06 Certificate

p. 30

tech 06 | Introduction

In any veterinary center, however small it may be, there are movements of financial figures, and also of other kinds, such as number of patients, visits, clients, etc. It is essential to manage and control all these aspects at all times, since the quality and timing of business decisions depend on it. In other words, the success and survival of the business depends on it.

The manager or director of the veterinary center has to correctly interpret the numerical data, trends and results. To this end, this program will work with a tool known as the financial scorecard.

Thus, specialized knowledge is developed in the use of this tool in its version adapted to veterinary centers. This tool provides valuable information about the company's productivity, in such a way that each of the indicators provides information about a specific situation related to the business activity. The director or manager of the veterinary company will be able to interpret them as a whole in order to make the best decision at all times.

The data provided by these indicators are called Key Performance Indicators or KPIs. One of the most creative and perhaps most complex tasks of the manager is to select those KPIs that will best help them to interpret the current situation of their company.

In addition, the most important financial concepts for a veterinary center, whether it is a small practice or a large hospital, are developed in this course, reinforced with practical examples for their understanding. In this way, a systematic work methodology will be developed to be implemented in the real business activity, in such a way that the manager will be able to make the most suitable business decisions at any given moment.

At present, one of the main problems affecting continuing postgraduate specialization is its compatibility with work and personal life. Current professional demands make it difficult to achieve quality, specialized training in person, so the online format will allow students to combine this specialized training with their daily professional practice, without losing their connection to their training and specialization.

This **Postgraduate Certificate in Finances for Veterinary Center Management** contains the most complete and up to date educational program on the market. The most important features include:

- The development of case studies presented by experts in veterinary centers
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional development
- Latest innovations in financial management in veterinary centers
- Practical exercises where the self-assessment process can be carried out to improve learning
- Special emphasis on innovative methodologies for financial management in veterinary centers
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection work.
- Content that is accessible from any fixed or portable device with an Internet connection.

The managers of veterinary centers must have extensive skills in the financial management of the company"

Immerse yourself in this high quality educational training, which will enable you to face the future challenges within the management of veterinary centers"

Its teaching staff includes professionals belonging to the field of management and adminnistration of veterinary centers, who bring to this training the experience of their work, as well as renowned specialists from reference societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will enable the professional to

contextual and situated learning, i.e. a simulated environment that will provide immersive learning

immersive learning programmed to train in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative system of interactive videos made by renowned and experienced experts in Finances for Veterinary Center Management.

This program has the best didactic material, which will enable a contextual study that will facilitate your learning.

This 100% online Postgraduate Certificate will allow you to combine your studies with your professional work while increasing your knowledge in this field.

tech 10 | Objectives

General Objectives

- Examine the financial concepts necessary to successfully run a veterinary center.
- Develop the financial tools to manage a veterinary practice
- Identify and evaluate the behaviors and consumer trends of the clients of a veterinary center
- Compile the data necessary to generate a financial scorecard
- Designing, generating and interpreting the results of a financial scorecard

