01 Welcome

Students will be able to develop comprehension and oral expression skills at a B1 Level in French thanks to this program. This course will intensively prepare students to manage the language at an intermediate level, being able to cope in a large number of communicative situations in different types of contexts. The program has also been designed by native teachers, experts in teaching French, who will help students perfect all areas of the language's natural use way: Grammar, vocabulary, formal and colloquial expressions, and writing and reading at an advanced level of comprehension. Consequently, you will be prepared to pass B1 French oral test as certified by the Common European Framework of Reference for Languages (CEFR).

Presentation video

“

You can do it! Start a B1 conversation level in French with TECH and perfect your language skills from the comfort of your own home”

Introduction

TECH offers an achievable challenge, using the best methodology: personalized language classes. Most French language schools and academies offer traditional teaching, based on the repetition of simple linguistic structures with no connection to properly structured content or concrete skills. However, teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This way, the brain works and learns a language in the most natural way possible, in the same way that we learned our mother tongue. Thus, TECH offers you French B1 Level Conversation Classes with university professors and native speakers who will provide you with common and specific communicative situations, 100% online and in a personalized way. In this way you will adapt to the structure of the French language at an advanced level and will be able to hold complex conversations, knowing that you have the quality guarantee of a prestigious university.

This course takes place entirely online over 4 months and features 40 live quality sessions with language teaching experts.

Master the vocabulary! Our native teachers enable you to deal with everyday topics and unpredictable situations, as well as to maintain a fluent conversation.

Knowing French will open many job opportunities. Perfect your level with this B1 and move towards your professional goals with the security of an effective learning method"

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, you must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Technological University

The Common European Framework of Reference for Languages is the only official system of recognition and accreditation of the student's level. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official diploma based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

