# 01

# Introduction

For any professional involved in medical practice, be it at a healthcare or administrative level, having communication skills in English provides numerous opportunities that open the door to a promising future career. Aware of this reality, the university professionals have designed this program, in which students will be able to learn, in an intensive way, all the specific terminology related to medical practice in English. A unique opportunity to learn, from the knowledge of active doctors and native teachers, all the grammatical, oral and syntactic aspects that allow a correct and fluent communication in the universal language.

“

*With this program, you will acquire all the necessary knowledge to be fluent in medical environments, using English as a communication vehicle"*

English is a powerful vehicle for communication in almost any work environment. If we talk about the medical field, this language can be used by professionals for various purposes: from patient care to administrative work, among many other branches, in which speaking English becomes a powerful tool for growth and consolidation at a personal and professional level.

Under this premise, and being aware of the multiplicity of professional branches that are related to the medical environment, TECH and its Language School, have designed this Professional Master's Degree, in which students from any field of work can delve into each and every one of the oral, grammatical and syntactic aspects of the English language in this area of work. Thus, and thanks to the contents taught during the 12 months of the program, the student will acquire the knowledge that will enable him/her to analyze scientific documentation, publish research results, participate in scientific events, disseminate information and communication between the different members of the health team (professionals, professional-patient, patient groups...), members of international working groups, etc.

In addition, and following the criteria and methodology used in the CEFR (Common European Framework of Reference for Languages), after completing the studies, the student will be prepared to take the B2 level test in English.

On the other hand, during the course of the program, the future graduate will study from an eminently practical content, focused on the simulation of real situations that could take place in different areas related to the healthcare environment. Based on a proven teaching methodology that has won numerous awards in the teaching world.

This **Professional Master's Degree in Medical English** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Development of practical cases, presented by experts in medicine in English
- ♦ The graphic, schematic and practical contents, with which it is conceived, provide practical and updated information, which helps to acquire those skills that are essential for professional practice
- ♦ Practical exercises where to perform the self-assessment process to improve language learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*If you want to work abroad, get a job promotion or simply expand your language skills in English for medical use, then this Professional Master's Degree is definitely for you"*

“

*Aimed at professionals from different branches related to health care, this program provides the necessary knowledge to communicate in medical environments using English as a medium”*

The program’s teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide professionals with situated and contextual learning, i.e., a simulated environment that will provide immersive training, designed for training oneself in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

*This is your moment. Improve your communication skills in English, and aim higher, reaching management positions in healthcare institutions around the world.*

*English is essential for almost any job. If you also want to communicate fluently in this language, then this Professional Master’s Degree is for you.*

# 02

# Objectives

In order to achieve a successful career advancement in the healthcare field, it is necessary not only to master specific knowledge, but also to have other cross-cutting skills, such as communication in another language. Aware that this is the objective of many professionals, TECH has designed this Professional Master's Degree, in which, from an eminently practical teaching, it will instruct students on the most effective techniques for speaking and writing using the universal language: English.

“

*Helping you grow while achieving your professional and career goals: that's the goal of TECH's Language School”*

## General Objectives

---

- ♦ Enable the professional to work in an English-speaking context, in a hospital in any country in the world
- ♦ Achieve comprehensive care for English-speaking patients, in accordance with the academic and professional demands required in institutions with vacancies in healthcare-type positions
- ♦ Improve the general level of the professional, so that he/she can cope in English with day-to-day situations when moving to work outside the country of origin

*You will learn from leading professionals, and will be able to accredit the B2 in English, after completing your Professional Master's Degree studies"*

## Specific Objectives

---

### Module 1. Working Life!

- ♦ Manage and know how to use specific vocabulary related to the job search
- ♦ Be able to cope with medical selection processes in English

### Module 2. Costumes and Traditions

- ♦ Use specific vocabulary related to traditions such as weddings, vacations, etc.

### Module 3. Health and Illness

- ♦ Delve into concepts related to general health

### Module 4. Emotions

- ♦ Be able to communicate in English about situations related to the emotional domain
- ♦ Be able to communicate appropriately in sensitive situations such as death

### Module 5. The Fashion World

- ♦ Be able to deal with situations in English where the use of a specific vocabulary related to fashion is essential

### Module 6. Culture and Entertainment

- ♦ Use specific vocabulary related to museums, cinema or theater

### Module 7. News and Media

- ♦ Know how to communicate correctly in English in situations involving the use of new technologies

### Module 8. Social Issues

- ♦ Deal with concrete situations of social problems in English

HOSPITAL

DISORDERS UNIT

**Module 9. The Environment**

- ♦ Correctly use specific vocabulary about the environment in English

**Module 10. Studies and Training**

- ♦ Communicate appropriately in school situations in English

**Module 11. Economy**

- ♦ Correctly handle specific economic vocabulary

**Module 12. Problems of Everyday Life**

- ♦ Delve into day-to-day issues and how to deal with them in English

**Module 13. Politics**

- ♦ Correctly handle specific political vocabulary

**Module 14. Events**

- ♦ Manage vocabulary on events such as eclipses, natural disasters, etc.