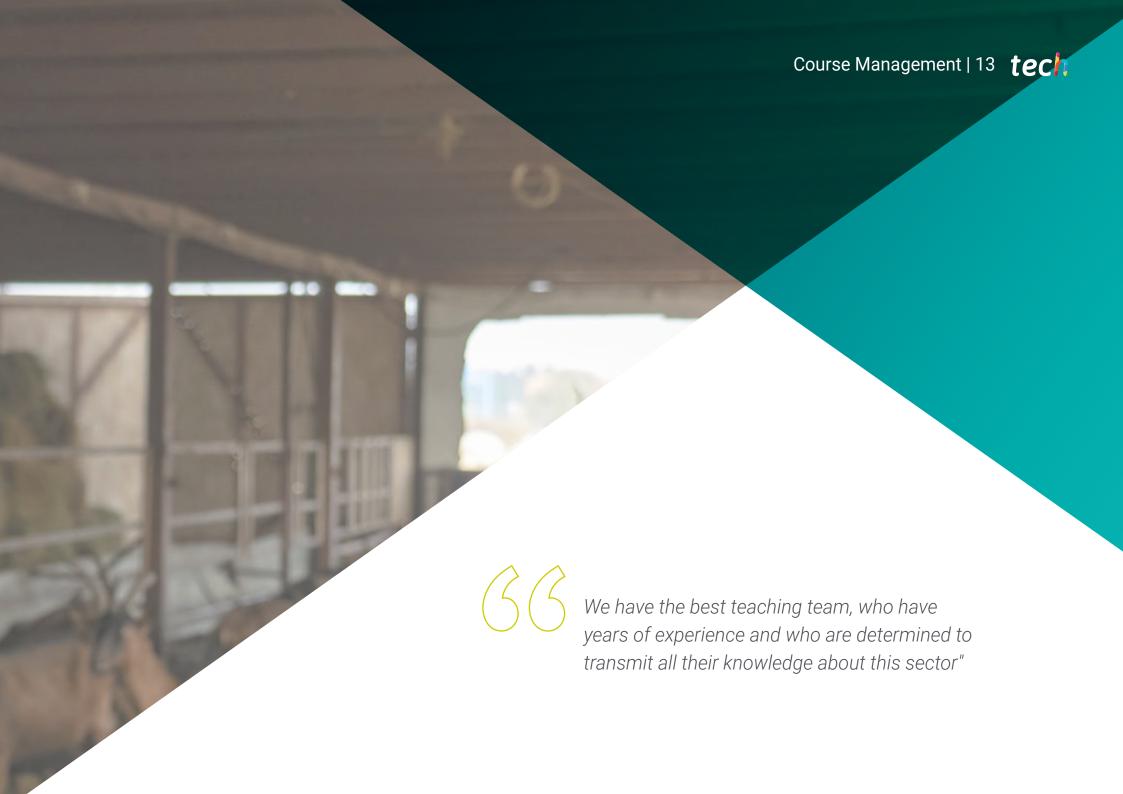

Objectives | 11 tech

Specific Objectives

- Identify the fixed and variable business costs in a veterinary center
- Define the commercial margins of the services and products offered in a veterinary center
- Effectively manage the product stock in the warehouse
- Evaluate the sales ratios in a veterinary center in order to analyze the consumer behavior of its users
- Analyze the point of balance of business activity
- Examine the different indicators that can be generated from business activity in a veterinary center
- Analyze and evaluate the different indicators to select those that will be key in the management of a veterinary center and the costs of different services provided in a veterinary center
- Use financial tools to control the cash flow and budgets of a veterinary company
- Analyze and interpret the income statement and balance sheet of a veterinary center
- Propose valuations of companies in the veterinary health center sector

tech 14 | Course Management

Management

- Project Manager Duna Formación
- Sales Manager Gesvilsa
- Professional Training Manager at Duna SL
- Community Manager
- Secretarial Management AGESVET
- Sales Manager, Spain ProvetCloud
- Technical Sales Manager Guerrero Coves