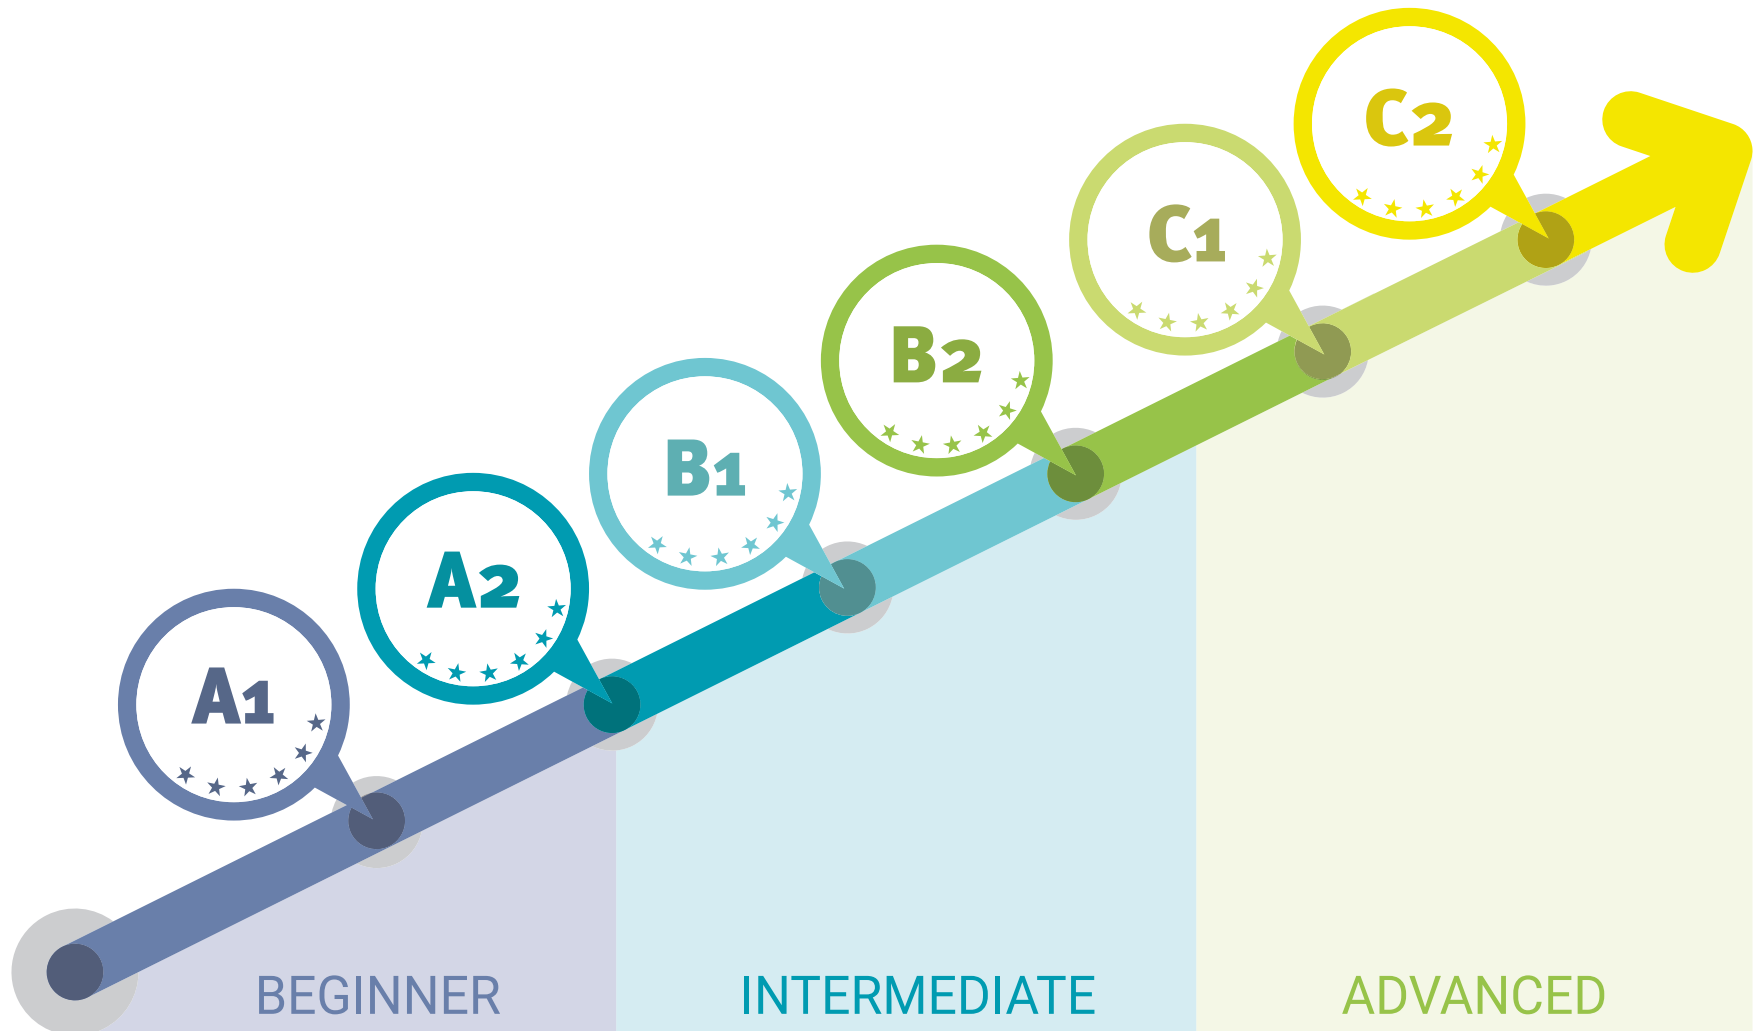

Finally learn to speak fluent French and make the most of it by accrediting it with a qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR diploma is valid for life.