**Module 15. Travel Trips**

- ♦ Know how to communicate adequately in English in different types of trips

**Module 16. Next Stop... Your New Home**

- ♦ Know how to handle specific transfer vocabulary in English

**Module 17. Your First Day at the Hospital**

- ♦ Know the name of the various departments in English
- ♦ Know how to use specific vocabulary about health equipment

**Module 18. Patient Interview**

- ♦ Know both the vocabulary and the correct way to conduct a job interview in English

**Module 19. “What’s Up Doc?” - Diagnosis and Treatment**

- ♦ Know how to explain a treatment to a patient in English
- ♦ Be able to assertively communicate bad medical news in English

**Module 20. Check-up, Step by Step**

- ♦ Know and handle body parts vocabulary in English appropriately
- ♦ Manage mental health concepts in English

**Module 21. Good Administration of the Treatment**

- ♦ Manage specific vocabulary on pharmacological treatments in English
- ♦ Know how to use surgical concepts in English

**Module 22. Taking Care of the Patient**

- ♦ Be able to communicate correctly with the patient in English during the different stages (pre and post surgery, first visit...).

**Module 23. Medical Specialties**

- ♦ Know the specific vocabulary of the different medical specialties in English

**Module 24. How to Prepare for Oral Communication in English**

- ♦ Be able to make a complete presentation in English

**Module 25. How to Improve Your Oral Communication in English**

- ♦ Be able to communicate fully in English

**Module 26. ICT for Health Sciences**

- ♦ Manage scientific concepts in English

# 03 Skills

The skills that students will acquire at the end of this Professional Master's Degree will enable them to work, not only in the national environment, but also internationally, and even be able to apply for positions outside their country of origin. A differential factor that gives value to this TECH degree, compared to others in the market, not only because of the quality of its contents and teachers, but also because of the specificity with which it has been designed.

“

*Only you are the master of your destiny. If you want to grow as a professional in the healthcare environment, taking a Professional Master's Degree such as this one will be your great ally"*

## General Skills

---

- ♦ Master the tools necessary to maintain a fluent conversation in English
- ♦ Increase the learner's general vocabulary in English
- ♦ Understand how to cope with everyday situations that a health professional moving to practice abroad might face
- ♦ Know general aspects of culture, society, lifestyle and its specific vocabulary in English
- ♦ Be able to pass the B2 level accreditation exam in English
- ♦ Acquire specific knowledge and vocabulary about personal situations in English

*Offer English-speaking patients health care based on excellence, thanks to the skills you will acquire after completing this program"*

## Specific Skills

---

- ♦ Acquire specific knowledge and vocabulary to adapt to professional life in English
- ♦ Be able to deliver a full presentation in English
- ♦ Learn the name of the hospital equipment and working implements in the health care field
- ♦ Learn what the different medical departments and professional specialties are called in English
- ♦ Be able to conduct an interview in English, to collect data about the patient's health
- ♦ Possess specific vocabulary, which makes it possible to request specific diagnostic tests
- ♦ Knowing how to express emotions and feelings in English
- ♦ Command specific surgical vocabulary in English
- ♦ Be able to explain a given pharmacological, surgical, physical or chemical treatment in English to a patient
- ♦ Be able to maintain a fluent conversation in English to facilitate patient care
- ♦ Master vocabulary specific to complementary health services and outpatient services in English

04

# Structure and Content

To ensure that the contents of this Professional Master's Degree are complete and adapted to the working reality of the healthcare professional, TECH has prepared a series of theoretical and practical materials, which guarantee the student a deep and immersive education, that is, a unique learning environment and at the level of what the professional deserves. This is the only way to increase the student's job opportunities and personal and professional growth.

“

*Study with the most complete syllabus on the market, and multiply your professional and personal opportunities”*

### Module 1. Working Life!

- 1.1. Applicant Profile
- 1.2. Self-Employed or Employed
- 1.3. I Want a Promotion
- 1.4. Future Projects

### Module 2. Costumes and Traditions

- 2.1. Wedding Model!
- 2.2. Tomorrow's Holiday!
- 2.3. Sunday's Market
- 2.4. Let's get a Bite!

### Module 3. Health and Illness

- 3.1. Baby on the Way
- 3.2. Is that Contagious?
- 3.3. I'm on a Diet
- 3.4. Can You Do Me a Favor?

