01 Welcome

The one-to-one conversation classes at TECH will boost student mastery of the French language, opening the doors to communication in a language spoken in several countries around the world on many continents. Thanks to the program being designed for rapid progress, developed by native university professors who are experts in teaching French, students will learn every aspect of language use: Grammar, vocabulary, formal and colloquial expressions, and writing and reading at an essential level of comprehension. This allows the student to pass the Common European Framework of Reference for Languages (CEFR) Level A2 French oral test.

A solid foundation is essential to master a new language, and TECH offers quality classes adapted to student personal circumstances, as they are carried out remotely, in line with the current global and digitalized world. The main objective of this training is, therefore, to help students acquire the skills they need to successfully express themselves in French, through a certification that they will achieve thanks to this intensive program.

Presentation video

“

Surpass your limits! Get a positive change at a professional and personal level by certifying your A2 level of spoken French with TECH”

Introduction

TECH offers an achievable challenge, using the best methodology: personalized French classes. Most academies and schools that teach languages such as French, offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills. However, both teachers and psychologists believe that the best way to stimulate language learning is by encouraging the imagination and learning through sensory exploration in order to be able to understand and interpret what is around us, not by subjecting the learner to formalized, linear learning, such as learning by rote.

In this way, the brain works on and learns a second language in the most natural way possible, in the same way that we learned our mother tongue. Thus, TECH offers you this A2 French Individual Online Conversation Classes with university professors and native speakers who will provide you with common and specific communicative situations, 100% online and in a totally personalized way. In this way you will better understand the structure of the French language and be able to hold conversations at a more advanced basic level, knowing that you have the quality guarantee of a prestigious university.

Acquire the communicative skills you need to quickly and efficiently obtain the CEFR A2 Level in French thanks to the TECH method.

With TECH, you will have no trouble making progress in your mastery of French. Our personalized intensive classes will thoroughly prepare you so that you will see results in a short period of time.

It is time for you to master your French. Do it with quality assurance, do it with TECH's native teachers"

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language and accredit it with an official CEFR qualification is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level** of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, **the only official system recognized and accepted throughout Europe**.

