01 Welcome

The C1 Level in French is one of the highest levels established by the Common European Framework of Reference for Languages (CEFR), the most important language recognition system in the world. This program prepares students to face the CEFR oral test, and it does so through individual conversation classes. The classes are led by native teachers who not only command the language to perfection, but are guided by TECH's teaching method, which makes learning very effective and easy for students. Through this program, students will deepen in the oral uses of the different aspects of French, such as grammar, colloquial and formal registers and an understanding of the language at a very high level.

Presentation video

“

Move up to expert level! Certify your C1 Level in French with TECH's popular conversation classes"

Introduction

Teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example: rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret the world around us. Most academies and schools that teach languages such as French, offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills.

Therefore, it is essential to allow the brain to work and learn a second language as naturally as possible, just as we learned our mother tongue. TECH offers you French C1 Level Conversation Classes with university professors and native speakers who will provide you with common and specific complex communicative situations, fully online and in a completely personalized way. In this way you will thoroughly understand the structure of the French language and be able to hold conversations at an expert level, knowing that you have the quality guarantee of a prestigious university.

TECH makes it easy for you: acquire the communication skills you need to obtain the CEFR C1 Level in French quickly and 100% online.

You are one step away from mastering French like a native speaker. Get certified with these TECH conversation classes and boost your language skills.

If you need to prepare for the C1 French exam in a short amount of time, but with guaranteed success, this language program is for you”

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH - Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