“

With this program you will have all the content and skills you need to pass the B1 Level”

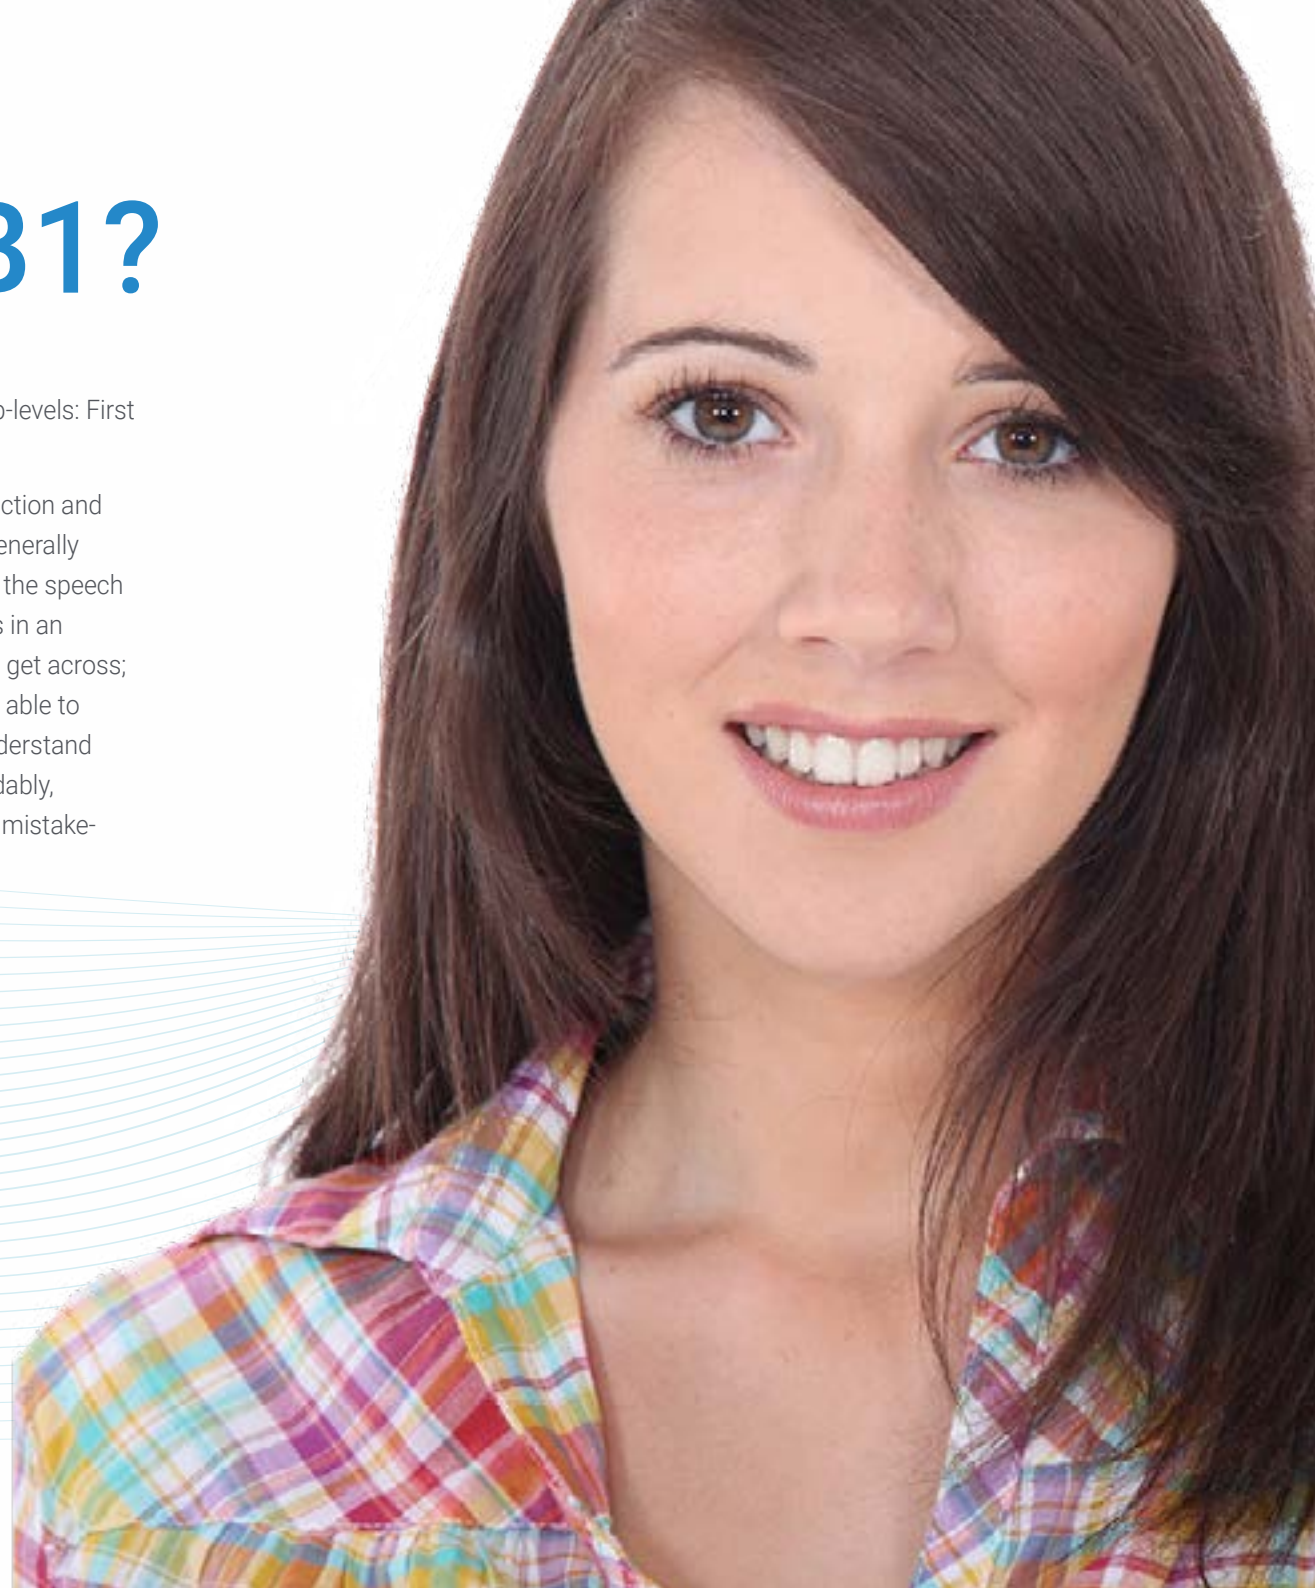

03

What Is Level B1?

Level B1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2).

The B1 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: Learners generally understand the main ideas of extended discussions around them, provided the speech is clearly articulated at a standard language level; offer and ask for opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although they pause for some grammatical and lexical planning, and some mistake-correcting is evident, especially in long periods language flow.

The second feature is the ability to know how to deal flexibly with everyday problems, such as, for example: Coping with less common situations in public transport, the typical situations that often arise when making travel reservations through an agency or when traveling; participates in conversations on usual matters without having anticipated it; being able to raise complaints; taking the initiative in an interview or consultation (e.g., knows how to initiate a new topic), although still being noticeably dependent on the interviewer during the interaction; knowing how to ask someone to clarify or develop what he or she has just said.

In TECH's B1 French Online Conversation Classes program, we will thoroughly prepare you to obtain your B1 French diploma"

What are the B1 Level Skills?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Is able to produce simple and coherent texts on topics that they are familiar with or in which they have a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

B1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand the main ideas when the speech is clear and normal and deals with everyday matters that take place at work, at school, during leisure time, etcetera
- ♦ Understand the main idea of many radio or television programs dealing with current affairs or matters of personal or professional interest, when the articulation is relatively slow and clear

Speaking

Oral Interaction

- ♦ Get by in almost all situations that arise when traveling to places where the language is spoken
- ♦ Can spontaneously engage in conversation on everyday topics of personal interest or that are relevant to daily life (e.g., family, hobbies, work, travel, and current events)

Oral Expression

- ♦ Know how to link sentences in a simple way in order to describe experiences and facts, dreams, hopes and ambitions
- ♦ Explain and briefly justify opinions and projects
- ♦ Narrate a story or tale, the plot of a book or movie, and describe their reactions

Qualitative aspects of spoken language usage for Level B1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Possess a large enough linguistic repertoire to get by and an adequate vocabulary to express themselves, albeit hesitantly and with circumlocutions, on topics such as their family, hobbies and interests, work, travel and current

