Welcome

Through these one-to-one conversation classes students will boost their command of the French language, allowing them to develop their fluency in one of the most complex and exciting language that exist. Thanks to this program, developed by native teachers who are experts in teaching French, students will be able to naturally develop in all areas of language use: grammar, vocabulary, formal and colloquial expressions, and writing and reading at an advanced level of comprehension. Consequently, students will train to pass the C2 French oral test as certified by the Common European Framework of Reference for Languages (CEFR).

Students will also observe an evolution in their linguistic skills thanks to the high-quality contents compiled by TECH and adapted to student needs, since they are tailored remote classes, designed with their progress in mind. The main objective of this training is therefore to help students develop the necessary skills to express themselves at the highest level of French through a certification that they will achieve thanks to this intensive program.

Introduction

Teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear methodologies - for example, rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret the world around us. Most academies and schools that teach languages such as French, offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills.

Therefore, it is essential to allow the brain to work and learn a second language as naturally as possible, just as we learned our mother tongue. TECH offers you French C2 Level Conversation Classes with university professors and native speakers who will provide you with common and specific complex communicative situations, fully online and in a completely personalized way. In this way you will thoroughly understand the structure of the French language and be able to hold conversations at an expert level, knowing that you have the quality guarantee of a prestigious university.

Acquire the communication skills you lack to obtain the CEFR C2 Level in French and thrive by adding another language to your resume.

We have the broadest and most complete syllabus on the market: The 51 specific topics required by the CEFR for C2 French at your disposal.

02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. **Nowadays, you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR).**

"

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.** Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.
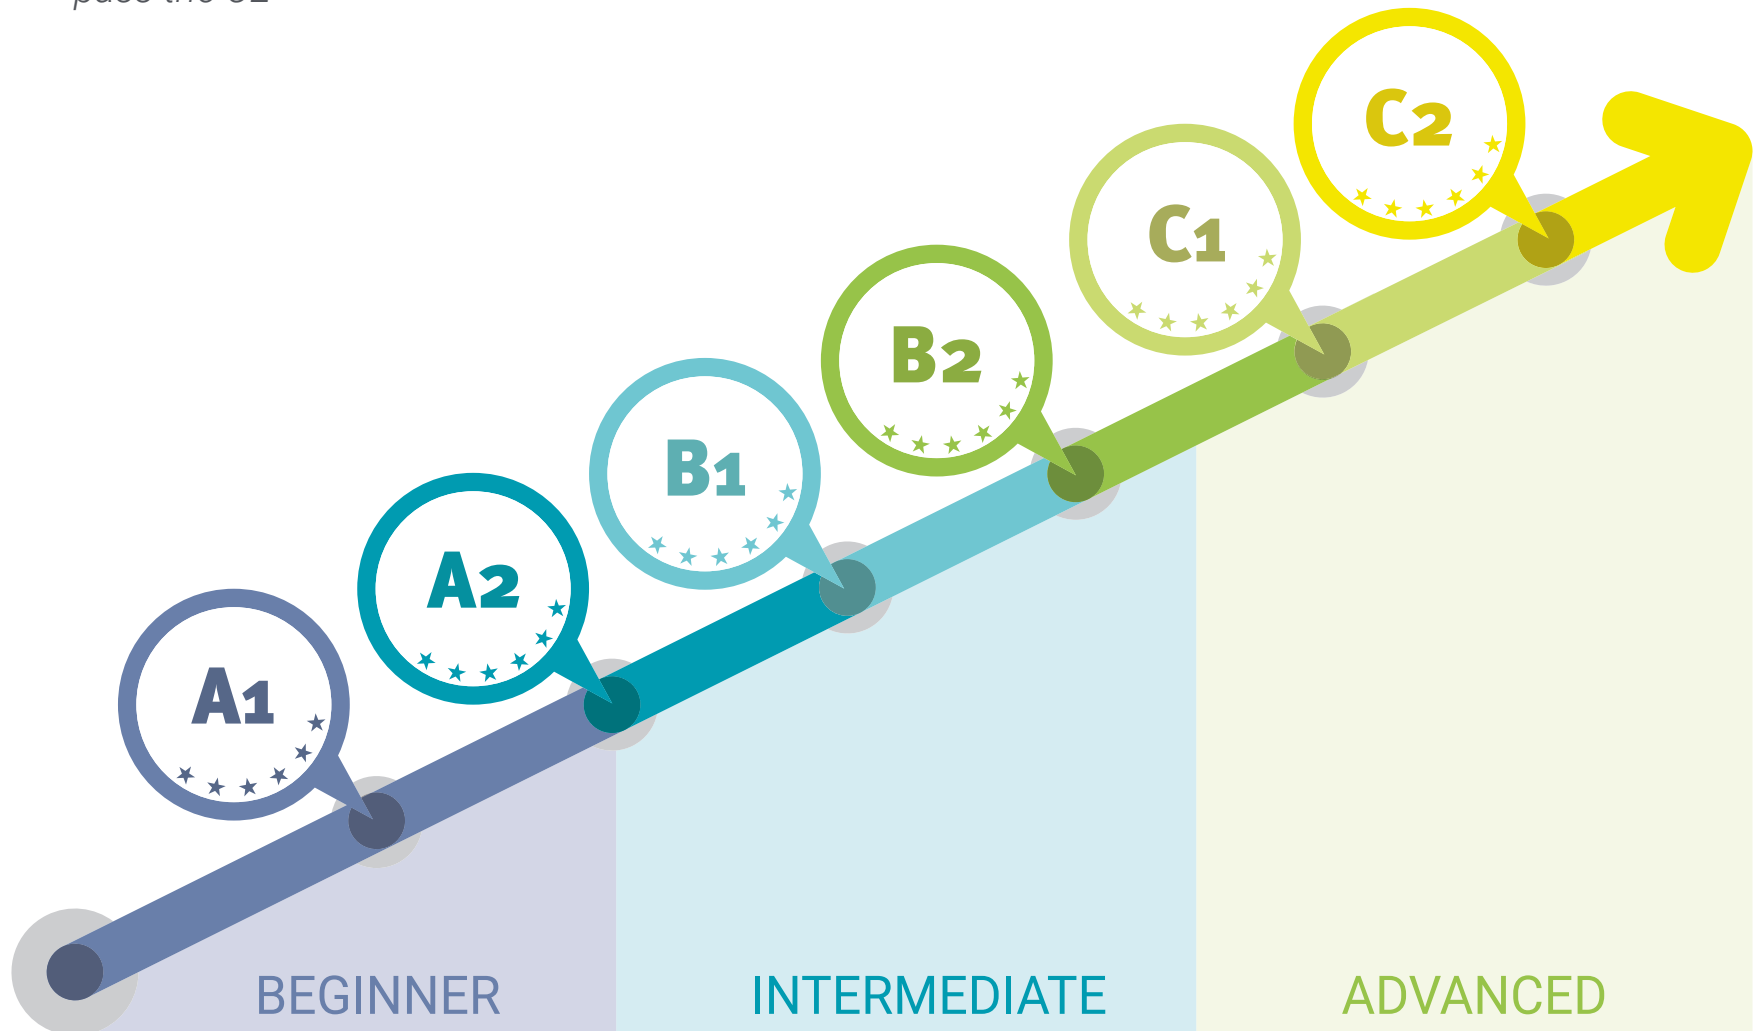