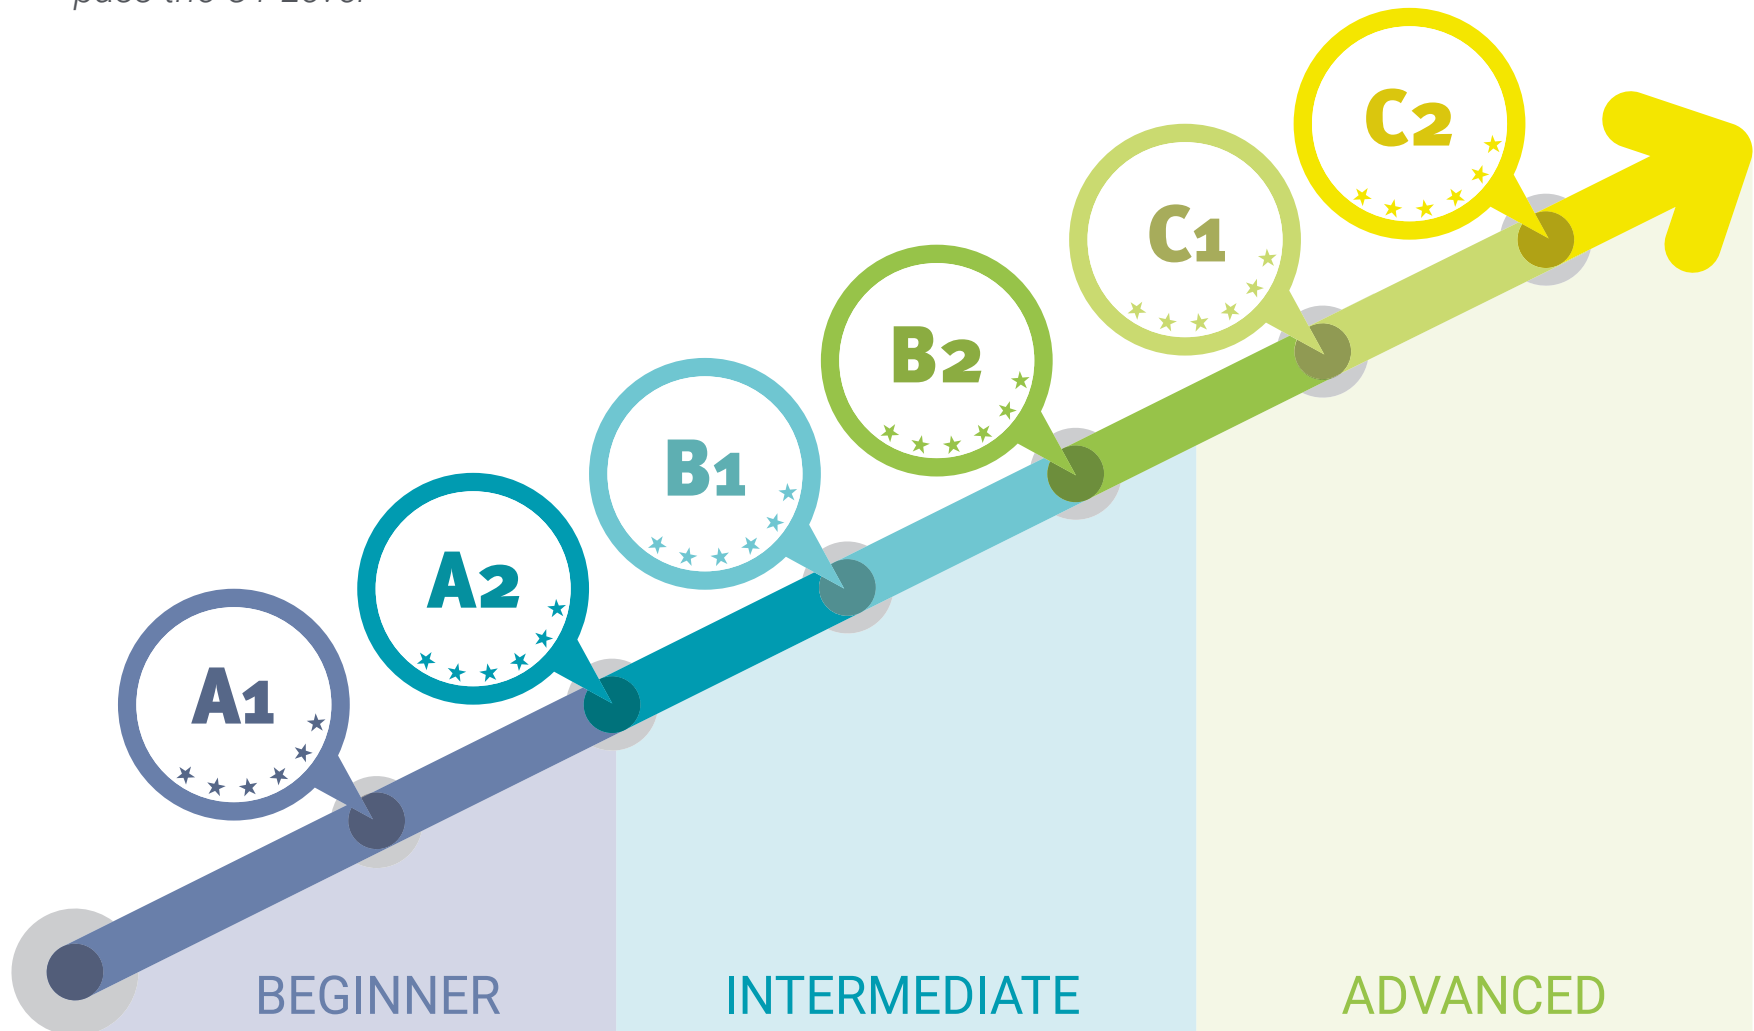

Finally learn to speak fluent French and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the C1 Level”