Correction

- ◆ Use with reasonable accuracy a repertoire of commonly used formulas and structures associated with predictable situations

Fluency

- ◆ Continue to speak in a comprehensible manner, although pauses for grammatical, lexical planning and correction are evident, especially during long periods of free speech

Interaction

- ◆ Initiate, maintain and end simple face-to-face conversations on everyday topics of personal interest
- ◆ Repeat part of what someone has said to confirm mutual understanding

Coherence

- ◆ Link a series of short, distinct and simple elements to enable a linear sequence of related ideas

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level diploma work according to skills? At TECH, you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare students to obtain their B1 French diploma.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language, as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR B1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Carry the sessions on your phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

Our Methodology

The B1 French Individual Online Conversation Classes is an intensive and individualized course that enables students to obtain the B1 Level diploma in French based 100% on the Common European Framework of Reference for Languages (CEFR). To this end, TECH uses a personalized method of oral proficiency practice, in which students work intensively and repeatedly on all the content required by the Framework, preparing them thoroughly to pass the test according to the parameters of quality and rigor that define TECH, the largest digital university in the world.

“

Start the B1 Level with guarantees! TECH's famous personalized classes enable you to reach the level proposed by the CEFR”

The TECH Method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

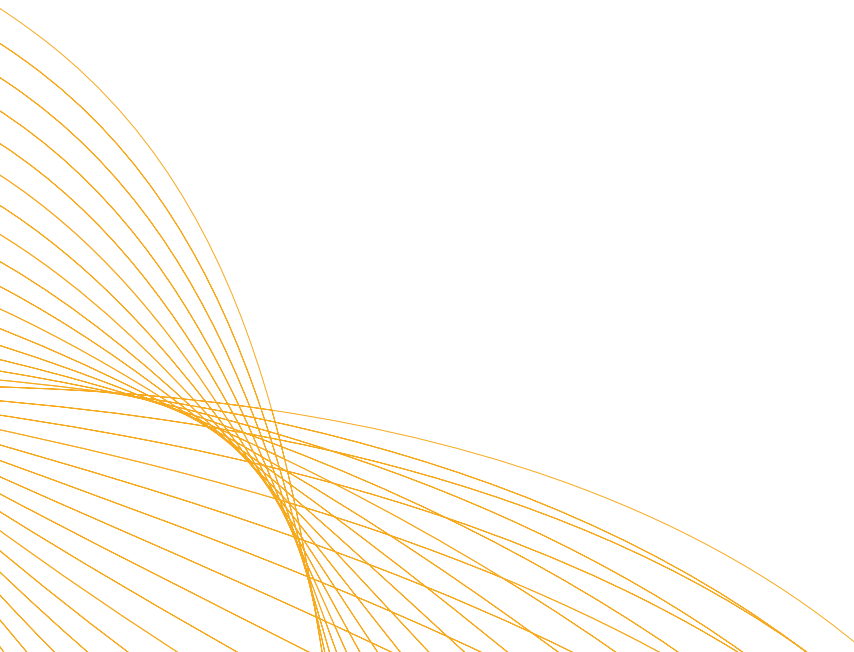

TECH's French B1 Level program in oral proficiency offers a method based on real-time interaction and direct communication between teacher and student for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

Relearning Methodology

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)”

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "Neurocognitive context-dependent learning", the different elements of our French B1 preparation course are connected to the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: Connect through your mobile device and learn with the best native teachers.

Course Objectives

The intensive B1 French Individual Online Conversation Classes program is entirely designed for you to progress at your own pace, so that you acquire the necessary oral skills to face the exam that certifies your level, which you will successfully pass thanks to these personalized classes offered by TECH. Through practice, training, repetition, follow-up with a university professor and your own effort, you will achieve the excellence you demand to obtain an intermediate level of the French language. Thus, after the 50 sessions of the program you will be able to certify your B1 level, so that you can move on to an advanced level of French on your way to a progressive mastery of the language, taking a step further in your language skills with TECH.

