01 Welcome

This program of individual conversation classes is the best way to improve oral expression and comprehension in the complex but exciting Russian language.

Thus, converting the student's knowledge of Russian into oral skills is the goal of our individual conversation classes with university professors.

This intensive program offers you the opportunity to converse with native teachers in fun and didactic oral learning dynamics. Through an effective system of learning and with teachers who are experts in online teaching.

Presentation video

“

You will practice more than 100 different oral expression and interaction activities with native teachers that will prepare you to pass the oral part of the Russian C1 Certificate"

Introduction

Teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning, learning by rote, for example, but by encouraging the imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level program you will learn Russian from native teachers who have extensive teaching experience in prestigious universities. A unique opportunity to improve your speaking skills and pass the C1 Russian oral test.

You will acquire the ability to express yourself fluently and spontaneously without obvious signs of effort.

This is the most comprehensive preparation program for developing communication skills in order to pass the CEFR C1 test”

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer, and teacher.

A unique and stimulating experience

Flexible and Tailored

Take the best Russian conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have a certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

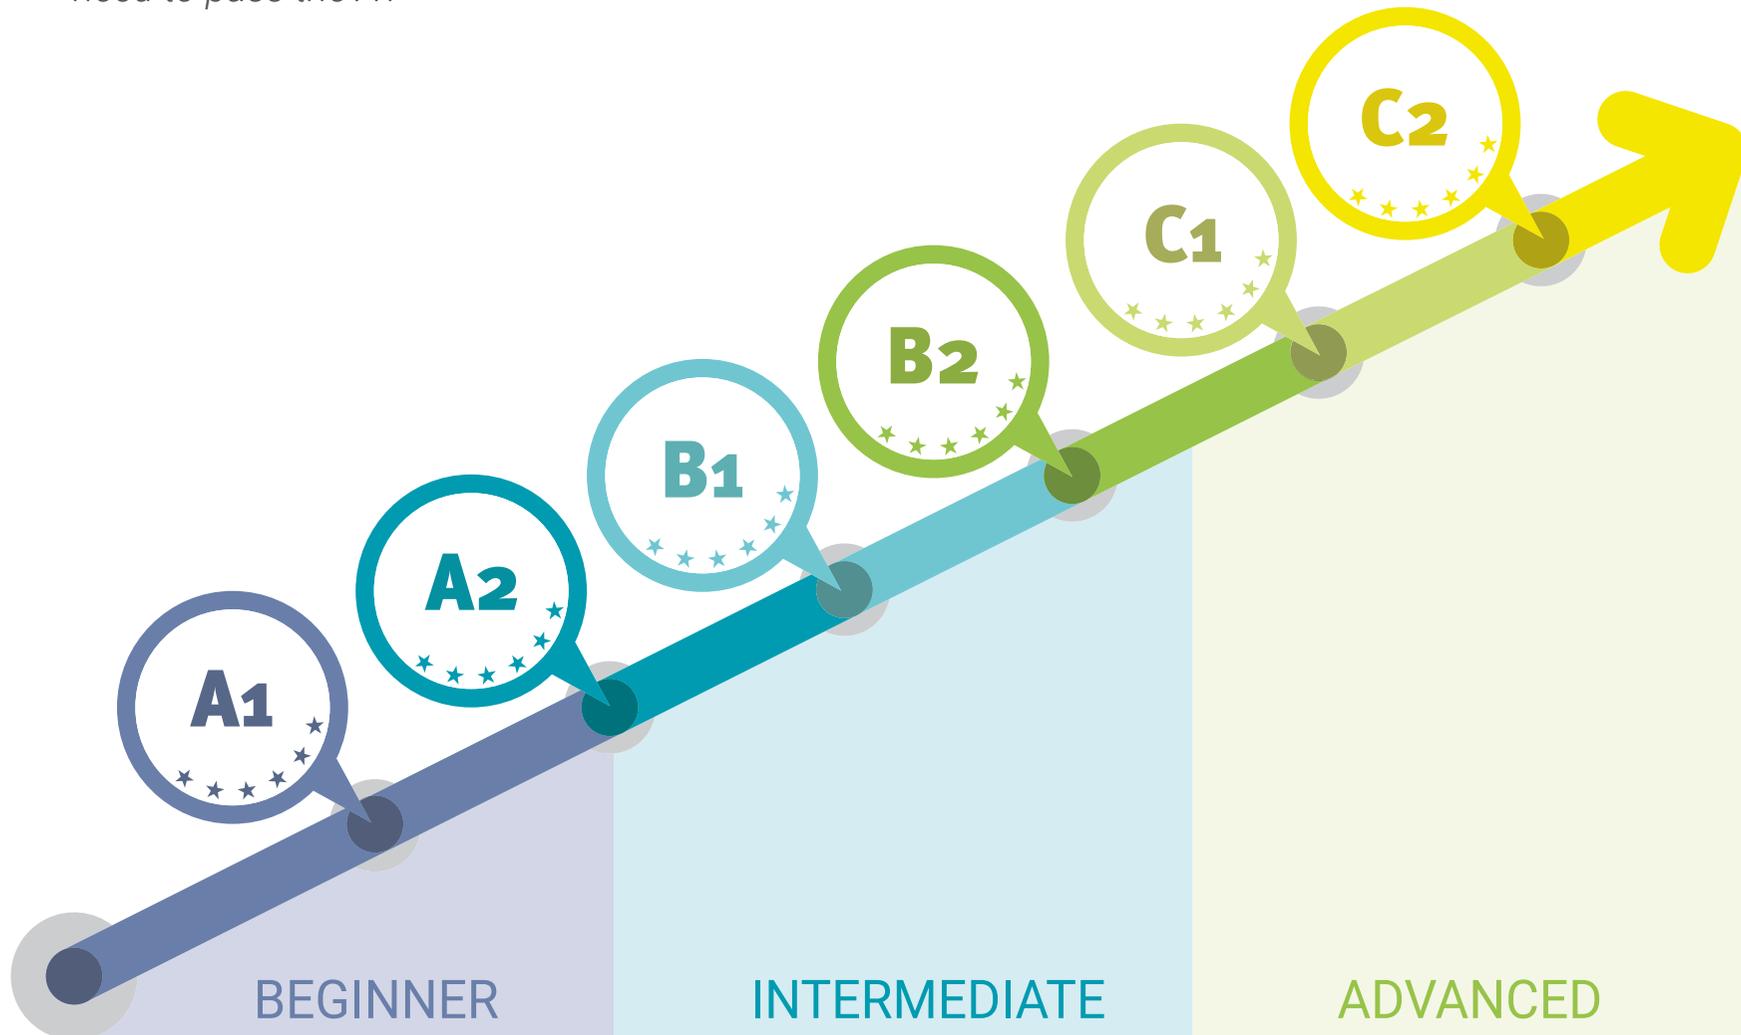

Learn to speak Russian and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the A1”