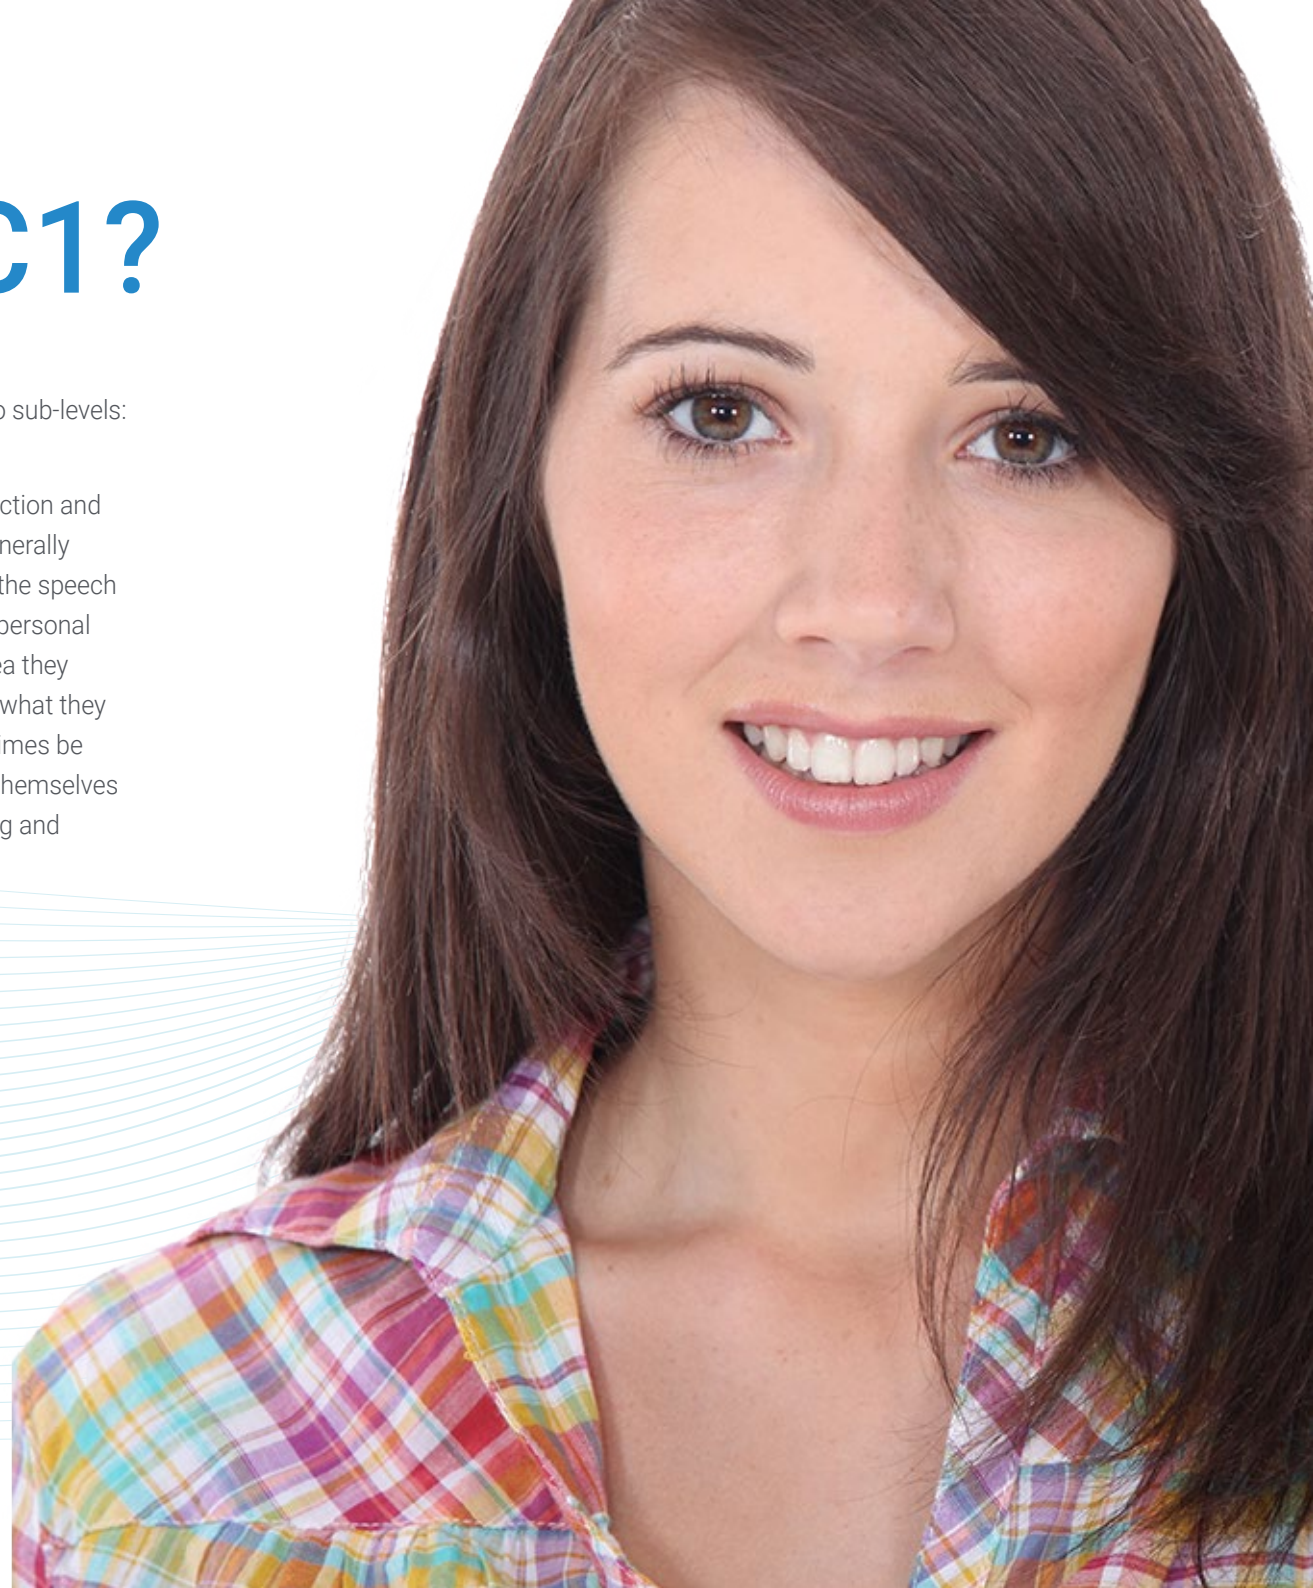

03

What Is Level C1?

The C1 Level is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

The C1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them provided the speech is clearly articulated at a standard language level; they can offer and ask for personal opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; they are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although pauses for some grammatical and lexical planning and mistake-correcting is evident, especially in long periods language flow.

C₁

“

In TECH's C1 French Online Conversation Classes program we will thoroughly prepare you to obtain your official C1 French certificate”

What Is Level C1?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Is able to produce simple and coherent texts on topics that they are familiar with or in which they have a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly
- ♦ Understand TV shows and movies without much effort

Speaking

Oral Interaction

- ♦ Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- ♦ Use language flexibly and effectively for social and professional purposes
- ♦ Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

Oral Expression

- ♦ Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ♦ Consistently maintain a high degree of grammatical correction
- ♦ Errors are scarce, difficult to locate and in general are corrected whenever they occur

Fluency

- ♦ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of your expression

Interaction

- ♦ Choose appropriate phrases from an available range of discourse functions to introduce comments to start or continue speech
- ♦ Skilfully connect your own interventions to those of the other speakers

Coherence

- ♦ Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official French C1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language, as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Carry the sessions on your phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

Our Methodology

The C1 French Individual Online Conversation Classes is an intensive and personalized course that enables students to obtain the C1 Level certificate in French based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH employs a method of oral proficiency practice in which students work intensively and repeatedly on all content required by the Framework, providing them with preparation to pass the test according to the standards of quality and rigor that define TECH, the largest online university in the world.

“

This language program offers you different hundreds of learning activities, so you can perfect your French in a practical and stimulating way”

The TECH Technological University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 French Individual Online Conversation Classes program offers you a method based on interaction and synchronous and direct communication between teacher and student comprehensive preparation for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context, and to guarantee your success in passing the test. To this end, we emulate the official exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's C1 French Individual Online Conversation Classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Krasinski, 2008).

*...with a personalized and expert-led
training itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "*Neurocognitive context-dependent learning*", the different elements of our French C1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

...and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.

Course Objectives

The intensive C1 French Individual Online Conversation Classes program is entirely designed for you to progress at your own pace, so that you acquire the necessary oral skills to face the exam that certifies your level, which you will successfully pass thanks to these personalized classes offered by TECH. Through practice, training, repetition, professor follow-up and student effort, you will reach the next level. Thus, after the 40 sessions you will be able to successfully certify your C1 level, taking a step further in your language skills with TECH.