“

You will be able to describe aspects of culture and accurately relate them to common situations using a wide range of vocabulary”

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks

02

Use the language being learned as a means of communication and personal expression, both in the classroom and in a wide range of face-to-face and virtual situations and on both concrete and abstract topics, including cultural ones

03

Understand, interact and express themselves in these situations, orally in an adequate, reasonably flexible, accurate and correct way

04

Describe the sociocultural aspects related to usual situations, as well as those related to one's own environment and use the appropriate social formulas, gestures, register and treatment in these situations

05

Internalize the appropriate and necessary linguistic resources for the planned communicative activities, through functional and formal practice

06

Encourage and diversify the use of strategies that streamline communication and facilitate learning

07

Manage tools to evaluate and improve one's own learning and use of the language

Specific Objectives

Oral Comprehension

- ♦ Understand concrete every day or work-related information and identify both the general message and specific details as long as the speech is clearly articulated and with a normal accent
- ♦ Understand the main ideas of clear, standard speech on everyday topics related to work, school or leisure time, including short narratives
- ♦ Generally follow the main ideas of a long discussion going on around them, provided that the discourse is clearly articulated at a standard language level
- ♦ Understand, in general terms, simple and short speeches on everyday topics provided they are delivered with standard and clear pronunciation
- ♦ Understand a lecture or talk that deals with their area of expertise, provided that the subject matter is familiar, and the presentation is simple and clearly structured
- ♦ Understand simple technical information, such as operating instructions for frequently used appliances, as well as follow detailed instructions
- ♦ Understand the main ideas of radio news and other simpler recorded material dealing with everyday topics delivered relatively slowly and clearly
- ♦ Understand the information content of most recorded or broadcast material related to topics of personal interest with clear standard pronunciation

Oral Expression

- ♦ Carry out, with a reasonable degree of fluency, a simple description of a variety of topics that are of interest to them, presenting them as a linear sequence of elements
- ♦ Give simple descriptions on a variety of common topics within your specialty
- ♦ Give simple narratives or descriptions with a reasonable degree of fluency following a linear sequence of elements
- ♦ Make detailed accounts of experiences describing feelings and reactions
- ♦ Report the details of unpredictable events, such as, for example, an accident
- ♦ Relate book or movie plots and describe your reactions to them
- ♦ Describe dreams, hopes and ambitions
- ♦ Describe real or imagined events. Tell stories
- ♦ Provide brief rationales and explanations for opinions, plans and actions
- ♦ Develop arguments well enough so that they can be understood without difficulty most of the time
- ♦ Make short, rehearsed statements on a relevant topic within their specialty, which are clearly intelligible despite being accompanied by an unmistakably foreign accent and intonation
- ♦ Deliver a brief, prepared presentation on a topic within their specialty, with sufficient clarity to be followed without difficulty most of the time and whose main ideas are explained with reasonable accuracy. Can also answer supplemental questions, but may have to ask for repetition if spoken quickly

Specific Objectives

Sociocultural and Sociolinguistic Competence

- ◆ Know how to carry out a wide variety of linguistic functions, using the most common exponents of these functions in a neutral register
- ◆ Be aware of the most important rules of courtesy and act appropriately
- ◆ Be aware of the most significant differences that exist between the customs, usages, attitudes, values and beliefs prevailing in the community in question and their own, and know how to identify such differences
- ◆ Know how to carry out basic language functions such as exchanging and requesting information and expressing opinions and attitudes in a simple way
- ◆ Adapt expression to deal with less common and even difficult situations. Use a wide range of simple linguistic elements with the flexibility to express much of what is wanted
- ◆ Intervene in debates on everyday topics using an appropriate phrase to take the floor. Initiate, maintain and end simple face-to-face conversations on everyday topics or of personal interest
- ◆ Perform, with reasonable fluency, simple narratives or descriptions, through a linear sequence of elements
- ◆ Link a series of short, specific and simple elements to enable a linear sequence of related ideas

