Welcome

The C1 English Individual Online Conversation Classes are at the fifth out of six levels as established by the Common European Framework of Reference for Languages (CEFR). This language program will lead students to achieve the necessary skills to work and study in English anywhere in the world. Through the best online resources and the support of native professors, students will achieve their objectives in a simple and efficient way. Thus, they will be able to understand complex texts and technical conversations both in writing and orally, with an effective and innovative learning system and experts in online teaching. Students will also have the option of passing the CEFR oral test, since this program prepares them to pass this important certification.

You will have more than 500 different and entirely personalized activities that will thoroughly prepare you to obtain your C1 English certificate"

Introduction

Teachers and psychologists, experts in teaching languages, believe that the best way to stimulate of learning English is not to subject the student to formalized and linear learning -for example, with rote learning- but to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what surrounds us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level program you will learn to communicate in a solvent and comfortable way in complex situations. You will have a personalized learning program with native teachers who are experts in online teaching.

You will improve your communicative competence quickly and efficiently with native teachers with years of university teaching experience.

You will be able to understand complex texts on different subjects, and talk about them fluently.

It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks"

02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. **Nowadays, students must have an official qualification** that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR).**

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.** Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.
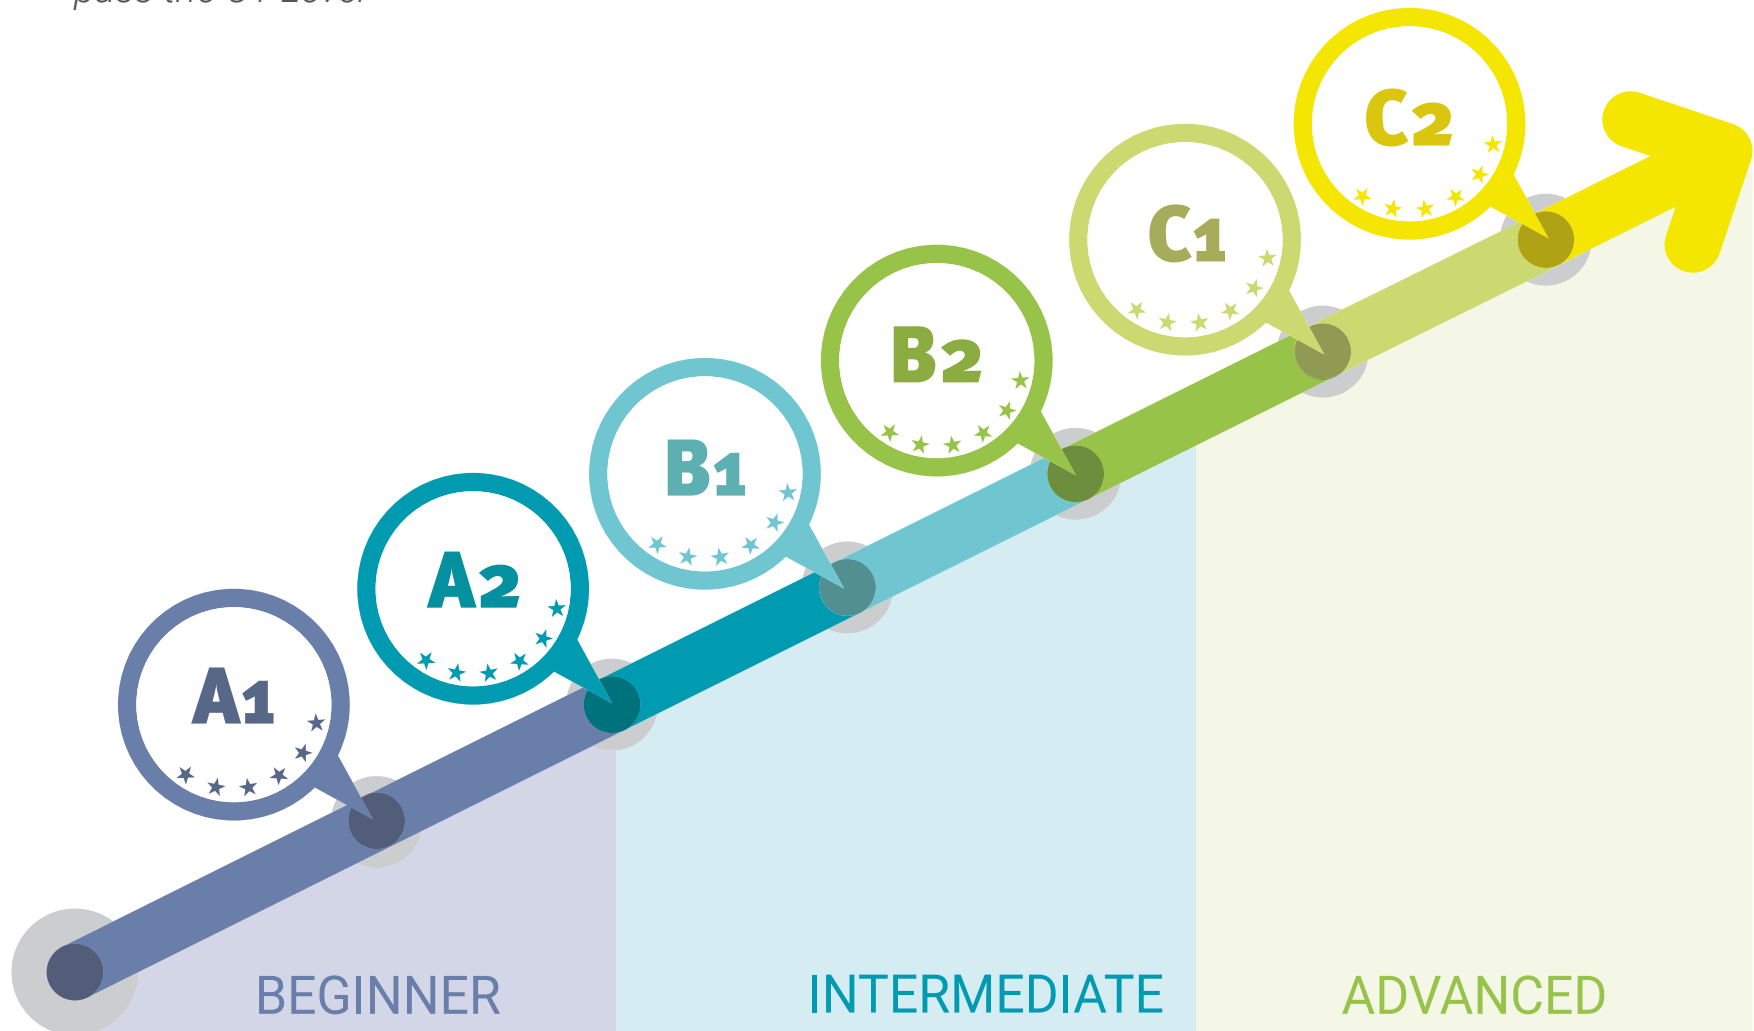