“

By taking these French Individual Online Conversation Classes, in just four months you will comfortably and successfully reach the level you need to be certified according to the CEFR"

General Objectives

- 01 Carry out transactions of all kinds, even if they are delicate and complex
- 02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to
- 03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

“

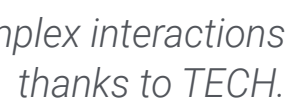

In TECH's CEFR C1 Language Course you will find pronunciation and phonetics activities”

Specific Objectives

- ♦ Understand enough to follow a long speech on abstract and complex topics beyond their expertise, although they may have to confirm some details, especially if they are not accustomed to the accent
 - ♦ Recognize a wide range of idiomatic and colloquial expressions, and notice changes in register
 - ♦ Follow an extended speech even when it is not clearly structured when links are only assumed and not explicitly pointed out
 - ♦ Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics
 - ♦ Understand with relative ease most lectures, discussions and debates
 - ♦ Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.
 - ♦ Understand complex technical information, such operating instructions, product specifications, and everyday services
- ♦ Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers
 - ♦ Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion
 - ♦ Perform clear and detailed descriptions of complex topics
 - ♦ Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning
 - ♦ Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort

Advance your French language skills to another level: be fluent in delicate and complex interactions thanks to TECH.

08

Course Structure and Content

To reach Level C1 in a language, it is no longer enough to express oneself correctly, but one must acquire advanced fluency. The fastest and most effective way to achieve this is to practice it, the more times the better, so this university program has been built under that pretext. Students will have a personalized teaching team at their disposal, who will attend to their particular needs and help them reach the level of fluency required for C1.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

You will focus on the specific areas where you want, and need, to improve, adequately preparing you for the C1 exam"