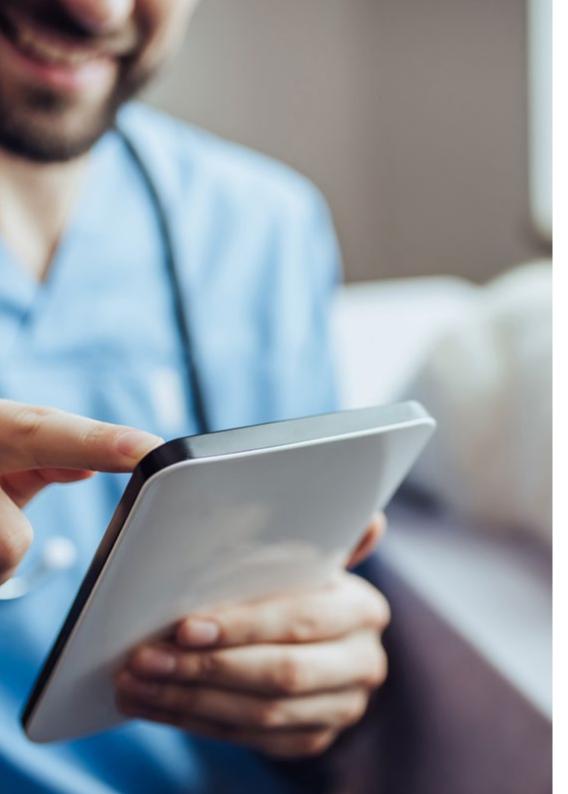

tech 20 | Structure and Content

Module 1. Finance Applied to Veterinary Centers

- 1.1. Expenses and Income at a Veterinary Center
 - 1.1.1. Fixed Costs
 - 1.1.2. Variable Costs
 - 1.1.3. Direct Costs
 - 1.1.4. Indirect Costs
 - 1.1.5. Income from Services
 - 1.1.6. Revenues from Product Sales
 - 1.1.7. Gross Margins
 - 1.1.8. Net Profit Margin
 - 1.1.9. Purchase Margin
 - 1.1.10. Margin on Sales
- 1.2. The Income Statement of a Veterinary Center
 - 1.2.1. EBITDA
 - 1.2.2. EBIT or BAII
 - 1.2.3. Profitability
 - 1.2.4. Productivity
 - 1.2.5. Net Income
- 1.3. Warehouse Stock Management in a Veterinary Center
 - 1.3.1. Cost of Sales
 - 1.3.2. Characteristics of a Stock Management System
 - 1.3.3. Procurement and Stock Control
 - 134 Stock Alert Point
 - 1.3.5. Safety Stock
 - 1.3.6. Ordering Point
 - 1.3.7. Stock Rotation

- 1.4. Sales Ratios in a Veterinary Center. The Break-Even Point
 - 1.4.1. Main Practical Key Figures in a Veterinary Center
 - 1.4.1.1. Transaction Frequency
 - 1.4.1.2. Average Transaction Amount
 - 1.4.1.3. Average Spending per Customer
 - 1.4.1.4. Number of Daily Transactions
 - 1.4.1.5. Number of Transactions per Year
 - 1.4.2. Break-even Point Concept
 - 1.4.3. Prospective Break-even Calculation
 - 1.4.4. Retrospective Break-even Calculation
- 1.5. Analysis of the Cost of Services in a Veterinary Center. Technological Investments
 - 1.5.1. Fundamentals of Cost Analysis in Veterinary Centers
 - 1.5.1.1. Veterinary Practice Cost Analysis
 - 1.5.1.2. Cost Analysis of other Professional Services
 - 1.5.2. Calculating the Profitability of a Technology Investment
- 1.6. Treasury Control and Budget Management in Veterinary Centers
 - 1.6.1. Basics of Treasury Control
 - 1.6.2. Treasury Control Tools
 - 1.6.3. Fundamentals of Budget Management
 - 1.6.4. Budget Management Tools
- 1.7. Economic Valuation of a Veterinary Center
 - 1.7.1. Fundamentals for the Economic Valuation of a Veterinary Center
 - 1.7.2. Methodology for the Valuation of a Veterinary Center
 - 1.7.3. The Goodwill
- 1.8. Key Management Indicators in Veterinary Centers
 - 1.8.1. Concepts
 - 1.8.2. Basic Information
 - 1.8.3. Most Frequent Indicators in Veterinary Centers
 - 1.8.4. Basic Human Resources Indicators
 - 1.8.5. Basic Indicators of Customer Service Quality
 - 1.8.6. Selection of Key Management Indicators

