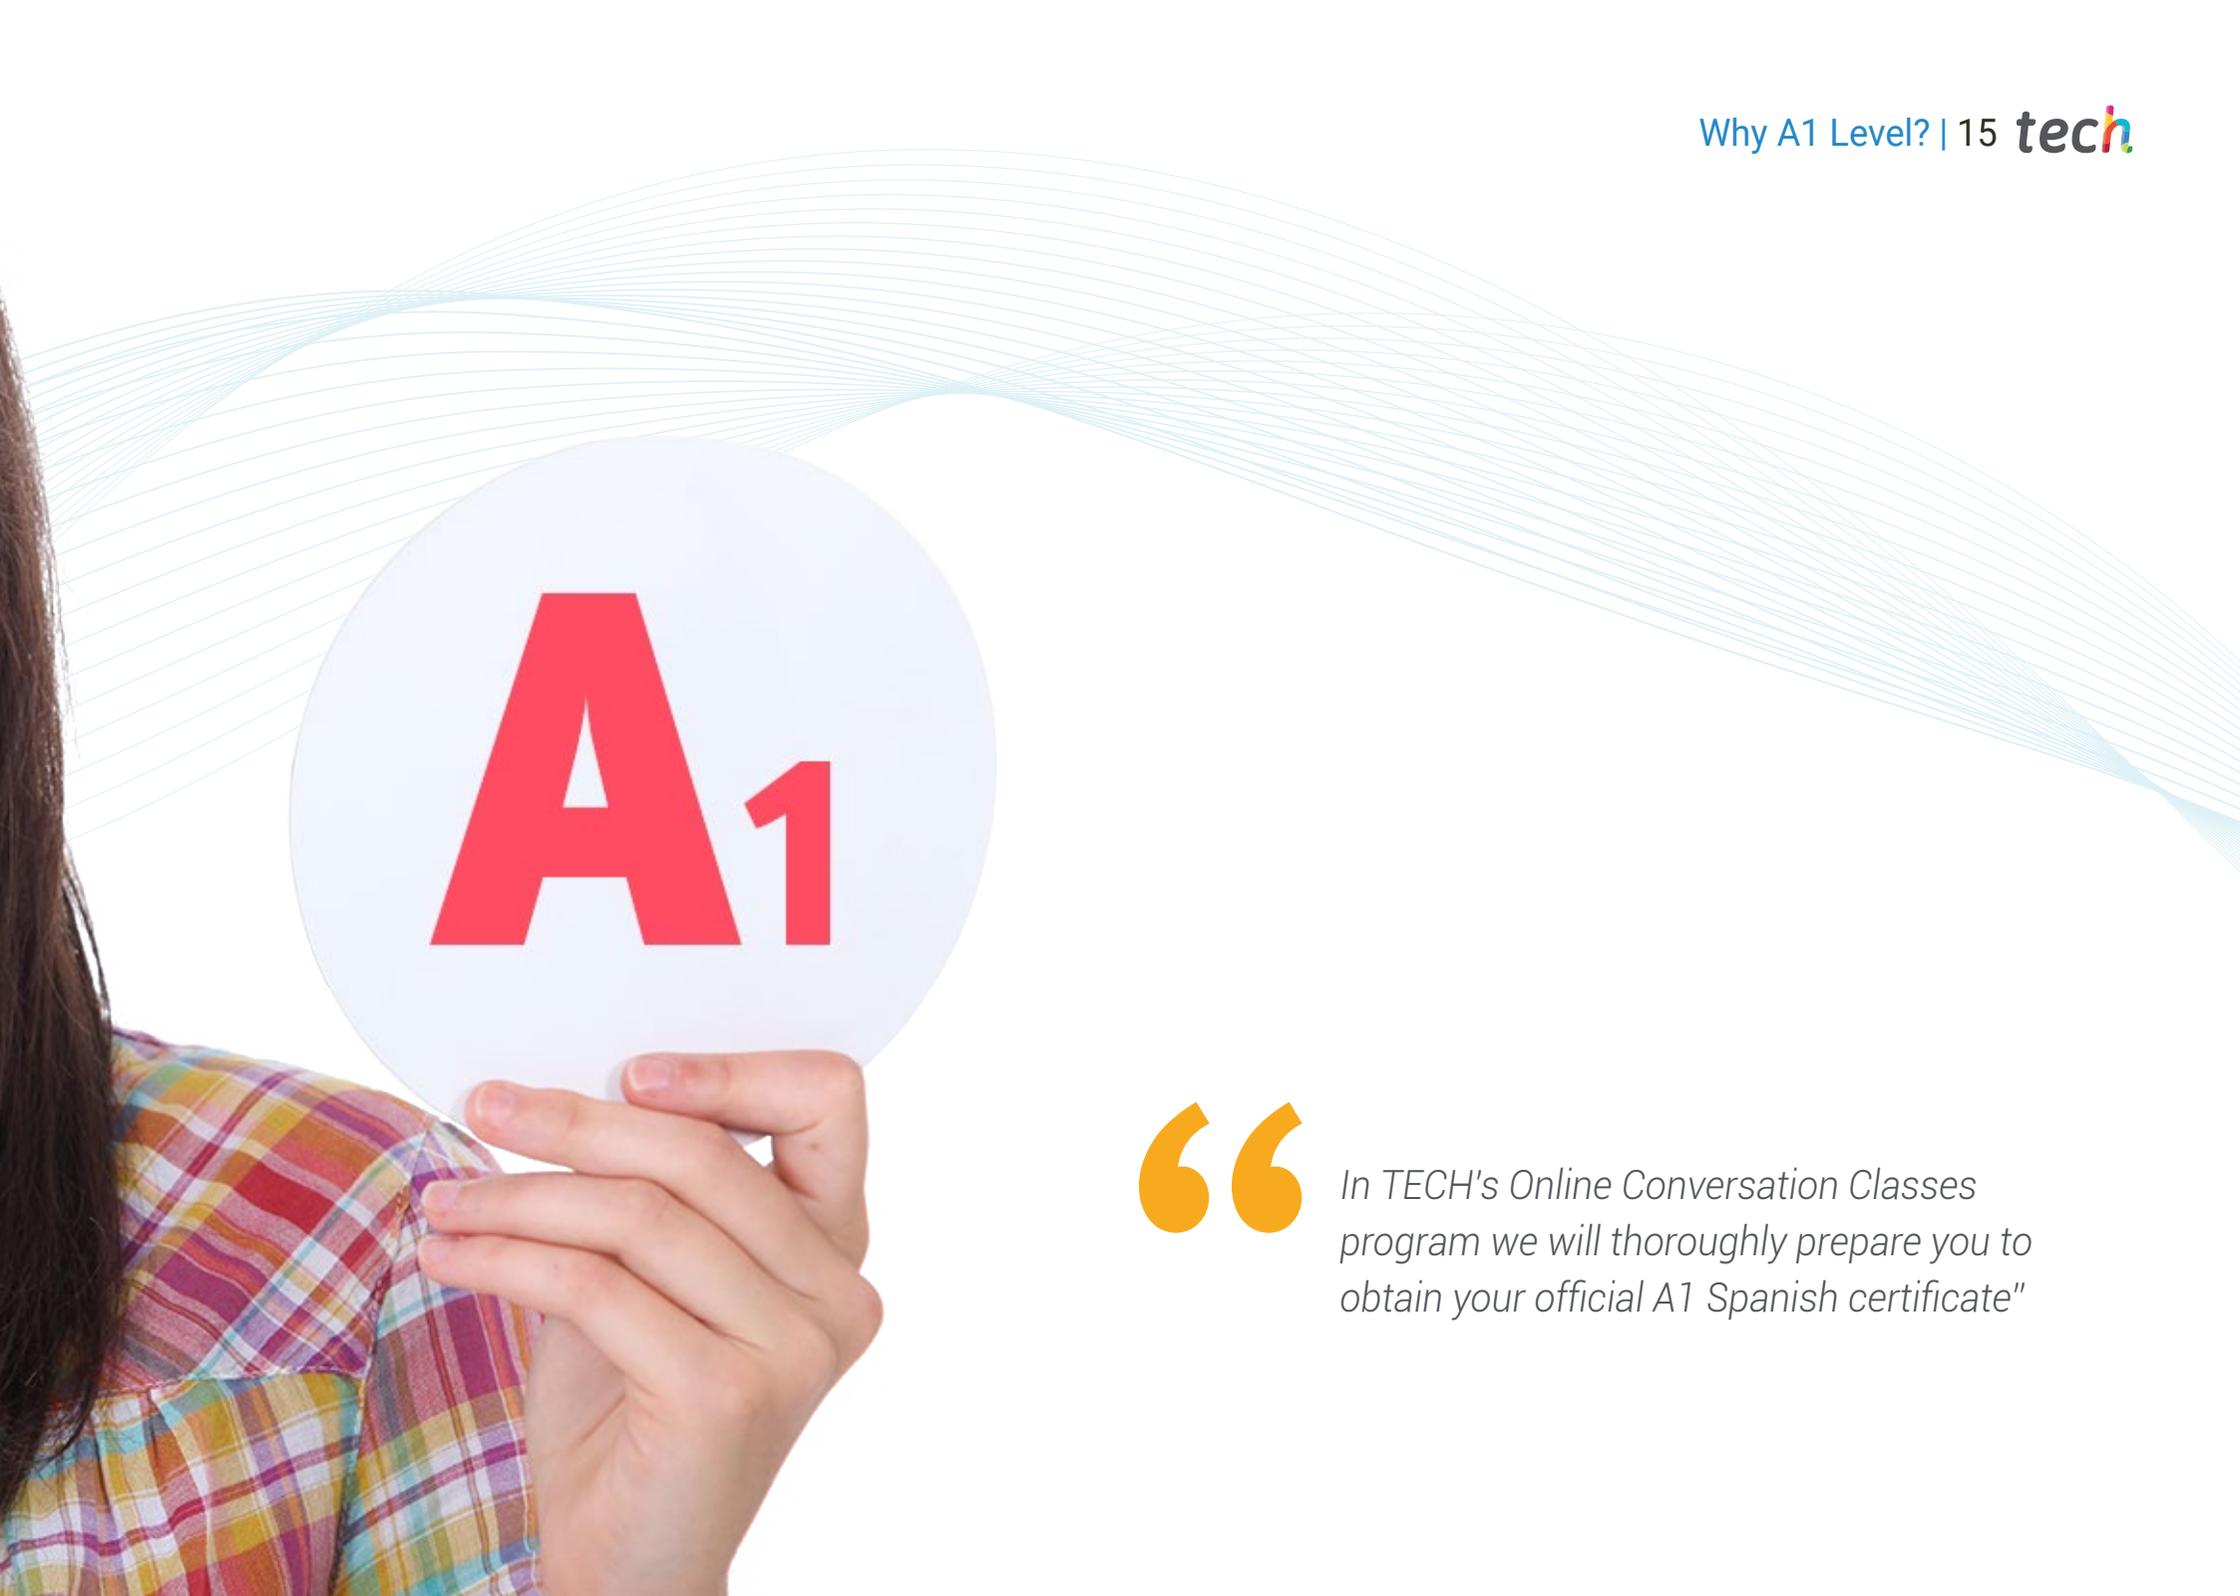

03

What Is A1 Level?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only diploma that has official validity and is requested by universities, companies, competitive examinations, etc.

A₁

“

In TECH's Online Conversation Classes program we will thoroughly prepare you to obtain your official A1 Spanish certificate"

What Is A1 Level?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“*Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH*”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs.

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate.

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

TECH helps you to get your official qualification with intensive 100% CEFR training"

A1 level self-assessment chart

What will I be able to do after completing the course?

Comprehension

Listening comprehension