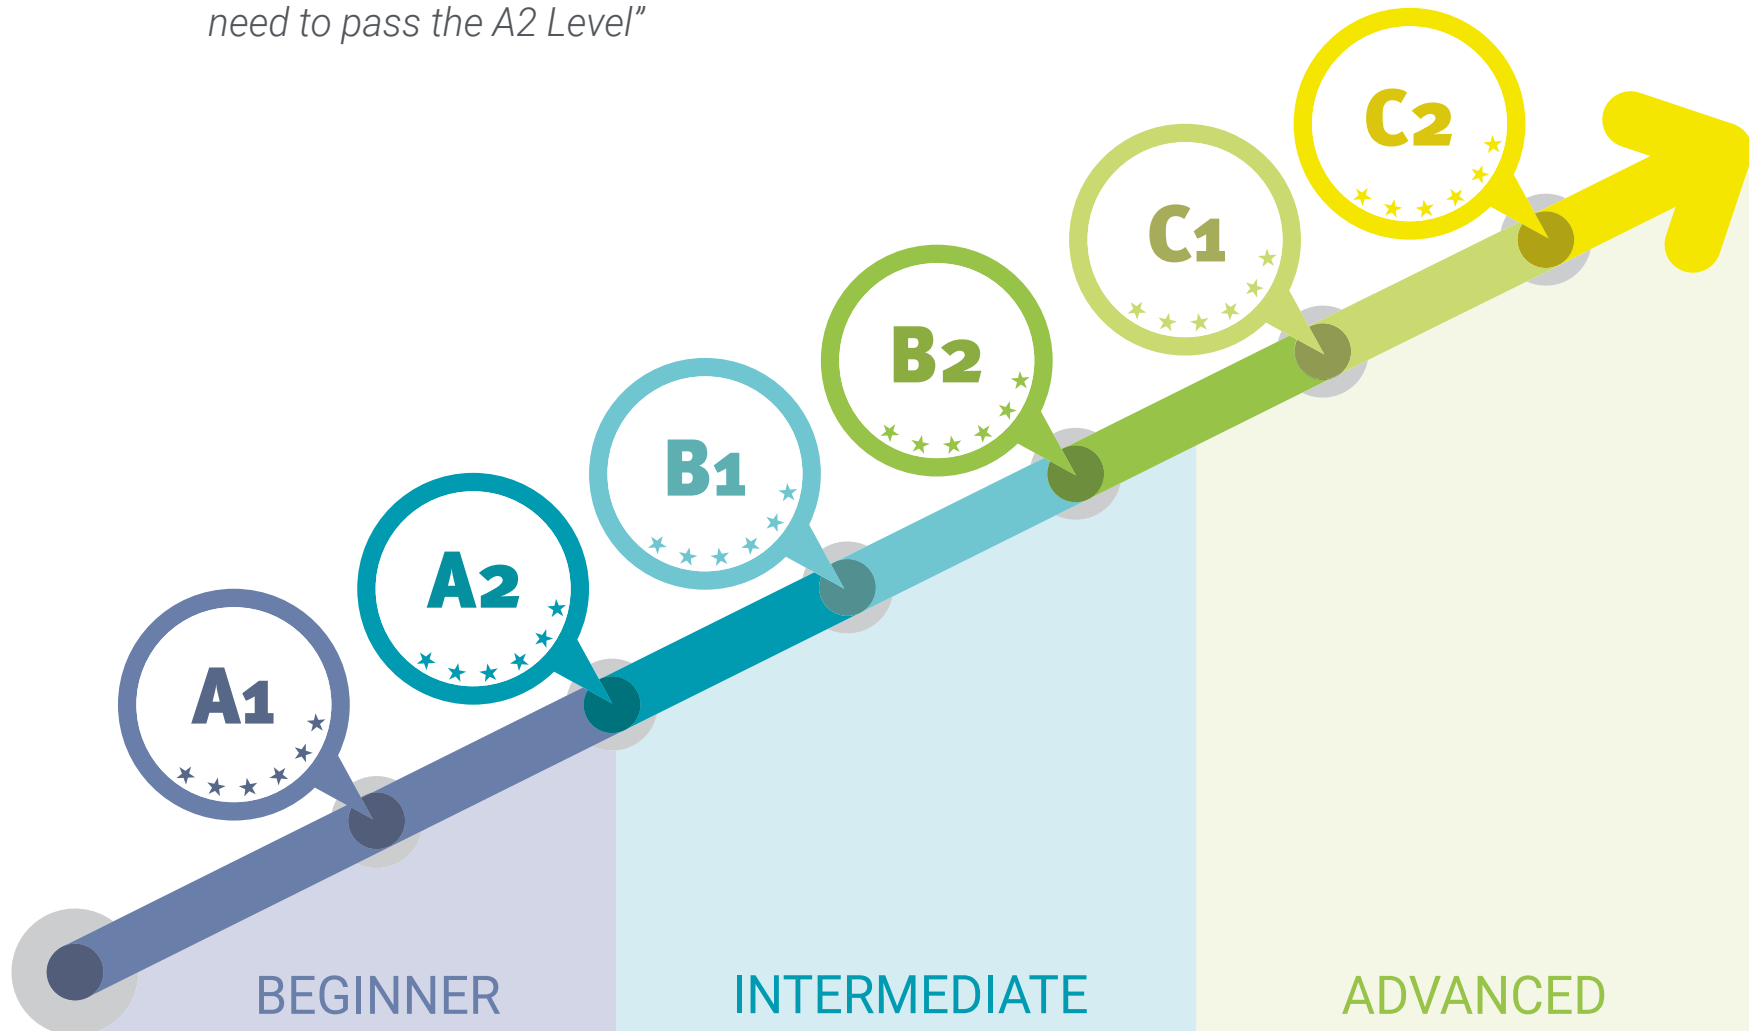

Finally learn to speak fluent French and make the most of it by accrediting it with an qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the A2 Level"

03

What Is Level A2?

Level A2 forms part of the basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2).

This level includes most of the descriptors used in social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; getting along well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buys tickets; ordering and providing everyday goods and services.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A2' in large red letters. The sign is positioned in the lower-left quadrant of the page. In the background, there are several thin, light blue wavy lines that sweep across the top and right side of the image.

A2

“

In TECH's A2 French Individual Online Conversation Classes program, we will thoroughly prepare you to obtain your official A2 French certificate”

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

01

Can understand sentences and frequently used expressions related to areas of experience that are particularly relevant to him/her (basic information about him/herself and his/her family, shopping, places of interest, occupations, etc.)

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

02

Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03

Knows how to describe their immediate past and future in simple terms

Skills-based Practice

If the Common Framework European of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official French A2 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterward and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

Our Methodology

These A2 French Individual Online Conversation Classes is an intensive and personalized course that enables students to obtain the A2 Level certificate in French, based 100% on the Common European Framework of Reference for Languages (CEFR). To do this, TECH uses a method of practice of oral proficiency in which the student studies intensively and repeatedly all the content required by the Framework, applied by excellent university professors and oriented to him or her individually, preparing them thoroughly to pass the test according to the parameters of quality and rigor that define TECH, the largest digital university in the world.

“

Certify your CEFR A2 level and advance to the next with these individualized TECH classes”

The TECH Technological University Method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH is A2 French Online Conversation Classes program offers you a method based on interaction and synchronous and direct communication between teacher and student comprehensive the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

... All of this is enhanced with the best 100% online teaching methodology: Relearning....

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first in the world licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectify, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

Relearning Methodology

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

... and all this with teachers at the forefront of technology and education...

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "Neurocognitive context-dependent learning", the different elements of our French A2 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

Study wherever and however you want: Connect through your mobile device and learn with the best native teachers.

“

By taking these French conversation classes you will reach, the A2 level you need in just 40 sessions"

General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02

Orally understand, interact and express oneself in a simple but appropriate and effective way in these situations

03

Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04

Use the linguistic resources necessary to get by in these situations

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06

Acquire tools that enable the student to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identify the topic being discussed, provided it is conducted slowly and clearly
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation
- Understand and extract essential information from short, recorded passages dealing with everyday, predictable matters and spoken slowly and clearly

You will expand your vocabulary and make yourself understood by using the right words in a simple but effective way.

Oral Expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences
- Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of their environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences
- Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons. Explain what they like and dislike about something
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment
- Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life
- Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned
- In language construction, achieving limited control, with the possible systematic errors of the level
- Pronounce clearly and understandably even if the foreign accent is evident
- Write with correct spelling the common language worked on

“

You will see how your pronunciation improves in a clear and understandable way thanks to the support of our native teachers”

08

Course Structure and Content

Thanks to TECH's advanced pedagogical methodology, this individual language program will represent an important advance in student oral skills. The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

11

Assessment and Certification

The main evaluation objective in TECH's that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