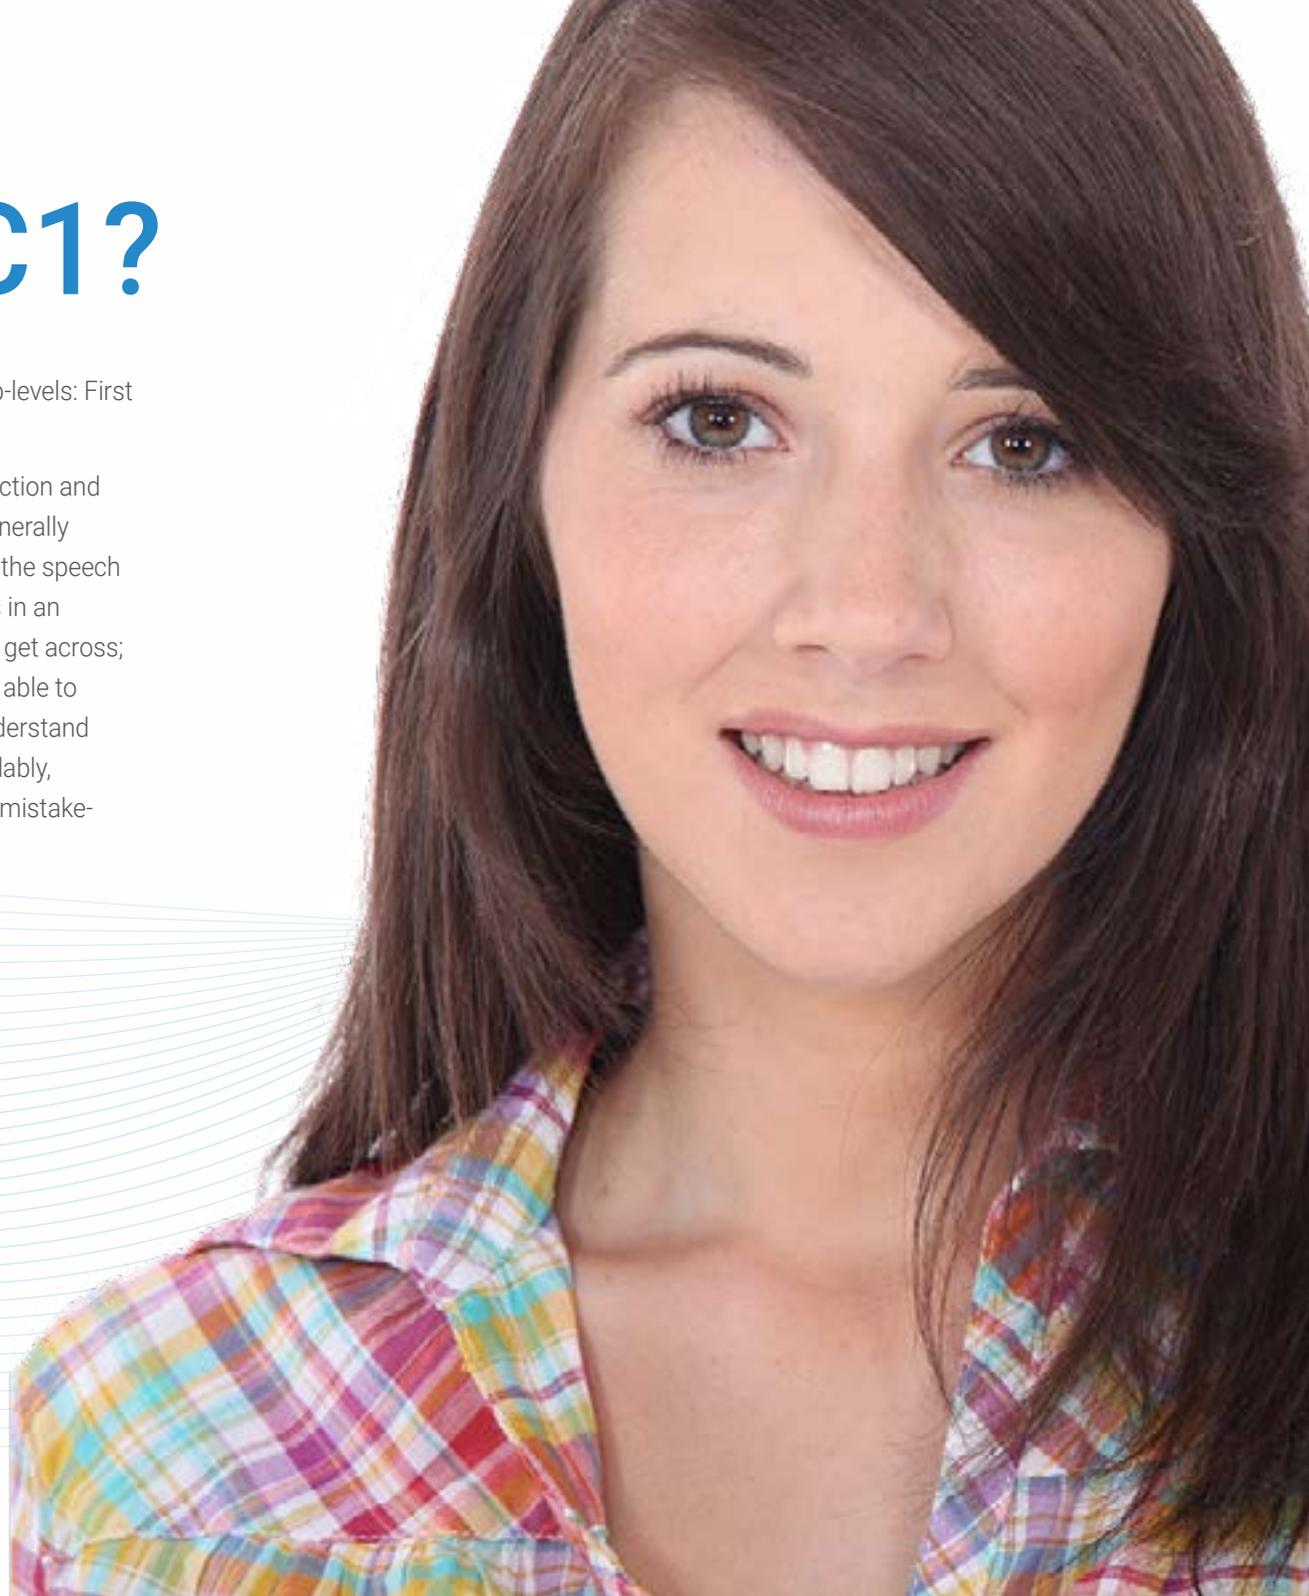

03

What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

The C1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them, provided the speech is clearly articulated at a standard language level; offer and ask for opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although they pause for some grammatical and lexical planning, and some mistake-correcting is evident, especially in long periods language flow.

“

In TECH's C1 Russian Individual Online Conversation Classes Program, we prepare you thoroughly to obtain your official C1 Russian certificate"

What are the C1 Level Skills?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated
- Understand TV shows and movies without much effort

Speaking

Oral Interaction

- Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- Use language flexibly and effectively for social and professional purposes
- Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

Oral Expression

- Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ♦ Consistently maintain a high degree of grammatical correction