I recognize very basic, commonly-used words and expressions relating to myself, my family and my immediate environment when spoken slowly and clearly.

Speaking

Oral interaction

I can participate in a simple conversation as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help me formulate what I am trying to say.

I ask and answer simple questions on topics of immediate need or very common issues.

Oral expression

I use simple expressions and phrases to describe the place where I live and the people I meet.

*Check your level.
Assess yourself.
More than 100
different activities
to improve your
fluency, expression,
comprehension and
pronunciation.*

Qualitative aspects of spoken language use for level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

Possess a basic repertoire of simple words and phrases related to personal information and specific situations.

Correction

Show limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire.

Fluency

Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication.

Interaction

Ask and answer questions related to personal data. Participate in a simple conversation, but communication is based entirely on repetition, rephrasing and correction of sentences.

Coherence

The ability to link words or groups of words with very basic and linear connectors.

Download and practice vocabulary: More than 50 pages of word cards and glossaries.

04

Why TECH?

At **TECH** we offer you the leading program for preparing oral communication skills based 100% on acquiring the skills established by the Council of Europe for the teaching of foreign languages. We work with the latest methodological approaches: the action-oriented approach and the skill-based approach in order to prepare you for the official level certification exams. For this purpose, we work with the best native teachers with whom you can interact from your Smartphone, tablet or computer and practice your oral skills.