Finally learn to speak fluent English and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the C1 Level"

03
What Is Level C1?

The C1 Level is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

The C1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them provided the speech is clearly articulated at a standard language level; the can offer and ask for personal opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; they are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although pauses for some grammatical and lexical planning and mistake-correcting is evident, especially in long periods language flow.

In TECH's Individual Online Conversation Classes program, we thoroughly prepare you to obtain your official C1 English certificate"

What are the C1 Level Skills?

01 Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02 Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

" *Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"*

03 Is able to produce simple and coherent texts on topics that they are familiar with or in which they have a personal interest

04 Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official English C1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the English C1 preparation course.
- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Our Methodology

This intensive course of online conversation classes for the preparation of the English C1 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation with the help of university teachers to pass the test.

" *Through the online classes, native teachers will quickly and efficiently provide students with the necessary skills to achieve a C1 Level in English"*

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 English Individual Online Conversation Classes program offers you a method based on interaction and synchronous and direct communication between teacher and student comprehensive preparation for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context, and to guarantee your success in passing the test. To this end, we emulate the official exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C1 CEFR oral communication skills preparation program is the only one on the market licensed to use the Relearning methodology, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called Re-learning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, etc.) of students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

"

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)"

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *"Neurocognitive context-dependent learning"*, the different elements of our intensive C1 English Individual Online Conversation Classes are connected to the context in which the participant will take his or her official certification exam in order to guarantee success on the day of the test.

> *Native teachers will prepare you with different activities of expression and interaction to pass the oral part of the English C1 certificate"*

General Objectives

01 Carry out transactions of all kinds, even if they are delicate and complex

02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to

03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

Specific Objectives

* Understand enough to follow a long speech on abstract and complex topics beyond their expertise, although they may have to confirm some details, especially if they are not accustomed to the accent

* Recognize a wide range of idiomatic and colloquial expressions, and notice changes in register

* Follow an extended speech even when it is not clearly structured, and when links are only assumed and not explicitly pointed out

* Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics

* Understand with relative ease most lectures, discussions and debates

* Extract specific information from public statements that have poor quality and distorted sound, e.g., at a station, in a stadium, etc

* Understand complex technical information, such as operating instructions, product specifications, and everyday services

* Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers

* Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion

* Perform clear and detailed descriptions of complex topics

* Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning

* Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort

To consolidate all these skills, you will have access to more than 500 lexical, vocabulary and sociocultural activities"

Course Structure and Content

To reach Level C1 in a language, it is no longer enough to express oneself correctly, but one must acquire advanced fluency. The fastest and most effective way to achieve this is to practice it, the more times the better, so this university program has been built under that pretext. Students will have a personalized teaching team at their disposal, who will attend to their particular needs and help them reach the level of fluency required for the C1 level.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

You will focus on the specific areas where you want, and need, to improve, adequately preparing you for the C1 exam"
C1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching

- Access to a high level of oral comprehension and expression
- Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers
- Argue and counter-argue in different situations, focusing on the keys to speak fluently in public
- Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era

You will reach a higher level of fluency, with a team of native teachers who will give you the keys to proper pronunciation and correction required to pass Level C1"

"With this training I've managed to improve my English level considerably, and in a very short time. Now I can communicate with native speakers without a problem, and understand almost everything they say. The teachers are excellent, they resolve all your doubts, and their teaching method is innovative and effective. Now that I have my C1 Level in English accredited, I plan to continue advancing with TECH"

María López

A student from Spain

"For work I had to move to another country where English was the native tongue. Although I already had a good command of the language, there were many situations I didn't know how to get by in, so I urgently needed to improve. Thanks to this training I was able to reach a C1 Level in English, and I managed to get promoted in the company. Now I can easily communicate with my co-workers, as well as with other people on a personal level"

The Professional Benefits of English

Today, English is the universal language, it is almost mandatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life: It is the language used in the economic field, international trade, tourism, certificatecy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world in which we live, it is the tool that enables communication with people from all countries.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large part of job offers, scholarships, university careers, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a better education, without limiting ourselves to universities or training centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances, and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

Today, English is the universal language. It is almost obligatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life"

11
Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate"

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