Finally learn to speak fluent French and make the most of it by accrediting it with a qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the C2"

03
What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: Be able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

In TECH's C2 French Online Conversation Classes program, we will thoroughly prepare you to obtain your C2 French certificate"

What are C2 Level Skills?

01 Can easily understand virtually everything he/she hears or reads.

02 Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

03 Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare students to obtain their C2 French certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language, as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire C2 French Online Conversation Classes

- We will work with more than 100 activities for different oral skills.

Our Methodology

The C2 French Individual Online Conversation Classes is an intensive and personalized course that enables students to obtain the C2 Level certificate in French based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH employs a method of oral proficiency practice in which students work intensively and repeatedly on all content required by the Framework, providing them with preparation to successfully pass the test, according to the standards of quality and rigor that define TECH, the largest online university in the world.

Master French at an expert level thanks to the TECH method and successfully reach your future goals"

The TECH Technological University Method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.
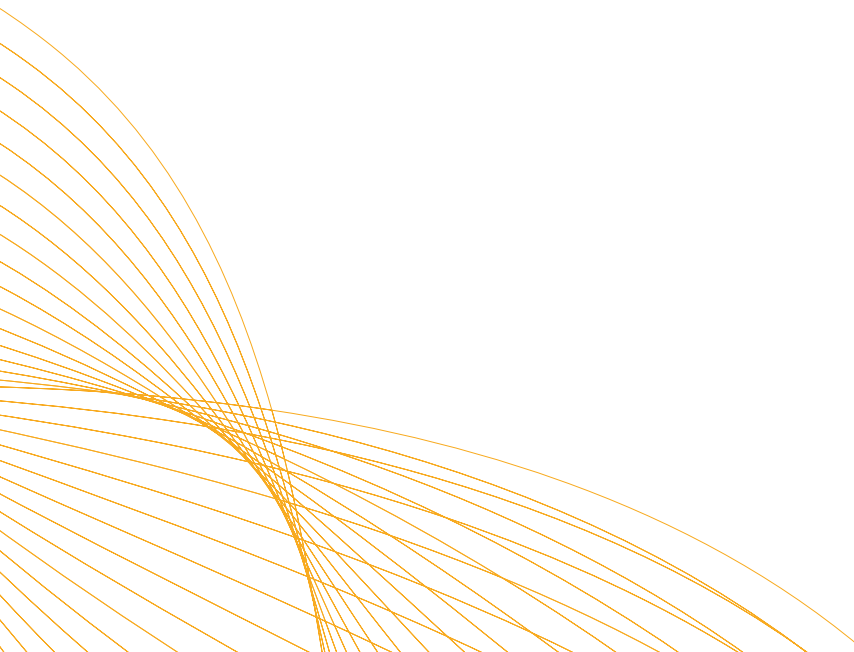

TECH's C2 Level in French oral proficiency preparation offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare you for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

... All of this is enhanced with the best 100% online teaching methodology: Re-learning....

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning.* Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

- **01** Learning from evidence
- **02** Re-learning from evidence
- **03** Testing
- **04** Learning from an expert
- **05** Neurocognitive context dependent learning
- **06** Von-Restorf Effect
- **07** Case based learning through storytelling
- **08** Competencies testing (retesting)

We prevent your motivation from waning and offer you the best learning environment.

TECH's C2 French Individual Online Conversation Classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, thus increasing motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

... and all this with teachers at the forefront of technology and education...

"

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)"

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, and memories, but we also know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, thus retaining it in our long-term memory. In this way, and in what is called *"Neurocognitive context-dependent learning"*, the different elements of our C2 French preparation course are connected to the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

Thus, after the 40 sessions that constitute this language learning program, you will be able to successfully certify your C2 Level, taking your language skills one step further with TECH.

By taking these 40 TECH French conversation classes, you will reach the highest level in only four months!"
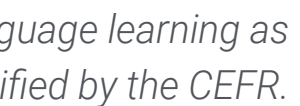

General Objectives

01 Carry out transactions of all kinds, even if they are delicate and complex

02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to

03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

Specific Objectives

* Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches

* Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology

* Possess a good command of idiomatic and colloquial expressions, being aware of the connotative levels of meaning

* Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices

* Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent

* Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations

* Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers

* Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker

Thanks to these TECH conversation classes, you will reach the highest level of French language learning as certified by the CEFR.

Course Structure and Content

The highest level of language proficiency requires absolute mastery in all areas, especially in oral expression, where proper expression and pronunciation play a decisive role. Therefore, this university program pushes the student's spoken skills to the maximum, allowing them to get personalized lessons on those issues that are most urgent or require the most work. The teaching team will adapt each session to the student, giving them the possibility of obtaining optimal improvement in order to effectively pass Level C2.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

You will acquire the skills of a person with a great oral command of the language, assisted by a team of native teachers to improve your diction, pronunciation and expression"
C2 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Test all basic and advanced language skills in comprehension and expression
- Master good vocabulary and grammar, as well as maximize the ability to converse in the language
- Address topics such as career growth or historical events, simulating job interviews and advanced discussions
- Find a common language with native speakers, acquiring the naturalness of a person who is fluent in the language
- Address advanced economic issues such as budgeting or personal time management

" You will take your conversational and adaptive skills to all kinds of language contexts, elevating your skills to the maximum"

"I have been trying to properly master French for several years, but with most of the academies and online courses I felt demotivated, and the schedules were not flexible at all. With these classes, on the other hand, I have achieved what I had set out to do: To pass the C2 Level exam!"

Irene Sánchez

A student from Spain

"I was offered to tutor a project that included a very high number of French speakers, so I needed to certify my C2 Level in French, or I would lose the opportunity to take part. With these TECH classes I was easily able to do it, and in only 4 months, as I was able to balance the course and my work life."

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized certificate.

"French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music"

11
Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

"TECH'S C2 level oral communication skills preparation program is the only one that also awards you with a university certificate"

Certification

Upon completion of the course, students will receive a certificate of recognition that will guarantee their preparation to obtain, if the student so wishes, the certification at that level.