We prepare you extensively to obtain your official A1 Spanish certificate.

“

Qualifications from language schools are only valid in the country where you obtain them. Not in Europe, nor in the rest of the world. For this you need a CEFR qualification with TECH: It's valid worldwide!"

What makes us unique

Mission

Our mission is to stimulate the professional and personal development of our students, promoting their skills and abilities so that they are able to adapt to a real and constructive multicultural environment.

Vision

TECH's vision is to be an innovative, academically thorough learning environment of international reference, capable of transmitting values that inspire the transformation of language learning to creative and socially responsible models.

- Innovation and creativity
- Excellence
- Spirit of self-improvement
- Social commitment
- Exclusivity and leadership
- Passion

We prepare you to pass the oral part of the A1 Spanish exam"

05

Features of the Online Conversation Classes for A1 Spanish

An intensive course

Online Conversation Classes in preparation for Level A1 in Spanish is an intensive program that prepares you to obtain the A1 level of Spanish of the Common European Framework of Reference for Languages. You will attend 40, 60-minute sessions to improve your oral proficiency and practice under the best guidance and supervision.

The most comprehensive syllabus

We work with the most comprehensive and complete syllabus with 44 units per level based 100% on the Common European Framework of Reference for Languages.

Accessible

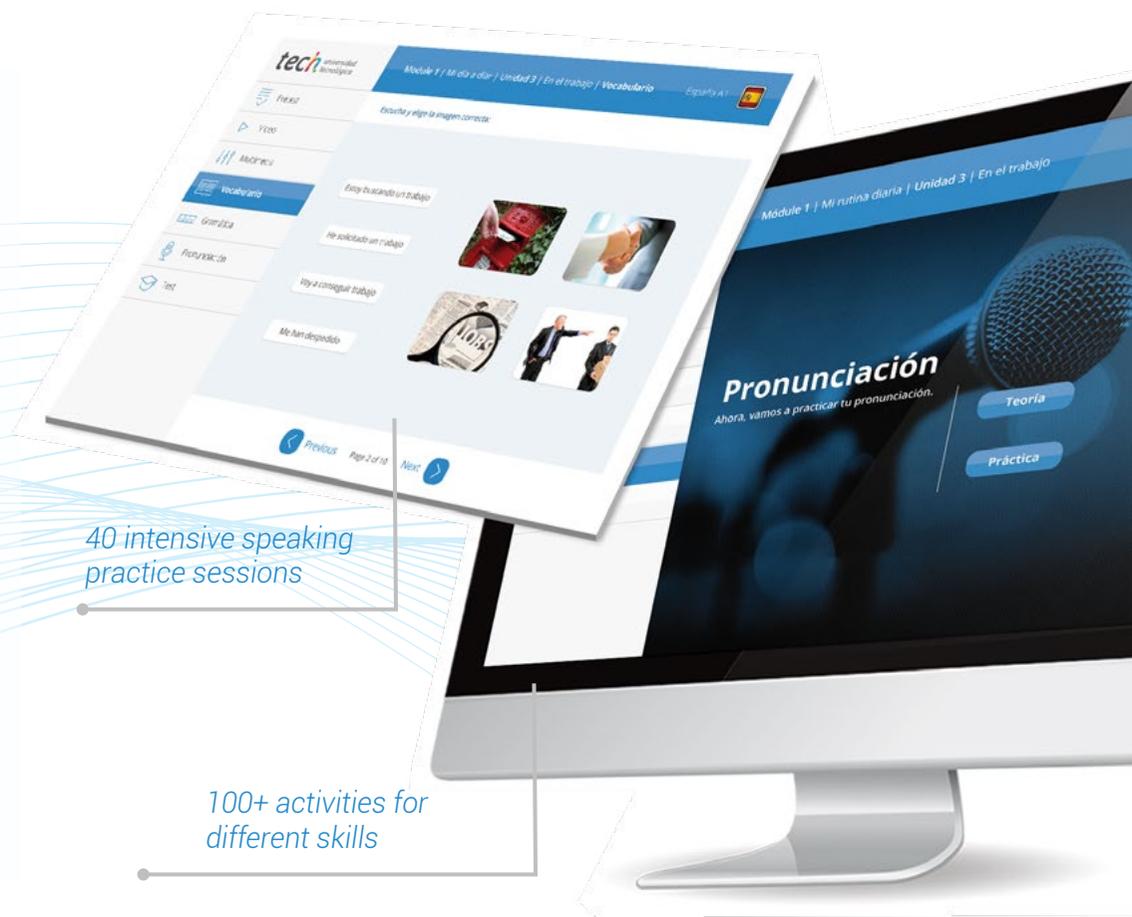

Our system allows you to study from your tablet, PC or Smartphone.