- ♦ Errors are scarce, difficult to locate and in general are corrected whenever they occur

Fluency

- ♦ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of your expression

Interaction

- ♦ Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- ♦ Skilfully connect your own interventions to those of the other speakers

Coherence

- ♦ Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

04 Why TECH?

- We will work on mock exams so that you are 100% prepared

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Russian C1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This intensive course of online conversation classes for the preparation of the Russian C1 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

You will work at your own pace, with native teachers, basing your studies on specific practice of the CEFR competencies"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

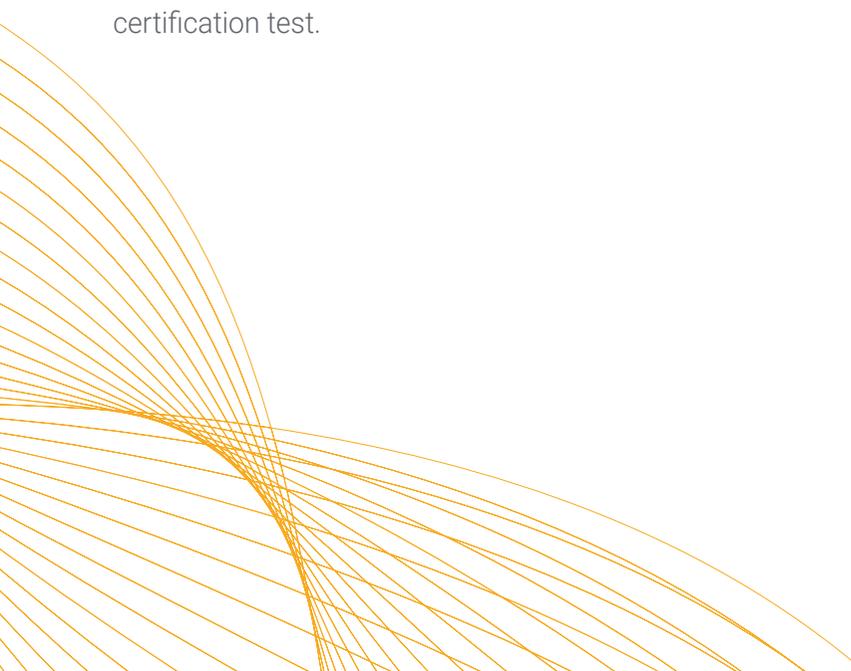

TECH's C1 Russian Oral Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare you to comprehensively prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Krasinski, 2008).