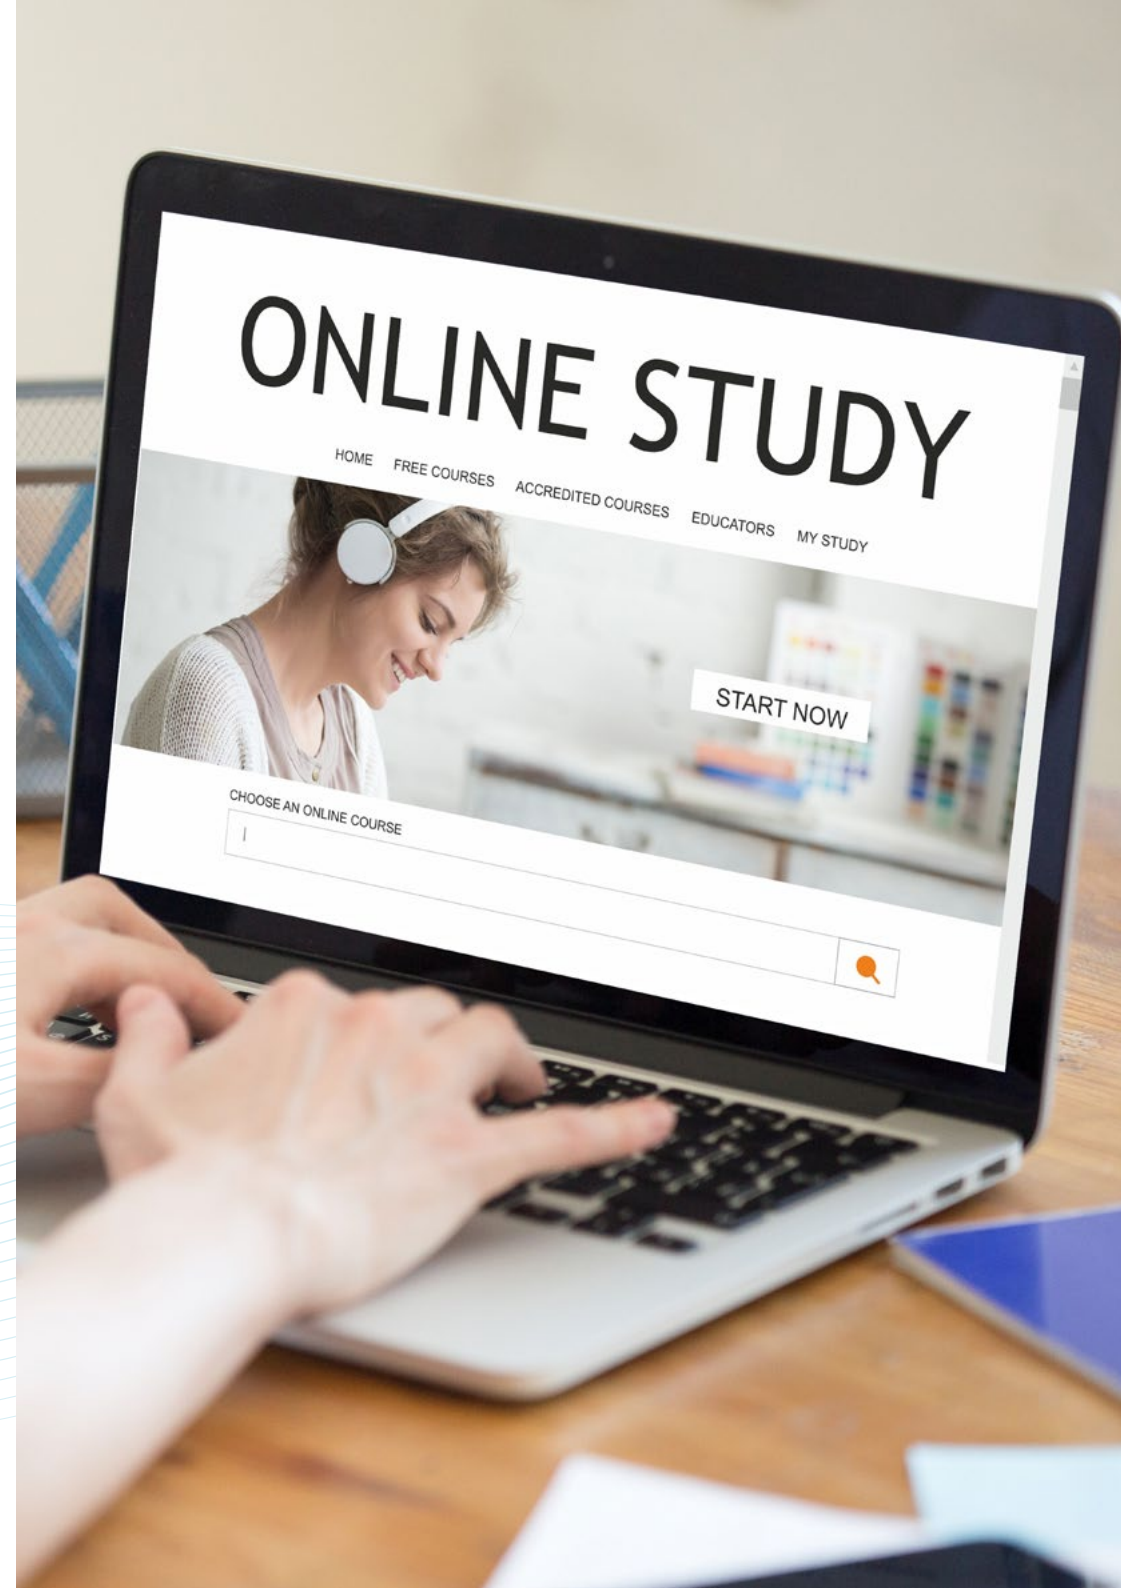

C1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Access to a high level of comprehension and oral expression
- Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers
- Argue and counter-argue in different situations, focusing on the keys to speak fluently in public
- Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era

“

You will reach a higher level of fluency, with a team of native teachers who will give you the keys to proper pronunciation and correction required to pass Level C1”

"With this training I have been able to prepare myself for the C1 Level in French in a very short amount of time, something I needed for a job offer I was interested in in Canada. The sessions are very well planned and, for me, the best thing is to have native teachers who give you the keys to their language. I totally recommend them".