Accredited

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate

Dedicated

You will have a native teacher with expertise in teaching speaking skills to guide you in your learning process.

40 intensive speaking practice sessions

100+ activities for different skills

100+ native teachers

Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training on the market that includes the complete course content in downloadable format:

- Grammar PDFs: You will have access to more than 100 downloadable and printable grammar worksheets to study wherever and however you want.
- Lexical cards and glossaries: You will find 50 pages of lexical cards and glossaries to download and practice your vocabulary.

Quick and intuitive platform

Forget about troublesome registrations and problems connecting or following the class. One device and an internet connection is enough. Connect with a single click and work whenever and wherever you want.

Cancellation Policy

In order to cancel a previously scheduled or agreed upon class, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

Testing & Re-Testing

We periodically evaluate and re-evaluate your knowledge throughout the entire A1 Spanish course..

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-based practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official A1 Spanish certificate.

Simulated learning scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor self-identification and first-person learning. Therefore, we present you with real and everyday situations with people like you, who face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific virtual classes A1 CEFR

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, in writing.etc.

In addition:

- The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:
- Internal messaging tools between teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve doubts or technical questions or incidents.
- Contact e-mail for technical services

06

Our Methodology

This online conversation class is an intensive and personalized course that prepares you to obtain the Level A1 certificate in Spanish based 100% on the Common European Framework of Reference for Languages (CEFR). Therefore, TECH uses a method of oral proficiency practice in which students work intensively and repeatedly on all the content required by the Framework, preparing them thoroughly and individually to pass the test based on the parameters of quality and rigor that define TECH, the largest digital university in the world.

“

At your own pace, online, with native teachers and personalized sessions. Don't hesitate, with TECH you will acquire the MCERL competences you need to defend yourself in Spanish”.

The TECH Method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 Spanish level oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to provide you with comprehensive preparation for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to intensively prepare for the certification level test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements representing an evolution in simple study and performance of exercises.

Our A1 CEFR oral communication skills preparation program is the only one on the market licensed to use the Relearning methodology, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called Re-learning. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Relearning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, e-mail contact with the technical secretary and chat).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *“Neurocognitive context-dependent learning”*, the different elements of our intensive A1 Spanish course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-based practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and phonetic practice

At TECH we focus our method on repetition as the best way to consolidate your learning.

Imagen

Audio

Vocabulary and socioculture practice

At TECH we offer you different ways to consolidate your vocabulary through practice and conversation, and by consulting downloadable worksheets.

Grammar and spelling practice

You will work on grammar without even realizing it, from a practical point of view through activities with native teachers.

Interactive chat

During the sessions you can practice your written skills by interacting in the chat.

Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

At TECH you will find expert teaching staff equipped to prepare you with a high-quality syllabus based 100% on acquiring the oral skills required by the CEFR..

TECH is the only institution with a commitment to answer your questions in less than 24 hours.

Texto

07

Course Objectives

The intensive program of Conversation Class in Spanish A1 Level Preparation Language is designed to provide you with the necessary oral skills to face the exam that accredits your level, which you will successfully pass thanks to these fully personalized classes. Through practice, training, repetition, follow-up with a university professor and your own effort, you will achieve the excellence you seek. Thus, after the program you will be able to certify your A1 level, so that you will be able to successfully continue studying the language progressively advancing to the next levels and taking a step further in your language skills with TECH.

“

More than 100 different practice exercises guarantee you the oral skills required by the CEFR A1.

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations.

02

Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language.

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships.

04

Use the linguistic resources necessary to get by in basic communication situations.

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language.

Specific Objectives

Oral Comprehension

Identify the communicative intent, grasp the overall meaning and main points of short oral messages on curriculum topics, delivered in direct communication situations, very slowly, with pauses, clearly and with possible repetitions or clarifications.