...with a personalized and expert-led training itinerary..

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *“Neurocognitive - context dependent learning*, the different elements of our intensive Russian C1 level preparation course are connected to the context in which the participant will take the official certification exam in order to guarantee success on the day of the test.

...and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-Based Practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and Phonetics Practice

Course Structure and Content

To reach Level C1 in a language, it is no longer enough to express oneself correctly, but one must acquire advanced fluency. The fastest and most effective way to achieve this is to practice it, the more times the better, so this university program has been built under that pretext. Students will have a personalized teaching team at their disposal, who will attend to their particular needs and help them reach the level of fluency required for the C1 level.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ♦ Practice of oral interaction skills
- ♦ Practice of oral expression skills
- ♦ Simulation of real situations
- ♦ Tips and tricks to prepare for the test
- ♦ Summary and closing
- ♦ Download printable sheets

“ You will focus on the specific areas where you want, and need, to improve, adequately preparing you for the C1 exam”

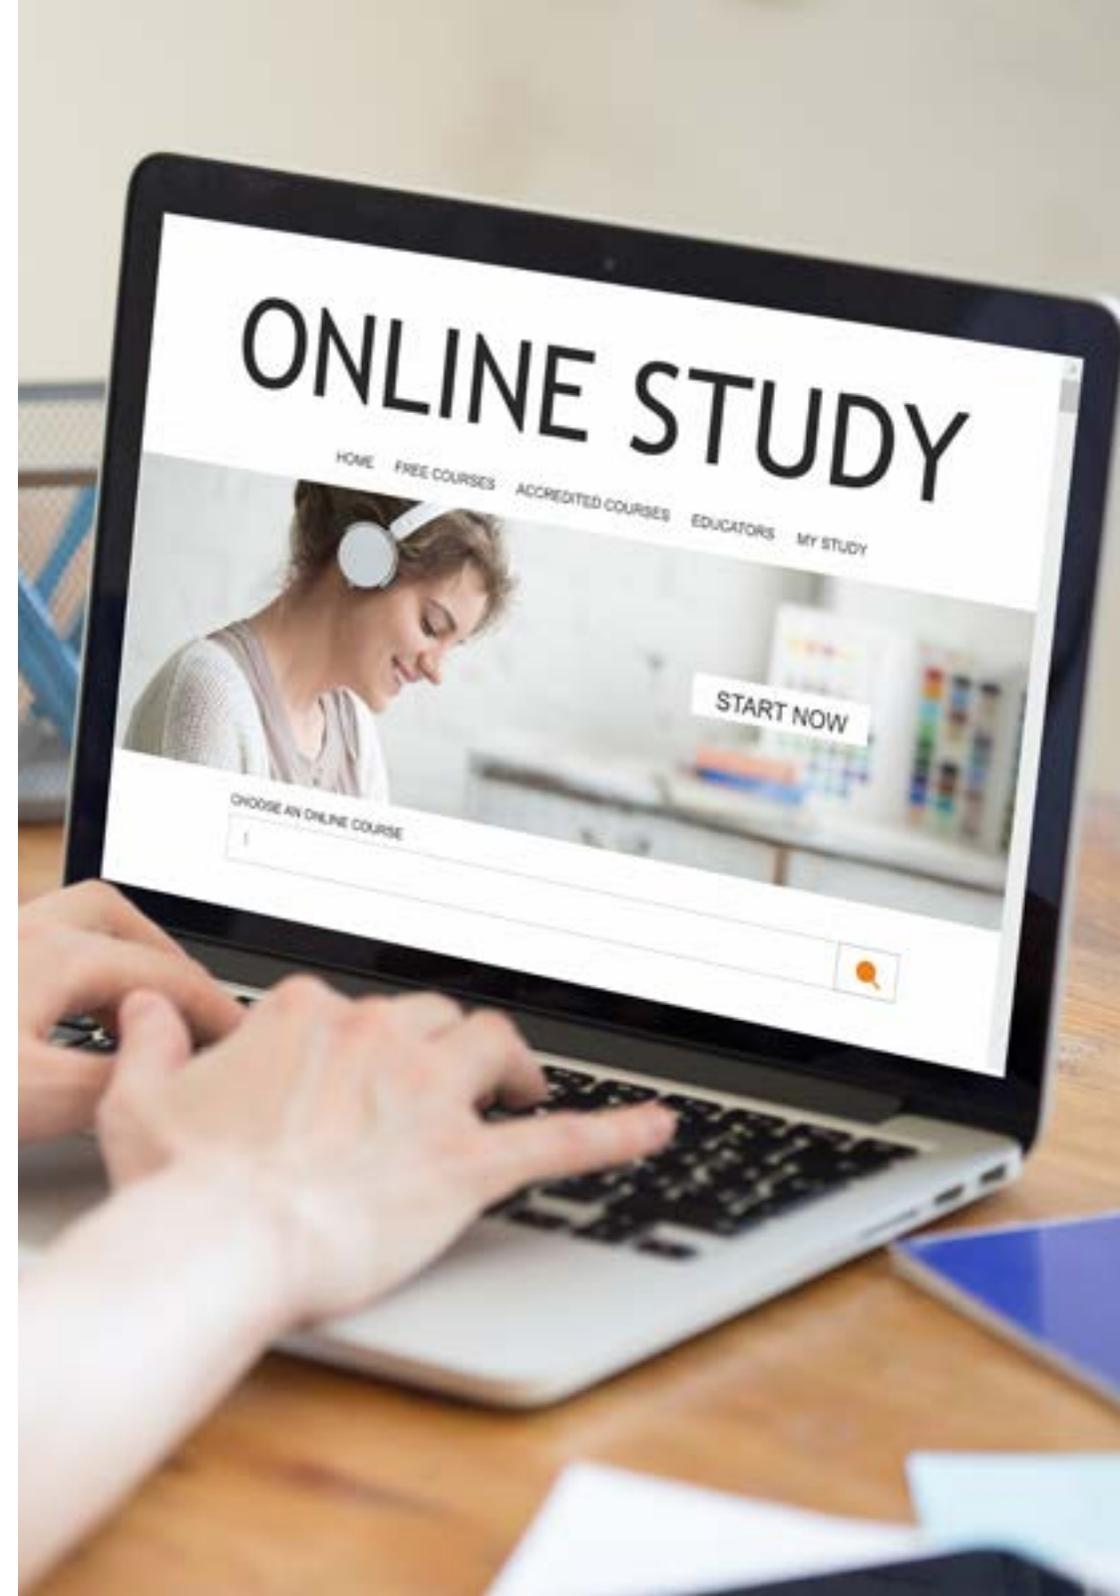

C1 Level Learning Objectives

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- ♦ Access to a high level of comprehension and oral expression
- ♦ Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers
- ♦ Argue and counter-argue in different situations, focusing on the keys to speak fluently in public
- ♦ Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era

“

You will reach a higher level of fluency, with a team of native teachers who will give you the keys to proper pronunciation and correction required to pass Level C1”

"Thanks to this training I can now communicate with native speakers without any problems and understand almost perfectly everything they say. The teachers of the program are extraordinary, they accompany you throughout the learning process and their teaching methodology is innovative and effective"

Carla Fernández

A student from Spain

"With this training I was able to reach the C1 Level of Russian and improve my job position. Now I can communicate with my co-workers and clients without any problems, and I am able to get along smoothly in different areas of my professional and personal life"