Structure and Content | 21 tech

- 1.9. The Financial Scorecard Applied to Veterinary Centers
 - 1.9.1. Financial Scorecard Fundamentals
 - 1.9.2. Trend Analysis and Comparisons between Periods
 - 1.9.3. Control Panel Operation
 - 1.9.4. Interpretation of Scorecard Results
- 1.10. The Balance Sheet of a Veterinary Center
 - 1.10.1. Concept
 - 1.10.2. Structure of a Balance Sheet
 - 1.10.3. Structure of the Balance Sheet
 - 1.10.4. Asset Valuation
 - 1.10.5. Balance Sheet and Income Statement Diagnosis
 - 1.10.6. Balance Sheet Analysis
 - 1.10.7. Study of the Most Interesting Ratios of a Balance Sheet
 - 1.10.8. Dynamic Equity Analysis
 - 1.10.9. Income Statement Analysis
 - 1.10.10. Income Statement Indicators

This program will allow you to advance in your career in a seamless way"

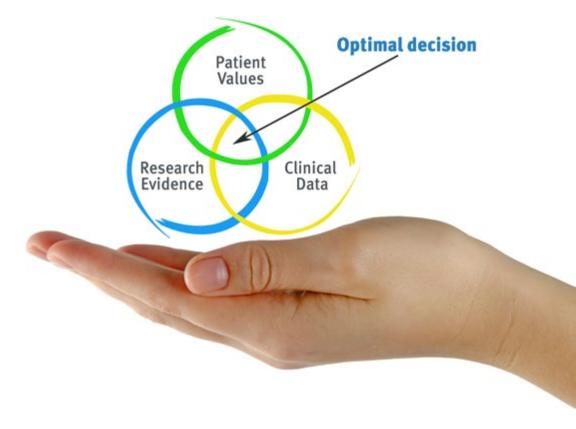

tech 24 | Methodology

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program you will be presented with multiple simulated clinical cases based on real patients, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the actual conditions in a veterinarian's professional practice.

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

The effectiveness of the method is justified by four fundamental achievements:

- 1. Veterinarians who follow this method not only manage to assimilate concepts, but also develop their mental capacity through exercises to evaluate real situations and knowledge application
- 2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
- 3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
- **4.** The feeling that the effort invested is effective becomes a very important motivation for veterinarians, which translates into a greater interest in learning and an increase in the time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

Veterinarians will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Methodology | 27 tech

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology more than 65,000 veterinarians have been trained with unprecedented success in all clinical specialties, regardless of the surgical load. Our teaching method is developed in a highly demanding environment, where the students have a high socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Latest Techniques and Procedures on Video

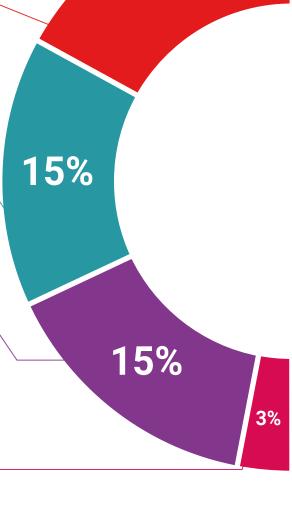

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current and procedures of veterinary techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Effective learning ought to be contextual. Therefore, TECH presents real cases in which

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

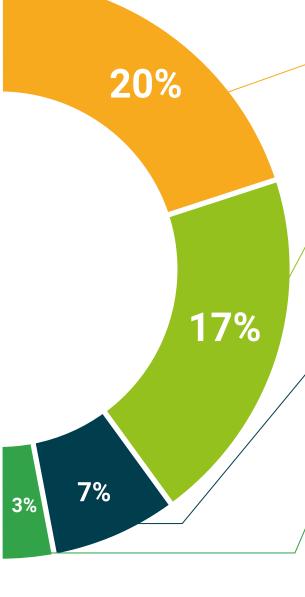

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

tech 32 | Certificate

This **Postgraduate Certificate in Finances for Veterinary Center Management** contains the most complete and up to date program on the market.

After the student has passed the assessments, they will receive their corresponding Postgraduate Certificate issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.