From conversations and/or directed activities, grasp the overall meaning or confirm predictable details in short, simple messages, delivered in good acoustic conditions, very slowly, clearly, with pauses and possible repetitions.

You will be able to deliver short, understandable, appropriate and coherent interventions in a short time and in an efficient manner.

Oral expression

- Make brief, understandable, appropriate and coherent statements related to the most immediate communication needs included in the syllabus.
- Use an elementary linguistic repertoire, with still very limited control, with the need for pauses, reformulations, gestures and graphic support.
- Participate, react and cooperate in a simple but appropriate way in conversations related to the most common communication situations included in the syllabus, as long as the interlocutor cooperates, speaks slowly and clearly and clarifications can be requested.

Specific Objectives

Sociocultural and sociolinguistic competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents.
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer.
- Understand the behaviors and values that are different from one's own, and that reside in the most common and evident socio-cultural aspects.

Linguistic competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum.
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level.

“

In only 40 sessions designed and delivered by native university professors, you will successfully delve into the language of Cervantes”.

08

Course Structure and Content

The content of this program has been elaborated by experts in language teaching, native university professors who have designed an intensive and personalized study program with quality sessions in order to prepare you to pass the oral test for the A1 level Spanish certificate. The course has been prepared to develop over 40 sessions, over four months, and is distributed in blocks to facilitate the process of learning another language, so that you will be able to solve the situations that arise in an effective way. All in all, TECH has devised these personalized classes designed exclusively for you, understanding your needs and valuing your time, so it establishes a 100% online learning through innovative content based on the latest trends and supported by the best educational methodology.

Where, When and How it is Taught

This course takes place over 4 months and consists of 40, 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ♦ Practice of oral interaction skills.
- ♦ Practice of oral expression skills.
- ♦ Simulation of real situations.
- ♦ Tips and tricks to prepare for the test.
- ♦ Summary and closing.
- ♦ Download printable sheets.

“*The only 100% personalized intensive program to obtain the CEFR Spanish Level A1 is provided by TECH”.*

BLOCK 1. ¡Hola! This is Me!

- Session 1. Personal Introduction and Numbers 0-25
- Session 2. Colors and the Alphabet

- Session 33. Quantifiers

Objectives

- Articulate simple and brief oral expressions in a sufficiently intelligible manner
- Interact appropriately, using some common and basic expressions that follow the rules of politeness.
- Use a series of connectors and other common and basic cohesive elements that allow them to establish coherent relationships between words and/or small groups of words

BLOCK 12. Nature and Technology

- Session 36. Animals and Modal Verbs
- Session 37. New Technologies

Objectives

- Articulate simple and brief oral expressions in a sufficiently intelligible manner
- Show some control over the most common and recurrent vocabulary, making use of simple and isolated phrases related to everyday and basic topics..
- Show some control over the most basic and common grammatical structures

In my last year of university I was offered a research exchange with a Spanish university and, even though I didn't know any Spanish, I didn't think twice about it. That is why I decided to take these conversation classes to prepare me in a short period of time to obtain the A1 level of the CEFR.

Catalina de Sousa

A Portuguese student.

They say that Italian and Spanish are similar... Well, thank goodness! The basis is quite different and thanks to these TECH classes I have been able to check it personally. I decided to take this course because I needed to learn in a short time to certify myself to communicate well with a client in Madrid and the best thing is, it has encouraged me to continue learning.

Marcelo Corelli

An Italian student.

Our Students' Profiles

Learning a language is not an easy task, we are aware of that. Many of us have been trying, unsuccessfully, for years to consolidate our knowledge and acquire the necessary skills to certify what we have been learning. The placement tests are complex tests that must be prepared thoroughly and with good expert guidance.