Linguistic Competence

- ◆ Possess sufficient linguistic ability to describe unpredictable situations, to explain the main points of an idea or problem with reasonable accuracy, and to express thoughts on abstract or cultural topics, such as music and movies
- ◆ Possess sufficient linguistic ability to get by, and sufficient vocabulary to express themselves with some hesitation and circumlocution on topics such as family, hobbies and interests, work, travel and current events, but lexical limitations lead to repetition and sometimes even difficulties in formulation
- ◆ Have sufficient vocabulary to express themselves with some circumlocution on most topics relevant to their daily lives, such as family, hobbies and interests, work, travel, and current events
- ◆ Demonstrate a good command of elementary vocabulary, even if significant errors are made when expressing more complex thoughts, or when dealing with unusual topics and situations
- ◆ Communicate with reasonable accuracy in everyday situations; generally have good grammatical control, although with obvious mother tongue influence
- ◆ Use, with reasonable accuracy, a repertoire of common "formulas" and structures related to the most predictable situations
- ◆ Speak clearly and intelligibly, even if the foreign accent is sometimes evident and occasional mispronunciations are made

“

Don't wait any longer! Certify your B1 spoken level of French in 4 months and grow personally and professionally"

08

Course Structure and Content

One of the best ways to make rapid progress in the mastery of a language is to practice it continuously. Therefore, this university program offers a completely personalized tutoring, adapted to the student's own objectives and interests. Together with a team of native-speaking teachers, the student will go through the main everyday situations they may encounter, such as conversations about sports or nature.

Where, When and How is it Taught?

This course takes place over 4 months and consists of forty 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

You will improve your communication skills thanks to the personalized attention you'll receive from a native teacher dedicated to helping you achieve your own goals"

