Introduction

TECH offers this intensive program designed by native teachers with years of experience in the sector, with which the student will be able to develop their abilities and communicative skills in English, in order to design a good resumé and correctly prepare for a job interview. All this, in a 100% online program, which will allow the students to balance their personal and professional life while improving their skills and achieving a significant improvement in oral and written expression in possibly complex situations in the workplace.

“

This high-level program you enable to speak assertively and proactively about your professional and academic journey, with detailed explanations, whether in the past, present or future”

This specialization course perfectly combines autonomous work, classes with highly qualified native speakers and top quality educational material, all adapted to 21st century work requirements. Starting from a B1 level of English of the Common European Framework of Reference for Languages (CEFR), throughout the Postgraduate Diploma the student will acquire the appropriate knowledge and skills of a B2/C1 level. The main objective is to help students acquire the communication skills required to be successful in the labor market..

Throughout these weeks of studying, the students will acquire the ability to speak assertively and proactively about their professional and academic career, with detailed explanations, whether in the past, present or future and they will learn how to speak fluently in a job interview, learning the most common vocabulary related to their academic history, job position and work experience. Furthermore, they will understand and use appropriate formal expressions when communicating with people from different cultural backgrounds and in conversations with strangers in the work environment.

The contents, designed by TECH, will be the professional's main weapon for applying the most innovative knowledge in the workplace. Therefore, this comprehensive review will enable students to complete demanding communicative tasks and fulfill the complex functions of these, both in a professional environment as well as in everyday situations. All this will be achieved through high quality materials, master classes and case studies taught by native teachers with extensive teaching experience.

This **Postgraduate Diploma in Résumé Design and Job Interviews in Advanced English** contains the most complete and up-to-date educational program. The most important features of the program include:

- ♦ Practical case studies presented by experts
- ♦ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Special emphasis on innovative methodologies for teaching languages
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will learn to interact with native speakers with an advanced level of fluency and naturalness"

This Postgraduate Diploma is the best investment you can make when selecting a refresher program for two reasons: in addition to updating your knowledge in Résumé Design and Job Interviews in Advanced English, you will obtain a qualification endorsed by TECH

Content will be available to you from any fixed or portable device with an Internet connection

You will learn to interact and express yourself in work situations both independently and appropriately in the language

The program's teaching staff includes professionals who contribute their work experience to this program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content developed with the latest educational technology, will allow the professional a situated and contextual learning, i.e., a simulated environment that will provide an immersive experience programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the educator must try to solve the different professional practice situations that arise throughout the program. For this purpose, the educator will be assisted by an innovative interactive video system developed by renowned experts.

02

Objectives

TECH offers the most complete specialization course taught by leading experts in the field. The design of the program will allow students to acquire the communicative skills required to update their knowledge and improve their command of the English language while carrying out their daily work. To this end, TECH has established a series of general and specific objectives to fulfill future graduates' expectations.

“

You will improve your communicative competence quickly and efficiently with native teachers who have years of experience in university teaching”

General Objectives

- Solve demanding communicative tasks and perform the complex functions of such tasks, both in the work environment and in everyday situations
- Interact and express yourself in these situations in an elementary but adequate way, using a standard spoken language
- Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships
- Use the necessary linguistic resources to handle complex communication situations in the work environment
- Develop resources and tools that enable them to assess and improve their own learning and use of the language

*You will learn to
communicate effectively
in a multicultural work
environment*

Specific Objectives

Module 1. Introducing Yourself and Your Skills

- ♦ Be able to speak fluently and in detail about personal and professional characteristics
- ♦ Describe their skills and deficiencies accurately and fluently
- ♦ Understand vocabulary related to skills useful for a job position
- ♦ Use formal expressions in conversations with strangers in a work environment

Module 2. Job Interviews, Educational Background and Work Experience

- ♦ Speak assertively and proactively about one's professional and academic career, with detailed explanations, whether in the past, present or future
- ♦ Be able to communicate fluently in a job interview and be familiar with the typical basic and common vocabulary related to educational background, job position and work experience
- ♦ React fluently to any type of difficult question that may be asked
- ♦ Use a wide range of discursive resources that help you avoid mental blocks when you forget something

Module 3. Job Description and Work Environment

- ♦ Handle a multicultural work environment with ease
- ♦ Understand and use appropriate formal expressions when communicating with people from different cultural backgrounds
- ♦ Describe in detail the tasks associated with a new job
- ♦ Demonstrate a good command of the use of modal verbs and expressions of modality
- ♦ Use vocabulary related to personal and work characteristics of co-workers

03

Structure and Content

Top-level professionals within the educational panorama, with extensive experience and recognized prestige in the profession, have designed the structure and content of this prestigious specialization. Native teachers with years of experience in the sector and a strong command of new technologies applied to teaching make up the teaching team of this intensive program. TECH guarantees students quality content that meets their expectations, giving them the opportunity to excel in their field.

“

Reach your professional goals with the quality of a program designed to propel you to excellence”

Module 1. Introducing Yourself and Your Skills

- 1.1. Detailed Personal Introduction
- 1.2. Personal Strengths
- 1.3. Weaknesses and Areas for Improvement
- 1.4. Free Time and Hobbies in Detail
- 1.5. Likes and Dislikes
- 1.6. Personal Routines
- 1.7. Detailed Descriptions of Work Routines
- 1.8. Useful Skills for the Position
- 1.9. Detailed Explanations and Descriptions of Future Projects
- 1.10. Formality When Starting a Conversation

Module 2. Job Interviews, Educational Background and Work Experience

- 2.1. Your Resume in English and Cover Letter Preparation
- 2.2. Secondary and Higher Education
- 2.3. Interview Formality
- 2.4. Developing a Conversation with the Interviewer
- 2.5. Job Description and Work Environment
- 2.6. Tasks and Vocabulary Related to the Position
- 2.7. Job-Related Skills
- 2.8. Academic and Work Preferences
- 2.9. Discussing Work Experience in Detail
- 2.10. Trick Questions in an Interview

Module 3. Job description and work environment

- 3.1. Starting in a New Job: Cross-Cultural Onboarding
- 3.2. Formal Greetings and Farewells
- 3.3. Complex Tasks in a New Job
- 3.4. Probation and Training Period
- 3.5. Complex and Detailed Descriptions of Duties and Obligations at Work
- 3.6. Describe your Job and Co-Workers in Detail
- 3.7. How to Paraphrase Complex Ideas
- 3.8. Complexity of the Work Environment and Socio-Environmental Factors
- 3.9. Complex Collaboration Strategies and Teamwork
- 3.10. Error Management and Frustration Tolerance

“*You will study using a methodology that is created for professionals, with the aim of achieving the greatest impact in the shortest possible time*”

04

Methodology

This program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort
and better performance, involving you more in
your specialization, developing a critical mindset,
defending arguments, and contrasting opinions:
a direct equation to success*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then adapted in audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, students can watch them as many times as they want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

05 Certificate

The Postgraduate Diploma in Résumé Design and Job Interviews in English guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Diploma in Résumé Design and Job Interviews in Advanced English** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the **Postgraduate Diploma**, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Résumé Design and Job Interviews in Advanced English**

Official N° of Hours: **450 h**