Ignacio López

A student from Chile

The Professional Benefits of Russian

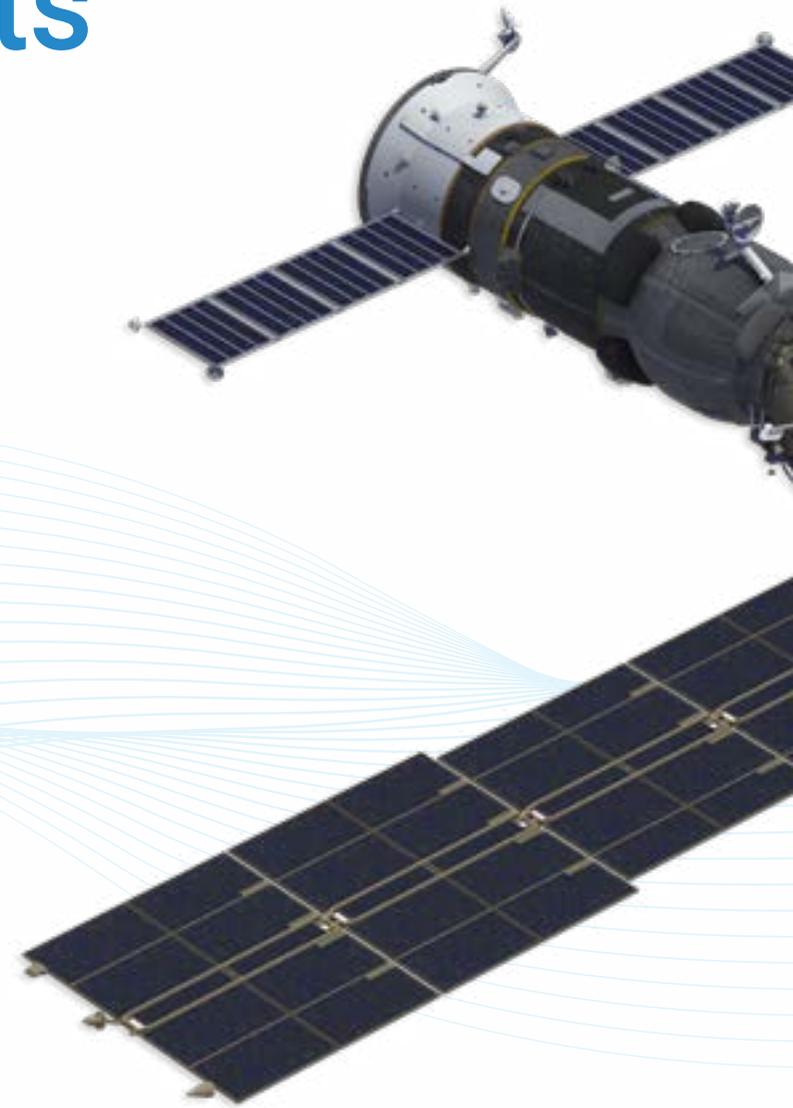

Russian is becoming increasingly international. More and more people are communicating in the language of Tolstoy and Dostoevsky, and it is not surprising that Russian has a place among the world's most widely spoken languages. In fact, the language of the Czars is taught in about a hundred countries. This boost stems not only from cultural reasons, but also from economic interests that in recent years have led to an increase in the number of people learning the Cyrillic alphabet.

It has official status in Russia, Belarus, Kyrgyzstan and Kazakhstan, while in the other republics of the former USSR it is used as a second language. Between native speakers and those who speak it as a second language, it is spoken daily by 260 million people.

Russian is one of the most widely used languages on the Internet. According to some statistics (and depending on when the data is taken) it is the second most used language on the Internet only behind English. 6% of all web pages in the world are in Russian. For example, only 3.3% of the Internet is in Chinese and its population is 9 times that of Russia. Russia is the sixth largest Internet user in the world. Another interesting fact about Russian is that 25% of the world's scientific literature is published in this language.

Russian has become one of the few official languages used in major world institutions. It is an official language of the UN, the OSCE (Organization for Security and Cooperation in Europe) and the SCO (Shanghai Cooperation Organization).

Russia is one of the world's largest exporters of natural gas, oil and diamonds. It is also a world leader in space, aeronautics and weapons technology. Russia is the world's largest country, which makes it a world leader in various natural resources. It is also a source of intellectual, cultural and economic knowledge. All this makes Russian an important language in different sectors.

“

Did you know that Russian is the seventh most spoken language in the world? And that it is an official language in 8 countries and has a strong presence in 10 others? And also the most widely spoken language in Europe?”

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