### Module 4. Emotions

- 4.1. Grandma Has Died
- 4.2. What a Surprise!
- 4.3. Memories
- 4.4. I'm Tired

### Module 5. The Fashion World

- 5.1. Tailor-made Suit
- 5.2. Tones y Textures
- 5.3. Advertising
- 5.4. The Fashion World

### Module 6. Culture and Entertainment

- 6.1. Museums and Exhibitions
- 6.2. Film or Theater?
- 6.3. Tomorrow, My Favorite Band Plays
- 6.4. We Play the Final Today

### Module 7. News and Media

- 7.1. Christmas Lottery
- 7.2. I Want to Hire a Landline
- 7.3. Shall We Make a Video Conference?
- 7.4. We Are in the Cover of the Newspaper

### Module 8. Social Issues

- 8.1. In the Employment Office
- 8.2. Disability
- 8.3. Third Age
- 8.4. Political Organization

### Module 9. The Environment

- 9.1. Climate Change
- 9.2. Garbage Collection and Recycling
- 9.3. Energy Saving

### Module 10. Studies and Training

- 10.1. I've Been Given a Scholarship
- 10.2. I Don't Agree With My Mark
- 10.3. Today She Reads Her Doctoral Thesis

### Module 11. Economy

- 11.1. My Savings Account
- 11.2. Buy or Rent
- 11.3. The Income Statement
- 11.4. Request a Budget

**Module 12. Problems of Everyday Life**

- 12.1. My Car has Been Pounded
- 12.2. I Want to File a Claim
- 12.3. I Have Had an Accident

**Module 13. Politics**

- 13.1. Today We are Going to Vote
- 13.2. Cooperation
- 13.3. Immigration

**Module 14. Events**

- 14.1. Reality or Fiction
- 14.2. There is an Eclipse Today
- 14.3. Flooding and Other Natural Disasters

**Module 15. Travel Trips**

- 15.1. Choose Accommodation
- 15.2. They Have Lost My Bags
- 15.3. Kinds of Transport

**Module 16. Next Stop... Your New Home**

- 16.1. At the Airport
- 16.2. From the Airport to the Town
- 16.3. "How Do I get To...?" - Asking for Directions
- 16.4. Looking for Accommodation
- 16.5. "I'd Like to Open a New Bank Account"

**Module 17. Your First Day at the Hospital**

- 17.1. Hospital Departments
- 17.2. Health Equipment
- 17.3. Get To Know your Colleagues
- 17.4. External Services and Institutions

**Module 18. Patient Interview**

- 18.1. Are you Ready for the Interview
- 18.2. Taking the Patient's Data
- 18.3. History Taking
- 18.4. "What's the Matter" - Symptoms
- 18.5. Physical Examination

**Module 19. "What's Up Doc?" - Diagnosis and Treatment**

- 19.1. Explaining the Treatment
- 19.2. How to Deal with Bad Medical News
- 19.3. Answering Questions
- 19.4. Asking for More Tests
- 19.5. The Diagnosis
- 19.6. Considering Various Options for Treatment

**Module 20. Check-up, Step by Step**

- 20.1. Body Parts
- 20.2. Body Systems
- 20.3. Checking Up
- 20.4. Mental and Physical State

**Module 21. Good Administration of the Treatment**

- 21.1. Pharmacological Treatment
- 21.2. Psychological Treatment
- 21.3. Physical Treatment
- 21.4. Surgical Treatment
- 21.5. Other Treatments

**Module 22. Taking Care of the Patient**

- 22.1. Scheduled Visits
- 22.2. Unscheduled Visits
- 22.3. Pre-op Visits
- 22.4. Post-op Visits
- 22.5. The Discharge

### Module 23. Medical Specialties

- 23.1. Medical Specialties I
- 23.2. Medical Specialties II
- 23.3. Medical Specialties III
- 23.4. Surgery and Healthcare Services
- 23.5. Complementary Care Services

### Module 24. How to Prepare for Oral Communication in English

- 24.1. Before the Presentation
- 24.2. The day of the Presentation
- 24.3. Managing Difficult Situations During Presentations

### Module 25. How to Improve Your Oral Communication in English

- 25.1. After the Presentation
- 25.2. Common Errors
- 25.3. Style
- 25.4. Phonetics and Intonation

### Module 26. ICT for Health Sciences

- 26.1. "I Can Do It!" - Improve your English Online
- 26.2. Online Medical Encyclopedias
- 26.3. Videos and Tutorials
- 26.4. Prescription Links for Your Patients
- 26.5. Patient Forums and Communities
- 26.6. Useful Apps

“

*Make your professional career grow, hand in hand with TECH Language School. The best language learning environment on the market”*

05

# Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

*With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.*

*It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.*

“

*Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”*

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

## Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

*Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.*

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Expert-Led Case Studies and Case Analysis**

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

**Classes**

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

**Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

# Certificate

The Professional Master's Degree in Medical English guarantees students, in addition to the most rigorous and updated education, access to a Professional Master's Degree issued by TECH Technological University.

“

*Successfully complete this program  
and receive your university degree  
without travel or laborious paperwork”*

This **Professional Master's Degree in Medical English** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Professional Master's Degree** issued by **TECH Technological University** via tracked delivery\*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Professional Master's Degree, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Professional Master's Degree in Medical English**

Official N° of hours: **1,500 h.**

\*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