Federica González

A student from Argentina

"Thanks to TECH's preparation, I achieved the CEFR C1 Level in French and was able to start my own project with some partners on the French Riviera. These classes were a great success! I learned and quickly well, and I achieved what I was looking for, to certify my level".

Samuel Cortés

A student from Mexico

The Professional Benefits of French

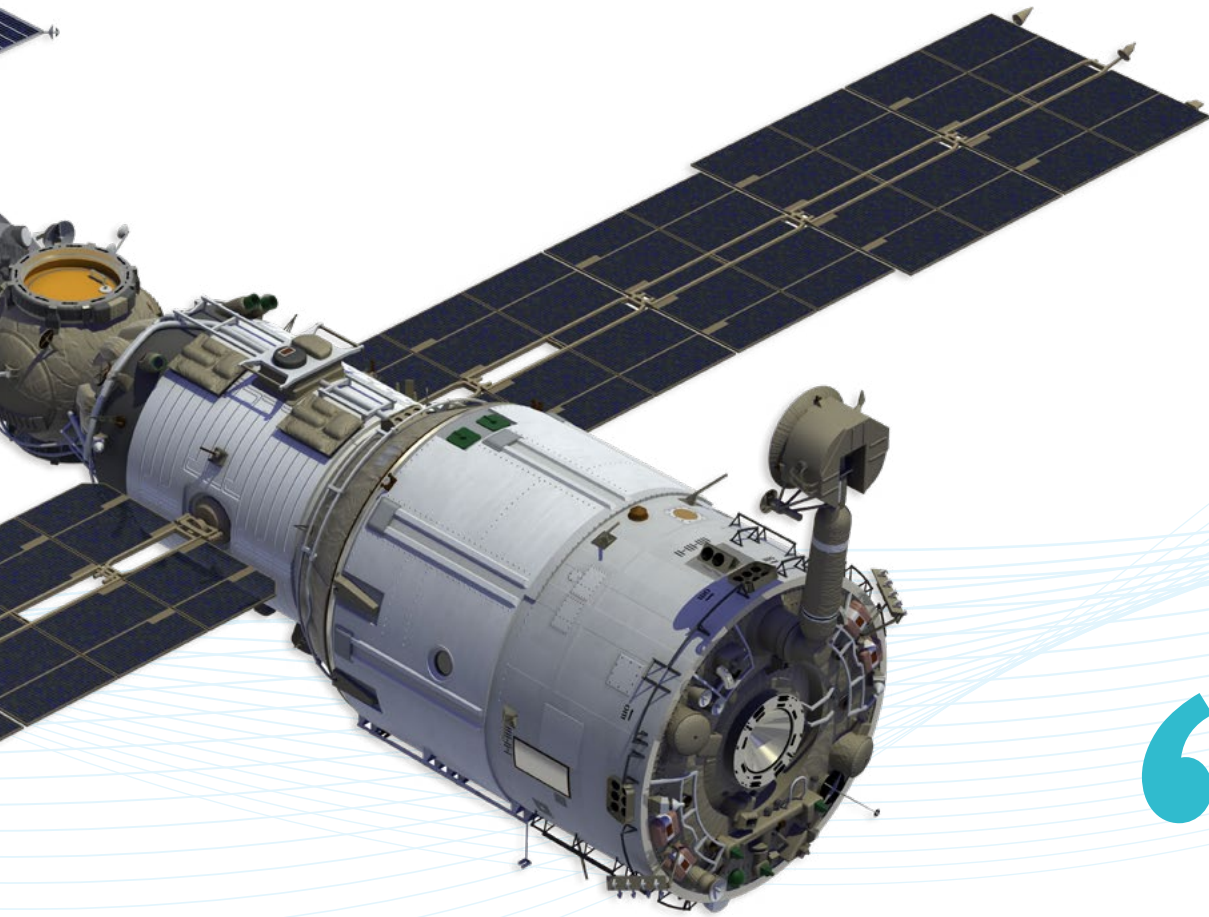

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

11

Assessment and Certification

The main evaluation objective at TECH is for students to consolidate what they have learned and to be aware of their progress. For this reason, after completing each block, students are shown a report of their results, which visually indicates the skills that they should strengthen.

“

TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