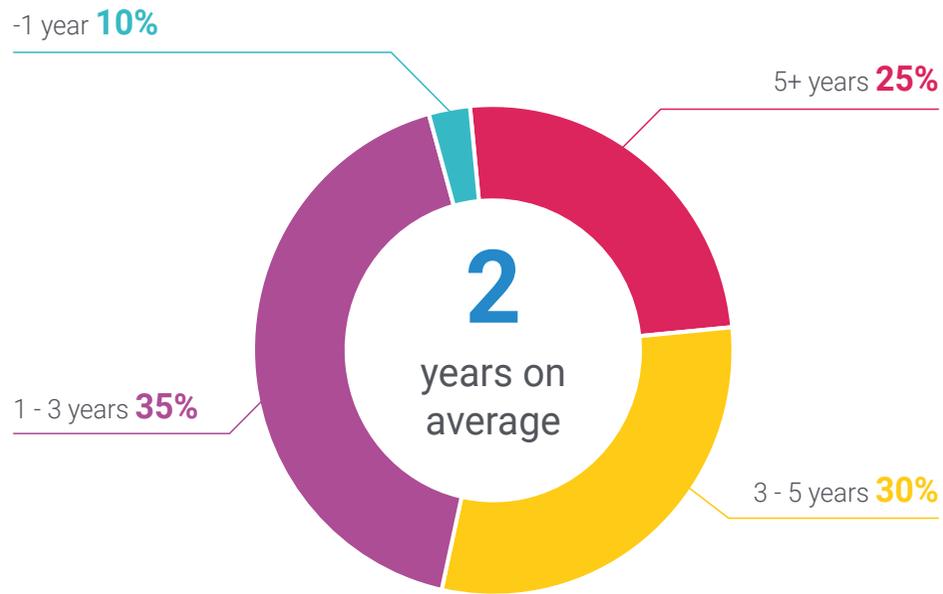

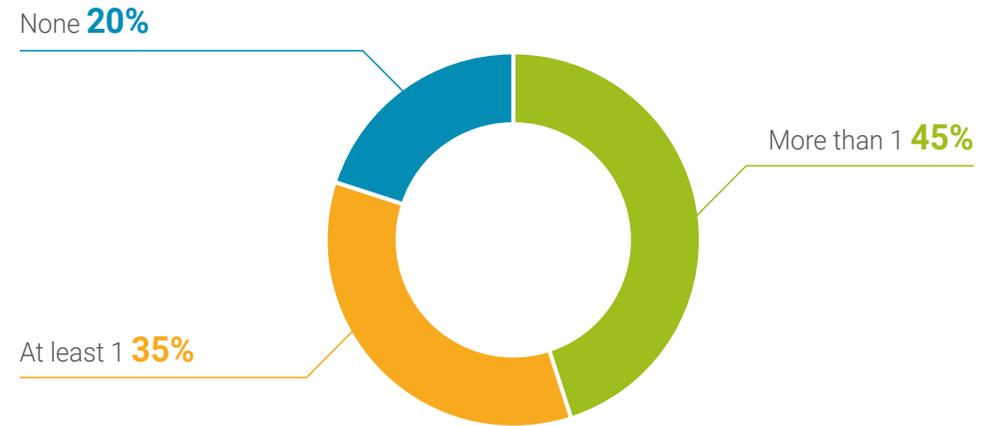

“

Many of our students have come from other preparation methods that have led to loss of motivation. At TECH 9 out of 10 students recommend us”

Years of unsuccessful attempts to learn the language

Courses taken before enrolling with ours

Don't lose motivation! TECH includes a personalized monitoring and tutoring service.

Interest in learning the language

Personal **42%**

58% Professional

IT skills

Advanced **10 %**

Intermediate **30 %**

Basic **60 %**

80% of our students pass the official A1 level exam.

“

Thanks to our performance measurement tool you will be able to track your progress at all times”

The Professional Benefits of English

Spanish is the second most spoken language in the world, after Mandarin Chinese and ahead of English and Hindi/Urdu. Recent forecasts show that English, Spanish and Chinese will inevitably become the three languages of international communication for the 21st century.

It is spoken in Spain, the Caribbean Islands (Cuba and Puerto Rico), the Dominican Republic, North America (Mexico), Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing segments in the world, especially in the United States. The Spanish-speaking segment constitutes a huge community that shares products, services and culture, and offers businesses and institutions a truly unique growth opportunity.

In addition, studying Spanish will open many doors for you professionally. Many countries have Spanish as an official language, so there are many jobs in which this can be a fundamental factor.

“

The Spanish powerhouse is in its infancy so we will have to see what happens in the future. Spanish will make Simón Bolívar's impossible dream of uniting all of America a reality”.

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level oral communication skills preparation program is the only one that also awards you with a university certificate"

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.

This document hereby certifies that
Mr./Ms. _____

has successfully passed and accredited the following course in preparation for

A1 SPANISH

acquiring the linguistic and communicative skills and competences outlined in the CEFR.

This is an accredited degree awarded by this University and is equivalent to 2 ECTS and 50 hours, with a start date of ___/___/___ and an end date of ___/___/___.