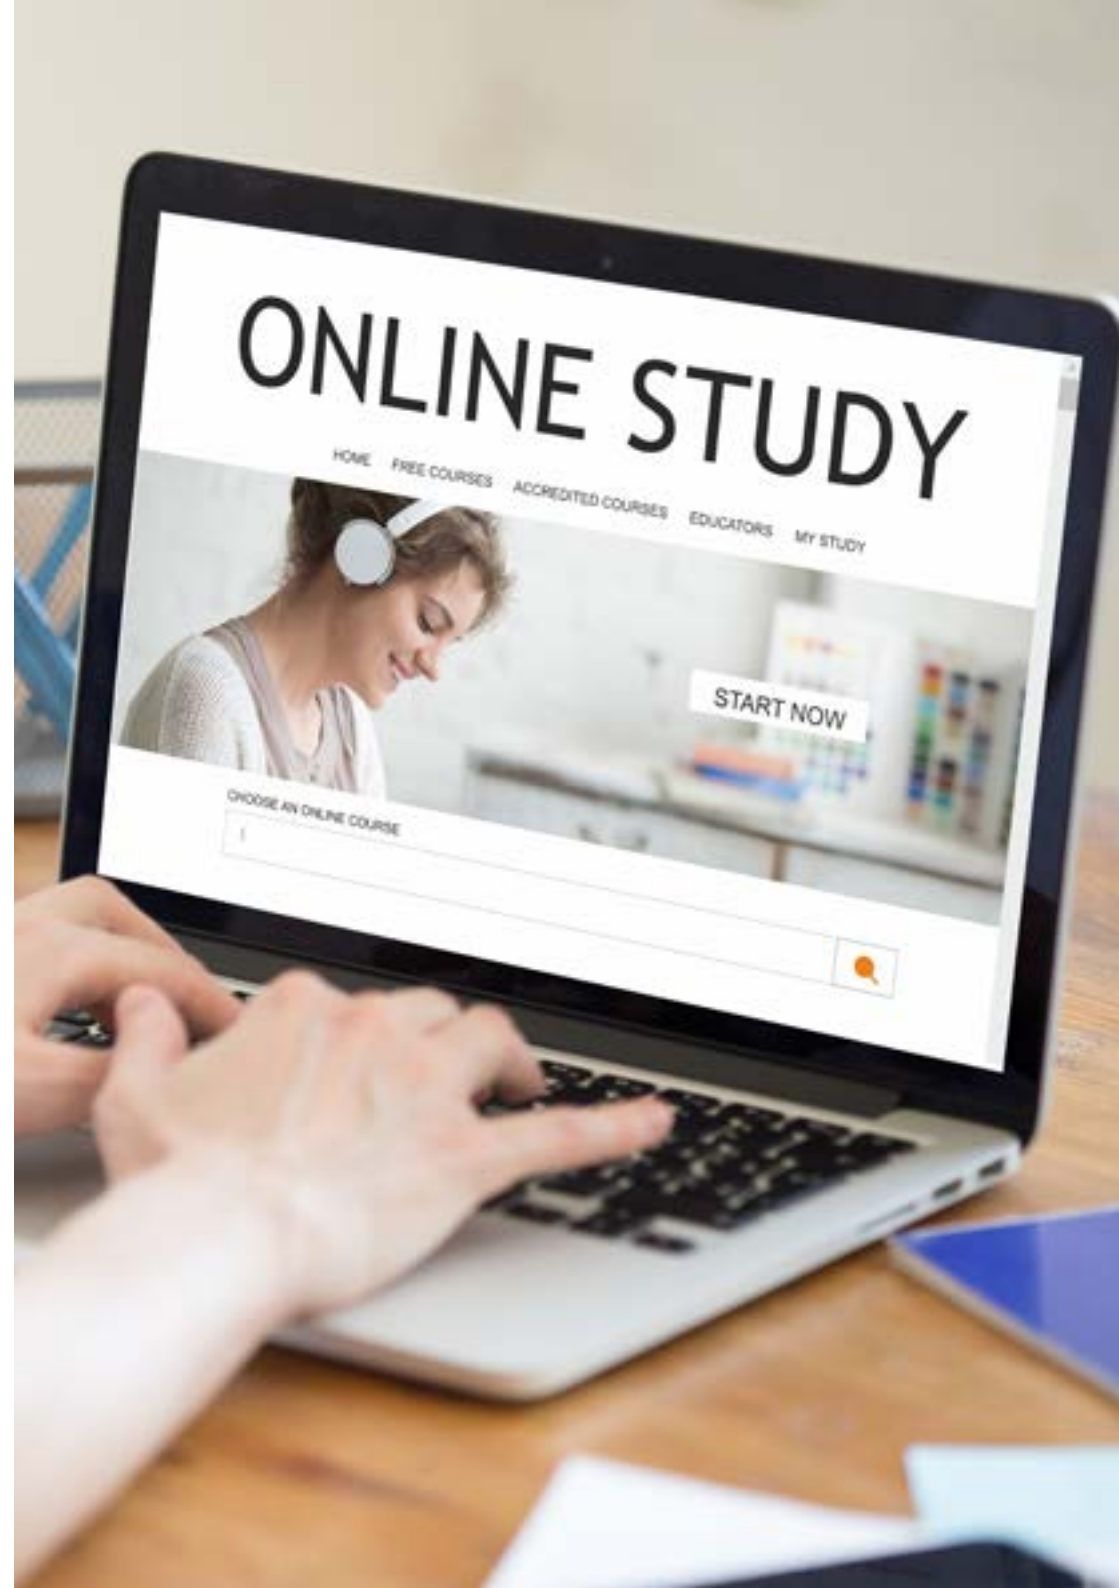

B1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Advance to an intermediate level of language proficiency
- Become familiar with new words and more advanced common grammar
- Develop listening, reading, writing, and speaking skills to cope in a multitude of situations
- Speak with some fluency about sports, nature, music and life goals or personal aspirations

“

You will noticeably improve your fluency in a multitude of more advanced everyday situations, being able to function more naturally”

"I've been wanting to improve my French for a long time, but the language school method didn't convince me, so I opted for these classes and it's the best thing I've ever done! You feel guided at all times and notice how you advance class by class, I recommend them 100%!"

Johanna Salazar

A student from Uruguay

"I needed to accredit my level of French in a short time and when I found this TECH option I stopped looking, because in just 4 months they prepare you to obtain the B1 certification by the CEFR. I was able to prove my intermediate level of the language and now I am studying the B2 level!"

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized diploma.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

The B1 Level oral communication proficiency preparation program at TECH is the only one that also issues an academic diploma”

Certification

Upon completion of the course, students will receive a diploma of recognition that will guarantee their preparation to obtain, if the student so wishes, the certification at that level.
